2017 Hilda Werschkul 'Experiences of Art: Reflections on Masterpiece's is a book that explores themes in the history of art through the insights of students. The book engages themes such as the origins of creativity in prehistoric art, the meaning and significance of the classical paradigm in art history since antiquity, the actual application of Renaissance art theory to an examination of famous masterpieces, an exploration of a new area of philosophical inquiry that reexamines the 18th century as both a period of rationalism and anti-rationalism (rather than the "Age of Reason"), and the tradition of individual subjectivity and expression in modern art reaching back to van Gogh. AUTHOR: Hilda Werschkul holds a doctorate in art history from Columbia University. Her areas of specialisation lay in the drawings of the Old Masters and drawing theory, as well as Post-War American art. 'Experiences of Art: Reflections on Masterpieces' draws upon her ten-plus years of teaching experience. Positively 4th Street

2011-04-26 David Hajdu The story of how four young bohemians on the make - Bob Dylan, Joan Baez, Mimi Baez, and Richard Farina - converged in Greenwich Village, fell into love, and invented a sound and a style that are one of the most lasting legacies of the 1960s When Bob Dylan, age twenty-five, wrecked his motorcycle on the side of a road near Woodstock in 1966 and dropped out of the public eye, he was recognized as a genius, a youth idol, and the authentic voice of the counterculture: and Greenwich Village, where he first made his mark as a protest singer with an acid wit and a barbwire throat, was unquestionably the center of youth culture. So embedded are Dylan and the Village in the legend of the Sixties--one of the most powerful legends we have these days--that it is easy to forget how it all came about. In Positively Fourth Street, David Hajdu, whose 1995 biography of jazz composer Billy Strayhorn was the best and most popular music book in many seasons, tells the story of the emergence of folk music from cult practice to popular and enduring art form as the story of a colorful foursome: not only Dylan but his part-time lover Joan Baez - the first voice of the new generation; her sister Mimi - beautiful, haunted, and an artist in her own right; and her husband Richard Farina, a comic novelist (Been Down So Long It Looks Like Up To Me) who invented the worldwise bohemian persona that Dylan adopted--some say stole--and made as his own. The story begins in the plain Baez split-level house in a Boston suburb, moves to the Cambridge folk scene, Cornell University (where Farina ran with Thomas Pynchon), and the University of Minnesota (where Robert Zimmerman christened himself Bob Dylan and swapped his electric guitar for an acoustic and a harmonica rack) before the four protagonists converge in New York. Based on extensive new interviews and full of surprising revelations, Positively Fourth Street is that rare book with a new story to tell about the 1960s. It is, in a sense, a book about the Sixties before they were the Sixties--about how the decade and all that it is now associated with it were created in a fit of collective inspiration, with an energy and creativity that David Hajdu captures on the page as if for the first time.

Nicaea and Its Legacy

2004-10-28 Lewis Ayres The first part of Nicaea and its Legacy offers a narrative of the fourth-century trinitarian controversy. It does not assume that the controversy begins with Arius, but with tensions among existing theological strategies. Lewis Ayres argues that, just as we cannot speak of one `Arian' theology, so we cannot speak of one `Nicene' theology either, in 325 or in 381. The second part of the book offers an account of the theological practices and assumptions within whichpro-Nicene theologians assumed their short formulae and creeds were to be understood. Ayres also argues that there is no fundamental division between eastern and western trinitarian theologies at the end of the fourth century. The last section of the book challenges modern post-Hegelian trinitarian theology toengage with Nicaea more deeply.

The Art of Contact

2017-05-19 S. Rebecca Martin The proem to Herodotus's history of the Greek-Persian wars relates the long-standing conflict between Europe and Asia from the points of view of the Greeks' chief antagonists, the Persians and Phoenicians. However humorous or fantastical these accounts may be, their stories, as voiced by a Greek, reveal a great deal about the perceived differences between Greeks and others. The conflict is framed in political, not absolute, terms correlative to historical events, not in terms of innate qualities of the participants. Becky Martin reconsiders works of art produced by, or thought to be produced by, Greeks and Phoenicians during the first millennium B.C., when they were in prolonged contact with one another. Although primordial narratives that emphasize an essential quality of Greek and Phoenician identities have been critiqued for decades, Martin contends that the study of ancient history has not yet effectively challenged the idea of the inevitability of the political and cultural triumph of Greece. She aims to show how the methods used to study ancient history shape perceptions of it and argues that art is especially positioned to revise conventional accountings of the history of Greek-Phoenician interaction. Examining Athenian and Tyrian coins, kourou statues and wall mosaics, as well as the familiar Alexander Sarcophagus and the sculpture known as the "Slipper Slapper, " Martin questions what constituted "Greek" and "Phoenician" art and, by extension, Greek and Phoenician identity.
