The Logic of Humanitarian Arms Control and Disarmament 2020-11-10 Nik Hynek This novel and original book examines and disaggregates, theoretically and empirically, operations of power in international security regimes. These regimes, varying in degree from regulatory to prohibitory, are understood as sets of normative discourses, political structures and dependencies (anarchies, hierarchies, and heterarchies), and agencies through which power operates within a given security issue area with a regulatory effect. In International Relations, regime analysis has been dominated by several generations of regime theory/theorization. As this book makes clear, not only has the IR Regime Theory been of limited utility for security domain due to its heavy focus on economic and environmental regimes, but it, too, heuristically suffered from its rigid pegging to general IR theory. It is not surprising then that the evolution of IR Regime Theory has largely been mirroring the evolution of IR Theory in general: from the neo-realist/neo-liberal institutionalist convergence regime theory; through cognitivism; to constructivist regime theory. The commitment of this book is to remedy this situation by bringing together robust power analysis and international security regimes. It provides the reader with a theoretically and empirically uncompromising and comprehensive analysis of the selected international security regimes, which goes beyond one or another school of IR Regime Theory. In doing so, it completely abandons existing, and piecemeal, analysis of regimes within the intellectual field of IR based on conventional grand/mid-range theorization.

She had a dream. She wanted to be a pop star. She wanted to sing, to dance, to perform, to entertain. She wanted to be famous, to be adored, to be idolized. She wanted to have it all, fame, fortune, glory. She worked hard, she practiced, she auditioned, she impressed. She got a contract, a record deal, a manager, a producer. She made an album, a hit, a sensation. She became a star, a celebrity, a phenomenon. She had it all, fans, money, awards. She was on top of the world, she was living her dream. But she also had a dark side. She had a secret, a problem, an addiction. She started to lose control, to make mistakes, to cause scandals. She faced criticism, backlash, lawsuits. She lost her fans, her money, her awards. She fell from grace, she became a joke, a tragedy. She lost it all, her fame, her fortune, her glory. She was the rise and fall of a pop star.
