Patient Flow

2013-12-11 Randolph Hall This book is dedicated to improving healthcare through reducing delays experienced by patients. With an interdisciplinary approach, this new edition, divided into five sections, begins by examining healthcare as an integrated system. Chapter 1 provides a hierarchical model of healthcare, rising from departments, to centers, regions and the “macro system.” A new chapter demonstrates how to use simulation to assess the interaction of system components to achieve performance goals, and Chapter 3 provides hands-on methods for developing

process models to identify and remove bottlenecks, and for developing facility plans. Section 2 addresses crowding and the consequences of delay. Two new chapters (4 and 5) focus on delays in emergency departments, and Chapter 6 then examines medical outcomes that result from waits for surgeries. Section 3 concentrates on management of demand. Chapter 7 presents breakthrough strategies that use real-time monitoring systems for continuous improvement. Chapter 8 looks at the patient appointment system, particularly through the approach of advanced access. Chapter 9 concentrates on managing waiting lists for surgeries, and Chapter 10 examines triage outside of emergency departments, with a focus on allied health programs

Section 4 offers analytical tools and models to support analysis of patient flows. Chapter 11 offers techniques for scheduling staff to match patterns in patient demand. Chapter 12 surveys the literature on simulation modeling, which is widely used for both healthcare design and process improvement. Chapter 13 is new and demonstrates the use of process mapping to represent a complex regional trauma system. Chapter 14 provides methods for forecasting demand for healthcare on a region-wide basis. Chapter 15 presents queueing theory as a method for modeling waits in healthcare, and Chapter 16 focuses on rapid delivery of medication in the event of a catastrophic event. Section 5 focuses on achieving change. Chapter 17 provides a diagnostic for assessing the state of a hospital and using the state assessment to select improvement strategies. Chapter 18 demonstrates the importance of optimizing care as patients transition from one

care setting to the next. Chapter 19 is new and shows how to implement programs that improve patient satisfaction while also improving flow. Chapter 20 illustrates how to evaluate the overall portfolio of patient diagnostic groups to guide system changes, and Chapter 21 provides project management tools to guide the execution of patient flow projects.

Third-Party Funding in International Arbitration

2016-04-24 Lisa Bench Nieuwveld Since the first edition of this invaluable book in 2012, third-party funding has become more mainstream in international arbitration practice. However, since even the existence of a third-party funding agreement in a dispute is often kept secret, it can be difficult to glean the specifics of successful funding agreements. This welcome book, now updated, expertly reveals the nuances of third-party funding in international

arbitration, examines the phenomenon in key jurisdictions, and provides a reliable resource for users and potential users that may wish to tap into and make use of this distinctive funding tool. Focusing on Australia, the United Kingdom, the United States, Germany, the Netherlands, Canada, and South Africa, the authors analyze and assess the legal regime based upon legislation, judicial opinions, ethics opinions, and practitioner anecdotes describing the state of third-party funding in each jurisdiction. In addition to updating summaries of the law of the various jurisdictions, the second edition includes a new chapter addressing third-party funding in investor-state arbitration. Among the issues raised and examined are the following: · payment of adverse costs; · “Before-the-Event” (BTE) and “After-the-Event” (ATE) insurance; · attorney financing; pro bono representation, contingency representation, conditional fee arrangements; · Downloaded from

doctrines affecting the third-party funding industry; · possible future bundling, securitization, and trading of legal claims; · risk that the funder may put its own interests ahead of the client's interests; and · whether the existence of a funding agreement must or should be disclosed to the decision maker. The second edition also includes discussion of recent institutional developments as they relate to third-party funding, including the work of the ICCA-Queen Mary Task Force on Third-Party Funding and how third-party funding is being incorporated into arbitral rules and investment treaties. Aply providing a thorough understanding of what third-party funding entails and what legal parameters exist, this book will be of compelling interest to parties aiming to take advantage of the high values, speed, reduced evidentiary costs, outcome predictability, industry expertise, and high award enforceability characteristic of the third-party funding

arrangements available in international arbitration.

Investigation of The Baltimore City Police Department

2017-01-27 U. S. Department of Justice Throughout our investigation, we received the full cooperation and assistance of BPD and the City of Baltimore. We interviewed current and former City leaders, including current BPD Commissioner Kevin Davis and former commissioners. We also interviewed current and former officers throughout the BPD command structure. We participated in ride-alongs in each district, interviewed numerous current and former officers individually, and met with the leadership of the Baltimore City Lodge No. 3 of the Fraternal Order of Police, which represents all sworn BPD officers. We also heard from hundreds of people in the broader Baltimore community who shared information with our investigation. We met with religious organizations, advocacy groups, community support organizations,

neighborhood associations, and countless individuals who provided valuable information about their experiences with BPD. We thank everyone for sharing their experiences and insights with us.

Pathways to Discovery in
Astronomy and Astrophysics for the
2020s

2022-08-04 National Academies of Sciences, Engineering, and Medicine The steering committee was specifically asked to (1) provide an overview of the current state of astronomy and astrophysics science, and technology research in support of that science, with connections to other scientific areas where appropriate; (2) identify the most compelling science challenges and frontiers in astronomy and astrophysics, which shall motivate the committee's strategy for the future; (3) develop a comprehensive research strategy to advance the frontiers of astronomy and astrophysics for the period

2022-2032 that will include identifying, recommending, and ranking the highest-priority research activities; (4) utilize and recommend decision rules, where appropriate, that can accommodate significant but reasonable deviations in the projected budget or changes in urgency precipitated by new discoveries or unanticipated competitive activities; (5) assess the state of the profession, including workforce and demographic issues in the field, identify areas of concern and importance to the community, and where possible, provide specific, actionable, and practical recommendations to the agencies and community to address these areas. This report proposes a broad, integrated plan for space- and ground-based astronomy and astrophysics for the decade 2023-2032. It also lays the foundations for further advances in the following decade.

****The Life and Legacy of Nelson Mandela****

Nelson Mandela stands as one of the most esteemed leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning “troublemaker” in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial injustice, where he witnessed firsthand the harsh realities inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of fairness, he dedicated his life to the struggle for emancipation and justice, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial separation that plagued South Africa. Emerging as a inspiring lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his hope never wavered. His unwavering commitment to freedom continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made history as South Africas first

democratically elected Black president. Mandelas leadership ushered in a period of unity, transforming South Africa into a nation of justice. His global impact extended far beyond South Africas borders, as he became a beacon of human rights, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of courage, understanding, and compassion. Revered as the father of the nation and one of historys greatest heroes, Mandelas legacy continues to inspire generations to come.

The work “Analyzing Casual Conversation” by Suzanne Eggins and Diana Slade, first issued in 1997, develops a systematic model for the study and description of casual conversation in English. The scholars assert that in spite of its at times aimless seeming and apparently unstructured content, casual conversation is a highly structured activity and performs a crucial role in the social construction of reality. The publication goes through real samples of casual conversations entailing participants varying in age, gender, ethnicity, and socio-economic class¹². Pulling on perspectives from sociology, linguistics, and critical semiotics, the work equips readers with the analytic skills

to describe the layers of structure and critical interpretive models to elucidate the 'social work' that happens on through chat.
