El cartel negro / The Black Cartel 2020-01-21 Ana Lilia Perez Esta valiosa investigación ha sido el punto de partida para la estrategia del gobierno de López Obrador contra el huachicoleo. "El cartel negro es el trabajo más amplio, mejor documentado y más descarnado acerca de la grave incursión de la delincuencia organizada en Pemex. Ana Lilia Pérez, una periodista fuerte, incisiva y acuciosa, presenta en este libro la que probablemente sea su más acabada y potente investigación periodística." -Carmen Aristegui Durante los gobiernos de Vicente Fox Quesada y Felipe Calderón Hinojosa, se desarrolla el "cartel negro", un conglomerado de funcionarios, trabajadores, empresarios, contratistas, inspectores, contralores, agentes aduanales, dirigentes y miembros del sindicato petrolero, políticos, ordeñadores, tapineros, huachicoleros, extorsionadores, defraudadores, contrabandistas y lavadores de dinero que, alineados con los traficantes de droga, se consolidan como una organización empresarial paralela a Pemex, al grado de competirle en el mercado nacional e internacional de los combustibles. En estas páginas se documentan escrupulosamente las acciones del crimen organizado en la industria petrolera de México: la creación de compañías fachada, los contratos simulados, la ordeña de pozos y ductos, así como el saqueo en las áreas con mayor blindaje. Es un trabajo periodístico decisivo que se ha construido a partir de informes confidenciales, bitácoras del área de seguridad de Pemex, auditorías de la Secretaría

de la Función Pública, testimonios de testigos protegidos y, sobre todo, de expedientes reservados en términos de seguridad nacional que la autora logró desclasificar tras una larga batalla. Así se devela cómo la empresa petrolera quedó de rodillas ante la mafia. El cartel negro es una ventana al fangoso inframundo en el que se convirtió a Pemex, producto de muchos años de saqueo, corrupción e impunidad. **ENGLISH DESCRIPTION** This invaluable investigation has been the starting point for Governor López Obrador's strategy against huachicoleo, or gasoline theft. The Black Cartel is the broadest, best-documented, and starkest work about the serious foray of organized crime in Pemex. In this book, Ana Lilia Pérez, a strong, insightful, and diligent journalist, presents what may be her most powerful, complete investigation. During the terms of Vicente Fox Quesada and Felipe Calderón Hinojosa, the "cartel negro" was formed: a conglomerate of government workers, businesspeople, contractors, inspectors, auditors, customs agents, managers and members of the oil syndicates, politicians, bottomfeeders, gas thieves, extortionists, swindlers, smugglers, and money launderers who, aligned with the drug dealers, have consolidated as a business organization in parallel to Pemex, to the point of competing in the national and international oil market. In these pages, the organized crime of the Mexican oil industry is scrupulously documented: the creation of shell companies, simulated contracts, and the looting of even the most well-protected areas. It is a decisive journalistic work that has been constructed based on confidential information, security logs from Pemex, audits of government agencies, testimonies of protected witnesses, and above all, of secret documents that the author managed

to get declassified after a long battle. In this way, she reveals how the oil industry was helpless against the mafia. The Black Cartel is a window into the thorny underworld that is Pemex: a product of many years of looting, corruption, and impunity.

Bloodlines 2018-09-25 Melissa del Bosque The riveting and suspenseful account of two young FBI agents in a pursuit of a drug cartel's most fearsome leader, Miguel Treviño Drugs, money, cartels: this is what FBI rookie Scott Lawson expected when he was sent to the border town of Laredo, but instead he's deskbound writing intelligence reports about the drug war. Then, one day, Lawson is asked to check out an anonymous tip: a horse was sold at an Oklahoma auction house for a record-topping price, and the buyer was Miguel Treviño, one of the leaders of the Zetas, Mexico's most brutal drug cartel. The source suggested that Treviño was laundering money through American quarter horse racing. If this was true, it offered a rookie like Lawson the perfect opportunity to infiltrate the cartel. Lawson teams up with a more experienced agent, Alma Perez, and, taking on impossible odds, sets out to take down one of the world's most fearsome drug lords. In Bloodlines, Emmy and National Magazine Award-winning journalist Melissa del Bosque follows Lawson and Perez's harrowing attempt to dismantle a cartel leader's American racing dynasty built on extortion and blood money. With extensive access to investigative evidence and in-depth interviews with key players, del Bosque turns more than five years of research and her decades of

anécdotas e historias de las principales viajeras que llegaron a África en los siglos XIX y XX. Cristina Morató viajó por primera vez a África en 1983 y desde entonces ha recorrido varios países de este continente atraída por sus gentes y la grandeza de sus paisajes. Al igual que ella un buen número de extraordinarias viajeras y exploradoras sintieron en el pasado la «llamada de África». Estas damas que en plena selva se vestían formalmente para cenar o tomaban el té de las cinco en sus tazas de porcelana, también sabían cabalgar, cazar con arco, disparar un fusil, organizar una expedición con cientos de porteadores y construir un hogar en regiones inhóspitas. Aquí están las auténticas "Memorias de África" contadas por sus protagonistas: Mary Livingstone, Mary Slessor, Lady Juana Smith, Isabel de Urquiola, Alexine Tinne, Florence Baker, Mary Kingsley, Karen Blixen, Beryl Markham, Delia Akeley y Osa Johnson. Leyendo las aventuras de estas once mujeres -esposas de famosos exploradores, misioneras rebeldes, españolas de rompe y rasga, excéntricas aristócratas, apasionadas vividoras, cazadoras de elite y estrellas de cine-, nos sumergimos en un fascinante viaje por el África más legendaria." ENGLISH DESCRIPTION Drawings, anecdotes, and stories of the key travelers who came to Africa in the 19th and 20th centuries. Cristina Morató traveled to Africa for the first time in 1983 and ever since, she has traveled to several countries of that great continent attracted by its people and the greatness of its landscapes. Like her, a good number of extraordinary travelers and explorers have felt the "call of Africa." These ladies who, in the middle of the jungle would wear their formal dresses for dinner or for five o'clock tea in their porcelain cups, also knew how to ride, hunt with a bow and arrow, shoot a rifle, organize expeditions, and build a home in inhospitable regions. These are the authentic stories of what the movie "Out of Africa" tried to convey, told by their protagonists: Mary Livingstone, Mary Slessor, Lady Juana Smith, Isabel de Urquiola, Alexine Tinne, Florence Baker, Mary Kingsley, Karen Blixen, Beryl Markham, Delia Akeley, and Osa Johnson. By reading the adventures of these eleven women — wives of famous explorers, rebellious missionaries, take-charge type of women, eccentric aristocrats, passionate vixens, elite hunters, and movie stars

— we immerse ourselves in a fascinating journey through a legendary Africa.

CUANDO EL ROCK SE ENCUENTRA CON EL ARTE
Este libro, el primero en profundizar de manera nueva y cautivadora en todas las relaciones entre el rock y las distintas formas de arte, está dividido en ocho secciones: carátulas, pósteres, artistas y diseñadores, fotografía, objetos, cine, moda. Además de un capítulo final que explora la parte creativa (más o menos conocida) de las estrellas del rock que, a lo largo de los años, han intentado otras formas de expresión. Cada sección se explica a través de historias y anécdotas, ilustrada con imágenes a color y enriquecida con recuadros, citas y curiosidades. Porque, como dijo una vez Marilyn Manson: "El arte nunca es algo único." De Andy Warhol a Allen Ginsberg, del arte imaginativo de los Pink Floyd al grafismo psicodélico de San Francisco, de las fotos de Jim Marshall al arte documental de Martin Scorsese, pero también del corte de pelo de los Beatles a la moda grunge, de la carátula de "Sgt. Pepper's" a la de "Abraxas", de los cuadros de Joni Mitchell a las poesías de Jim Morrison, "Rock & Arte" cuenta con pasión, rigor

Cash - Man in Black 2018-06-30 Johnny Cash
Tanto en su país de origen, como fuera de él, a Johnny Cash se le ha profesado desde siempre una gran devoción: es respetado por blancos y negros, también por los nativos norteamericanos (a los que dedicó un fabuloso álbum: Bitter Tears en 1964; por sus venas corría sangre cherokee, o al menos eso es lo que a él siempre le gustó afirmar); su actitud siempre ha sido la de un hombre comprometido, pese a quien pese; hombres y mujeres, viejos y jóvenes (esto último gracias, sobre todo, a la labor de Rick Rubin en los años noventa del siglo pasado), demócratas y republicanos (todos quisieron posar a su lado: Nixon, Ford, Carter, Reagan, Bush versión 1.0, Clinton, Bush versión 2.0); estadounidenses y no tanto (maravilloso, en este sentido, el trabajo realizado por la discográfica alemana Bear Family), admiradores del country pero también de otros estilos musicales (no solo es miembro del Country Hall of Fame, el primer artista vivo que ingresó en esa prestigiosa institución, sino también del Rock&Roll Hall of Fame, único artista hasta la fecha en recibir ambos honores); creyentes y no creyentes.

Black out 2016-11-01 María Moreno La bohemia de los años 70 vista desde la mesa de los bares por los que en esa época pasaba la discusión literaria, política, filosófica y hasta sexual. Una exquisita, irreverente, trágica y deslumbrante autobiografía de época. Ganador del Premio de la Crítica al Libro 2016. Uno de los 10 libros que marcaron 2016 según The New York Times. Seleccionado entre los libros del año por Ñ Revista de cultura. Novela, memorias, retrato de época, microensayo, crónica social, diario íntimo, registro científico, desnudo, crítica, mapa: de la magistral mixtura de géneros a las fronteras entre Plaza Miserere y Barrio Norte, o a los parecidos entre Emilio, el mozo que le alcanza la cartera cuando tropieza hacia la vereda, y Georges, el barman del Ritz que ante Hemingway ignora a Scott Fitzgerald. Biberón de gauchos, borrachera de la indiada, santo de la bohemia, el alcohol que su madre doctora en Química tiñe mágicamente de rojo para alegría infantil se vuelve presagio: cuando la niña crece, su cuerpo pierde sangre y exuda whisky. En los años sesenta y setenta, el selectivo círculo de periodistas y escritores de Buenos Aires se reunía en bares. Ella escribe esos años en Black out. Con este libro excepcional, María Moreno homenajea -cuando derriba, al mito literario de su generación, que discute de política y literatura en las mesas incómodas del BárBaro en Retiro, o pontifica en el circuito La Giralda - La Paz -el Ramos de la avenida Corrientes. Mientras, en el vecino Alex Bar de Once, junto a prostitutas, obreros y desocupados, espera que se levante la cortina para combatir la resaca de la noche anterior. Reseñas: «Somos muchos los que consideramos a María Moreno la mejor cronista argentina de todos los tiempos y una de las voces documentales más lúcidas de la lengua - entre otras hipérbolos razonables. Con Black out nos ha sorprendido con una autobiografía etílica. Un libro que habla del tránsito entre el hogar familiar y el bar de los amigos, entre la adolescencia de lectora y la madurez de periodista, entre la ginebra y el whisky.» Jorge Carrión, The New York Times «Periodismo y literatura y además más y otra cosa: Black out es ensayo, anécdota autobiográfica, retrato,

Tal vez el mejor.» Ricardo Piglia «La escritura es para MM la versión amorosa de lo que eran para Foucault los archivos judiciales del siglo XVIII: el lugar problemático donde "los irrescatables" -MM dixit- son interrogados y hablados, pero así y todo hacen oír, acaso por única vez, algo parecido a una voz, una voz hecha de todo lo que nadie quiere escuchar, lo que se ningunea por idiota o irrelevante, lo que se rechaza por defectuoso, balbuceante o excéntrico.» Alan Pauls

Routledge Handbook of Transnational Organized Crime 2012-03-15 Felia Allum Transnational organized crime crosses borders, challenges States, exploits individuals, pursues profit, wrecks economies, destroys civil society, and ultimately weakens global democracy. It is a phenomenon that is all too often misunderstood and misrepresented. This handbook attempts to redress the balance, by providing a fresh and interdisciplinary overview of the problems which transnational organized crime represents. The innovative aspect of this handbook is not only its interdisciplinary nature but also the dialogue between international academics and practitioners that it presents. The handbook seeks to provide the definitive overview of transnational organized crime, including contributions from leading international scholars as well as emerging researchers. The work starts by examining the origins, concepts, contagion and evolution of transnational organized crime and then moves on to discuss the impact, governance and reactions of governments and their agencies, before looking to the future of transnational organized crime, and how the State will seek to respond. Providing a cutting edge survey of the discipline, this work will be essential reading for all those with an interest in this dangerous phenomenon.

Del arte objetual al arte de concepto 1986-01-01 Simón Marchán Fiz Aspirando a ofrecer un balance de los años 60 y sus estribaciones en la década siguiente, esta obra ahonda en la poética de cada tendencia y logra sintonizar nuestra peculiar situación cultural, artística y política con el panorama artístico internacional. Entre la información positivista y la obsesión fenomenológica por retornar a las obras mismas, Marchán Fiz rebasa todo sociologismo como realismo social, lo que transluce las preocupaciones metodológicas del momento y los estímulos estéticos en sus análisis sobre las figuras de lo moderno y en su preocupación por los lenguajes artísticos. El texto que se convertiría en legitimador de lo "nuevo" y, es ahora, un ensayo clásico sobre el periodo abordado, presenta un epílogo sobre la sensibilidad "postmoderna" junto a numerosas reproducciones y una antología de textos, que permiten contrastar las numerosas oscilaciones experimentadas por el gusto.

factors. Usually a person gets obese when he/she consumes more calories than the body burns. Also there are fifty percent chances of becoming obese when both one of the parent is obese and when obesity has affected both the parents, the chances increases to eighty percent. One percent of obese people can have that fat because of health reasons, as obesity can be caused due to few medical disorders. The causes of obesity in adolescence are overeating, family history, bad eating habits, little or no exercise, medical illness, low self esteem, medications, depression, emotional problems, stressful life, and family problem.

Obesity can cause many major problems. Some of them are diabetes, sleeping disorders, high blood pressure, breathing problems, emotional problems and increase in heart disease risk. Teenagers are more prone to get emotional problems. Because of the weight, they develop low self esteem. They get into depression, obsessive compulsion disorder and anxiety.

Adolescents who want to tackle the obesity problem should approach a pediatrician who will thoroughly evaluate the cause. If no physical disorder is to be blamed, the weight is reduced by limiting the calorie intake and increasing physical activity. The doctor can advice a weight management program and change the eating habits of the teenager, slowly. The patient must avoid oily, fatty, fast and junk food. The portions must be reduced in order to decrease the calorie intake. If the adolescent has developed emotional problems because of obesity, an adolescent psychiatrist can collaborate with the pediatrician in order to make a comprehensive plan for treatment. The plan includes reasonable goals, behavior modification, family participation, and management of physical activity.

Most acupuncturists will target the spots behind the ear when it comes to promoting weight loss. When these points behind the ear are stimulated, endorphins are released in large doses. Endorphins are called the feel-good hormones, and these are also often referred to as natural pain and fever relievers. The release of endorphins is what makes you feel better after an increased level of physical activity, as in the case of a good workout.

These bodily compounds allow the patient to experience better relaxation, thus considerably alleviating stress. There is a greater possibility of enhanced weight loss when the patient has already achieved emotional wellness. Endorphins are also released whenever the body experiences low levels of bodily pain, thus their moniker as a natural pain reliever.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

What typically happens when you go to an acupuncturist?

When you go to an acupuncturist, you would typically first be asked about your medical history, how youre feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue. According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturists diagnosis.

OCD is a sign of brain circuitry's unusual functioning and it involves the striatum part of the brain. The brain activity patterns of such people differ from normal people and people with other mental disorders. Researchers have concluded that OCD is usually a family problem and is a disorder of the

brain. Streptococcal bacterial infection can create or worsen the condition of OCD. Adolescents with no family history of OCD can also develop it. Most of the adolescents feel embarrassed to talk about their OCDs. They think that people will label them as crazy and this will make them feel ashamed. This will make it difficult for the parents to talk to their children about their OCD, in order to solve them. Parents need to develop good communication skills for this purpose. Parent's support is also very important to the adolescent. Cooperation is extremely important along with treatment, because if the problem is not treated the adolescent will grow into a disturbed adult.

Most of the adolescents with OCD can receive effective treatment. The treatment can include psychotherapy and intake of medications such as fluoxetine, clomipramine, fluvoxamine, paroxetine, sertraline and other serotonin reuptake inhibitors. When OCD is caused due to streptococcal infection, the adolescent can be administered with antibiotics to kill the bacterium which is causing it. Exposure and response prevention behavioral therapy is very useful in solving OCD. In this therapy, the adolescent is wotedly exposed to his/her fears which give him/her obsessive thought. After that he/she is trained to avoid these thoughts and the rituals which he/she carries out to tackle the anxiety.

An adolescent having OCD can also have depression, substance abuse, attention deficit hyperactivity disorder, eating disorders, and other types of anxiety disorders. When a person with OCD and other mental illness, is treated, OCD becomes more difficult to treat and even diagnose.

Behind the el cartel negro the black cartel como Cholesterol in Adolescents

Parts of adolescent's body are filled with a waxy stuff identified as cholesterol. It helps to produce vitamin D, cell membranes and certain hormones. Blood cholesterol comes from two different sources, liver within the body and food. The adolescent's liver produces enough cholesterol to carry out proper functioning.

The blood acts as the carrier of cholesterol and transports it to different parts of the body. They are transported in round particle form known as lipoproteins. There are two types of lipoproteins called the low density lipoproteins or LDL and high density lipoproteins or HDL. Low density lipoprotein or LDL cholesterol is commonly known as bad cholesterol. It helps in the building up of plaque in arteries and this condition is known as atherosclerosis. The LDL level must be low in the blood and if it is high it must be decreased. Healthy weight must be maintained and exercise should be done regularly.

Food items which have high contents of calories, dietary cholesterol and saturated fat must be

avoided.

High density lipoprotein or HDL cholesterol is the good cholesterol. It is actually a kind of fat in blood which helps to remove bad cholesterol from the body and stops the build up of plaque in the arteries. The more the HDL cholesterol in the blood the better it is. The HDL can be raised by at least twenty minutes of exercising daily, decreasing body mass and keeping away from food with saturated fat. Some adolescents need to take medications in order to increase HDL. In such cases, increasing HDL can be a complicated procedure and the physician can make a therapeutic plan to increase HDL in the blood stream.

One of the foremost effects of acupuncture on the body is relaxation. Stress is frequently pinpointed as the main precursor for a host of physical ailments. There are particular points all over the body that direct the flow of harmony and relaxation and when these are enthused, the patient becomes more at ease.

Another positive effect of this alternative therapy is increased pain control. During a session, a patient will usually feel very minimal pain as the thin needles are being inserted gradually. However, the needles are deliberately placed in varying depths, depending on the health requirements of the patient. When the needles reach the right depth, the patient will feel deeper pain, although the entire procedure is not necessarily painful.

It is also recommended for relief from chemotherapy fatigue as well as chemotherapy-related nausea. It has also been found to be largely effective for back pains, migraines, menstrual cramps, and as a pain controller for patients after undergoing surgical operations.

How does sticking needles into your body help manage the stress?

In traditional Chinese medicine, much of the treatments depend on an understanding of the balance in our bodies and its internal organs. The sicknesses we sometimes develop are seen to be caused by imbalances in our lifestyles and environment. Stress is also affected by this imbalance. That is why when there is something wrong with your body, you typically have less of an ability to deal with stress. You get more irritable and find it really difficult to relax.

By sticking these very thin needles past the surface of our skin, the acupuncturist stimulates nerves in our body. These nerves send signals to our brain and scientists believe that the brain then releases its natural painkillers into our system. This immediately causes a feeling of relaxation for many people. The needles could also help your body by stimulating its circulation. With the circulation between the organs of the body improved, a lot of the body's wastes could be cleansed properly. Your organs would also receive the full benefit of the oxygen from your lungs making its way into the cells of your body without any blockages. This makes your organs much healthier and leaves you feeling much better in the long term as well.

The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to brush carefully with soft bristles toothbrush and fluoride toothpaste. In the morning, the adolescent must floss between the braces and teeth. Food stuffs which are sticky or hard must be avoided as they are very difficult to remove. Foods like caramel, chew candy, popcorn, and nuts must be avoided. Cleaning must be done by the orthodontist or general dentist, every five to six months.

The wisdom teeth or third molars can grow in people of the age fifteen to twenty five. These teeth cause problem, because most of the mouths are too small to adjust new teeth and hence they need to be removed. If the wisdom tooth has place to grow, without affecting other teeth, they can be left to themselves. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. They can also destroy the second molars and impact other tooth. Various gum and jaw diseases can be caused. There can be a tumor development; cysts development and plaque build up. Hence, a surgery is performed to remove the tooth or teeth. The gum tissue covering the wisdom tooth is removed and the connective tissue connecting the tooth to the bone is detached. The tooth is then removed and the opening is sutured. A general dentist can perform wisdom tooth surgery in the local office using anesthesia.

Five times common than asthma is tooth cavities. The tooth above the gum line is made up of

enamel, the hardest tissue within the human body. The tooth below the gum-line comprise of nerves, roots and dentin. Dentin is another type of tissue and isn't as hard as the enamel. The acid which leads to tooth decay is produced by bacteria. These acids, along with dietary sugar, attach the enamel and eat away the minerals within the enamel, until a cavity is formed. This is known as tooth cavity. The biggest prevention against dental cavities is brushing teeth twice a day and even better, after every meal with fluoride toothpaste and soft bristle toothbrush. Carbonated drinks must be avoided strictly and must be replaced with fruit juices and sugary food must be avoided. Intake of fluoridated water also helps a lot or fluoride supplements can be used as replacement.

Using needles to adjust bodily functions to optimum levels is the principle behind acupuncture. Both ancient Chinese and modern Western practitioners have used this technique to relieve many sufferers of chronic disease. Needling is a relatively safe, beneficial treatment strategy that can be used to reduce pain, improve healing, and increase general well-being. There are two broad categories of acupuncture practice today, traditional Chinese medicine (TCM) and medical acupuncture. Both have their merits, so the choice is individual. Fifth, medical doctors do not believe in the potential of alternative medicine. This is not true because there are more doctors these days that are open to the idea that there are other ways to help patients aside from conventional medicine. In fact, some of them even recommend an acupuncturist if they know that what they have done is not effective.

Another myth is that every patient will undergo the four needle technique. This is not true and it will only be used when the specialist feels that the energy of the patient is virtually not moving as a last resort.

The seventh myth is that it is better for a medical doctor to perform acupuncture. This is wrong because the training is much different than that taught in medical school. Students who have an acupuncturist license train for 3,000 hours before they are allowed to practice this profession. So between an acupuncturist and a medical doctor, you should go with someone who has learned about this much longer.
