Changing Agency Policy

2003 Ann Rae This text presents an action-strategy model of social change that social workers can use to impact the policy process at the agency level to benefit clients. Social workers must learn to advocate changes in policy at the agency level in order to benefit and empower consumers of social services. The action-strategy model will be useful for all social workers whether they are intervening at the agency level or at larger social systems such as regional or state levels. Value issues, ethical considerations, and diversity permeate every aspect of policy making, from formulation of the initial idea to implementation of a new policy. This book discusses values and diversity inherent in the agency policy change process, as well as how these relate to professional social work values.

Clinical Work and Social Action

2013-04-03 Fred A Newcom Clinical Work and Social Action: An Integrative Approach develops a paradigm for social work and human services practice that integrates clinical work and social action. Social workers, clinicians, activists, and educators will explore ways to create harmony in the divisions that currently exist between values, theory, and practice, thereby reducing conflicts in their work. This book identifies central values and selected theoretical ideas for a new model of work that you can adapt to your practice setting. Separate chapters include case material related to work with people of color, work with oppressed populations, and classroom teaching. Clinical Work and Social Action connects the historic split between clinical work and social action to better serve the people with whom you work. Through Clinical Work and Social Action, you will find valuable suggestions and insights into how you can integrate values, theory, and practice as the basis for a new model of work. The book includes topics such as: exposing the myth that "politics" has no place in practice with individual clients and families and demonstrates that all practice is political examining a new paradigm for practice that encourages change at the individual, agency, and social policy levels demonstrating the importance of Paulo Freire's ideas about dialogical praxis to social welfare work teaching a model of practice that facilitates and promotes involvement and open dialogue with people in the community and students in the classroom offering insight into how you can respond to the full range of your clients' concerns, such as racism, classism, homophobia, domestic violence, homelessness, disabilities, and emotional difficulties exploring how your values, theories, training and experience affect the choice of interventions you make with individuals, groups, and families To bridge the gap between clinical work and social action, you must develop a practice that includes the possibility of social change. With Clinical Work and Social Action, you will find many case studies and examples to help you do just that. This informative book provides you with ways to work with clients to bring about individual and social change and offers strategies for creating change in social agencies and communities.

Teacher Agency and Policy Response in English Language Teaching

2016-08-05 Patrick C. L. Ng The role of English in the global arena has prompted official language-in-education policy makers to adopt language education policies to enable its citizens to be proficient in English and to access knowledge. Local educational contexts in different countries have implemented English education in their own ways with different pedagogical goals, motivations, features and pedagogies. While much of the research cited in English language planning policy has focused on macro level language policy and planning, there is an increasing interest in micro planning, in particular teacher agency in policy response. Individual teacher agency is a multifaceted amalgam, not only of teachers' individual histories, professional training, personal values and instructional beliefs, but also of how these interact with local interpretations and appropriations of policy. Teacher Agency and Policy Response in English Language Teaching examines the agency of the teacher in negotiating educational reforms and policy changes at the local and national levels. Chapters in the book include: English language teaching in China: teacher agency in response to curricular innovations Incorporating academic skills into EFL curriculum: teacher agency in response to global mobility challenge Teacher agency, the native/nonnative dichotomy, and "English Classes in English" in Japanese high Schools Teacher-designed high stakes English language testing: washback and impact This book will appeal to researcher across all sectors of education, in particular key stakeholders in curriculum and language planning. Those interested in the latest development of English language teaching will also find this book a valuable resource.

The Individualization of Chinese Society

2020-08-19 Yunxiang Yan Chinese society has seen phenomenal change in the last 30 years. Two of the most profound changes have been the rise of the individual in both public and private spheres and the consequent individualization of Chinese society itself. Yet, despite China's recent dramatic entrance into global politics and economics, neither of these significant shifts has been fully analysed. China may indeed present an alternative model of social transformation in the age of globalisation - so its path to development may have particular implications for the developing world.The Individualization of Chinese Society reveals how individual agency has been on the rise since the 1970s and how this has impacted on everyday life and Chinese society more broadly. The book presents a wide range of detailed case studies - on the impact of economic policy, patterns of kinship, changes in marriage relations and the socio-economic position of women, the development of youth culture, the politics of consumerism, and shifting power relations in everyday life.

Education and Youth Agency

2016-09-01 Joan G. DeJaeghere This book offers a comprehensive overview of studies on youth agency across various parts of the world. It explores diverse perspectives on education, citizenship and future livelihoods, modernity and tradition, gender equality, and social norms and transformations as they relate to how young people construct their agency. Drawing on case studies of young women and men from Africa, the Americas and South Asia, this book illustrates the different ways in which education affects youth's beliefs, engagement, action, and identities in broader historical, social, cultural, economic, and political contexts. Chapters argue for education as a potential force for equity and explore how both formal schooling and informal educational programs may challenge and inspire youth through individual and collective action to change the social conditions affecting their lives and their communities. The global nature of this book gives readers a deeper understanding of youth agency as a dynamic process in relation to changing economic, political, and social environments. Featured topics include: The role of community context and relationships in shaping U.S. youth's citizen agency. Malala Yousafzai and media narratives of girls' education within Islam and modernity. Social capital, sexual relationships, and agency for Tanzanian youth. Boys' agency toward higher education in urban Jamaica. Children's economic agency in Kanchipuram, India. Vocational training and agency among Kenyan youth. Education and Youth Agency is an essential resource for researchers, educators, practitioners, and undergraduate and graduate students across such related disciplines as developmental psychology, international and comparative education, family studies as well as public health, educational policy and politics, youth studies, and social policy.

Individual Agency and Policy Change at the United Nations

2015-03-24 Ingvild Bode This book highlights how temporary international civil servants play a crucial role in initiating processes of legal and institutional change in the United Nations system. These individuals are the "missing" creative elements needed to fully understand the emergence and initial spread of UN ideas
Individual Agency And Policy Change At The United Nations The People Of The United Nations Routledge Research On The United Nations Un Pdf Pdf upload Caliva n Hayda

such as human development, sovereignty as responsibility, and multifunctional peacekeeping. The book: Shows that that temporary UN officials are an actor category which is empirically crucial, yet usually neglected in analytical studies of the UN system. Focussing on these particular individual actors therefore allows for a better understanding of complex UN decision-making. Demonstrates how these civil servants matter, looking at what their agency is based on. Offering a new and distinctive model, Bode seeks to move towards a comprehensive conceptualisation of individual agency, which is currently conspicuous for its absence in many theoretical approaches that address policy change Uses three key case studies of international civil servants (Francis Deng, Mahbub ul Haq and Marrack Goulding) to explore the possibilities of this specific group of UN individuals to act as agents of change and thereby test the prevailing notion that international bureaucrats can only act as agents of the status quo. This book will be of great interest to students and scholars of international organizations and the United Nations.

The Changing Architecture of Politics

1990-04 Philip G Cerny This analysis offers an explanation of the changing nature of the state. The author argues that despite the emergence of transnational structures, the architecture of politics is not moving beyond the nation-State.

Leading Representatives

2007-09-28 Randall Strahan Many studies of Congress hold that congressional leaders are "agents" of their followers, ascertaining what legislators agree on and acting to advance those issues rather than stepping to the forefront to shape national policy or the institution they lead. Randall Strahan has long argued that this approach to understanding leadership is incomplete. Here he demonstrates why and explores the independent contributions leaders make in congressional politics. Leading Representatives is a study that draws on both historical and contemporary cases to show how leaders in the U.S. House have advanced changes inside Congress and in national policy. Exploring the tactics, tenure, and efficacy of the leadership of three of the most colorful and prominent Speakers of the House—Henry Clay, Thomas Reed, and Newt Gingrich—Strahan finds that these men, though separated in time and of differing thought and actions, were all leaders willing to take political risks to advance goals they cared about deeply. As a result, each acted independently of his followers to alter the political landscape. Strahan makes use of a wide range of resources, including the former representatives' papers and correspondence and interviews with Gingrich and his staffers, to demonstrate how these important leaders influenced policy and politics and where they ran aground. In expounding lessons Strahan has gleaned over two decades of studying U.S. legislative politics, Leading Representatives offers a new theoretical framework—the conditional agency perspective—that effectively links contextual perspectives as applied to congressional leadership with those emphasizing characteristics of individual leaders. This engagingly written book will be of interest to political scholars of all stripes as well as readers inclined to learn more about the history and inner workings of the House.

The field of Engineering Economics and Cost Estimation is a crucial aspect of any engineering project. It involves current and upcoming economic factors, making it vital to obtain dependable estimates of future costs, benefits, and other economic parameters. Engineers regularly deal with projects whose scale, complexity, and uncertainty call for complex approaches to planning and budgeting^[1]. Several methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates^[2]. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Several models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate usually increases as the resources allocated to developing the estimate increase.
