A Short History of Islamic Thought

2021-10-01 Fitzroy Morrissey For general readers, a compact and illuminating introduction to Islam, from its beginnings almost 1500 years ago to the present moment. While much has been written about Islam, particularly over the twenty-five years, few books have explored the full range of the ideas that have defined the faith over a millennium and a half. Fitzroy Morrissey provides a clear and concise introduction to the origins and sources of Islamic thought, from its beginnings in the 7th century to the current moment. He explores the major ideas and introduces the major figures--those who over the centuries have broached life's major questions, from the nature of God and the existence of free will to gender relations and the ordering of society, and in the process defined Islam. Drawing on Arabic and Persian primary texts, as well as the latest scholarship, *A Short History of Islamic Thought* explains the key teachings of the Qur'an and Hadith, the great books of Islamic theology, philosophy, and law, as well as the mystical writings of the Sufis. It evaluates the impact of foreign cultures-Greek and Persian, Jewish and Christian-on early Islam, accounts for the crystallization of the Sunni and Shi'i forms of the faith, and accounts for the rise of such trends as Islamic modernism and Islamism. Above all, it reveals the fundamental principles of Islamic thought, both as a source of inspiration for Muslims today and as illuminating and rewarding in their own right.

Islam and Rationality

2015-10-20 Frank Griffel The second volume of *Islam and Rationality: The Impact of al-Ghazālī* brings together twelve leading experts in the field of Ghazālī-studies who write about his thought and the influence he had on later Muslim thinkers.

Ghazālī's Epistemology

2023-11-16 Nabil Yasien Mohamed Focusing on Abū Ḥāmid al-Ghazālī (d. 1111) - one of the foremost scholars and authorities in the Muslim world who is central to the Islamic intellectual tradition - this book embarks on a study of doubt (shakk) and certainty (yaqīn) in his epistemology. The book looks at Ghazālī's attitude to philosophical demonstration and Sufism as a means to certainty. In early scholarship surrounding Ghazālī, he has often been blamed as the one who single-handedly offered the death-blow to philosophy in the Muslim world. In much of contemporary scholarship, Ghazālī is understood to prefer philosophy as the ultimate means to certainty, granting Sufism a secondary status. Hence, much of previous scholarship has either focused on Ghazālī as a Sufi or as a philosopher; this book takes a parallel approach, and acknowledges each discipline in its right place. It analyses Ghazālī's approach to acquiring certainty, his methodological scepticism, his foundationalism, his attitude to authoritative instruction (ta'lim), and the place of philosophical demonstration and Sufism in his epistemology. Offering a systematic and comprehensive approach to Ghazālī's epistemology, this book is a valuable resource for scholars of Islamic philosophy and Sufism in particular, and for educated readers of Islamic studies in general.

Inspired Knowledge in Islamic Thought

2011-08-22 Alexander Treiger It has been customary to see the Muslim theologian Abu Hamid al-Ghazali (d. 1111) as a vehement critic of philosophy, who rejected it in favour of Islamic mysticism (Sufism), a view which has come under increased scrutiny in recent years. This book argues that al-Ghazali was, instead, one of the greatest popularisers of philosophy in medieval Islam. The author supplies new evidence showing that al-Ghazali was indebted to philosophy in his theory of mystical cognition and his eschatology, and that, moreover, in these two areas he accepted even those philosophical teachings which he ostensibly criticized. Through careful translation into English and detailed discussion of more than 80 key passages (with many more surveyed throughout the book), the author shows how al-Ghazali's understanding of "mystical cognition" is patterned after the philosophy of Avicenna (d. 1037). Arguing that despite overt criticism, al-Ghazali never rejected Avicennian philosophy and that his mysticism itself is grounded in Avicenna's teachings, the book offers a clear and systematic presentation of al-Ghazali's "philosophical mysticism." Challenging popular assumptions about one of the greatest Muslim theologians of all time, this is an important reference for scholars and laymen interested in Islamic theology and in the relations between philosophy and mysticism.

God and Humans in Islamic Thought

2006-09-27 Maha Elkaisy-Friemuth Winner of The Iranian World Prize for the Book of the Year 2007 in the Philosophy and Mysticism category. This new and original text provides a timely re-examination of Islamic thought, presenting a stark contrast to the more usual conservative view. The explanation of the relationship between God and humans, as portrayed in Islam, is often influenced by the images of God and of human beings which theologians, philosophers and mystics have in mind. The early period of Islam reveals a diversity of interpretations of this relationship. Elkaisy-Friemuth discusses the view of three scholars from the tenth and eleventh century: Abd al-Jabbar, Ibn Sina and Al-Ghazali, which introduce three different approaches of looking at the relationship between God and Humans. God and Humans in Islamic Thought attempts to shed light on an important side of medieval rational thought in demonstrating its significance in forming the basis of an understanding of the nature of God, the nature of human beings and the construction of different bridges between them.

Nelson Mandela stands as one of the most esteemed leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning "troublemaker" in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial inequality, where he witnessed firsthand the harsh realities inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of equality, he dedicated his life to the struggle for emancipation and equality, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial separation that plagued South Africa. Emerging as a compelling lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his vision never wavered.
