Suffering and the Sovereignty of God

2006-09-13 John Piper In the last few years, 9/11, a tsunami, Hurricane Katrina, and many other tragedies have shown us that the vision of God in today's churches in relation to evil and suffering is often frivolous. Against the overwhelming weight and seriousness of the Bible, many Christians are choosing to become more shallow, more entertainment-oriented, and therefore irrelevant in the face of massive suffering. In Suffering and the Sovereignty of God, contributors John Piper, Joni Eareckson Tada, Steve Saint, Carl Ellis, David Powlison, Dustin Shramek, and Mark Talbot explore the many categories of God's sovereignty as evidenced in his Word. They urge readers to look to Christ, even in suffering, to find the greatest confidence, deepest comfort, and sweetest fellowship they have ever known.

The Great Controversy

2022-05-29 Ellen G. White The Great Controversy is a work by Ellen G. White, a founder of the Seventh-day Adventist Church, considered a prophetess or messenger of God among Seventh-day Adventist members. The book tells about the ever-persistent controversy between the good and the bad, represented by the opposition of Christ and Satan and the forces of angels that accompany them.

War, Memory, and National Identity in the Hebrew Bible
2020-07-23 Jacob L. Wright The Hebrew Bible is permeated with depictions of military conflicts that have profoundly shaped the way many think about war. Why does war occupy so much space in the Bible? In this book, Jacob Wright offers a fresh and fascinating response to this question: War pervades the Bible not because ancient Israel was governed by religious factors (such as 'holy war') or because this people, along with its neighbors in the ancient Near East, was especially bellicose. The reason is rather that the Bible is fundamentally a project of constructing a new national identity for Israel, one that can both transcend deep divisions within the population and withstand military conquest by imperial armies. Drawing on the intriguing interdisciplinary research on war commemoration, Wright shows how biblical authors, like the architects of national identities from more recent times, constructed a new and influential notion of peoplehood in direct relation to memories of war, both real and imagined. This book is also available as Open Access on Cambridge Core.

Out of Bounds
2014-01-02 Matthew Abraham Academic freedom is a key element of the academic enterprise in the U.S. However, it does not seem to exist when scholars seek to advocate on behalf of Palestinian self-determination. This unique work examines how the knowledge-power nexus is shaping the discourse around the Israel-Palestine conflict and restricting academic freedom. Beginning with a discussion of American Zionism, the work proceeds to explain why scholars working on the question of Palestine are often denied standard academic freedom. This is supported by prominent cases, such as Norman G. Finkelstein's denial of tenure, the Middle East Studies Department at Columbia University, and Mearsheimer and Walt's book, The Israel Lobby. The work of Edward Said and Noam Chomsky are also discussed and the book concludes with recommendations for protecting intellectual freedom to those seeking to critically pursue the question of Palestine. This scholarly study will appeal to a broad audience of faculty, students, and readers who seek to understand the importance of academic freedom and the thorny debates surrounding the Israel-Palestine conflict.

2015-08 Priscilla Shirer Offers a guide to fighting back against Satan's temptations though the use of prayer, outlining advice on developing personal prayer strategies to counter the enemy's diverse assault strategies.

Caesar Ate My Jesus
2017-06-09 Meg Gorzyccki What the hell happened on the way to making the world a better place? We boomers were told our success would be unlimited. We had democracy and capitalism, and God was on our side. We took our religious teachings seriously, and set out to end bigotry, violence, and destitution. Inevitably, we collided with American Caesars, whose power and wealth was sufficient to dominate national and international affairs.

underwater city of Coral Cove, where seahorses played tag with dolphins, lived a mermaid named Marina with an unusual talent—she could talk to seashells. Each shell held a story from the ocean depths, and Marinas friends eagerly gathered to listen the seashells whispered tales of underwater kingdoms and daring escapades.

Story of" bible warsweapons 252 pdf
Jonathans thoughts wandered as he traversed the quiet trails, contemplating the mysteries of life and the vast possibilities that lay ahead. He marveled at the interconnectedness of all living things, each leaf and creature contributing to the intricate tapestry of existence. It was a realization that filled him with a profound sense of gratitude and humility.

The Secret Behind The Forbidden Door
Alice was always curious about the old mansion at the end of the street. She had heard stories about the mysterious owner, who never came out of his house. He was said to be a recluse, a genius, or a madman, depending on who you asked. Alice wanted to know more about him, and what he was hiding behind the locked door on the second floor. One day, she decided to sneak into the mansion, hoping to find some clues. She was not prepared for what she saw behind the forbidden door.

True Story of a Serial Killer
This is not a fiction. This is not a movie. This is the true story of a serial killer, who killed 17 people in cold blood, and was never caught. He was known as the Zodiac, and he taunted the police and the public with cryptic messages and clues. He claimed to have a motive, a plan, a purpose. He said he was killing for a higher cause, for a divine mission. He said he was smarter than anyone, and he would never be stopped. He was wrong. This is the story of how he was finally caught, by the one person who knew him better than anyone. His own brother.

Political and religious Caesars appropriated Jesus and used him to justify war, sexism, racism, dictatorships, and poverty. What were the faithful to do? Lots of boomers I know tossed the spiritual baby out with the religious institution's bathwater, and became cynical about civic engagement. It is not time to abandon hope in our goodness, however, and it is not time to surrender our conscience to Caesar. Our experiences as boomers teach us that it is possible to bring the love of God to bear in our lives, despite Caesar's constant pressure to cherish power, wealth, celebrity, and things more than we cherish people. This book is for folks who are ready to get off Caesar's treadmill and dig deeply into their hearts and minds to see what remains of the Kingdom of God within.

Strengthening Forensic Science in the United States
2009-07-29 National Research Council Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneraton. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Talking to Strangers

2019-09-10 Malcolm Gladwell Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn’t true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don’t know. And because we don’t know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

Warfighting
2018-10 Department of the Navy The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.
