The SAGE Handbook of Research in International Education

2015-10-13 Mary Hayden The landscape of international education has changed significantly in the last ten years and our understanding of concepts such as 'international', 'global' and 'multicultural' are being re-evaluated. Fully updated and revised, and now including new contributions from research in South East Asia, the Middle East, China, Japan, Australasia, and North America, the new edition of this handbook analyses the origins, interpretations and contributions of international education and explores key contemporary developments, including: internationalism in the context of teaching and learning leadership, standards and quality in institutions and systems of education the promotion of internationalism in national systems This important collection of research is an essential resource for anyone involved in the practice and academic study of international education, including researchers and teachers in universities, governmental and private curriculum development agencies, examination authorities, administrators and teachers in schools.

Fateful Choices

2013-04-04 Ian Kershaw In 1940 the world was on a knife-edge. The hurricane of events that marked the opening of the Second World War meant that anything could happen. For the aggressors there was no limit to their ambitions; for their victims a new Dark Age beckoned. Over the next few months their fates would be determined. In Fateful Choices Ian Kershaw re-creates the ten critical decisions taken between May 1940, when Britain chose not to surrender, and December 1941, when Hitler decided to destroy Europe's Jews, showing how these choices would recast the entire course of history.
