The book "Analyzing Casual Conversation" by Suzanne Egins and Diana Slade, originally released in 1997, creates a organized model for the analysis and portrayal of casual conversation in English. The writers contend that in spite of its occasionally aimless look and apparently unstructured material, casual conversation is a very structured activity and performs a vital part in the social building of reality. The work proceeds through genuine instances of casual conversations including participants varying in age, gender, ethnicity, and socio-economic class12. Deriving on perspectives from sociology, linguistics, and critical semiotics, the book provides readers with the analytical skills to describe the layers of structure and critical interpretive structures to clarify the ‘social work’ that occurs on through chat.
