How to Write a Thesis 2015-02-27 Umberto Eco Umberto Eco's wise and witty guide to researching and writing a thesis, published in English for the first time. By the time Umberto Eco published his best-selling novel The Name of the Rose, he was one of Italy's most celebrated intellectuals, a distinguished academic and the author of influential works on semiotics. Some years before that, in 1977, Eco published a little book for his students, How to Write a Thesis, in which he offered useful advice on all the steps involved in researching and writing a thesis—from choosing a topic to organizing a work schedule to writing the final draft. Now in its twenty-third edition in Italy and translated into seventeen languages, How to Write a Thesis has become a classic. Remarkably, this is its first, long overdue publication in English. Eco's approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise. How to Write a Thesis is unlike any other writing manual. It reads like a novel. It is opinionated. It is frequently irreverent, sometimes polemical, and often hilarious. Eco advises students how to avoid "thesis neurosis" and he answers the important question "Must You Read Books?" He reminds students "You are not Proust" and "Write everything that comes into your head, but only in the first draft." Of course, there was no Internet in 1977, but Eco's index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. How to Write a Thesis belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere. Already a classic, it would fit nicely between two other classics: Strunk and White and The Name of the Rose. Contents The Definition and Purpose of a Thesis • Choosing the Topic • Conducting Research • The Work Plan and the Index Cards • Writing the Thesis • The Final Draft

Style Manual for Essays and Theses 2010-07-01 Paul Haffner The book description also needs to be modified as follows, as there was a typo: How often have you struggled over your creative writing or over an academic text and found that you needed help with the style and layout? Many students and scholars find difficulty in organizing their method for producing short papers, dissertations or even books. Here at last is a guide, originally developed for philosophy and theology students, but not exclusively so, which accompanies the would-be writer through the maze of style and method. One consistent approach is followed, in which method is viewed as a means rather than as an end, so that the student should be able to see the wood for the trees. This manual will come to your aid especially if you want to figure out footnotes, end notes, and bibliographies, so as to make your essay or thesis both readable and professional.

The Readable Thesis 1999 Darrel L. Walters "Most style manuals focus on the manuscript -- the mechanics of competent writing and the formalities of presentation -- but forget the hard part in between: the writing. Darrel Walters's The Readable Thesis returns the reader to the heart of the matter: the relationship between thinking and writing. He focuses on crisp sentences that lead to clean paragraphs and clear, cogent arguments. Organizing the book around the goals of good writing (clarity, precision, strength and grace), Walters addresses the basic needs of all writers: high school students writing essays, graduate and undergraduate students writing dissertations, and professionals writing proposals ..."—Publisher description
