The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a highly regarded vocabulary assessment that has been in use for almost half a century.

Developed by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is crafted to measure receptive vocabulary for American English. It is quick and effortless to carry out, preserving valuable time so that attention can be placed on applying successful strategies.

The PPVT-4 test material includes an extensive range of vocabulary comprehension levels, spanning from preschool through adulthood. The evaluation items widely include words that represent 20 content fields (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and school vocabulary.

The assessment offers two equal forms which hold distinct vocabulary items, making sure that the individual has not “memorized” the evaluation. One version can be utilized before intervention to measure test-takers’ vocabulary knowledge and the second form can be utilized for re-assessment to evaluate and document progress. The PPVT-4 also contains a distinctive Growth Scale Value (GSV) which is responsive to small changes in time.
