The Science of Happiness
Happiness is one of the most sought-after and elusive goals of human existence. We all want to be happy, but how do we achieve it? What are the factors that influence our happiness? How can we measure it? How can we enhance it? This book aims to answer these questions, by presenting the science of happiness. It will introduce the main theories and models of happiness, the methods and tools of measuring and assessing happiness, the findings and discoveries of happiness research, and the applications and interventions of happiness promotion. It will also provide practical tips and advice for readers, on how to increase their happiness and well-being, based on scientific evidence and principles.
