The Mercury 13 2004-07-13 Martha Ackmann For readers of The Astronaut Wives Club, The Mercury 13 reveals the little-known true story of the remarkable women who trained for NASA space flight. In 1961, just as NASA launched its first man into space, a group of women underwent secret testing in the hopes of becoming America's first female astronauts. They passed the same battery of tests at the legendary Lovelace Foundation as did the Mercury 7 astronauts, but they were summarily dismissed by the boys' club at NASA and on Capitol Hill. The USSR sent its first woman into space in 1963; the United States did not follow suit for another twenty years. For the first time, Martha Ackmann tells the story of the dramatic events surrounding these thirteen remarkable women, all crackerjack pilots and patriots who sometimes sacrificed jobs and marriages for a chance to participate in America's space race against the Soviet Union. In addition to talking extensively to these women, Ackmann interviewed Chuck Yeager, John Glenn, Scott Carpenter, and others at NASA and in the White House with firsthand knowledge of the program, and includes here never-before-seen photographs of the Mercury 13 passing their Lovelace tests. Despite the crushing disappointment of watching their dreams being derailed, the Mercury 13 went on to extraordinary achievement in their lives: Jerrie Cobb, who began flying when she was so small she had to sit on pillows to see out of the cockpit, dedicated her life to flying solo missions to the Amazon rain forest; Wally Funk, who talked her way into the Lovelace trials, went on to become one of the first female FAA investigators; Janey Hart, mother of eight and, at age forty, the oldest astronaut candidate, had the political savvy to steer the women through congressional hearings and later helped found the National Organization for Women. A provocative tribute to these extraordinary women, The Mercury 13 is an unforgettable story of determination, resilience, and inextinguishable hope.

Germaine Dulac 2014-06-15 Tami Williams Best known for directing the Impressionist classic The Smiling Madame Beudet and the first Surrealist film The Seashell and the Clergyman, Germaine Dulac, feminist and pioneer of 1920s French avant-garde cinema, made close to thirty fiction films as well as numerous documentaries and newsreels. Through her filmmaking, writing, and cine-club activism, Dulac's passionate defense of the cinema as a lyrical art and social practice had a major influence on twentieth century film history and theory. In Germaine Dulac: A Cinema of Sensations, Tami Williams makes unprecedented use of the filmmaker's personal papers, production files, and archival film prints to produce the first full-length historical study and critical biography of Dulac. Williams's analysis explores the artistic and sociopolitical currents that shaped Dulac's approach to cinema while interrogating the ground breaking techniques and strategies she used to critique conservative notions of gender and sexuality. Moving beyond the director's work of the 1920s, Williams examines Dulac's largely ignored 1930s documentaries and newsreels establishing clear links with the more experimental

impressionist and abstract works of her early period. This vivid portrait will be of interest to general readers, as well as to scholars of cinema and visual culture, performance, French history, women's studies, queer cinema, in addition to studies of narrative avant-garde, experimental, and documentary film history and theory.

Pan'ino, the (reduced Price) 2021-06-10 Maria Teresa Marco - Ninety-four delicious recipes for Italy's answer to fast food - Chef Alessandro Frassica emphasizes the use of fresh ingredients in imaginative combinations What could be more simple than a pan'ino? Take some bread and butter, slice it through the middle and fill it. Seen in this way, the sandwich is almost an "anti-cuisine", a nomadic shortcut that allows for speed and little thought. But when Alessandro Frassica thinks about his pan'ino, he considers it in a different way, not as a shortcut, but as an instrument for telling stories, creating layers of tales right there between the bread and its butter. Because even if the sandwich is simple, it is not necessarily so easy to create. Alessandro searches for ingredients, and in the raw foods he finds people: producers of pecorino cheese from Benevento, anchovies from Cetara, 'nduja spicy salami from Calabria. Then he studies the combinations, the consistencies and the temperature, because a pan'ino is not just a random object; savoury must be complemented by sweet; tapenade softens and provides moisture; bread should be warmed but not dried; thus the sandwich becomes a simple way of saying many excellent things, including finding a complexity of flavours that can thrill in just one bite.

Brando's Smile: His Life, Thought, and Work 2014-06-23 Susan L. Mizruchi A groundbreaking work that reveals how Marlon Brando shaped his legacy in art and life. When people think about Marlon Brando, they think of the movie star, the hunk, the scandals. In Brando's Smile, Susan L. Mizruchi reveals the Brando others have missed: the man who collected four thousand books; the man who rewrote scripts, trimming his lines to make them sharper; the man who consciously used his body and employed the objects around him to create believable characters; the man who loved Emily Dickinson's poetry. To write this biography, Mizruchi gained unprecedented access to a vast number of annotated books from Brando's library, hand-edited copies of screenplays, private letters, and recorded interviews that have never before been quoted in a biography. Original interviews with some of the still-living players from Brando's life, including Ellen Adler, his one-time girlfriend and the daughter of his acting teacher Stella Adler, provide even deeper insight into the complex person whose intelligence belied the high-school dropout. Mizruchi shows how Brando's embrace of foreign cultures and social outsiders led to his brilliant performances in unusual roles—a gay man, an Asian, a German soldier—to test himself and to foster empathy on a global scale. We also meet the political Brando: the civil rights activist, the close friend of James Baldwin, the actor who declined his Oscar to support Indian rights. More than seventy stunning—and many rare—photographs of Marlon Brando illuminate this portrait of the man who has left an astounding cultural legacy.

The Bourbons of Naples, 1734-1825 2009-02 Harold Acton Naples is one of Europe's most fascinating cities and the ruling dynasty which left its mark more than any

other was that of the Bourbons, who arrived in 1734 and were only displaced by the Unification of Italy in 1870. Before that time Naples was the largest of the Italian kingdoms and, with Pompeii and Vesuvius as its main attractions, it drew hundreds of aristocratic travellers and visitors in the 18th century. The city also attracted the armies of revolutionary France and the royal family escaped to Sicily thanks to Admiral Nelson. The Bourbons of Naples was welcomed as a masterpiece at the time of first publication in 1956, and was chosen by Sir Osbert Sitwell as his book of the year. Sir Harold Acton (1904-1994) - famous aesthete and historian - brings 18th-century Naples vividly to life, with unforgettable characters such as Lady Hamilton and Nelson, royal eccentrics and plenty of court intrigue. 'An elaborate comedy of manners played out over 700 pages.' The Times

Sputnik 2019-12-27 Paul Dickson On October 4, 1957, the day Leave It to Beaver premiered on American television, the Soviet Union launched the space age. Sputnik, all of 184 pounds with only a radio transmitter inside its highly polished shell, became the first artificial satellite in space; while it immediately shocked the world, its long-term impact was even greater, for it profoundly changed the shape of the twentieth century. Paul Dickson chronicles the dramatic events and developments leading up to and resulting from Sputnik's launch. Supported by groundbreaking, original research and many declassified documents, Sputnik offers a fascinating profile of the early American and Soviet space programs and a strikingly revised picture of the politics and personalities behind the facade of America's fledgling efforts to get into space. The U.S. public reaction to Sputnik was monumental. In a single weekend, Americans were wrenched out of a mood of national smugness and postwar material comfort. Initial shock at and fear of the Soviets' intentions galvanized the country and swiftly prompted innovative developments that define our world today. Sputnik directly or indirectly influenced nearly every aspect of American life: from an immediate shift toward science in the classroom to the arms race that defined the Cold War, the competition to reach the moon, and the birth of the internet. By shedding new light on a pivotal era, Dickson expands our knowledge of the world we now inhabit and reminds us that the story of Sputnik goes far beyond technology and the beginning of the space age, and that its implications are still being felt today.

Rome from the Ground Up 2006-10-31 James H. S. McGregor Rome is not one city but many, each with its own history unfolding from a different center: now the trading port on the Tiber; now the Forum of antiquity; the Palatine of imperial power; the Lateran Church of Christian ascendancy; the Vatican; the Quirinal palace. Beginning with the very shaping of the ground on which Rome first rose, this book conjures all these cities, past and present, conducting the reader through time and space to the complex and shifting realities—architectural, historical, political, and social—that constitute Rome. A multifaceted historical portrait, this richly illustrated work is as gritty as it is gorgeous, immersing readers in the practical world of each period. James H. S. McGregor's explorations afford the pleasures of a novel thick with characters and plot twists: amid the life struggles, hopes, and failures of countless generations, we see how things truly worked, then and now; we learn about the materials of which Rome was built; of the Tiber and its bridges; of roads, aqueducts, and sewers; and, always, of power, especially the power to shape the city and imprint it with a particular personality—like that of Nero or Trajan or Pope Sixtus V—or a particular institution. McGregor traces the successive urban forms that rulers have imposed, from emperors and popes to national governments including Mussolini's. And, in archaeologists' and museums' presentation of Rome's past, he shows that the documenting of history itself is fraught with power and politics. In McGregor's own beautifully written account, the power and politics emerge clearly, manifest in the distinctive styles and structures, practical concerns and aesthetic interests that constitute the myriad Romes of our day and days past.

The Bird of Folklore 2021-03-22 Hans Christian Andersen Outside, it is dark. The earth and the trees are covered with snow and a storm arrives with the clouds. But we are sitting inside next to the fire and we tell stories to pass the time. Now, we are listening to the legend of the bird with the popular song... Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's

literature, his birth date, April 2, is celebrated as International Children's Book Day.

Basilica 2007-05-29 R. A. Scotti In this dramatic journey through religious and artistic history, R. A. Scotti traces the defining event of a glorious epoch: the building of St. Peter's Basilica. Begun by the ferociously ambitious Pope Julius II in 1506, the endeavor would span two tumultuous centuries, challenge the greatest Renaissance masters—Michelangelo, Raphael, and Bramante—and enrage Martin Luther. By the time it was completed, Shakespeare had written all of his plays, the Mayflower had reached Plymouth—and Rome had risen with its astounding basilica to become Europe's holy metropolis. A dazzling portrait of human achievement and excess, Basilica is a triumph of historical writing.
