Degas: Dance, Politics and Society

2021-07 Adriano Pedrosa
A radical reconception of Degas' sculpture through the lens of gender, labor and more, with new photography of the works This substantial new monograph on the work of Edgar Degas (1834-1917), one of the most significant artists of the 19th and 20th centuries, is a decisive contribution to the literature on the French Impressionist artist. An innovative and groundbreaking book, with underlying discussions related to "dance, politics and society," it pays special attention to issues of gender,

identity, labor, race and the representation of women. Degas worked in various mediums, and, at the end of his life, left around 6,000 works, including 2,000 related to the world of dance and ballet. The contradictions and ambiguities of his art, especially the way he straddles both tradition and modernity, reaffirm both his uniqueness and significance in the history of Western art. Degas: Dance, Politics and Society includes ten essays, never before published, by experts around the world, and also features a visual essay of black-and-white photographs of the bronze sculptures, including Little Dancer Aged Fourteen, by the

Brazilian artist Sofia Borges. Through her camera, Borges reinterprets and conceives new images of Degas' most cherished and classic sculptures. Borges' extraordinary photographs reveal, transform and revisit Degas' works in an innovative and radical manner.

one of his finest pastels, *Waiting* (L'Attente), which he made sometime between 1880 and 1882, about midway in his career. In this fascinating monograph, author Richard Thomson explores this brilliant work in detail, revealing both the intricacies of its composition and the source of the emotional pull it immediately exerts upon the viewer. For *Waiting* is, indeed, an extraordinary object both in its craftsmanship and color and, perhaps most especially, in its aura of ambiguity and even mystery.

Mapping Degas

2015-06-18 Roberta Crisci-Richardson
The New Art History and the Impressionist canon seem to have successfully claimed Edgar Degas as a misogynist, rabid nationalist and misanthrope whose art was both masterly and experimental. By analysing Degas's approach to space and his self-fashioning attitude towards identity within the ambiguities of the political and artistic culture of nineteenth-century France, this book questions the characterisation of Degas as a right-wing Frenchman and artist, and will change the way in which Degas is thought about today.

M. Dunn, the test is made to evaluate vocabulary comprehension for Standard American English. It is swift and effortless to carry out, preserving important time so that concentration can be put on executing intelligent approaches.

The PPVT-4 assessment content covers a wide array of vocabulary comprehension grades, ranging from pre-kindergarten through adult age. The evaluation problems broadly include words that represent 20 content fields (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and home and educational vocabulary.

The assessment offers two equivalent versions which contain various vocabulary words, guaranteeing that the test-taker has not "memorized" the assessment. One version can be employed ahead of intervention to assess individuals' vocabulary comprehension and the second edition can be used for re-testing to evaluate and note progress. The PPVT-4 also includes a distinctive Growth Scale Value (GSV) which is sensitive to slight changes over time.
