Death Waits in the Dark

2020-08-04 Mark Edward Langley It took all of thirty seconds for two shots to bring the world of Margaret Tabaaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

The Art of Photography, 2nd Edition

2017-04-12 Bruce Barnbaum This is an updated and newly revised edition of the classic book The Art of Photography: An Approach to Personal Expression. Originally published in 1994 and first revised in 2010, The Art of Photography has sold well over 100,000 copies and has firmly established itself as the most readable, understandable, and complete textbook on photography. Featuring nearly 200 beautiful photographs in both black-and-white and color, as well as numerous charts, graphs, and tables, this book presents the world of photography to beginner, intermediate, and advanced photographers who seek to make a personal statement through the medium of photography. Without talking down to anyone or talking over anyone's head, renowned photographer, teacher, and author Bruce Barnbaum presents how-to techniques for both traditional and digital approaches. In this newest edition of the book, Barnbaum has included many new images and has completely revised the text, with particular focus on two crucial chapters covering digital photography: he revised a chapter covering the digital zone system, and includes a brand-new chapter on image adjustments using digital tools. There is also a new chapter discussing the concepts of "art versus technique" and "traditional versus digital" approaches to photography. Throughout the book, Barnbaum goes well beyond the technical, as he delves deeply into the philosophical, expressive, and creative aspects of photography so often avoided in other books. Barnbaum is recognized as one of the world's finest landscape and architectural photographers, and for decades has been considered one of the best instructors in the field of photography. This latest incarnation of his textbook—which has evolved, grown, and been refined over the past 45 years—will prove to be an ongoing, invaluable photographic reference for years to come. It is truly the resource of choice for the thinking photographer. Topics include: • Elements of Composition • Visualization • Light and Color • Filters • Black-and-White • The Digital Zone System • The Zone System for Film • Printing and Presentation • Exploding Photographic Myths • Artistic Integrity • Realism, Abstraction, and Art • Creativity and Intuition • A Personal Philosophy • And much, much more...

The Photographer's Guide to Posing

2017-05-03 Lindsay Adler When photographing people, you can have a great composition, perfect light, and the right camera settings, but if your subject doesn't look right—if the pose is off—the shot will not be a keeper. Posing is truly a crucial skill that photographers need to have in order to create great photographs. If you're looking to improve your ability to pose your subjects—whether they're men, women, couples, or groups—best-selling author and photographer Lindsay Adler's The Photographer's Guide to Posing: Techniques to Flatter Everyone is the perfect resource for you. In the first half of The Photographer's Guide to Posing, Lindsay discusses how the camera sees, and thus how camera angle, lens choice, and perspective all affect the appearance of your subject. Lindsay then covers things that ruin a pose—such as placement of the hands, and your subject's expression and posture. Next, Lindsay dives into "posing essentials," outlining her approach to start with a "base pose," then build on that to create endless posing opportunities. She also discusses posing the face—with specific sections dedicated to the chin, jaw, eyes, and forehead—as well as posing hands. In the second half of the book, Lindsay dedicates entire chapters to posing specific subject matter: women, men, couples, curvy women, families and small groups, and large groups. In each chapter, Lindsay addresses that subject matter's specific challenges, provides "go-to poses" you can always use, and covers how to train the eye to determine the best pose for your subject(s). Lindsay also teaches you how to analyze a pose so that you can create endless posing opportunities and continuously improve your work.

Ben Huff

2014 Completed in 1974, Alaska's Dalton Highway is the northernmost road in America. At 414 miles, the predominantly dirt road follows the upper half of the Trans-Alaska Pipeline, and is maintained exclusively as the transportation route for the oil fields at Prudhoe Bay. Alaskan photographer Ben Huff followed the road in search of the Alaskan frontier. What he found, was a complex landscape - the physical and psychological line between wilderness and oil. He has created a melancholy portrait of a space that asks us to reconsider our perception of frontier.
