Non è solo un gioco 2022-02-17T00:00:00+01:00 Federico Casotti  
Secondo uno spot pubblicitario di qualche anno fa, il calcio ha conquistato il mondo, là dove hanno fallito i più grandi condottieri della storia. Un concetto che inquadra alla perfezione quanto questo sport sia penetrato in profondità nella vita quotidiana delle persone in tutto il mondo. Non è solo un gioco di Federico Casotti è un'analisi socio-antropologica delle tante sfaccettature che caratterizzano il gioco del calcio e del suo rapporto in continua evoluzione con l'individuo e con le comunità. Nel testo, i concetti base dell'antropologia - i riti di passaggio, il fatto sociale totale, la corporeità, il social drama, la communitas, il capitale sociale - vengono spiegati attraverso il calcio in maniera rigorosa ma con un approccio accessibile a tutti.

La mia vita in bianco e nero 2015-04-21 Romina Fortunato Kathleen Lucky  
è una ragazza che vive una vita in bianco e nero, di luci e di ombre, di

verità apparentemente chiare e di verità palesemente nascoste. L'arrivo di un ragazzo della sua età e il ritorno del suo primo amore l'aiuteranno a dar via ad una serie di situazioni che la porteranno pian piano a scoprire il suo passato e a capire il suo presente, stabilendo alla fine le basi per un futuro stabile e felice. Imparerà così che la verità, anche se fa male, alleggerisce i cuori delle persone rendendole migliori. "Cosa succederebbe se tutte le proprie certezze crollassero in un istante e ci si ritrovasse a chiedersi qual è la verità e quale la bugia nella vita che si sta vivendo?"

Edoardo ha iniziato a giocare a golf all'età di 6 anni ed è stato uno dei migliori dilettanti in Italia e in Europa; dall'età di 16 anni ha rappresentato l'Italia in quattro campionati del mondo e in diversi campionati europei. Una vita in campo 2015-09-29T00:00:00+02:00 Carlo Mazzone Non capita a tutti di avere una passione che stravolge la vita. E solo a pochi è consentito di trasformarla in una professione. Carlo Mazzone è uno di questi privilegiati. Per la prima volta, dall'alto dei suoi quarant'anni di panchina, il decano degli allenatori rivela tutto quello che avreste voluto sapere sul calcio. Quale clausola pretese Roberto Baggio quando firmò il contratto con il Brescia? Come reagì il giovanissimo Francesco Totti quando seppe che avrebbe esordito come titolare con la maglia della sua Roma? Cosa accadde negli spogliatoi prima di Perugia-Juventus, posticipata per un nubifragio e decisiva per lo scudetto del 2000? Che cosa disse al telefono Guardiola, l'allenatore del Barcellona, poche ore prima della finale di Champions League vinta contro il Manchester United? Tutti i retroscena, i segreti e le curiosità, le sconfitte e le vittorie del calcio italiano e dei suoi protagonisti raccontati in prima persona. (Prefazione di Francesco Totti)

Lo sport è ancora un gioco 2023-05-03 Paolo Crepez Nello sport, la meta è diventata più importante del cammino? Perché chi arriva secondo è considerato perdente? L'errore, le sconfitte, sono alla base del successo? A queste e a molte altre domande risponde Paolo Crepez, con l'aiuto di storie e di sportivi che hanno saputo vincere e perdere. Lo sport, per nostra fortuna, quello vero, quello praticato, non quello infarcito di talk show, gossip e spot pubblicitari, continua ad alimentare i sogni di tante ragazze e tanti ragazzi, è fonte di gioia, aiuta a crescere e consente di guardare con speranza al futuro. Nessun bambino si presenta in palestra o in piscina con una richiesta del tipo: «Vorrei essere inserito in un efficace percorso educativo che mi permetta di sviluppare, in un contesto relazionale, le mie personali qualità fisiche, motorie e psicologiche». La

sua domanda è molto più semplice e diretta: «Posso giocare?». Accanto a questa c'è un'altra domanda, per lo più implicita, carica di speranza, a volte di preoccupazione: quella dei genitori che avvicinano i figli al mondo dello sport per cercare di offrire loro un contesto formativo positivo. Due appelli diversi, che vanno accolti e presi molto sul serio. E che esigono la risposta ad alcune questioni cruciali: lo sport fa bene? Aiuta a crescere? Forma il carattere? Include o seleziona? Collana Ostacolo obliquo La collana Ostacolo obliquo, diretta da Paolo Crepaz, intende l'ostacolo obliquo come simbolo di un'attività sportiva dove ogni persona, in base alle personali abilità, può sperimentare l'adeguatezza e il successo della propria azione. La collana Ostacolo obliquo, rivolta ad atleti, genitori, insegnanti, tecnici e operatori sportivi, mira ad avvicinare allo sport secondo una prospettiva equa e inclusiva.

Il giro del mondo in 80 giochi Marcus Du Sautoy C'è chi dice che la nostra specie non andrebbe chiamata Homo sapiens bensì Homo ludens, perché è la capacità di giocare - più che quella di pensare - ad aver avuto un ruolo cruciale nella nostra evoluzione. Gli uomini da sempre esplorano mondi immaginari e testano strategie nell'ambiente sicuro del gioco, che risponde a regole definite ed è separato dalla nostra vita ordinaria da precisi limiti spaziali e temporali. Il gioco è infatti, nelle parole di Roger Caillois, «un'occasione di puro spreco: spreco di tempo, di energia, di abilità, di ingegnosità e spesso anche di denaro»; e proprio perché è un'attività slegata da interessi materiali e dalla quale non si può ricavare alcun profitto, sa donare un impareggiabile senso di libertà anche agli adulti. I giochi esistono da che esiste l'uomo, e lo stesso si può dire della matematica: insieme a Marcus Du Sautoy, celebre matematico e qui guida d'eccezione, scopriremo che la matematica e i giochi sono indissolubilmente connessi, che la matematica è alla base del modo in cui costruiamo i giochi, li giochiamo e li vinciamo, e che in tutto il mondo i giochi parlano il suo linguaggio universale e meraviglioso. Sulle orme di Phileas Fogg faremo un giro attorno al mondo in ottanta giochi, dai più celebri ai più sconosciuti, per conoscere la loro storia e i meccanismi su cui si fondano, e anche in che modo ognuno di essi sia parte integrante della cultura in cui è nato, un'espressione non meno sofisticata di un'opera d'arte che riflette una particolare visione della vita. Fra giochi di fortuna e sfide di strategia, giochi d'ispirazione religiosa e simulazioni belliche, viaggeremo per i cinque continenti e attraverso i millenni, sorprendendoci di fronte a ciò che ci distingue e ciò che ci accomuna quando vogliamo divertirci.

Broken Play 2023-08-06 Alison Rhymes I legami che li hanno uniti potrebbero essere gli stessi che li distruggeranno. Ciò che ha sempre fatto

June è stato aspettare. Ha atteso che Drew McKenna, il miglior amico di suo fratello, si accorgesse finalmente di lei. Si è tenuta in disparte, sperando. Ha atteso e sperato che Drew capisse di amarla, tanto quanto lei amava lui. E, quando quel desiderio si è avverato, per June è stato il momento più felice della sua vita. Gli anni trascorrono e, mentre la carriera di quarterback di Drew decolla, June assapora le gioie di una relazione che crede perfetta, finché... non scopre suo marito con un'altra donna. E tutto le crolla addosso. Anche lasciare Drew diventa un'impresa difficile: può divorziare, certo, ma lui farà sempre parte della sua famiglia, perché il loro passato li lega inestricabilmente. Drew deve ogni cosa a June. Lei rappresenta il suo rifugio, le sue certezze, le fondamenta su cui si poggia la sua intera esistenza: non sarebbe nessuno se non fosse per lei. Ama sua moglie, eppure non ha esitato a cercare la compagnia di un'altra donna, perché, per Drew, June è sempre stata soltanto una creatura da venerare, fragile e pura. Quando però lei riprende in mano le redini della sua vita, Drew si rende conto che potrebbe perderla per sempre e decide quindi di fare ogni cosa pur di ottenere il suo perdono e riconquistarla. Sa che ciò che le ha fatto è terribile, ma sa altrettanto bene che June è tutto per lui. Lui la riuole indietro. Lei vuole farlo soffrire.

Petrarch the Poet (Routledge Revivals) 2014-08-07 Peter Hainsworth In this critical and historical interpretation of Petrarch's major Italian work, the collection of poems he called the Rerum vulgarium fragmenta, Peter Hainsworth presents Petrarch as a poet of outstanding sophistication and seriousness, occupied with issues which are still central to debates about poetry and language. In the Rerum vulgarium fragmenta Petrarch reformed the received Italian tradition, creating a new kind of lyric poetry. In particular, he found solutions to the intellectual, linguistic and imaginative problems which Dante's Divine Comedy posed for the succeeding generation of poets. Petrarch the Poet illuminates the complexities of Petrarch's poetic vision, which is simultaneously a form of autobiographical narrative, a poetic encyclopaedia and a meditation on the nature of poetry. The book will appeal to Italian specialists, to those interested in European poetry of the Middle Ages and the Renaissance,

and also to readers interested generally in the nature and function of poetry.

CHANSONS DE DADA DOMENICO DE FERRARO Chanson de Dada. Poesie e Prose hip hop sono una raccolta di canzoni rap scritte durante quest'ultimo anno in corso, con l'ispirazione poetica di un versificare sul ritmo jazz e rock. Ritmi musicali che hanno animato il mio comporre in versi per luoghi d'inestimabile bellezza, paesaggistica. I quali mi hanno trasportato in un topos letterario, luoghi metafisici, fantastici dove aleggiano, ancora nell'aria, antiche reminiscenze epiche d'opere poetiche. Verseggiare, rappando attraverso versi improvvisati all'occasione che mi hanno portato successivamente a tradurre tali mie composizioni in varie lingue, quali il francese, l'inglese ed il spagnolo. Questo elevare la mia poesia ad un linguaggio parlato europeo costellato da espressioni personali, intimi momenti lirici in cui l'oggetto della realtà, diviene me stesso il mio spirito il mio soggetto poetico. Poesie è linguaggio, conoscenza fenomenologica dell'essere nel divenire, nell'amare, nel vivere, nel sognare nuove dimensioni. Estremi tentativi individuali di vivere aldilà della comune ipocrisia. Dadaismo è un movimento poetico nato all'inizio dei primi del novecento in cui affiorava una realtà sostanziale cosa è l'arte, cos'è

dada? affermava Tristan Tzara poeta e saggista rumeno di lingua francese e romena , redattore del manifesto del movimento “ Dio è il mio spazzolino ,sono Dada e anche i new yorkesi , io aggiungo anche i napoletani possono essere Dada ,se non lo sono già. Perché Dada non significa nulla. Poiché Dada è una canzone che nasce dal nulla , poiché Dada è questa poesia , espressione universale dell’essere è questa intuizione che affiora dalla nostra inquieta coscienza che diviene canzone di strada , rap , funk , blues ,trap, pop, e chi sa quante altre definizioni musicali o poetiche , tutte per definire un individuale sentimento d’amore e di libertà. Il quale espresso in vario modo , attraverso diversi linguaggi tradizionali , parlati, dialettali ,volgari o illustri . Lingue che esprimono una realtà di fatto un sentimento, una passione . Traducendo queste personali poesie emerge una verità comune ad ogni individuo di questo pianeta Terra ,il bisogno interiore di pace e amore, il bisogno d’essere se stessi.

ANIMA 2.0 - Il monologo della coscienza 2023-06-19 Vanessa Parisi Barra Angeli e demoni. Bianco e nero. Giusto e sbagliato. L’eterno conflitto interiore di una giovane ragazza che conosce ed entra nel mondo del lavoro. Nella realtà dei “grandi”. Scegliere di amare il proprio carnefice, incapace di amare se stessa. Imparare ad adattarsi e subire, impotente di qualsiasi forma di ribellione. Reprimere e soffocare la voce del silenzio della propria anima, stipulando un patto con il diavolo: l’anima muore e marcisce, come tutte le cose e le persone che ama. Ferite mai curate che continuano a sanguinare nel presente impedendole di aspirare a un futuro, perdendo così ogni forma di empatia verso il prossimo. Dipendenze che arrivano a essere le sue migliore amiche, placando l’enorme angoscia con cui convive. Sollievo apparente, distruzione lenta. Smettere di essere e scegliere di diventare come tutte le cose che ha sempre criticato, per affermarsi nella società odierna affogata nell’ipocrisia... Questa è la mia storia. Prima di partire per il mio lungo viaggio, ho consegnato le chiavi del cuore alla mia coscienza. Quando sono tornata, ho trovato la mia anima ad aspettarmi. Scrivere mi ha salvato la vita.

Dal sogno alla vita 2018-11-22T00:00:00+01:00 Cristina Saottini Thomas H. Ogden è uno dei pensatori più originali e vivaci nel panorama psicoanalitico internazionale: uno psicoanalista che scrive di psicoanalisi, riuscendo a ricreare attraverso la scrittura la “musica” della parola nella seduta. In questo modo riesce a far ritrovare la prosodia, il tono, l’intonazione e quegli aspetti del linguaggio che non possono essere catturati dalla semplice e asciutta trascrizione di una seduta. Ogden costruisce nei suoi lavori un dialogo ricco e intimo con il lettore in uno scambio di rêverie, sogni a occhi aperti, ricordi e, ovviamente, sogni, in cui riproduce il più possibile ciò che accade nella stanza d’analisi. In questo volume, impreziosito da uno scritto inedito di Ogden, si ritrova questa vitalità, questa capacità di comunicare con parole e intrecciare i nostri pensieri con quelli degli autori, partecipandovi in maniera viva.

COMMEDIA DELL' ARTE DEL DIALOGO DOMENICO DE FERRARO Quante maschere , vivono in noi , le quali rappresentano l'essere noi stessi , attraverso la nostra inconscia esperienza. Fenomenologia degli stati d'animo che conduce verso mondi sovrumani e vivissimi incantesimi , conducono oltre quello che vediamo, attraverso la nostra coscienza nell'iperrealismo, rappresentazione di un mondo in continuo divenire , che non tralascia l'errore insito del sapere, assumendo spesso la forma di un dialogo metafisico . La mia ricerca ontologica si è andata , affinando nel termine preciso di una distopia letteraria , tra miriadi di drammi , attraverso argomenti surreali e diverse volte , mi sono ritrovato in vicoli gonfi e cupi a scrivere confusi versi sull'amore e sull' arte che mi hanno spinto ad andare avanti nel mio sognare ad occhi aperti. Non ho indietreggiato, ne avuto paura di cosa m'aspettasse alla fine di quel mio tragitto poetico , filologico, immerso in una forma narrativa viva nel suo contesto linguistico , retorico a tratti che non mette il capello nei giorni di festa ne fa l'artista per strada gratis . Ed il narrare per rime assurde , mi ha atteso impaziente che ogni cosa passasse , come fa ogni buon retore con le sue oratorie . Le finestre della case popolare , nelle disperse

periferie sono semichiusure , tutti dormono ed il mio viaggio nella dimensione poetica, prende il volo, verso altre dimensioni psichiche , forme chete, nere, stereotipate nella loro vertiginosa ideologia che mi trasportano verso radure e boschi ombrosi . Mi conducono verso il mare della fantasia . Verso un lago salmastro ove un'immagine lasciva, bagna le sue membra, dove emerge l' animo afflitto in un concetto utopico . Ed il cielo è la terra si coniugano , si uniscono nella iperbolica ricerca della bellezza del divenire. La morte di uno stile , narrativo, riassume sempre una sua forma grammaticale . E la verità emerge come se fosse il volo di un angelo nel cielo che si trastulla da solo , amoreggia, vezzeggia nella grazia di una resurrezione individuale, ove viene esplorato il fantastico mondo dell'arte e della rappresentazione . Un mondo a noi parallelo , che riassume ogni principio ed ogni intuizione lirica , rappresentazione di un mondo di emozioni , assopite dentro di noi che prendono vita , emergono dal fondo della coscienza. E in questa dimensione psichica individuale si ode la voce di un mondo plasmato ad immagine dell'originale creatore che non rinnega la propria creazione , frutto della sua fantasia . Sostanzialmente la società è un crogiolo di drammi individuali, pezzi di storia che s'uniscono all'unisono , nell'atto illuminante la scena dove vengo rappresentati . Ma la nostra storia va ben oltre quello che vediamo e sentiamo , si realizza nella meccanica delle parole eccentriche , riunite in una sintesi di forme metriche che esulano il contesto storico e sfociano nella genealogia di una morale senza tempo. Noi perseguiamo , ideali e utopia che spesso non hanno senso , nel loro contesto storico , sembrano tanti incipit di una storia letteraria che c'invita a narrare sempre noi stessi . Ogni realtà si realizza in vari personaggi , che io vado creando nella mia logica creativa . Perseguo nel filo del discorso drammatico , sono un creativo, non di certo un cattivo personaggio , una maschera malvagia , mi piace fare ciò che mi piace, scrivere in genere e non ho ideali precisi per giungere alla fine di questo discorso legato all'intuizione intellettuale . Ed io faccio parte di un meccanismo creativo assai simile ad una rotella arrugginita , che gira e rigira in questa pericolosa macchina creativa , produttrice di valori , di ideali , di racconti volgari , di immagini sessuali , frutto del doloroso parto di un mondo poetico , modello di virtù e drammi

su generis. Io sono un dramma, la forma di un dialogo angelico in cui la divinità del creato vive in me.

SAGGIO SURREALE DI SCRITTURA CREATIVA Domenico De Ferraro Questo breve saggio surreale sulla scrittura creativa è una sintesi del mio percorso estetico , linguistico. Scritto come un generico trattato speculo narrativo Immagine grammaticale nell'uso generale dei termini parlati ed usati nella mia personale composizione di una elaborazione ortografica . Questo breve poetica surreale , centrato sull'imaginismo, vuole cercare di rappresentare e dialogare dell'essere come espressione e come linguaggio. Sulla scia del pensiero di Giambattista Vico ed il principio , quale l'essere ed il linguaggio sono identici nel processo del divenire attraverso espressioni e concetti . Questo libero saggio ,composto in diversi capitoli organici, atti a figurare l'inverosimile narrativo come composizione spontanea . Frutto di un linguaggio figurativo , immaginativo sostanzialmente corporale nell'unità del termine , corpo e spirito. Processo conoscitivo ed unità di esperienza e conoscenza. In questo elaborazione linguistica, espressiva , emerge l'atto creativo, attraverso il dialogo come forma di conoscenza tra diversi individui, appartenenti a diversi luoghi . L'io resta il centro di un universo organico che trascende ogni realtà fenomenologica nell'atto linguistico espressivo. Poiché la nostra espressione, universalmente è una intuizione . Un'immagine , una rappresentazione fenomenologica . Topogramma so come immagine corporale dell'atto in se come atto creativo. Cronotopo. Trascendere l'esperienza e rappresentare il possibile, l'inverosimile e creare una nuova realtà . Una ipotetica realtà che organicamente raffigura la realtà nel suo spazio tempo , come narrazione universale dell'essere umano , attraverso le passioni , le utopie. La narrazione vive nell'atto figurativo di un prosa spontanea ed attraverso l'immagine noi creiamo un dialogo. Un rapporto metaforico tra il soggetto e l' oggetto. Ogni personaggio è sostanzialmente universale, pari ad un concetto nominativo La rappresentazione di un carattere universale dell'essere vivente nella sua situazione. Scrivere è vivere , realizzare un'immagine, concetto . Tutto il processo narrativo, drammatico , lirico , narrativo ,

cinematografico , vive attraverso una sceneggiatura. L'immagine spinge l'intelletto a contemplare il possibile ed il meraviglioso nel processo creativo che intercorre in noi come fruitore di questa realtà. Il linguaggio è la nostra identità, la nostra storia. Il nostro passato, il nostro futuro. Rappresentare è immaginare . E ricreare quel connubio tra ciò che è l'uomo, ciò che è divino. L'immagine è la parola, la forma di un contenuto. La sintesi a priori , situazione , spazio , tempo, come intuizione e rappresentazione.

ANNO 2020 LA SOCIETA' QUARTA PARTE ANTONIO GIANGRANDE Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce.

Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso! In un mondo caposotto (sottosopra od alla rovescia) gli ultimi diventano i primi ed i primi sono gli ultimi. L'Italia è un Paese caposotto. Io, in questo mondo alla rovescia, sono l'ultimo e non subisco tacendo, per questo sono ignorato o perseguitato. I nostri destini in mano ai primi di un mondo sottosopra. Che cazzo di vita è? Dove si sentono alti anche i nani e dove anche i marescialli si sentono generali, non conta quanti passi fai e quali scarpe indossi, ma conta quante tracce lasci del tuo percorso. Il difetto degli intelligenti è che sono spinti a cercare le risposte ai loro dubbi. Il pregio degli ignoranti è che non hanno dubbi e qualora li avessero sono convinti di avere già le risposte. Un popolo di "coglioni" sarà sempre governato ed amministrato, informato ed istruito, giudicato da "coglioni".

La cucina degli amori impossibili 2013-05-07 Roberto Perrone Forse due ristoranti "stellati" sono troppi per un piccolo borgo, anche se quel piccolo borgo è incastonato nello splendido ed esclusivo scenario della Riviera ligure: la rivalità diventa inevitabile e il conflitto aperto molto probabile. È quello che succede tra i Cavasso e i Maggiorasca, le famiglie titolari dei due ristoranti pluripremiati, da sempre vicinissime, da sempre irriducibilmente contrapposte. Cesare Cavasso, uomo eccentrico e autoritario, cuoco di genio, ma abituato a tiranneggiare parenti e sottoposti, sostiene che Vittorio Maggiorasca, ex sous chef nel suo ristorante prima di mettersi in proprio, gli abbia rubato le ricette; Vittorio, al contrario, ritiene che sarebbe stato Cesare a ispirarsi alle sue idee. La loro rivalità dura per due decenni, senza che Vittorio riesca a ottenere l'agognata terza stella (quella che fa veramente la differenza). Fino all'improvvisa morte del patriarca Cavasso. Per i Maggiorasca è finalmente il momento di sorpassare i rivali, rimasti senza guida; e per farsi sostenere in questa impresa fanno rientrare la figlia Rossella, che nel

frattempo è diventata socia di un ristorante a Boston. Sullo stesso aereo che la riconduce in Italia c'è anche Augusto Cavasso, il figlio di Cesare, affascinante giocatore di basket, che è divenuto una star della NBA dopo essersi allontanato vent'anni prima dall'Italia per non dover seguire le orme del padre, e che adesso sta tornando a casa per i funerali e per raccoglierne, malvolentieri, l'eredità. Tra i due, che non si conoscono, scatta, immediata, un'attrazione fortissima, ma basta scendere dall'aereo perché tutto si complichì. Lo sgomento che, a vederli insieme, si dipinge sul volto di sua sorella, rende subito chiaro ad Augusto che quella passione repentina quanto bruciante ha davanti a sé una strada tutta in salita... E così la contesa tra i Cavasso e i Maggiorasca si arricchisce di nuove tonalità, quasi fossero dei moderni Montecchi e Capuleti. Che stavolta, però, si fronteggiano in cucina. Scandito con la grazia leggera di una favola e l'implacabile geometria di certe felicissime commedie, Roberto Perrone ci regala (ci serve, potremmo quasi dire) un racconto gustosissimo a base di amore e risentimento, alta cucina e umane bassezze, percorso da una vibrante sensualità, condito di humour tipicamente ligure. E nel tardivo apprendistato, culinario e amoroso, di Augusto, nella sua ascesa contrastata verso il cuore di Rossella, ogni lettore non potrà non riconoscere una parte di se stesso.

Another question you should ask and discuss further is the length of the treatment. Patients who are suffering from a chronic illness will have to be treated over a period of months before any improvements can be seen. This will help you plan your schedule since you need to go to the clinic 2 to 3 times weekly.

The acupuncturist just like a medical doctor is there to help you get better. If you don't see any progress with this person, perhaps you should seek the help of another specialist.

You will be called a public accountant once there is already the so-called practitioner-client connection or relationship. Even those accountants who are not yet certified can already practice their profession. Oftentimes, CPAs join partnerships and they have a wide scope of clientele from the local area to the national and even international clients at times.

Being a government accountant is another career. In this profession, you will be working for the government, whether local, state, or federal. The accounting methods used conventionally are also used in government accounting. You will make use of the method called double-entry systems and you will be using journals as well as ledgers. Chances are, you were consulting with a doctor prior to your visit to the acupuncturist. If there are any prescription medicines given, don't forget to take them.

You will not feel any improvement after just one or two visits with the acupuncturist. Just the same, you should write this down so you can go back to the acupuncturist on your next visit and tell him or her how you felt during the previous session. Such feedback will let the specialist know what needs to be modified in the future to help you with your problem.

The acupuncturist might give you some herbs to take as part of your treatment. Since you don't know if taking them will have any side effects with the medication you are taking, you should first consult with your doctor if it is safe to consume both.

The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a

company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

## **Instruments**

Modern acupuncturists nowadays use disposable fine stainless steel needles that are 0.007 to 0.020 inches in diameter which are sterilized with either ethylene oxide or by autoclave. Since they are way finer than hypodermic syringe needles, being poked by these needles are relatively painless. The upper third of the needle is covered with either a thicker bronze wire or plastic to make the needle sturdier and easier to handle. The length of the needle and how far they are inserted is all up to the acupuncturist and his practised style of acupuncture.

## **Example Of Treatment**

If a patient has a headache, he/she is diagnosed and is treated by stimulating the sensitive points located at the webs between the thumbs and palms. In acupuncture theory, these points are connected to the face and head and can be used for treatment of headaches and other ailments involved. Needles are then carefully inserted into the skin until the patient feels a twinge, which is usually accompanied by a slight involuntary twitching of the area. During this treatment, a number of things may occur.

- Sensitivity to pain in where needles are inserted.
- A hint of nausea during treatment in case of bad headaches.
- Near-immediate headache relief.

## **Anemia in Adolescents**

To understand what is anemia one should begin with breathing. The oxygen that is inhaled simply doesn't stop in lungs. It circulates though out the body and fuels the brains also. Oxygen travels to all parts of the body though bloodstream and to be precise in the RBCs I.e. red blood cells. Now, these RBCs are produced in the bone marrow of the body and they serve as boats carrying oxygen in the bloodstream. RBCs have something called hemoglobin, a protein which holds oxygen. To make adequate hemoglobin body requires iron in plenty. The iron is supplied by the foods that we take along with other nutrients. When these RBCs are fewer in number than what is needed anemia occurs in the body. There can be 3 primary reasons: RBCs are lost due to some reason, the production of RBCs is slower than what is needed and lastly the body is destroying the RBCs. Different types of anemia are linked to at least one of these causes.

Seventy four percent of females above fourteen years and sixty percent of females below fifteen years have reported to have involuntary sex. Fifty percent of the adolescent pregnancies are within the time period of six months after the initial sexual intercourse. More than nine hundred thousand teenagers are reported to have become pregnant every year in the United States. Fifty one percent of the adolescent pregnancies result in live birth, thirty five percent result in induced abortion and fourteen percent result in stillbirths or miscarriages. Four out of ten adolescent females get pregnant, before they turn twenty, at least once. Twenty five percent of adolescent deliveries aren't the mother's first child. When a teenager gives birth to her

first child, she increases the risk of begetting another child. One third of the adolescent parents are themselves result of adolescent pregnancies. There are many reasons why adolescents choose to become sexually active at an early stage in life. The reasons can be early pubertal development, poverty, sexual abuse in childhood, lack of parent's attention, lack of career goals, family and cultural patterns of early sex, substance abuse, dropping out from school and poor school performance. Factors which discourage an adolescent to become sexually active are stable family environment, parental supervision, good family income, regular prayers, connectedness with parents and living with complete family and both the parents. The factors which are responsible for the consistent use of contraceptive among adolescents are academic success, anticipation for successful future, and involvement in a stable relationship.

There are many medical risks associated with adolescent pregnancies. Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.

Skeptics shrug off the positive effects of acupuncture as merely placebo effects. Believers in acupuncture, however, say that the benefits have simply not yet been proven. Believers promote that the treatment is harmless and can be used as a complement to western medicine.

Physical health problems encountered during adolescence can affect the development of the body, if not treated. There are few anatomic regions, such as spine, knee and ankle, in adolescents which can get orthopedic problems such as Osgood-Schlatter disease, and Slipped Capital Femoral Epiphysis. Osgood-Schlatter disease is caused due to injury or overuse of the knee which causes swelling and pain in the area below the knee, above the shin bone. The patellar tendon and the soft tissues surrounding it gets inflamed, because of the constant pulling of the area where the tendon joins the below knee. Usually, adolescents who participate in sports actively and are athletic, such as football, basketball, soccer, ballet and gymnastics, tend to get the Osgood-Schlatter disease. Boys of age eleven to fifteen and girls of age eight to thirteen are at greater risk. The reason why adolescents get this problem is that their bones grow faster when compared to the tendons and muscles in this age and because of this the muscles and tendons stretch and become tight.

Acupuncture is a form of holistic healthcare that uses needles to help treat a patient. Unlike the cartoon where the balloon will pop and all the air will go out, the needles that are inserted into the vital points will stimulate the body to release endorphins thus helping the person control their appetite. But before needles are inserted, the specialist will first ask the patient some questions and perform an examination. This is needed to understand the main cause for the person to be overweight.

### **First play la mia vita come un gioco~A Quick-Start guide to Acupuncture**

Using needles to adjust bodily functions to optimum levels is the principle behind acupuncture. Both ancient Chinese and modern Western practitioners have used this technique to relieve many sufferers of chronic disease. Needling is a relatively safe, beneficial treatment strategy that can be used to reduce pain, improve healing, and increase general well-being. But exactly how is this procedure done and what sort of benefits can be obtained?

#### Procedure for Needle Puncture

Have you ever had an uncontrollable urge to be pierced by a dozen needles? This is the image most people get when someone mentions the word “acupuncture”. It comes as no surprise that most view this technique with suspicion, even downright horror. The fact is, however, that this relatively painless ancient Chinese technique has helped relieve the symptoms of millions of people. Properly used, it can help in the management of many medical conditions including chronic pain and fatigue.

How does needle puncture work?

Practitioners of Chinese traditional medicine believe in energy flows. This energy, called Qi, circulates around the body using pathways called meridians. Meridians run very close to the surface of the skin in certain areas and can be accessed by needles. Much like plumbing, these pipes can get blocked or go the wrong way, causing health problems. The insertion of needles at these points is aimed to help loosen blocks and normalize flow.

The reason why tongue acupuncture is being experimented with is because there is a connection between the tongue and the heart through the meridians that spread to all the organs in the body. It is believed that the points on the tongue can influence the state of the other body organs thus giving relief to the one suffering from autism.

But many believe that acupuncture alone cannot help autism sufferers. It has to be combined with other things like maintaining a certain diet to help improve one's mood and communication skills. Although it is only short term, it is better than nothing until a cure is found.

Precautions should not only be taken indoors, but outdoors too. This is because; more than forty thousand people get eye injuries outdoors. Ninety nine percent of the injuries are caused while playing sports. So it is necessary for the youngsters to wear protective eyewear while playing sports or when involved in outdoor recreational activities. A special helmet is designed with wire shield or polycarbonate face mask which is not only safe, but

comfortable, too. Protective eyewear should also be worn while performing experiments in science lab. Fireworks must only be handled by adults. Because of increasing use of computers, more and more youngsters are getting eye strains. The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to brush carefully with soft bristles toothbrush and fluoride toothpaste. In the morning, the adolescent must floss between the braces and teeth. Food stuffs which are sticky or hard must be avoided as they are very difficult to remove. Foods like caramel, chew candy, popcorn, and nuts must be avoided. Cleaning must be done by the orthodontist or general dentist, every five to six months.

The wisdom teeth or third molars can grow in people of the age fifteen to twenty five. These teeth cause problem, because most of the mouths are too small to adjust new teeth and hence they need to be removed. If the wisdom tooth has place to grow, without affecting other teeth, they can be left to themselves. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. They can also destroy the second molars and impact other tooth. Various gum and jaw diseases can be caused. There can be a tumor development; cysts development and plaque build up. Hence, a surgery is performed to remove the tooth or teeth. The gum tissue covering the wisdom tooth is removed and the connective tissue connecting the tooth to the bone is detached. The tooth is then removed and the opening is sutured. A general dentist can perform wisdom tooth surgery in the local office using anesthesia.

Five times common than asthma is tooth cavities. The tooth above the gum line is made up of enamel, the hardest tissue within the human body. The tooth below the gum-line comprise of nerves, roots and dentin. Dentin is another type of tissue and isn't as hard as the enamel. The acid which leads to tooth decay is produced by bacteria. These acids, along with dietary sugar, attach the enamel and eat away the minerals within the enamel, until a cavity is formed. This is known as tooth cavity. The biggest prevention against dental cavities is brushing teeth twice a day and even better, after every meal with fluoride toothpaste and soft bristle toothbrush. Carbonated drinks must be avoided strictly and must be replaced with fruit juices and sugary food must be avoided. One of the foremost effects of acupuncture on the body is relaxation. Stress is frequently pinpointed as the main precursor for a host of physical ailments. There are particular points all over the body that direct the flow of harmony and relaxation and when these are enthused, the patient becomes more at ease.

Another positive effect of this alternative therapy is increased pain control. During a session, a patient will usually feel very minimal pain as the thin needles are being inserted gradually. However, the needles are deliberately placed in varying depths, depending on the health requirements of the patient. When the needles reach the right depth, the patient will feel deeper pain, although the entire procedure is not necessarily painful.

It is also recommended for relief from chemotherapy fatigue as well as chemotherapy-related nausea. It has also been found to be largely effective for back pains, migraines, menstrual cramps, and as a pain controller for patients after undergoing surgical operations.

While acupuncture itself is a painless procedure, some smokers have claimed that they felt a prick or get sleepy.

Most smokers will have to come to the clinic 4 to 6 times before seeing any significant results. Just to give you an idea, one study shows that the respondents reported a decrease in the number of cravings to smoke just after one or two sessions. Seven out of 10 of the respondents were able to kick the habit after 5 or 6 sessions.

Because the number of test subjects is small, there are some who doubt the effectiveness of acupuncture. This is because although there are positive signs with regards to the short term effects of this technique, its effects were not sustained. This is why some medical journals have stated that it is

unclear what acupuncture can do in smoking cessation.

A good massage would help give you a very relaxing sleep that night and an acupuncturist could help you with your sleep as well. You might immediately start to feel drowsy as soon as the right nerves are stimulated by the acupuncturists needles.

You might be asking yourself how you'd be able to relax if you're suffering from the pain of the needles attached to your body. What you might not realize is that because of the thinness of the needles, you would hardly feel anything. The most that many people claim they feel is a kind of tingling feeling where the needles are. And that is actually a sign that the process is working,

Acupuncture is a practice that helps you use your body's own ability to manage stress properly. This leaves you healthier, and more importantly, prevents any of the serious diseases that could come from unbalanced, stressful lifestyles.

The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.
