Starspeak

2012-12-01 Dawn Henderson Messages of ascension, love, contact and more in the words of our star brothers and sisters. We are moving through a time of massive change, unprecedented in recorded memory, a time in which life as we know it is being turned upside down. But we do not have to travel through this often confusing and disorientating process alone, for from across the galaxies our star brothers and sisters have gathered to help us through this transformation. Many people on Earth are now being contacted by these loving beings, receiving their words of guidance, encouragement and reassurance to share with those who as yet do not hear them. This book contains some of these messages, received by the author from the star beings of light, messages that are filled with the love and wisdom of the universe. Dawn Henderson is an author, channel and spiritual teacher who lives in the ancient mystical landscape of Wiltshire, England.

Through My Eyes

2016-04-11 Alton Gansky These are more than dreams and visions: they're a calling. Six people. Five mind-numbing visions. Four ancient and mysterious artifacts. Two exotic locations. And one greedy man who will stop at nothing, not even murder, to achieve his goal. Rev. Adam Bridger and his wife, Dr. Rachel Tremaine are once again in the center of an adventure not of their making. And joining them are four total strangers who, along with Rachel, have seen visions that most mortals can't imagine. They have been called on a mission that will forever change the world--if they survive.

The book "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, first issued in 1997, creates a organized model for the analysis and depiction of casual conversation in English. The authors assert that despite its occasionally aimless seeming and ostensibly unstructured substance, casual conversation is a highly structured task and plays a crucial function in the social construction of reality. The work proceeds through real samples of casual conversations entailing participants differing in age, gender, ethnicity, and socio-economic class². Pulling on perspectives from sociology, linguistics, and critical semiotics, the book equips readers with the analytic skills to depict the levels of structure and critical interpretive frameworks to elucidate the 'social work' that goes on through chat.

It was a shadowy and tempestuous night. The downpour was falling heavily, and the gale was whistling. In the middle of the city, there was a exhibition, where a precious diamond was on exhibit. The diamond was named the Star of Africa, and it was the largest and most gorgeous diamond in the world. It was protected by a advanced security setup, and a squad of equipped guards. No one could rob it, or so they believed. But someone did. An individual managed to get around the safeguard, to evade the sentineis, to smash the glass, and to grab the diamond. And no one saw them, no one heard them, no one identified who they were. They exited no trace, no hint, no testimony. They disappeared into the darkness, with the African Star. And the mystery of the lost diamond commenced.

It involves present and future economic factors, making it critical to obtain accurate estimates of future costs, benefits, and other economic parameters. Engineers often deal with projects whose scale, complexity, and uncertainty call for complex approaches to planning and budgeting^[2][1]. Several methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates^[1][2]. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Various models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate generally increases as the resources allocated to developing the estimate increase.
