A Chorus of Stones

2015-07-28 Susan Griffin A brilliant and provocative exploration of the interconnection of private life and the large-scale horrors of war and devastation. A Pulitzer Prize and National Book Critics Circle Award finalist, and a winner of the Bay Area Book Reviewers Association Award, Susan Griffin's *A Chorus of Stones* is an extraordinary reevaluation of history that explores the links between individual lives and catastrophic, world-altering violence. One of the most acclaimed and poetic voices of contemporary American feminism, Griffin delves into the perspective of those whose personal relationships and family histories were profoundly influenced by war and its often secret mechanisms: the bomb-maker and the bombing victim, the soldier and the pacifist, the grand architects who were shaped by personal experience and in turn reshaped the world. Declaring that "each solitary story belongs to a larger story"—and beginning with the brutal and heartbreaking circumstances of her own childhood—Griffin examines how the subtle dynamics of parenthood, childhood, and marriage interweave with the monumental violence of global conflict. She proffers a bold and powerful new understanding of the psychology of war through illuminating glimpses into the personal lives of Ernest Hemingway, Mahatma Gandhi, Heinrich Himmler, British officer Sir Hugh Trenchard, and other historic figures—as well as the munitions workers at Oak Ridge, a survivor of the Hiroshima bombing, and other humbler yet indispensable witnesses to history.

Pornography and Silence

2015-07-28 Susan Griffin A masterwork of feminist ideology, brilliantly exposing pornography as the antithesis of free expression and the enemy of liberty In this powerful and devastating critique, poet, philosopher, and feminist Susan Griffin exposes the inherent psychological horrors of pornography. Griffin argues that, rather than encouraging expression, pornographic images and the philosophies that support them actually stifle freedoms through the dehumanization, subjugation, and degradation of female subjects. The pornographic mindset, Griffin contends, is akin to racism in that it causes dangerous schisms in society and promotes sexual regression, fear, and hatred. This violent rift in Western culture is explored by examining the lives of six notable individuals across two centuries: Franz Marc, the Marquis de Sade, Kate Chopin, Lawrence Singleton, Anne Frank, and Marilyn Monroe. The result is an extraordinary new approach to evaluating sexual health and the parameters of erotic imagination. Griffin reveals pornography as "not a love of the life of the body, but a fear of bodily knowledge, and a desire to silence Eros."

Woman and Nature

2015-07-28 Susan Griffin A seminal work of the eco-feminist movement, connecting patriarchal society's mistreatment of women with its disregard for the Earth's ecological well-being *Woman and Nature* draws from a vast and enthralling array of literary, scientific, and philosophical texts in order to explore the relationship between the denigration of women and the disregard for the Earth. In this singular work of love, passion, rage, and beauty, Susan Griffin ingeniously blends history, feminist philosophy, and environmental concerns, employing her acclaimed poetic sensibilities to question the mores of Western society. Griffin touches upon subjects as diverse as witch hunts, strip mining, Freudian psychology, and the suppression of sexuality to decry a long-standing history of misogyny and environmental abuse. A sometimes aggravating, often inspiring, and always insightful literary collage, this remarkable volume offers sanity, poetry, intelligence, and illumination.

When God Was A Woman

2012-05-09 Merlin Stone Here, archaeologically documented, is the story of the religion of the Goddess. Under her, women's roles were far more prominent than in patriarchal Judeo-Christian cultures. Stone describes this ancient system and, with its disintegration, the decline in women's status.

Staying Alive

2016-03-01 Vandana Shiva Inspired by women's struggles for the protection of nature as a condition for human survival, award-winning environmentalist Vandana Shiva shows how ecological destruction and the marginalization of women are not inevitable, economically or scientifically. She argues that "maldevelopment"—the violation of the integrity of organic, interconnected, and interdependent systems that sets in motion a process of exploitation, inequality, and injustice—is dragging the world down a path of self-destruction, threatening survival itself. Shiva articulates how rural Indian women experience and perceive ecological destruction and its causes, and how they have conceived and initiated processes to arrest the destruction of nature and begin its regeneration. Focusing on science and development as patriarchal projects, *Staying Alive* is a powerfully relevant book that positions women not solely as survivors of the crisis, but as the source of crucial insights and visions to guide our struggle.

The Death of Nature

2019-09-10 Carolyn Merchant UPDATED 40TH ANNIVERSARY EDITION WITH 2020 PREFACE An examination of the Scientific Revolution that shows how the mechanistic world view of modern science has sanctioned the exploitation of nature, unrestrained commercial expansion, and a new socioeconomic order that subordinates women.

Bending Home

1998 Susan Griffin Selecting all the major poetry from her more than thirty years of publishing, Susan Griffin demonstrates once again why she is a major force in American letters. In poems ranging from the comic to the tragic, from the personal to the politically strategic, she maintains an essential element of domesticity as she addresses subjects as diverse as mothering, myth and history, sex, food, and filmmaking. Tillie Olsen went of Griffin's last major collection (*Unremembered Country*) In some of these poems it is as if -- through the thousand doors of death, of anguish, Susan Griffin entered, smelted in the crucible of our time -- and somehow transmuted for us an integrative, a life-cherishing vision. Marge Piercy has written that Griffin's poetry wants to connect us across the generations and across species, to place us where we belong in a web of social caring inside nature, nurtured and nurturing, but these poems never forget the forces and odds against such tenderness.

Woman and Nature

2016-08-22 Susan Griffin In this famously provocative cornerstone of feminist literature, Susan Griffin explores the identification of women with the earth—both as sustenance for humanity and as victim of male rage. Starting from Plato's fateful division of the world into spirit and matter, her analysis of how patriarchal Western philosophy and religion have used language and science to bolster their power over both women and nature is brilliant and persuasive, coming alive in poetic prose. Griffin draws on an astonishing range of sources—from timbering manuals to medical texts to Scripture and classical literature—in showing how destructive has been the impulse to disembody the human soul, and how the long separated might once more be rejoined. Poet Adrienne Rich calls *Woman and Nature* "perhaps the most extraordinary nonfiction work to have merged from the matrix of contemporary female consciousness—a fusion of patriarchal science, ecology, female history and feminism, written by a poet who has created a new form for her vision. . . . The book has the impact of a great film or a fresco; yet it is intimately personal, touching to the quick of woman's experience."

Feminism and the Mastery of Nature

2002-09-11 Val Plumwood Two of the most important political movements of the late twentieth century are those of environmentalism and feminism. In this book, Val Plumwood argues that feminist theory has an important opportunity to make a major contribution to the debates in political ecology and environmental philosophy. *Feminism and the Mastery of Nature* explains the relation between ecofeminism, or ecological feminism, and other feminist theories including radical green theories such as deep ecology. Val Plumwood provides a philosophically informed account of the relation of women and nature, and shows how relating male domination to the domination of nature is important and yet remains a dilemma for women.

Created by Lloyd M. Dunn and Douglas M. Dunn, the assessment is made to evaluate vocabulary comprehension for Standard American English. It is swift and easy to carry out, conserving valuable time so that focus can be set on applying effective interventions.

The PPVT-4 assessment material covers a wide range of vocabulary comprehension levels, extending from preschool through adult age. The evaluation problems widely sample words that portray 20 topic domains (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary.

The assessment provides two equivalent versions which contain different vocabulary words, guaranteeing that the test-taker has not "mastered" the evaluation. One version can be utilized prior to intervention to measure people's vocabulary comprehension and the alternative version can be utilized for re-assessment to assess and note progress. The PPVT-4 also includes a unique Growth Scale Value (GSV) which is sensitive to minor changes in time.
