Hello, Garden Bugs 2017-03-14 duopress labs Ladybugs, snails, and butterflies! Oh my! This charming introduction to ten garden bugs, paired with friendly text and bold, basic patterns, provides a great high-contrast experience for young developing eyes.

Newborns cannot fully recognize colors, so the sharp contrast between black and white patterns and illustrations allows babies to follow along and make connections to the real world, an important building block for communication skills. Using simple greetings like "Hello, bumblebee" and "Good to see you, dragonfly" alongside black-and-white art by Julissa Mora, Hello, Garden Bugs is the perfect board book for babies just beginning to look around and learn about their world. Featured in Omnivoracious. Also available: Hello, Baby Animals and Hello, Ocean Friends. Coming soon: Hello, My World.

Little House on the Prairie 2016-03-08 Laura Ingalls Wilder The third book in Laura Ingalls Wilder's treasured Little House series—now available as an ebook! This digital version features Garth Williams's classic illustrations, which appear in vibrant full

color on a full-color device and in rich black-and-white on all other devices. The adventures continue for Laura Ingalls and her family as they leave their little house in the Big Woods of Wisconsin and set out for the big skies of the Kansas Territory. They travel for many days in their covered wagon until they find the best spot to build their house. Soon they are planting and plowing, hunting wild ducks and turkeys, and gathering grass for their cows. Just when they begin to feel settled, they are caught in the middle of a dangerous conflict. The nine Little House books are inspired by Laura's own childhood and have been cherished by generations of readers as both a unique glimpse into America's frontier history and as heartwarming, unforgettable stories.

Medieval Russian Culture 1984-01-01 Daniel Bruce Rowland A stimulating and provocative collection, these essays challenge received notions about the culture and history of medieval Russia and offer fresh approaches to problems of textual interpretation, the theory of the medieval text, and the analysis of alternative, nonverbal texts. The contributors, international specialists from many disciplines, investigate issues ranging over history, cultural anthropology, art history, and ritual. They have produced a worthy companion to the first volume of Medieval Russian Culture, published in 1984.

Young Pioneers 1979 Rose Wilder Lane Following the lives of Molly and David, the 'young pioneers' who embark upon a journey to the West, this novel is a story of spiritual strength and family unity in the face of difficulty and hardship. Molly and David played

together as children and said they would get married as soon as they were old enough. And sure enough, when she was sixteen and he two years older, they married, and together they set out for the West, where the country had not yet been settled and they might find good land to farm. David's father gave them a team of horses, a wagon and his blessing; Molly's parents gave blankets and pillows, a ham and a cheese and some maple sugar, a pot and a pan and a skillet, and a copy of Tennyson's Poems. With David's gun and fiddle, and Molly's needles and thread, they had all they needed. Snug in the dugout under the prairie, their baby boy was born on Molly's seventeenth birthday. Soon the wheat was ripe and high and full of promise for the baby's future, a future that would be warm and safe and bright. The grasshoppers wiped out that promise. Within two days there was no wheat left - no crop, no money, no horses, and no way of providing against the bitter winter. Simply and vividly told, this story grew out of real experience. This is a novel which has moved and fascinated readers for more than fifty years, and has been translated into twenty languages.

Color and Cognition in Mesoamerica 1997-01-01 Robert E. MacLaury More than 100 indigenous languages are spoken in Mexico and Central America. Each language partitions the color spectrum according to a pattern that is unique in some way. But every local system of color categories also shares characteristics with the systems of other Mesoamerican languages and of languages elsewhere in the world. This book presents the results of the Mesoamerican Color Survey, which Robert E. MacLaury conducted in 1978-1981. Drawn from interviews with 900 speakers of some 116 Mesoamerican languages, the book provides a sweeping overview of the organization and semantics of color categorization in modern Mesoamerica. Extensive analysis and MacLaury's use of vantage theory reveal complex and often surprising interrelationships among the ways languages categorize

colors. His findings offer valuable cross-cultural data for all students of Mesoamerica. They will also be of interest to all linguists and cognitive scientists working on theories of categorization more generally.

Etymological Dictionary of the Slavic Inherited Lexicon 2008 Rick Derksen This dictionary in the Leiden Indo-European Etymological Dictionary Series systematically and exhaustively deals with the Slavic inherited lexicon. It is unique in combining recent insights from the field of comparative Indo-European linguistics with modern Balto-Slavic accentology. In addition, the author makes an explicit attempt at reconstructing part of the Balto-Slavic lexicon. The entries of the dictionary are alphabetically arranged Proto-Slavic etyma. Each lemma consists of a number of fields which contain the evidence, reconstructions and notes. The introduction explains the contents and the significance of the individual fields. Here the reader can also find information on the various sources of the material. The volume concludes with an extensive bibliography of sources and secondary literature, and a word index.

Folk-taxonomies in Early English 2003 Earl R. Anderson A folk-taxonomy is a semantic field that represents the particular way in which a language imposes structure and order upon the myriad impressions of human experience and perception. Thus, for example, the experience of color in modern English is structured around an inventory of twelve "basic" color terms; but languages vary in the number of basic color terms used, from thirteen or fourteen terms to as few as two or three. Anthropological linguists have been interested in the comparative study of folk-taxonomies across contemporary languages, and in their studies they have sometimes proposed evolutionary models for the development and elaboration of these taxonomies. The evolutionary models have implications for historical linguistics, but there have been very few studies of the historical development of a folk-taxonomy

within a language or within a language family. Folk-Taxonomies in Early English undertakes this task for English, and to some extent for the Germanic and Indo-European language families. The semantic fields studied are basic color terms, seasons of the year, geometric shapes, the five senses, the folk-psychology of mind and soul, and basic plant and animal life-forms. Anderson's emphasis is on folk-taxonomies in Old and Middle English, and also on the implications of semantic analysis for our reading of early English literary texts.

Anthropology of Color 2007-11-21 Robert E. MacLaury The field of color categorization has always been intrinsically multi- and interdisciplinary, since its beginnings in the nineteenth century. The main contribution of this book is to foster a new level of integration among different approaches to the anthropological study of color. The editors have put great effort into bringing together research from anthropology, linguistics, psychology, semiotics, and a variety of other fields, by promoting the exploration of the different but interacting and complementary ways in which these various perspectives model the domain of color experience. By so doing, they significantly promote the emergence of a coherent field of the anthropology of color. As of February 2018, this e-book is freely available, thanks to the support of libraries working with Knowledge Unlatched.

Indo-European and the Indo-Europeans 1995-01-01 Thomas V. Gamkrelidze "Gamkrelidze and Ivanov's wide-ranging and interdisciplinary work, superbly translated from Russian, is a must for every student of Indo-European prehistory. Its erudition is unsurpassed, and its unorthodox conclusions are a continuing challenge." Prof. Dr. Martin Haspelmath, Max-Planck-Institut für Evolutionäre Anthropologie The authors propose a revision of views on a number of central issues of Indo-European studies. Based on findings of typology, they suggest a new analysis of the

phonological system of Proto-Indo-European (the 'Glottalic Theory'); they offer novel assumptions about the relative chronology of changes in PIE vowels and laryngeals. Their conclusions are compared with data from Proto-Kartvelian. In the second part of the book, semantically organized presentation of material from the lexicon is combined with analyses of the use of forms and formulae in a broadly defined cultural context. Again similarities with properties of primarily Kartvelian and Semitic are described, and extended close contacts with these language families are postulated. This necessarily leads to a proposal to place the hypothetical Urheimat of the Indo-Europeans in the region south of the Caucasus. Volume and II of the original Russian edition have been combined in the English version as Part I; the Bibliography and Indexes are published as Part II.

Language History, Language Change, and Language Relationship 2019-09-02 Hans Henrich Hock Why does language change? Why can we speak to and understand our parents but have trouble reading Shakespeare? Why is Chaucer's English of the fourteenth century so different from Modern English of the late twentieth century that the two are essentially different languages? Why are Americans and English 'one people divided by a common

language'? And how can the language of Chaucer and Modern English - or Modern British and American English - still be called the same language? The present book provides answers to questions like these in a straightforward way, aimed at the non-specialist, with ample illustrations from both familiar and more exotic languages. Most chapters in this new edition have been reworked, with some difficult passages removed, other passages thoroughly rewritten, and several new sections added, e.g. on the regularity of sound change and its importance for general historical-comparative linguistics. Further, the chapter notes and bibliography have all been updated. The content is engaging, focusing on topics and issues that spark student interest. Its goals are broadly pedagogical and the level and presentation are appropriate for interested beginners with little or no background in linguistics. The language coverage for examples goes well beyond what is usual for books of this kind, with a considerable amount of data from various languages of India.

It had been the time 2023, and the world stood on the edge of war. The United States and PRC, the two global powers, had been locked in a fierce contest, competing for resources, influence, and supremacy. They had both developed high-tech arms, including lasers, unmanned aerial vehicles, and satellites, which can attack any location, any moment. They had covertly constructed space stations, which could deploy nuclear missiles, that could obliterate the earth. They were prepared to use these weapons, if necessary. But they were not alone. There was a 3rd power, a secret power, which had watching them both, waiting for them, getting ready for them. They were extraterrestrials, and they had come arrived to halt them. They had come come to rescue the globe, or to terminate it all. They had arrived to start the space wars that changed history.

Nelson Mandela stands as one of the most esteemed leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning "troublemaker" in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial inequality, where he witnessed firsthand the harsh realities inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of justice, he dedicated his life to the struggle for emancipation and justice, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial segregation that plagued South Africa. Emerging as a inspiring lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his hope never wavered. His unwavering commitment to liberation continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made history as South Africas first democratically elected Black president. Mandelas leadership ushered in a period of reconciliation, transforming South Africa into a nation of equal opportunity. His global impact extended far beyond South Africas borders, as he became a beacon of human rights, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of courage, wisdom, and empathy. Revered as the father of the nation and one of historys greatest heroes, Mandelas legacy continues to inspire generations to come.

He was weary of his life. He was bored, depressed, and unsatisfied. He had a job he hated, a manager he loathed, and a girlfriend he didn't love. He had no zeal, no purpose, no meaning. He sensed like he was wasting his moment, his potential, his being. He wanted to alter, he wished to run away, he desired to live. He chose to resign from his job, to break up with his girlfriend, to sell his stuff, and to acquire a direct ticket to the opposite end of the globe. He didn't understand where he was heading, he didn't understand what he was carrying out, he didn't understand what he was looking for. He only understood that he had to depart, that he had to discover, that he had to find out. He started on a trip of a thousand kilometers, a voyage of excitement, of challenge, of learning, of development, of transformation.

The work "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, originally issued in 1997, creates a systematic model for the examination and portrayal of casual conversation in English. The writers assert that in spite of its sometimes aimless seeming and apparently unstructured content, casual conversation is an extremely structured task and plays a crucial function in the social formation of reality. The publication works through authentic instances of casual conversations involving participants diverging in age, gender, ethnicity, and socio-economic class¹². Pulling on understandings from sociology, linguistics, and critical semiotics, the book provides readers with the analytic skills to depict the layers of structure and critical interpretive structures to elucidate the 'social work' that occurs on through chat.
