The Law of Interactions Between International Organizations

2021-02-02 Henner Gött The book analyses how international law addresses interactions between international organizations. In labour governance, these interactions are ubiquitous. They offer each organization an opportunity to promote its model of labour governance, yet simultaneously expose it to adverse influence from others. The book captures this ambivalence and examines the capacity of international law to mitigate it. Based on detailed case studies of mutual influence between the International Labour Organization, the World Bank, and the Council of Europe, the book offers an in-depth analysis of the pertinent law and its key challenges, both at institutional and inter-organizational level. The author envisions a law of inter-organizational interactions as a normative framework structuring interactions and enhancing the effectiveness and legitimacy of multi-institutional governance.

Inter-Organizational Relationships

2014-10-30 Cecilia Rossignoli This book explores the premise that organizations are significantly influenced by their inter-organizational relationships; moreover, these relationships may generate important externalities, both positive and negative, impacting the environment at several levels. The advent of the Internet era, on the other hand, has resulted in disruptive changes in traditional inter-organizational networks, and some completely new inter-organizational settings are now arising. In its first part the book reviews the most commonly cited theories explaining inter-organizational phenomena: transaction costs economics, agency theory, resource dependence theory, game theories, collaborative networks theory, institutional theories, organizational ecology, resource-based / relational-based view of the firm, and knowledge network / social network theories. In Part II it thoroughly reviews the literature on a number of key IT-enabled inter-organizational systems currently on the rise, such as virtual organizations, e-intermediators and e-marketplaces. Lastly, Part III presents the case of the Yoox Group, a leading firm offering e-commerce services for fashion and design products. A framework is proposed for systematically linking the different possible types of inter-organizational relationships to specific, suitable sets of theories. The range of possible inter-organizational relationships is described on the basis of three pairs of opposites: conformism-breach, exploitation-exploration, and cooperation-competition. This results in a model that makes it possible to combine different theories in order to study the effects of inter-organizational ambidexterity and dynamism on performance.

First Love that Never Fades

Anna could never erase from memory her first love, Leo. Their paths had crossed when they were both 16, at a magical summer camp. They were drawn to each other like magnets, spending every day exchanging lighthearted banter, exchanging heartfelt thoughts, and sharing stolen kisses. Their bond was indestructible, and they vowed to keep in touch, to wait for each other, and to never let their love fade. But life, as it often does, had a different path in store for them. They lost contact, they moved on with their lives, and they eventually married other people. Years passed, and the hustle and bustle of life took them in different directions. But fate, it seems, had not forgotten their unwavering connection. At a chance encounter, at a nostalgic reunion, their paths crossed once again. The moment they laid eyes on each other, the embers of their affection rekindled. The same undeniable attraction that had drawn them together years ago was still palpable. They felt the same thrill that had fueled their teenage romance, but they also felt the weight of time. Their souls ached for the deep connection they had shared, but their minds grappled with the challenges of their current lives. They were caught in a tug-of-war, torn between the passion of their past and the comfort and familiarity of their present. They stood at a critical juncture, forced to make a heartbreaking choice. Would they choose the all-consuming passion of their first love, risking the unpredictability that lay ahead, or would they hold onto the security of their current lives, forever wondering what could have been? Only time would tell if their unbreakable bond would overcome the challenges.
