Dunn and Douglas M. Dunn, the assessment is made to evaluate vocabulary comprehension for Standard American English. It is fast and easy to conduct, saving valuable time so that focus can be placed on executing intelligent interventions.

The PPVT-4 evaluation content encompasses a extensive scope of receptive vocabulary grades, extending from pre-kindergarten through adulthood. The test items widely feature words that portray 20 subject domains (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary.

The test gives two equivalent editions which include various vocabulary terms, ensuring that the individual has not “mastered” the test. One edition can be utilized prior to intervention to evaluate people’s vocabulary knowledge and the other edition can be utilized for re-testing to measure and document progress. The PPVT-4 also features a unique Growth Scale Value (GSV) which is sensitive to small changes over time.
