State-Building and Multilingual Education in Africa
2014-04-24 Ericka A. Albaugh How do governments in Africa make decisions about language? What does language have to do with state-building, and what impact might it have on democracy? This manuscript provides a longue durée explanation for policies toward language in Africa, taking the reader through colonial, independence, and contemporary periods. It explains the growing trend toward the use of multiple languages in education as a result of new opportunities and incentives. The opportunities incorporate ideational relationships with former colonizers as well as the work of language NGOs on the ground. The incentives relate to the current requirements of democratic institutions, and

the strategies leaders devise to win elections within these constraints. By contrasting the environment faced by African leaders with that faced by European state-builders, it explains the weakness of education and limited spread of standard languages on the continent. The work combines constructivist understanding about changing preferences with realist insights about the strategies leaders employ to maintain power.

Negotiating an Anglophone Identity

2003-07-01 Piet Konings This study of Cameroon captures, with fascinating detail and insight, the growing disaffection with the sterile rhetoric of nation-building that has characterised much of postcolonial African politics. It focuses on the resistance of Anglophone Cameroonians to nationhood , which is being pursued to the detriment of minority identities.

Neoliberal Bandwagonism. Civil society and the politics of belonging in Anglophone Cameroon

2009 Piet Konings While neoliberals typically view civil society organizations as vital channels for the

implementation of economic and political reforms, they are also inclined to blame the politics of belonging for the poor record of these reforms. Piet Konings rejects such notions and argues that the relationship between civil society and the politics of belonging is more complex in Africa than Western donors and scholars are inclined to admit. He argues that ethno-regional associations and movements are more significant constituents of civil society in Africa than the conventional organizations that are often uncritically imposed or endorsed. He shows how the politics of belonging, so pervasive in Cameroon, and indeed much of Africa, during the current neoliberal economic and political reforms, has tended to penetrate the entire range of associational life, and he calls for a critical re-appraisal of prevalent notions and assumptions about civil society in the interest of African reality.

Historical Dictionary of the Republic of Cameroon

2000 Mark W. DeLancey Cameroon is one of the intriguing countries in Africa, often viewed as Africa in miniature. Geographically, it comprises very different regions; economically, it covers a broad mix of products and sectors; and ethnically, it includes an amazing number of groups living within a fairly small area. Being Africa in miniature is great for tourism, yet it creates problems and complications for everything else.

be a leader of Africa. Instead, we find a country almost paralyzed by corruption and poor management, a country with a low life expectancy and serious health problems, and a country from which the most talented and highly educated members of the population are emigrating in large numbers. Although Cameroon has made economic progress since independence, it has not been able to change the dependent nature of its economy. The economic situation combined with the dismal record of its political history, indicate that prospects for political stability, justice, and prosperity are dimmer than they have been for most of the country's independent existence. The fourth edition of the Historical Dictionary of the Republic of Cameroon has been updated to reflect advances in the study of Cameroon's history as well as to provide coverage of the years since the last edition. It relates the turbulent history of Cameroon through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries on significant persons, events, places, organizations, and other aspects of Cameroon history from the earliest times to the present.

He was exhausted of his existence. He was bored, depressed, and discontented. He had a work he despised, a manager he abhorred, and a girlfriend he didn't love. He had no passion, no purpose, no significance. He felt like he was misusing his moment, his possibility, his being. He desired to alter, he wanted to flee, he wished to survive. He decided to leave his work, to end things with his girlfriend, to get rid of his possessions, and to purchase a direct ticket to the other side of the earth. He didn't realize where he was proceeding, he didn't understand what he was carrying out, he didn't know what he was searching for. He only knew that he had to leave, that he had to explore, that he had to discover. He set out on a journey of a thousand kilometers, a trip of excitement, of difficulty, of education, of development, of alteration.

city, there was a museum, where a precious diamond was on exhibit. The diamond was named the Star of Africa, and it was the biggest and most stunning diamond in the earth. It was secured by a advanced security system, and a team of weaponized guards. No one could steal it, or so they assumed. But somebody did. Somebody managed to get around the protection, to avoid the watchmen, to smash the glass, and to take the diamond. And no one saw them, no one overheard them, no one recognized who they were. They left no sign, no lead, no testimony. They disappeared into the nightfall, with the Star of Africa. And the riddle of the vanished diamond started.
