The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a well-respected vocabulary evaluation that has been in operation for almost 50 years. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is designed to measure vocabulary comprehension for American English. It is quick and easy to administer, saving important time so that focus can be set on implementing effective strategies.

The PPVT-4 test material encompasses a extensive range of receptive vocabulary levels, ranging from pre-kindergarten through adulthood. The evaluation items extensively sample words that portray 20 topic fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and home and educational vocabulary.

The assessment gives two equal versions which contain various vocabulary words, guaranteeing that the test-taker has not "memorized" the evaluation. One edition can be utilized ahead of intervention implementation to assess test-takers' vocabulary comprehension and the alternative form can be employed for re-evaluation to evaluate and note progress. The PPVT-4 also includes a distinctive Growth Scale Value (GSV) which is sensitive to small changes in time.
