**The Oxford Handbook of Contemporary Buddhism**

2017 Michael K. Jerryson As an incredibly diverse religious system, Buddhism is constantly changing. The Oxford Handbook of Contemporary Buddhism offers a comprehensive collection of work by leading scholars in the field that tracks these changes up to the present day. Taken together, the book provides a blueprint to understanding Buddhism's past and uses it to explore the ways in which Buddhism has transformed in the twentieth and twenty-first centuries. The volume contains 41 essays, divided into two sections. The essays in the first section examine the historical development of Buddhist traditions throughout the world. These chapters cover familiar settings like India, Japan, and Tibet as well as the less well-known countries of Vietnam, Bhutan, and the regions of Latin America, Africa, and Oceania. Focusing on changes within countries and transnationally, this section also contains chapters that focus explicitly on globalization, such as Buddhist international organizations and diasporic communities. The second section tracks the relationship between Buddhist traditions and particular themes. These chapters review Buddhist interactions with contemporary topics such as violence and peacebuilding, and ecology, as well as Buddhist influences in areas such as medicine and science. Offering coverage that is both expansive and detailed, The Oxford Handbook of Contemporary Buddhism delves into some of the most debated and contested areas within Buddhist Studies today.

**Religion and Psychoanalysis in India**

2016-04-14 Sabah Siddiqui Religion and Psychoanalysis in India questions the assumptions of an established scientific, evidence-based global mental health paradigm by examining the practices of faith-based healing. It proposes that human beings demonstrate a dual loyalty: to science as faith and faith as science, both of which get reconfigured in the process. In this particular context, science and faith are deployed in ways that are not only different but at times contrary to mainstream discourses of science and religion, and faith healing becomes a point where these two discourses collide head-on in negotiating cultural values and practices. The book addresses key questions, such as: What is the value of 'faith healing' in understanding distress and treatment in different cultural contexts? What is a critical psychological perspective on faith and religious systems? What challenges do alternative religious practices pose to critical psychology? How should we re-imagine clinical work in a context marked by science and religion? Situated between 'West' and 'East', between the global mental health movement and local faith-based practices in India, the book addresses a wide audience that includes students and researchers in psychology, cultural and medical anthropology, the sociology of religion, cultural theory, postcolonial theory, and the sociology of science. It will also appeal to policy-makers and practitioners interested in the work of NGOs and the legal frameworks driving mental health movements in India.

**NICOMACHEAN ETHICS**

2017-04-20 Aristotle ♠EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bride-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.♠

Tales of a Mad Yogi

2021-08-24 Elizabeth L. Monson A fascinating biography of Drukpa Kunley, a Tibetan Buddhist master and crazy yogi. The fifteenth-century Himalayan saint Drukpa Kunley is a beloved figure throughout Tibet, Bhutan, and Nepal, known both for his profound mastery of Buddhist practice as well as his highly unconventional and often humorous behavior. Ever the proverbial trickster and "crazy wisdom" yogi, his outward appearance and conduct of carousing, philandering, and breaking social norms is understood to be a means to rouse ordinary people out of habitual ways of thinking and lead them toward spiritual awakening. Elizabeth L. Monson has spent decades traveling throughout the Himalayas, retracing Drukpa Kunley's steps and translating his works. In this creative telling, direct translations of his teachings are woven into a life story based on historical accounts, autobiographical sketches, folktales, and first-hand ethnographic research. The result, with flourishes of magical encounters and references to his superhuman capacities, is a poignant narrative of Kunley's life, revealing to the reader the quintessential example of the capacity of Buddhism to skillfully bring people to liberation.

Divine Madness

2011-08-08 Harry Eiss Lila is Sanskrit for play, the play of the gods. It is the self-generating genesis of Bliss, created by Bliss for the purpose of Bliss. It is the uninhibited, impulsive sport of Brahman, the free spirit of creation that results in the spontaneous unfolding of the cosmos to be found in the eternity of each moment. It is beyond the confining locks and chains of reason, beyond the steel barred windows looking out from the cages of explanation, beyond the droning tick-tick-tick of the huge mechanical clocks of time. Come, let us enter the realm of the madman and the finely wrought threads of Clotho as they are measured out by Lachesis and cut by Atropos to create the great tapestry of life, including the intricate, intertwining designs of dementia with the trickster, the shaman, the scapegoat, the shadow, the artist and the savior. Come, let us join in the divine madness of the gods.
