Samuel Johnson's Lives of the Poets

2006-02-16 Roger Lonsdale Johnson himself wrote in 1782: 'I know not that I have written any thing more generally commended than the Lives of the Poets'. Always recognized as a major biographical and critical achievement, Samuel Johnson's last literary project is also one of his most readable and entertaining, written with characteristic eloquence and conviction, and at times with combative trenchancy. Johnson's fifty-two biographies constitute a detailed survey of English poetry from the early seventeenth century down to his own time, with extended discussions of Cowley, Milton, Waller, Dryden, Addison, Prior, Swift, Pope, and Gray. The Lives also include Johnson's memorable biography of the enigmatic Richard Savage (1744), the friend of his own early years in London. Roger Lonsdale's Introduction describes the origins, composition, and textual history of the Lives, and assesses Johnson's assumptions and aims as biographer and critic. The commentary provides a detailed literary and historical context, investigating Johnson's sources, relating the Lives to his own earlier writings and conversation, and to the critical opinions of his contemporaries, as well as illustrating their early reception. This is the first scholarly edition since George Birkbeck Hill's three-volume Oxford edition (1905). This is volume one of four.

2017-05-19 Samuel Johnson Excerpt from Johnson's Lives of the Poets: Milton; Edited With Notes, Etc In the opinion of Macaulay the best of the Lives are those of Cowley, Dryden, and Pope, and the worst is that of Gray. The comparative inferiority of the Life of Milton is not owing to Johnson's defective knowledge of his subject. Certain errors of fact the life of course does contain. In some cases later enquiry has disproved statements received as true when Johnson wrote. The investigations of the genealogists of the present century have superseded his account of Milton's family and pedigree. The researches of Professor Masson amongst the State-papers have revealed the exact history of Milton's Latin secretaryship. The publication of Milton's 'treatise of Christian Doctrine has thrown new light on the development of his religious opinions. There are however other cases in which Johnson has fallen into error through negligence. He attributes to Ellwood instead of to Phillips the statement that Milton could not endure to hear Paradise Regained' judged inferior to Paradise Lost, ' and expands that statement into the assertion that the poet preferred Paradise Regained' to Paradise Lost.' On another occasion he refers to Phillips's authority for a statement which is made by Birch. He carelessly writes of Milton as making the ten books of Paradise Lost' into twelve by the division of the seventh and twelfth. He misdates one of Milton's works, and appears to confound two of his pamphlets into one. These are trifling slips, the great defect of Johnson's life of Milton is the persistent depreciation of the poet's character which pervades it throughout. At the time, and ever since.
