La scelta di essere. Strumenti per ritrovare il cammino verso noi stessi 2017-10-16 Maria Cristina Franzoni Rivolgendo lo sguardo al passato per cercare di comprendere in che punto si trovi oggi l’umanità, con la consapevolezza del presente, emergono tre grandi macro fasi che si mescolano l’una con l’altra ma che al tempo stesso delineano chiaramente l’evoluzione del modo con cui gli esseri umani stanno affrontando l’esperienza su questo pianeta. La prima fase è quella in cui l’uomo si impegna nel progetto di controllo e dominio della Natura. La seconda fase si sviluppa invece a partire della rivoluzione industriale in cui l’uomo si cimenta in modo più articolato nel controllo e nel dominio dell’uomo sull’uomo. La terza fase, quella nella quale ci troviamo, è guidata invece dalla evoluzione tecnologica rapidissima che ci vede delegare alla macchina, in modo sempre più massiccio, le nostre stesse funzioni umane. La caratteristica di questa fase è fondamentalmente il tentativo del controllo e dominio della natura stessa dell’uomo. Dall’ascolto del corpo con l’alimentazione fisiologica alcalina, alla conoscenza e il rispetto del proprio sé attraverso il lavoro emozionale, passando dalle informazioni che la fisica quantistica ci offre per una visione più profonda della nostra appartenenza. Questo libro si colloca nella direzione di riprendere la comunicazione interrotta o claudicante, con la nostra natura umana, con la verità che abita in noi stessi, recuperando la conoscenza di leggi che governano la nostra esistenza ma a cui in genere non portiamo un’attenzione consapevole.

Tempo di Guarire 2016-11-08 Beata Bishop “Avrei dovuto morire per un melanoma maligno più o meno nel giugno del 1981. Oggi non solo sono perfettamente in salute, ma anche piena di energia.” Beata BishopLa vita di Beata Bishop cambia improvvisamente e inaspettatamente quando scopre che il neo sulla sua gamba è un melanoma maligno, tra i vari tipi di cancro uno di quelli che si estende e diffonde più velocemente. Decide allora di sottoporsi a un intervento chirurgico molto doloroso, che le lascia una gamba sfigurata, perché le viene detto che così non avrà più problemi e si potrà lasciare questa brutta avventura alle spalle. Ma nel giro di un anno il cancro si diffonde nel sistema linfatico e Beata viene posta di fronte a due alternative: sottoporsi a un altro intervento chirurgico con esiti incerti, oppure non fare nulla e aspettare di morire in un qualunque momento in un periodo compreso tra le sei settimane e i sei mesi successivi.Beata rifiuta entrambe le opzioni, e sceglie invece un trattamento alternativo sviluppato da un famoso medico tedesco, il Dottor Max Gerson. La sua terapia, basata su una nutrizione ottimale e sulla disintossicazione, le piace fin da subito, proprio perché mira a rimettere in salute il corpo e il suo sistema immunitario danneggiato, di modo che sia esso stesso a combattere contro la malattia e a distruggerla. Prendendo in mano il destino della propria vita, decide di trascorrere due mesi nell’unica clinica Gerson esistente al mondo, in Messico, imparando la teoria e la pratica di questa terapia intensiva, che poi prosegue per due anni a Londra.Saranno anni di lavoro duro, ma oggi, trentaquattro anni dopo, lei è in piena forma e salute, e si gode la vita al massimo. Questo libro è una preziosa testimonianza di coraggio e determinazione, e ci presenta un metodo sorprendentemente efficace per trattare malattie croniche - un metodo la cui validità viene sempre più confermata da recenti ricerche in campo medico.

There Is a Cure for Diabetes, Revised Edition 2013-04-09 Gabriel Cousens, M.D. Written to provide hope, serious results, and life-long success to diabetes sufferers, this updated edition offers insight into anti-aging, holistic health, how to revitalize your diet, and more Dr. Gabriel Cousens offers an innovative approach to the prevention and healing of what he calls chronic diabetes degenerative syndrome. A leading medical authority in the world of live-food nutrition, Dr. Cousens exposes the dangers of excess glucose and fructose as the key causes of this seemingly unstoppable epidemic that affects more than 25 million Americans and 347 million people worldwide. Cousens, whose Diabetes Recovery Program is the most successful anti-diabetes program in the world, presents a 3-week plan that focuses on a moderate-low complex carbohydrate, live food, plant-source-only diet that reverses diabetes to a physiology of health and well-being by resetting the genetic expression of a person’s DNA. The program renders insulin and related medicines unnecessary within 4 days as the blood sugar drops to normal levels, and the diabetic shifts into a nondiabetic physiology within 2 weeks. Substantially revised throughout, this practical and encouraging guide reveals the risks of low cholesterol and low omega-3s in one’s diet and includes more than 140 delicious and healthy recipes. The book represents a major breakthrough in understanding the synergy that helps cure diabetes.

UGUAGLIANZIOPOLI L'ITALIA DELLE DISUGUAGLIANZE Antonio Giangrande E’ comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E’ facile scrivere “C’era una volta....” e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere “C’è adesso....” e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l’aiuto cercato non lo concederanno mai. “Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente”. Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l’immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Cancer Can Be Cured! 2008-11-24 Father Romano Zago Father Romano Zago, a Franciscan Friar and scholar, wrote the book Cancer Can Be Cured to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of Aloe Arborescens and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande dol Sul , Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little known potency

The Body and Its Symbolism 2015-11-01 Annick de Souzaelle This intricate and profound exploration of Kabbalistic symbolism as applied to the human body is a classic in French esoteric circles. It is the life work of psychotherapist Annick de Souzaelle, whose tremendous depth of thought has been partially inspired by the depth psychology of C. G. Jung. De Souzaelle incorporates the symbolism of the Hebrew language with biblical references and her

understanding of Kabbalistic spirituality to present the Kabbalistic tree of life as a pattern of the human body in all its various parts and vital organs, from the bottom of the feet to the top of the head. Not only is hers an important work in the field, it also affords some flavor of the rich French esoteric tradition. The Body and Its Symbolism will be sought after by advanced students of the Western esoteric traditions, especially Kabbalah.

The Cosmic Hologram 2017-02-16 Jude Currivan How holographic patterns of information underlie our physical reality • 2017 Nautilus Silver Award • Includes myriad evidence from a wide range of cutting-edge scientific discoveries showing our Universe is an interconnected hologram of information • Explains how consciousness is a major component of the cosmic hologram of information, making us both manifestations and co-creators of our reality • Reconciles Quantum Mechanics and Einstein’s Theory of Relativity by showing that energy-matter and space-time are complementary expressions of information Our understanding of the Universe is about to transform at all levels, from the tiniest Planck scale to the vast reaches of space. Recent scientific discoveries show that the information that upholds all of our modern technologies is exactly the same as the universal in-formation that underpins, pervades, and is all we call physical reality. Exploring how information is more fundamental than energy, matter, space, or time, Jude Currivan, Ph.D., examines the latest research across many fields of study and many scales of existence to show how our Universe is in-formed and holographically manifested. She explains how the fractal in-formational patterns that guide behavior at the atomic level also guide the structure of galactic clusters in space. She demonstrates how the in-formational relationships that underlie earthquakes are the same as those that play out during human conflicts. She shows how cities grow in the same in-formational ways that galaxies evolve and how the dynamic in-formational forms that pervade ecosystems are identical to the informational structures of the Internet and our social behaviors. Demonstrating how information is physically real, the author explores how consciousness connects us to the many interconnected layers of universal in-formation, making us both manifestations and co-creators of the cosmic hologram of reality. She explains how Quantum Mechanics and Einstein’s Theory of Relativity can at last be reconciled if we consider energy-matter and space-time as complementary expressions of information, and she explores how the cosmic hologram underlies the true origin of species and our own evolution. Concurring too with ancient spiritual wisdom, the author offers solid evidence that consciousness is not something we “have” but the fundamental nature of what we and the entire Universe are. With this understanding, we can each transform our own lives and help co-create and in-form the world around us.

Anticancer Living 2019-05-07 Lorenzo Cohen PhD “The health-care revolution continues . . . an accessible, science-based approach to wellness.” —Andrew Weil, MD What if we could make basic, sustainable lifestyle changes that could prevent us from getting cancer? What if those with cancer could improve their chances of living long, vibrant lives? The evidence is now clear: at least 50 percent of cancer deaths can be prevented by making healthy lifestyle changes. But many—patients and doctors included—still don’t realize the simple changes we can make to increase chances of survival, or aid in the healing process for those with a diagnosis. Introducing the concept of the "Mix of Six," Lorenzo Cohen and Alison Jefferies make an informed case that by focusing on six key areas of health and wellness, you can support treatment or reduce your risk for developing cancer altogether. An accessible, prescriptive guide to wellness based on the latest scientific findings, Anticancer Living outlines a path to radically transform health, delay or prevent many cancers, support conventional treatments, and significantly improve quality of life. “Anticancer Living will empower millions of people with information they can use to reduce their risk of getting cancer and improve their chances of surviving a cancer diagnosis. Highly recommended!” —Dean Ornish, MD, author of The Spectrum

Conoscere per vivere 2018-05-04T00:00:00+02:00 Giovanni Boniolo Se si avesse un po’ più di conoscenza di certi fatti, di certe teorie, di certe opportunità, di certe tecniche di ragionamento corretto, forse il nostro vivere e morire meglio o peggio non sarebbe totalmente lasciato al caso. Forse potremmo affrontare gli eventi in modo migliore e decidere con più consapevolezza. Forse potremmo non cadere vittime di imbonitori e di cialtroni in cattiva fede che millantano un sapere che non hanno e il cui unico fine è una vita migliore per loro, a spese di una vita peggiore per noi. Ma, ricordiamolo, il successo delle loro azioni fraudolente è dovuto alla nostra incapacità di riconoscerli come tali poiché non conosciamo quei fatti, quelle teorie, quelle opportunità, quelle tecniche di ragionamento corretto che, altrimenti note, ci consentirebbero di riconoscerli e di bandirli dalle nostre vite, almeno il più che possiamo, almeno finché possiamo.

Historical Atlas of Medieval Music 2020-11-03 Vera Minazzi Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of storico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

Materia Medica for Various Cancers 2011-10-20 William C.S. Cho Cancer is one of the leading killers in the world and the incidence is increasing, but most cancer patients and cancer survivors suffer much from the disease and its conventional treatments’ side effects. Medicine Upside Down 2013-03-01 Giorgio Mambretti Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition against him is

because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an attempt of the brain to fix (which means to heal) some emotional traumas? This is the only book available in Italy which is really up-to-date and comprehensive, very clear and supported by some brilliant cartoons: all these qualities have turned it into a real best seller. At long last a book on Dr Hamers new Germanic Medicine that is both really easy-to-read and comprehensive. Helping Kids in Crisis 2015-04-01 Fadi Haddad Helping Kids in Crisis: Managing Psychiatric Emergencies in Children and Adolescents provides expert guidance to practitioners responding to high-stakes situations, such as children considering or attempting suicide, cutting or injuring themselves purposely, and becoming aggressive or violently destructive. Children experiencing behavioral crises frequently reach critical states in venues that were not designed to respond to or support them -- in school, for example, or at home among their highly stressed and confused families. Professionals who provide services to these children must be able to quickly determine threats to safety and initiate interventions to deescalate behaviors, often with limited resources. The editors and authors have extensive experience at one of the busiest and best regional referral centers for children with psychiatric emergencies, and have deftly translated their expertise into this symptom-based guide to help non-psychiatric clinicians more effectively and compassionately care for this challenging population. The book is designed for ease of use and its structure and features are helpful and supportive: The book is written for practitioners in hospital or community-based settings, including physicians in training, pediatricians who work in office-based or emergency settings, psychologists, social workers, school psychologists, guidance counselors, and school nurses -- professionals for whom child psychiatric resources are few. Clear risk and diagnostic assessment tools allow clinicians working in settings without access to child mental health professionals to think like trained emergency room child psychiatrists--from evaluation to treatment. The content is symptom-focused, enabling readers to swiftly identify the appropriate chapter, with decision trees and easy-to-read tables to use for quick de-escalation and risk assessment. A guide to navigating the educational system, child welfare system, and other systems of care helps clinicians to identify and overcome systems-level barriers to obtain necessary treatment for their patients. Finally, the book provides an extensive review of successful models of emergency psychiatric care from across the country to assist clinicians and hospital administrators in program design. An abundance of case examples of common emergency symptoms or behaviors provides professionals with critical, concrete tools for diagnostic evaluation, risk assessment, decision making, de-escalation, and safety planning. Helping Kids in Crisis: Managing Psychiatric Emergencies in Children and Adolescents is a vital resource for clinicians facing high-risk challenges on the front lines to help them intervene effectively, relieve suffering, and keep their young patients safe.

There are many medical risks associated with adolescent pregnancies. Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.
