What are the risks of hair dye? Are there safer alternatives? Will I still feel like me when I have gray hair? True Roots follows her journey from dark dyes to a silver crown of glory, from fear of aging to embracing natural beauty.

Toxic Beauty 2009-04-01 Samuel S. Epstein Splashy ads and commercials for personal care products are everywhere we turn, promising to keep our appearances fresh and our partners satisfied. But do consumers really know what they're applying to their faces and bodies in their quests for youth and beauty? Do they know the health risks they're taking by simply applying lipstick, face moisturizer or deodorant? Toxic cosmetics and personal care products clutter the shelves at retail stores everywhere, and consumers don't know the avoidable risks they're taking by following a simple beauty regimen. Written by Dr. Samuel S. Epstein, a founder and chairperson of the Cancer Prevention Coalition, Toxic Beauty gives the lowdown on salon safety, health risks hiding in everyday products, how we put our children in danger and more. Toxic Beauty will also educate you and your family on easily implemented solutions through the use of a variety of positive alternatives. Through the help of Dr. Epstein and Toxic Beauty, you can protect yourself from the possible long-term effects of a simple beauty product.

Toxic Beauty 2009-02-02 Dawn Mellowship Every year we each absorb an estimated 2 kilograms of chemicals through beauty and cosmetic products. Chemicals found in lipsticks, skin lotions and hair dyes have been linked with tumours, cell mutation, allergies, reproductive complications, endocrine disruption and cancer. Isn't it time we all paid more attention to exactly what goes into the eye shadows, body washes and deodorants we love to use? This compelling and timely book tells you the key chemicals you should avoid, reveals just how natural 'organic' beauty products really are, and features a directory highlighting the health issues surrounding a wide range of products, from hair gel to sunscreens.

Healthy Beauty 2011-01-04 Samuel S. Epstein Anti-aging products are the fastest growing sector of the cosmetics industry as women and men are becoming rapidly more obsessed with looking and feeling young. Splashy ads and commercials are everywhere we turn, promising to keep our appearances fresh and our partners satisfied. But do consumers really know what they're applying to their faces and bodies in their quests for youth and beauty? Do they know the health risks they're taking by simply applying lipstick, face moisturizer or deodorant? Toxic beauty products clutter the shelves at retail stores everywhere, and consumers don't know the avoidable risks they're taking by following a simple beauty regimen. Written by Dr. Samuel S. Epstein, a founder and chairperson of the Cancer Prevention Coalition, Healthy Beauty gives the lowdown on salon safety, health risks hiding in everyday products, how we put our children in danger and more. Healthy Beauty will also educate you and your family on easily implemented solutions through the use of a variety of positive alternatives. In Healthy Beauty, you will learn:

- How beauty products can affect your children before they're born
- The brutal carelessness producers use when creating products for women and children
- The risks taken when you step into a salon
- Toxins in men's products such as deodorant, cologne and aftershave
- How to protect yourself and your family by reading labels and identifying potentially hazardous ingredients

Through the help of Dr. Epstein and Healthy Beauty, you can protect yourself from the possible long-term effects of a simple beauty product.

Beauty to Die for 1999 Judi Vance "Judi Vance has written one of the most important and informative consumer books on cosmetics today. It is a book I will use often as a reference and shopping guide." - David Steinman - Author of Diet For A Poisoned Planet and co-author of The Safe Shoppers Bible "Concise and powerful!" - Rowan Hamilton - Cosmetic Scientist and Herbalist If you use any cosmetics you may be more at risk than you could imagine. Beauty to Die For is shocking, thought-provoking and rock solid in its

research. This landmark book reveals the deathtraps in the cosmetics that we unwittingly use in our daily lives. It details the devastating toll that modern industry and government knowingly exact on the health of men, women, and children - and may sound the death knell for certain cosmetic industry practices. This book is a practical guide - an interactive tool - that teaches consumers how to shop safely and wisely. It translates the technical jargon into language that everyone can understand. It was written to help you identify the dangers in products you take for granted. Products you use everyday; products in which you put your faith and trust - yet these products threaten your very existence. This book not only illuminates the hazards, it provides sensible suggestions for creating a less toxic life. "Health isn't a given, but it's yours for the taking." - Judi Vance -

No More Dirty Looks 2010-07-13 Siobhan O'Connor It started with a harmless quest for perfect wash-and-go hair. Every girl wants it, and Siobhan O'Connor and Alexandra Spunt finally found it in a fancy salon treatment. They were thrilled -- until they discovered that the magic ingredient was formaldehyde. Shocked, O'Connor and Spunt left no bottle unturned. If it went on their body (and thus, was absorbed into their skin and bloodstream), they researched it. As it turns out, many of those unpronounceable ingredients in your self-tanner and leave-in conditioner are not regulated and the "natural" on your face wash doesn't mean what you think it does. Now, with the help of top scientists, dermatologists, and makeup artists, the authors share their compelling findings and the easy way to detoxify your beauty regimen. No More Dirty Looks also reveals the safest, most effective products on the market and time-tested home recipes. Finally, you don't need to sacrifice health for beauty -- because coming clean is the best look yet.

Drop Dead Gorgeous 2002 Kim Erickson Exposing the truth behind the cosmetics industry, "Drop Dead Gorgeous" reveals that the U.S. Environmental Protection Agency has identified many ingredients found in modern cosmetics as hazardous.

Not Just a Pretty Face 2007-10-01 Stacy Malkan Lead in lipstick? 1,4 dioxane in baby soap? Coal tar in shampoo? How is this possible? Simple. The \$35 billion cosmetics industry is so powerful that they've kept themselves unregulated for decades. Not one cosmetic product has to be approved by the US Food and Drug Administration before hitting the market. Incredible? Consider this: The European Union has banned more than 1,100 chemicals from cosmetics. The United States has banned just 10. Only 11% of chemicals used in cosmetics in the US have been assessed for health and safety - leaving a staggering 89% with unknown or undisclosed effects. More than 70% of all personal care products may contain phthalates, which are linked to birth defects and infertility. Many baby soaps are contaminated with the cancer-causing chemical 1,4 dioxane. It's not just women who are affected by this chemists' brew. Shampoo, deodorant, face lotion and other products used daily by men, women and children contain hazardous chemicals that the industry claims are "within acceptable limits." But there's nothing acceptable about daily multiple exposures to carcinogenic chemicals -- from products that are supposed to make us feel healthy and beautiful. Not Just a Pretty Face delves deeply into the dark side of the beauty industry, and looks to hopeful solutions for a healthier future. This scathing investigation peels away less-than-lovely layers to expose an industry in dire need of an extreme makeover. 15 percent of the purchase price of each book sold benefits the national Campaign for Safe Cosmetics, administered by the Breast Cancer Fund, through December 31, 2012.

Dying to Look Good 2006 Christine Hoza Farlow DYING TO LOOK GOOD: The Disturbing Truth About What's Really in Your Cosmetics, Toiletries and Personal Care Products ... And What You Can Do About It

(Second Edition, Completely Revised, 2006) classifies over 1300 cosmetic ingredients according to safety, whether they may cause allergic reactions, whether they have been reviewed by the Cosmetic Ingredient Review Panel (CIR) and if they are approved or recognized as safe by the FDA. The safety ratings reveal the inconsistencies with what the CIR and FDA say is safe and what the overall research shows. It also lists over 750 cosmetic and personal care products that have been evaluated as 'safe', and where you can buy them. In just seconds, you can find out if an ingredient in the product you're buying is harmful and you can identify the safest products for yourself and your family. The book is clear, concise and easy to use.

Coconuts and Kettlebells 2018-08-07 Noelle Tarr Created by the expert hosts of the popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In Coconuts and Kettlebells, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, Coconuts and Kettlebells provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, Coconuts and Kettlebells provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. Coconuts and Kettlebells is illustrated with color photos throughout.

The Green Beauty Rules 2015-09-08 Paige Padgett A highly universal book that has something for everyone! Paige Padgett has been making me glamorously green and healthy for nearly a decade. Prior to working with Paige, I had never thought about chemicals in my cosmetics. But Paige explained that just like toxic chemicals in food, toxic chemicals in cosmetics are just as harmful to your body. We all want to be healthy, look beautiful, and feel sexy, but most people don't have the time to do a lot of sleuthing regarding products. Paige shows you step-by-step how to green your beauty routine and empowers you to make smart and affordable choices while keeping you gorgeous. — From the Foreword by Jillian Michaels In 2006, Paige Padgett revolutionized the beauty industry by launching an all-green makeup kit that was unheard of at the time, proving skeptics wrong when they said she couldn't create beautiful faces with chemically safe cosmetics. Paige is now considered the leading authority on green beauty. As she explains, "I believe in pretty, not parabens. I believe in high performance makeup without the environmental price." In The Green Beauty Rules, Paige brings the glamour of Hollywood into your home, showing readers how they can achieve killer looks without killer toxins and chemicals. Using a simple step-by-step beauty detox plan, Padgett guides readers through the decision-making process of what to try, what to toss, and what to buy. With everything from Paige's pro tips and must-haves, she shares insider secrets and practical strategies to make green beauty easy—like how to read labels, see through misleading buzzwords, and identify toxic chemicals that are prematurely aging your skin and harming you from the inside out. Through her own trial, error and real world application, Paige brings her findings from the field to save readers time, money, and energy. She cuts through the jargon and presents accurate information in a fun, user-friendly format, providing women the necessary tools to reduce their Cosmetic Footprint and live a more sustainable, healthier, and sexier lifestyle! The Green Beauty Rules is your clean beauty bible proving that green can definitely be glamorous. For readers who are new to the green beauty scene or already experimenting with eco-conscious makeup and skincare, this is the essential guide to clean cosmetics for a healthier future.

I wish our Dermatology textbooks had chapters like these!" —Dr. Erin Tababa-Santos, creator of The Nerdy Derma #1 New Release in Massage and Skin Ailments Have you always longed for that fresh, glowing, no-makeup look? With this step-by-step guide to Korean skincare routines, anyone can attain healthy skin. But Skincare for Your Soul takes it one step further?it guides you to a place where skincare is also self-care. The Korean skin care journey. As much as we'd like, glowing, clear skin doesn't happen overnight. But there is beauty in the process?not just the results. Author Jude Chao links skincare to self-

care culture, giving readers a practical guide to developing an ideal skincare routine and using it to help manage stress, anxiety, and depression. The Korean skincare routine invites us to look at our skincare not only as a way to reduce lines and wrinkles or clear up breakouts, but as a tool for developing our self-care habits. Steady improvement is the goal. Photoshopped perfection is neither realistic nor a healthy goal. What matters is caring for our mental health and building our self-esteem by intentionally taking time each day to give our skin some love. But it starts with changing how we view skincare and developing a routine that fits our personal needs and goals, and Chao helps you do that. Dive into Chao's book on K-beauty and discover: An easy-to-follow, step-by-step guide to skincare A clear breakdown of skincare products (not brands), and pros and cons to help customize your routine How Korean skin care can be a reliable and effective mental health management tool Tips for avoiding common types of exploitative and manipulative beauty marketing If you enjoyed books like The Little Book of Skin Care, The Skincare Bible, or Glow from Within, you'll love Skincare for Your Soul.

Good Clean Beauty 2020-03-17 Caroline Bercaw Teen sisterpreneurs™ Isabel and Caroline Bercaw—including on the 2019 Forbes 30 Under 30 list for trailblazers in retail and ecommerce for their multimillion-dollar company Da Bomb® Bath Fizzers and authors of Fizz Boom Bath—give readers over 100 super simple beauty and skin care recipes made from common ingredients found in the kitchen pantry. Tired of endlessly searching for safe and natural makeup lines free of harsh, chemical-laden ingredients, Caroline and Isabel decided to create their own natural makeup line. Good Clean Beauty includes their thoroughly researched recipes, perfect for those looking for natural and clean alternatives. Using only natural ingredients such as cocoa butter, almond oil, essential oils, and oats, you'll know exactly what you're putting onto your face and body. If you have allergies or sensitive skin, you'll appreciate and benefit from the non-toxic makeup ingredients. Divided into five parts—hair, body, makeup, eye shadows, and skin care—each section utilizes common items readily available in the kitchen and bathroom that make luxurious scrubs, effective exfoliators, revitalizing face masks, long-lasting foundation, bright eye shadows, shiny lip glosses, and soothing lotions. Also included is a section teaching the basic methods of applying makeup, such as foundation, blush, lipstick, and eye shadow—making it a perfect guide if you are just beginning to learn how to wear makeup. Each ingredient is presented with a short overview of its natural properties and a full explanation on its use and application. The healing and therapeutic properties of the ingredients, such as charcoal, arrowroot powder, and nutmeg, are broken down and reviewed. Whether you're looking for the perfect DIY gift for friends and family, a resource for spa party or sleepover activities, or creative projects for yourself, Good Clean Beauty has it covered.

Fashion Victims 2015-09-24 Alison Matthews David From insidious murder weapons to blaze-igniting crinolines, clothing has been the cause of death, disease and madness throughout history, by accident and design. Clothing is designed to protect, shield and comfort us, yet lurking amongst seemingly innocuous garments we find hats laced with mercury, frocks laden with arsenic and literally 'drop-dead gorgeous' gowns. Fabulously gory and gruesome, Fashion Victims takes the reader on a fascinating journey through the lethal history of women's, men's and children's dress, in myth and reality. Drawing upon surviving fashion objects and numerous visual and textual sources, encompassing louse-ridden military uniforms, accounts of the fiery deaths of Oscar Wilde's half-sisters and dancer Isadora Duncan's accidental strangulation by entangled scarf; the book explores how garments have tormented those who made and wore them, and harmed animals and the environment in the process. Vividly chronicling evidence from Greek mythology to the present day, Matthews David puts everyday apparel under the microscope and unpicks the dark side of fashion. Fashion Victims is lavishly illustrated with over 125 images and is a remarkable resource for everyone from scholars and students to fashion enthusiasts.

Look Great, Live Green 2009 Deborah Burnes Body care and eco-consciousness need not be mutually exclusive, according to Deborah Burnes. In Part I of this timely book, she explains the historical roots of the search for beauty, and how it has led to a \$60 billion cosmetics industry that misleads and confuses consumers on everything from product effectiveness to toxicity. In Part II, Burnes details options for buying natural and organic products in a range of budgets, with each graded on a "good," "better," or "best" scale in terms of chemical content and overall health impact. Part III discusses the positive effects chemical-free products have on overall health, and how those effects are expressed in the appearance of our skin. Part IV contains a wealth of facts, tips, and shortcuts to help consumers experience living green and enhancing personal beauty. Written in an engaging style but based in science, Look Great, Live Green offers a fresh perspective on living an eco-friendly, body-friendly, beauty-friendly lifestyle.

The Hundred-Year Lie 2007-06-26 Randall Fitzgerald In a devastating exposé in the tradition of Silent Spring and Fast Food Nation, investigative journalist Randall Fitzgerald warns how thousands of man-made chemicals in our food, water, medicine, and environment are making humans the most polluted species on the planet. A century ago, when Congress enacted the Pure Food and Drug Act, Americans were promised "better living through chemistry." Fitzgerald provides overwhelming evidence to shatter this myth, and many others perpetrated by the chemical, pharmaceutical, and processed foods industries. Consider this: · The average American carries a "body burden" of 700 synthetic chemicals; · Chemicals in tap water can cause reproductive abnormalities and hermaphroditic birth; · One study of lactating women found perchlorate (a toxic component of rocket fuel) in practically every mother's breast milk. In the face of this national health crisis, Fitzgerald presents informed and practical suggestions for what we can do to turn the tide and live healthier lives.

Natural & Organic Beauty Recipes 2015-03-10 Evelyn R. Scott Have you noticed? You continue to use cosmetics & products promising you an acne-free life, anti-aging results, smoother glowing skin... But the more you use these products, the fewer results you see. If you're like millions of other people, you may begin to feel they only prove to be a waste of both your money (the best of these products come with a hefty price tag!) and your time. There very well could be something else that is being "wasted," too -- your very health. It's true! Even the so-called natural and organic cosmetics seem to carry potential dangers -- despite the soothing assurances of commercials and manufacturers. If you put cosmetics on with less than healthy - - even toxic -- ingredients, guess what happens? All the potentially toxic items soak directly into your skin and into your system. Surely there must be a better way to make you look and feel better without putting your health on the line everyday! What if I told you there were products available that are natural, and many times organic that wouldn't harm your skin or endanger your health? What if I told you there were products you can use and be absolutely sure of the ingredients you were using? What if I told you the ingredients for these outstanding skin care remedies are waiting for you right now in your very own kitchen? All you need to do is gather the items and make them. It's true and this is what "Natural & Organic Beauty Recipes" will show you. Just imagine being able to have healthier & more beautiful skin in just 7 days (or less) without becoming frustrated or wasting your time. Here's what you'll discover in "Natural & Organic Beauty Recipes": - The potentially dangerous and toxic ingredients lurking in many modern cosmetics... - How to understand the advantages of creating your own skin care recipes, therapies and treatments... - Dozens of easy-to-make, all-natural recipes for facial scrubs, masks, under eye treatments, moisturizers and more... - 7 everyday but often overlooked tips and tricks for understanding your skin and giving it the best treatments... - WARNING: 3 things you should never do when it comes to creating your own homemade skin care treatments... - 6 time tested and proven strategies to reducing, treating and curing many common skin problems... - How to use natural skin care recipes to improve your skin's moisture content and repair damaged skin... - How to use skin care recipes to boost your skin's ability to protect itself from environmental toxins... - And much more...

Empowered 2009 Sheryl Ellinwood This year 192,300 women in the United States will develop breast cancer. Every two to three minutes another woman will learn she has this disease. Although many books have been written about breast cancer, most focus on just a single aspect of the disease. Breast cancer survivor Sheryl Ellinwood researched its multiple fronts—prevention, politics, standard treatment, alternative treatment, and more—before making her treatment decisions. She discovered that knowledge provides power. Doing research enabled her to avoid a life-threatening mistake and to choose the right treatment. In Empowered, she shares findings that you may not be aware of—woman-to-woman, clearly, and comprehensibly—and then provides links to in-depth information on each topic. She also explains the risks and benefits of food choices, the role of hormones and mineral deficiencies in breast cancer growth, and how to avoid cancer-causing toxins. She examines how these factors create an environment for breast cancer to grow and explains how women can make choices that reduce their risk. In Empowered, Sheryl helps other women by leading them step-by-step through the process of doing their own research so they will be sure to choose the best treatment.

Milady's Skin Care and Cosmetic Ingredients Dictionary 2010 Natalia Michalun Milady's Skin Care and Cosmetic Ingredients Dictionary, third edition, is a multi-purpose resource for cosmetic professionals and consumers alike. Part one puts cosmetics in the context of skin care. It provides an overview of skin physiology. In order to understand how and why a product works it is essential to understand how the skin works. It gives an overview of the complexity of cosmetic chemistry particularly with respect to product penetration, and highlights the current challenges facing cosmetic formulators. In addition, it offers comprehensive discussion of the various skin types and conditions in order to help professionals in their product selection. Lastly, it defines common cosmetic industry terminology used by cosmetic manufacturers, professional estheticians, marketers and the media. The second part is dedicated to helping cosmetic users identify the function and purpose of specific ingredients. It is an alphabetical dictionary that lists and describes not only active principles but all other categories of ingredients that comprise a skin care cosmetic. As scientific knowledge of skin physiology and cosmetic chemistry advances, so do cosmetic products. This volume puts everything in context in an easy to read, easy to understand, user-friendly format.

True Roots 2019-06-04 Ronnie Citron-Fink Like 75% of American women, Ronnie Citron-Fink colored her hair. Yet as an environmental journalist, she knew all those unpronounceable chemical names on the back of the hair dye box were far from safe. So Ronnie decided to ditch the dye and go in search of answers. What are the risks of hair dye? Are there safer alternatives? Will I still feel like me when I have gray hair? True Roots follows her journey from dark dyes to a silver crown of glory, from fear of aging to embracing natural beauty. Along the way, women of all ages can learn to protect themselves from dangerous products and discover a new hair story—one built on individuality, health, and truth.

Along with doctor consultation, a psychologist must also be consulted who can deal with the emotional challenges of the adolescent. The family should also play an active role in making the youngster feel better. The family should work in collaboration with physician, dietitian and diabetes educators. Teachers, counselors, school nurses, day care providers, and other community members can provide extended support and guidance. They can provide help with transportation, mental health counseling, health education, social services and financial services.

Eating Disorders in Adolescents

Since the adolescence is the age where bones are sprout and grow rapidly, well nourished food must be given to the adolescent to facilitate normal growth & development. The nutritional intake must be monitored regularly and modified depending upon the growing needs. Teenagers tend to develop eating disorders which affect their nutritional health. The eating behavior must be corrected as early as possible as it can lead to the development of complex illnesses. Eating disorder is the third common chronic illness, especially in adolescent females and the number has been increasing rapidly from the past thirty years.

*Guide toxic beauty how cosmetics and personal care*__The needles used helps the body balance the serotonin levels since it is a neurotransmitter that affects blood vessels and has a role to play in migraines. In fact the more frequent these sessions are the better. It may even come to a point where the specific point of contact is no longer needed but the general stimulation itself.

The end result of undergoing acupuncture is amazing. If you experience 15 to 20 days of agonizing pain, this may be count down to only 8 days. You won't even need to use that much medication anymore as before. For those who are working, this is good so that they are not absent from work that much and there won't be that much deductions in their salary.

Depression in Adolescents

Depression in adolescents is a disorder which occurs due to persistent sadness, loss of interest, loss of self worth and discouragement. Depression is normally a temporary reaction towards situations of stress. Depression is a normal part of the maturation process of adolescents. It is even induced due to production of sex hormones. Adolescent females are depressed twice more than adolescent boys according to a study. Adolescent behavior is normally marked with good and bad moods. The transition from a good mood to bad mood and vice-versa, can take minutes, hours and even days. That is the reason why true depression is very difficult to find out. Depression in adolescents can be caused due to bad school performance, break up with boyfriend or girlfriend, and failing relations with friends and family. These causes can lead to persistent depression. Other serious causes are chronic illness, obesity, child abuse, stressful lifestyle, poor social skills, unstable care giving and depression in family history.

Challenge toxic beauty how cosmetics and personal care-There are basically two types of diabetes that will affect an adolescent. It is type 1 diabetes and type 2 diabetes. Type 1 diabetes affects the immune system's function as the systems attacks the pancreas' insulin producing cells, also known as the beta cells. Because of this, the pancreas loses the ability to manufacture insulin. This is the reason why people with type 1 diabetes take insulin everyday. The symptoms are weight loss, increase in urination & thirst, blurred vision, tiredness and constant hunger. And if the adolescent isn't treated at the right time, he/she can slip in to diabetic coma which can endanger his/her life. In type2 diabetes, the body is incapable of properly using the insulin produced by the body and requires insulin from an external source, too. The symptoms of type 2 diabetes are similar to type 1 diabetes. The teenager feels sick, tired, nauseated, and thirsty. The wounds will recover very slowly; he/she will get infections frequently, will develop blurred vision and will experience weight loss.

Parents play a vital role in determining the problem. They should constantly observe their child for eating disorders or signs of depression. Although cigarette, drugs and alcohol should be avoided by all adolescents and children, it is even more important that youngster with diabetes should stay away from these things as they can worsen the situation. A person with diabetes, who switches to smoking, is at risk of developing cardiovascular diseases and circulatory problems. Consumption of alcohol can cause hypoglycemia or low blood sugar. It is the duty of the parents to make their child aware of the possible risk they would face if they start to smoke, drink alcohol or take drugs.

Children and adolescents, who have diabetes, face many challenges while trying to lead a normal life. They have to think twice before doing simple things as going to a party, playing sports and even when staying over with friends. This is because they require to intake oral medication or insulin. Their blood sugar level must be checked many times through out the day. Also, at gatherings, they have to avoid many food items. Because of this they will feel different from the crowd and can feel left out. Not only does diabetes pose behavioral challenges, but also emotional challenges.

Modern acupuncturists nowadays use disposable fine stainless steel needles that are 0.007 to 0.020 inches in diameter which are sterilized with either ethylene oxide or by autoclave. Since they are way finer than hypodermic syringe needles, being poked by these needles are relatively painless. The upper third of the needle is covered with either a thicker bronze wire or plastic to make the needle sturdier and easier to handle.

The length of the needle and how far they are inserted is all up to the acupuncturist and his practised style of acupuncture.

Example Of Treatment

If a patient has a headache, he/she is diagnosed and is treated by stimulating the sensitive points located at the webs between the thumbs and palms. In acupuncture theory, these points are connected to the face and head and can be used for treatment of headaches and other ailments involved. Needles are then carefully inserted into the skin until the patient feels a twinge, which is usually accompanied by a slight involuntary twitching of the area. During this treatment, a number of things may occur.

- Sensitivity to pain in where needles are inserted.
- A hint of nausea during treatment in case of bad headaches.
- Near-immediate headache relief.

Treatment from Acupuncture Experts

It is very essential for a patient to consult with a skilled acupuncturist. A more personalized service will be provided by an expert, as well as added counseling for the patient. Moreover, an acupuncturist may prescribe herbal supplements to aid the patient in quitting efforts.

During treatment, filiform needles are inserted into specific points on the ear cartilage, as well as the hands and wrists. Normal procedures last for about 30 minutes. Body acupuncture can be used in combination with the ear and wrist needle placements. An acupuncturist may also utilize a mild electric current, to enhance the effect of the needles through the body.

*Miracle toxic beauty how cosmetics and personal care.***What is acupuncture?**

Acupuncture has surged in popularity for the last few decades as brought on by the recent health trend. Mostly known as a traditional Chinese medical technique, acupuncture is seen as a homeopathic method of treatment. While alternative medicine does raise a lot of eyebrows for the scientifically-inclined, it does merit attention before being dismissed as a quack cure.

Basic Procedure

Basically, needles are inserted into the skin, each corresponding to one of the numerous pressure points located throughout the body. According to Traditional Chinese Medicine, by inserting a needle into the pressure point, an acupuncturist can manipulate the flow of chi or life force, thus relieving pain and gradually treating the patient. While most would say that the whole chi thing is a bunch of nonsense, science has suggested that with the needles inserted, the body's natural painkillers called endorphins are released, thus helping with pain relief.

Discovery toxic beauty how cosmetics and personal care:The greatest advantage of this ancient Oriental procedure is the absence of side-effects during and after treatment. Unlike smoking cessation medications and nicotine replacement therapy products, acupuncture does not employ chemically manufactured substances. There is also no risk of weight gain during therapy. In conjunction with helping a patient quit smoking, it can also curb appetite, thus reducing food cravings. If you have tried several methods in smoking cessation to no avail, perhaps it is high time you consider the alternative method that is acupuncture. With the right practitioner and the right frame of mind, there is no reason why you won't be nicotine-free before long.

The Do's and Don't of Acupuncture

Before you decide to have a session with them, talk to the acupuncturist to know their credentials. This will also give you the opportunity to find out how much do they charge as this can be from \$45 to more than \$100 per session.

You can probably ask for the name and contact number of a previous client so you can ask this person how everything went. Remember, if it doesn't work out for you, don't be afraid to find someone else who can do a better job.

The most important thing to do during the session is to relax. If you feel an itch or something, tell the acupuncturist. The same goes if you are nervous or experience a burning sensation so the specialist will take out the needles.

An infant will have a normal blood pressure reading of 80/45, where as an adolescent will have a normal blood pressure reading of 110/70. Therefore, age, gender, and height are important factor when determining the normal blood pressure level. Adults will have a higher blood pressure than the infants and teenagers. Also, boys have a higher blood pressure when compared to girls and tall people have a higher blood pressure than short people. An adolescent is said to have high blood pressure when the blood pressure is more than the blood pressure of ninety percent people of his/her age, gender and height.

There are many risks associated with hypertension or high blood pressure. The risk of developing coronary heart disease increases proportionally. The arteries will develop greater resistance towards the blood flow, because of which the heart will pump blood harder. Stroke is also another risk. Adolescents who have had high blood pressure as a child, develop harmful effects on the blood vessels and heart till the time they turn twenty.

The causes of high blood pressure can be classified as primary and secondary. If the causes are definite, they are primary and if the cause is linked to some illness, it is secondary. Primary causes are high blood cholesterol levels, smoking, stagnant lifestyle and overweight. Secondary causes are obesity, immobility due to chronic illness, prescription drugs, intense pain due to burns or cancer and illegal drugs. High blood pressure can develop due to hereditary reasons.

Concepts toxic beauty how cosmetics and personal care;High Blood Pressure in Adolescents

High blood pressure is a condition where the blood pressure is more than normal. It is also known as hypertension. Heart pumps out blood, so that oxygen can reach to different parts of the body via blood. The pressure with which heart pumps blood is known as blood pressure. The blood pressure comprises of two measures, the systolic pressure and diastolic pressure. Systolic pressure is the larger figure and represents the pressure

within the artery of the heart, when contractions take place which pump blood to different parts of the body. Diastolic pressure is the pressure within the artery of the heart, when the blood is filling in the heart and it is at rest. Both the pressures are measured in millimeters of mercury or mmHg. High blood pressure is abnormal increase in systolic pressure or diastole pressure.

Blood pressure is measured by putting a blood pressure cuff on the arm and placing a stethoscope on the chest. There can be very little variation in blood pressure depending upon the time, emotional moods, age, gender, weight, height, physical activity, stress and other illness such as heart disease and kidney disease. Children and adolescents become anxious when they visit the doctor. This is also an important factor which affects the blood pressure and the readings taken get tampered because of it. That is the reason why many blood pressure readings are taken in order to determine whether the adolescent has high blood pressure or not. The nurse may even ask the adolescent to calm down while taken the readings. Time gap is given between each reading, so as to give time to the adolescent to calm down. Emotions can also affect the blood pressure reading.

Analysis toxic beauty how cosmetics and personal care~You can think of a session with the acupuncturist as very much like massage therapy. A good massage would help give you a very relaxing sleep that night and an acupuncturist could help you with your sleep as well. You might immediately start to feel drowsy as soon as the right nerves are stimulated by the acupuncturists needles.

You might be asking yourself how you'd be able to relax if you're suffering from the pain of the needles attached to your body. What you might not realize is that because of the thinness of the needles, you would hardly feel anything. The most that many people claim they feel is a kind of tingling feeling where the needles are. And that is actually a sign that the process is working,

Acupuncture is a practice that helps you use your bodies own ability to manage stress properly. This leaves you healthier, and more importantly, prevents any of the serious diseases that could come from unbalanced, stressful lifestyles.

What This Ancient Method Does

One of the foremost effects of acupuncture on the body is relaxation. Stress is frequently pinpointed as the main precursor for a host of physical ailments. There are particular points all over the body that direct the flow of harmony and relaxation and when these are enthused, the patient becomes more at ease.

Another positive effect of this alternative therapy is increased pain control. During a session, a patient will usually feel very minimal pain as the thin needles are being inserted gradually. However, the needles are deliberately placed in varying depths, depending on the health requirements of the patient. When the needles reach the right depth, the patient will feel deeper pain, although the entire procedure is not necessarily painful.

It is also recommended for relief from chemotherapy fatigue as well as chemotherapy-related nausea. It has also been found to be largely effective for back pains, migraines, menstrual cramps, and as a pain controller for patients after undergoing surgical operations.

The treatment is finished after an hour and when the needles are removed, you are advised to wear ear magnets so your session continues even when you leave the clinic. While acupuncture itself is a painless procedure, some smokers have claimed that they felt a prick or get sleepy.

Most smokers will have to come to the clinic 4 to 6 times before seeing any significant results. Just to give you an idea, one study shows that the respondents reported a decrease in the number of cravings to smoke just after one or two sessions. Seven out of 10 of the respondents were able to kick the habit after 5 or 6 sessions.

Because the number of test subjects is small, there are some who doubt the effectiveness of acupuncture. This is because although there are positive signs with regards to the short term effects of this technique, its effects were not sustained. This is why some medical journals have stated that it is unclear what acupuncture can do in smoking cessation.

Hope toxic beauty how cosmetics and personal care...Acupuncture treatment for smokers should only be done by a license professional. You can do some research online to find out if they are accredited by the National Commission for Acupuncture and Oriental Medicine, ask how long they have been in the profession, find out how many smokers they have helped and how much will they charge.

Once you have found one, you have to commit yourself to the program because both you and the acupuncturist have to work together to give up this habit.

Acupuncture can help smokers in the same way that it has helped addicts and alcoholics quit their addictions. You just have to try it even if you may not believe in it.

The second accountancy career that you may be able to land is serving as a public accountant. If you're already a CPA, you can serve the general public. You will be called a public accountant once there is already the so-called practitioner-client connection or relationship. Even those accountants who are not yet certified can already practice their profession. Oftentimes, CPAs join partnerships and they have a wide scope of clientele from the local area to the national and even international clients at times.

Being a government accountant is another career. In this profession, you will be working for the government, whether local, state, or federal. The accounting methods used conventionally are also used in government accounting. You will make use of the method called double-entry systems and you will be using journals as well as ledgers. If you're a government accountant, you will be focusing more in rendering service. Government units are not very particular with profits because they are put up to serve the public.

Fiduciary accounting is another type of accountancy careers. Here, accounting relies on trust. Executors, administrators, trustees, or any other person who is trustworthy can do fiduciary accounting. A fiduciary accountant keeps important records and he also prepares certain reports. The courts can authorize these fiduciary accountants to carry out their tasks.

Allergies in Adolescents

Allergies are reactions by immune system that are abnormal in nature to stuff that are usually harmless to majority of the people. When somebody is allergic to something the immune system of that person gets confused and thinks that the substance is detrimental to the body. The substances causing allergic reactions are known as allergens. The examples of allergens are dust, food, plant pollen, medicine etc. The body produces antibodies to protect itself from these allergens. The antibodies make certain cells present in the system to let chemicals to mix with the bloodstream and one of them is histamine. This chemical then acts on nose, eyes, skin, lungs, gastrointestinal tract and results in allergic reaction symptoms. Exposure to the same chemicals in future triggers same response to the antibodies again meaning every time one comes in contact with the same allergen, allergic reaction is produced in the body.

Allergic reactions can range from mild symptoms like runny nose to more severe ones such as difficulty in breathing. Teenagers suffering from asthma often have allergic reaction to cold and get asthma attack is another example of allergies. Some kinds of allergies trigger multiple symptoms. Allergic reactions in very rare cases also produce severe reaction known as "anaphylaxis" for which the signs are difficulty in breathing, difficulty in swallowing, swelling in tongue, lips and throat and dizziness. This allergic reaction occurs as soon as the system is exposed to substances that trigger allergic reactions like peanut although some reactions are delayed by as much as four hours.

The reasons why people get allergies can be various and one of the reasons could be hereditary but that that does not necessarily mean that children are bound to get allergies from their parents. Some of the common allergens include food, airborne particles, insect bite and sting, medicines, chemicals etc. Food allergies typically occur in infants and usually vanish as the child grows. The list of food allergens includes milk & dairy products, wheat, soy, eggs, peanuts, and seafood. Some people are allergic to stings and bites of certain insects. The venom in the bite is the one which actually causes reaction and can be as serious as anaphylactic in some teens. Some teens are also allergic to airborne particles which are also known as environmental allergens. They are also the commonest of all the allergens. Examples of these allergens include dust mites, animal dander, mold spores, grass pollens, trees and ragweed. Some adolescents are also allergic to certain antibiotic medicines. Another common allergen is chemical, certain chemicals present in laundry detergents or cosmetics can cause rashes that are itchy in nature.

Allergists usually treat allergic problems. They may ask questions like symptoms of the allergy and whether it is hereditary. They may also prescribe certain diagnostic tests like blood or skin test depending on the type of allergy. The best way to treat allergies is to completely avoid the substances that cause allergies. However there are certain medications and injections are also available to treat allergies.

The bone marrow replaces small amounts of blood is lost due to some reason without making a person anemic. But in cases where considerable amount of blood flows in small amount of time as a result of an injury due to a serious example for instance, it may not be possible for bone marrow to replace RBCs so quickly resulting in anemia. Also, losing small amounts of blood over long periods of time may also lead to anemia. Example of this situation can be seen in girls who get heavy periods attributed mainly to deficiency of iron in the diet.

Anemia due to iron deficiency is the most common kind of anemia in the United States. It occurs mainly due to lack of iron in a person's diet. A teen with iron deficiency would have lower hemoglobin production and consequently lower RBCs. When the production of RBCs is low the person is regarded as anemic. The signs of anemia are paleness and tiredness. There can be other reasons as to why enough RBCs are not produced in the body. Folic acid and Vitamin B-12 are also essential to produce RBCs. Getting these in adequate quantities is this important too. There can be a problem with bone marrow's working too resulting in anemia.

Hemolytic anemia occurs when a person has RBCs whose lifespan is shorter. The bone marrow may not be able to produce new blood cells if the blood cells die too early. This can result due to many reasons including person having disorders like sphenocytosis or sickle cell anemia. In some cases the immune system of the body may itself destroy the RBCs. In some cases certain antibodies can form in the blood as a result of reaction to certain drugs or infections and may attack the RBCs.

If you are suffering from any of the ailments mentioned above, acupuncture may just be the remedy for you. Acupuncture is harmless, and is known to promote health and a sense of well-being. It is a healthy, chemical-free alternative to traditional forms of medical treatment.

Things You Should Know About Acupuncture

Acupuncture has been practiced for hundreds of years. To let you know more about this practice, here are a few things that you should know.

First, acupuncture is a holistic healthcare technique that involves inserting needles into specific points in the body. Studies have been conducted and it has been proven to treat ear, nose, throat, respiratory, gastrointestinal, eye, nervous system and muscular disorders.

But acupuncture only reached the US in the early 80's with the establishment of a regulatory board called the National Commission for Acupuncture and Oriental Medicine. As a result, various schools have been built and those who want to become licensed acupuncturists are now able to practice their profession.

Despite that, there were a lot of people who are not yet convinced on the positive effects of alternative forms of medication. It was only in 1995 that the US Food and Drug Administration decided to classify the needles used for acupuncture as medical instruments and assured the public that they are both safe and effective.

To further promote acupuncture, the NIH or National Institute of Health in 1997 has stated that this technique is very useful in treating various health conditions. These include ear, nose, throat, respiratory, gastrointestinal, eye, nervous system and muscular disorders. In some cases, acupuncture is able to prevent some of them from happening.

Acupuncture Closely Revealed

The foundation of acupuncture rests on the relevance of an individual's chi in maintaining bodily and mental health. It is believed that chi is present in every living creature, and flows through specific pathways in the body. Health problems arise when the flow of chi on the body is blocked. As a result, a person may feel persistent headaches, muscle pain, fever, weakness, or in the worst case, becomes afflicted with more serious health conditions.

A Deeper Explanation of Acupuncture

Acupuncture has its origins in ancient Chinese philosophy and practice. More than ten thousand years ago, during the Old Stone Age of China, stones were fashioned into knives for medical purposes. After several years, during the New Stone Age, these stones were eventually made into needles intended for the same therapeutic end. These accounts are further evidenced by unearthed stone needles found to be of the same types used during the New Stone Age.

Acupuncture is the practice of inserting fine needles into specific points in the body for therapeutic purposes. According to theory, these specific points called “acupuncture points” lie along pathways of the body along which one’s vital energy is said to flow. The needles are used to promote free-flow of energy in areas of the body that circulation may have stagnated. Although acupuncture is practiced in many Asian cultures such as Japan, Tibet, and Korea the practice is commonly known to have originated in China.

If, like me, you have quite a fear of needles and injections, then acupuncture, that practice of sticking needles onto different parts of your body to cure sicknesses might seem scary at first.

However, if youve been long been suffering from some problems like headaches or chronic pains and your regular visits to the doctor dont seem to be helping you, then why not consider a trip to an acupuncture specialist? After all, who hasnt heard of somebodys aunt somewhere suffering from arthritis and trying out everything that the doctors recommended all to no avail, only to finally be cured by a really good acupuncturist?

Perhaps you were wondering if it could actually work for you. You might feel a bit skeptical since traditional Chinese medicine doesnt immediately coincide with theories in modern Western medicine. In fact, the use of needles to cure people was discovered thousands of years ago in China long before microscopes or x-ray machines were invented or before bacteria and germs were discovered.

Acupuncture and Autism

Studies have shown that there is an increase in the number of children that have been diagnosed with autism. Until now, doctors have not yet found a cure to this illness which is why some parents want to experiment with alternative forms of treatment and one example is acupuncture.

Acupuncture is a holistic approach in treating and preventing certain diseases. Its main tool are very thin needles that are inserted to targeted points in the body. The body has about 400 of them linked through a system known as meridians or pathways. Once these are stimulated, these are supposed to create balance in the body.

Autism on the other hand is a brain disorder that is long term. This disease is characterized by deficits in language, social communication and cognition. Children who are diagnosed with this illness may also suffer from secondary problems such as aggression, irritability, stereotypes, hyperactivity, negativism, volatile emotions, temper tantrums, short attention span and obsessive-compulsive behavior.
