Dulcis in fundo, non come una semplice appendice, ma come un vero e proprio clou del volume, il lettore troverà un ricettario firmato da venti grandi maestri della

Colour 2013-04-03 Rudolf Steiner Building on the achievements of Goethe in his Theory of Colour, Rudolf Steiner shows how colour affects us in many areas of life, including our health, our sense of well-being, and our feelings. Distinguishing between 'image' and 'lustre' colours, he lays the foundation, based on his spiritual-scientific research, for a practical technique of working with colour that leads to a new direction in artistic creativity. His many penetrating remarks on some of the great painters of the past are supplemented by a deep concern to see a cultural, spiritual renewal emerge in the present time. 'If you realize', he states, 'that art always has a relation to the spirit, you will understand that both in creating and appreciating it, art is something through which one enters the spiritual world.' This volume is the
