Lunch Wars 2011-08-18
Amy Kalafa There's a battle going on in school lunchrooms around the country...and it's a battle our children can't afford for us to lose. The average kid will eat 4,000 school lunches between kindergarten and twelfth

grade. But what exactly are kids eating in school lunchrooms around the country? Many parents don't quite know what their children are eating-or where it came from. As award-winning filmmaker and nutritionist Amy Kalafa discovered in researching her documentary film *Two Angry Moms: Fighting for the Health of America's Children*, these days it's pretty rare to find a piece of fresh fruit in your average school lunchroom amid all the chips, french fries, Pop-Tarts, chicken nuggets, and soda that's being served. But what, if anything, can parents do about it? Written in response to the onslaught of requests she received from parents who saw her film and asked, "If I want to attempt to change the food culture in my kid's school, how often should I

should I get started?!" this empowering book arms parents with the specific information and tools they need to get unhealthy-even dangerous-food out of their children's school cafeteria and to hold their schools and local and national governments accountable for ensuring that their growing children are served healthy meals at school. In Lunch Wars, Kalafa explains all the complicated issues surrounding school food; how to work with your school's "Wellness Policy"; the basics of self- operated vs. outsourced cafeterias; how to get funding for a school garden, and much more. Lunch Wars also features the inspiring stories of parents around the country who have fought for better school food and have won, as well as details Amy's quest to spark a

revolution in her own school district. For the future health and well-being of our children, the time has come for a school food revolution.

The Boy Crisis
2018-03-13 Warren Farrell, Ph.D. What is the boy crisis? It's a crisis of education. Worldwide, boys are 50 percent less likely than girls to meet basic proficiency in reading, math, and science. It's a crisis of mental health. ADHD is on the rise. And as boys become young men, their suicide rates go from equal to girls to six times that of young women. It's a crisis of fathering. Boys are growing up with less-involved fathers and are more likely to drop out of school, drink, do drugs, become delinquent, and end up in prison. It's a crisis of purpose. Boys' old sense of purpose—being a warrior, a leader, a

sole breadwinner—are fading. Many bright boys are experiencing a "purpose void," feeling alienated, withdrawn, and addicted to immediate gratification. So, what is The Boy Crisis? A comprehensive blueprint for what parents, teachers, and policymakers can do to help our sons become happier, healthier men, and fathers and leaders worthy of our respect.

Why are some parts of girls' and boys' bodies the same and why are some parts different? How was I made? Where do babies come from? Is it true that a stork brings babies to mommies and daddies? IT'S NOT THE STORK! helps answer these endless and perfectly normal questions that preschool, kindergarten, and early elementary school children ask about how they began.

Mutual Rescue 2019-04-09 Carol Novello A moving and scientific look at the curative powers-- both physical and mental--of rescuing a shelter animal, by the president of Humane Society Silicon Valley. MUTUAL RESCUE profiles the transformational impact that shelter pets have on humans, exploring the emotional, physical, and spiritual gifts that rescued animals provide. It explores through anecdote, observation, and scientific research, the complexity and depth of the role that pets play in our lives. Every story in the book brings an unrecognized benefit of adopting homeless animals to the forefront

of the rescue conversation. In a nation plagued by illnesses--16 million adults suffer from depression, 29 million have diabetes, 8 million in any given year have PTSD, and nearly 40% are obese--rescue pets can help: 60% of doctors said they prescribe pet adoption and a staggering 97% believe that pet ownership provides health benefits. For people in chronic emotional, physical, or spiritual pain, adopting an animal can transform, and even save, their lives. Each story in the book takes a deep dive into one potent aspect of animal adoption, told through the lens of people's personal experiences with their rescued pets and the science that backs up the results. This book will resonate with readers hungering for stories of how healing from
