Manual of Romance Languages in Africa 2023-12-18 Ursula Reutner With more than two thousand languages spread over its territory, multilingualism is a common reality in Africa. The main official languages of most African countries are Indo-European, in many instances Romance. As they were primarily brought to Africa in the era of colonization, the areas discussed in this volume are thirty-five states that were once ruled by Belgium, France, Italy, Portugal, or Spain, and the African regions still belonging to three of them. Twenty-six states are presented in relation to French, four to Italian, six to Portuguese, and two to Spanish. They are considered in separate chapters according to their sociolinguistic situation, linguistic history, external language policy, linguistic characteristics, and internal language policy. The result is a comprehensive overview of the Romance languages in modern-day Africa. It follows a coherent structure, offers linguistic and sociolinguistic information, and illustrates language contact situations, power relations, as well as the cross-fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa.

Dictionary of Languages 2015-10-28 Andrew Dalby Covering the political, social and historical background of each language, Dictionary of Languages offers a unique insight into human culture and communication. Every language with official status is included, as well as all those that have a written literature and 175 'minor' languages with special historical or anthropological interest. We see how, with the rapidly increasing uniformity of our culture as media's influence spreads, more languages have become extinct or are under threat of extinction. The text is highlighted by maps and charts of scripts, while proverbs, anecdotes and quotations reveal the features that make a language unique.

Children of Hope 2018-08-20 Sandra Rowoldt Shell In Children of Hope, Sandra Rowoldt Shell traces the lives of sixty-four Oromo children who were

enslaved in Ethiopia in the late-nineteenth century, liberated by the British navy, and ultimately sent to Lovedale Institution, a Free Church of Scotland mission in the Eastern Cape, South Africa, for their safety. Because Scottish missionaries in Yemen interviewed each of the Oromo children shortly after their liberation, we have sixty-four structured life histories told by the children themselves. In the historiography of slavery and the slave trade, first passage narratives are rare, groups of such narratives even more so. In this analytical group biography (or prosopography), Shell renders the experiences of the captives in detail and context that are all the more affecting for their dispassionate presentation. Comparing the children by gender, age, place of origin, method of capture, identity, and other characteristics, Shell enables new insights unlike anything in the existing literature for this region and period. Children of Hope is supplemented by graphs, maps, and illustrations that carefully detail the demographic and geographic layers of the children's origins and lives after capture. In this way, Shell honors the individual stories of each child while also placing them into invaluable and multifaceted contexts.

Historical Dictionary of Ethiopia 2004-03-29 Thomas P. Ofcansky Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and intrigue of this truly significant African nation. Historical Dictionary of Ethiopia appeals to all levels of readers, providing entries for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision , debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland, Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has been placed on including both new and old materials covering all facets of Ethiopia, organized for easy identification by areas of major interest.

Afaan Oromo As Second Language 2013-08-05 Ibsaa Guutama The earliest registered civilization is probably the civilization of Cushitic speaking peoples spearheaded by ancient Egypt. The Oromo are of the Cushitic speaking stock. Missing links of that civilization are hoped to be found in the language and culture of the Oromo nation of East Africa. African Philosophy in an Intercultural Perspective 2022-05-18 Anke Graneß African philosophy under the specific conditions of a colonial and postcolonial world is – at least since the 20th century if not even earlier – inherently intercultural. The aim and target of the volume is to reveal, interrogate and analyse the intercultural dimension in African philosophy, and to critically interrogate the project of an intercultural philosophy from an African perspective. This volume is the first publication that explicitly discusses African philosophy as a challenge to the project of intercultural philosophy.

Feminist Expositions of the Old Testament in Africa (Tanzania) in the Context of the Office Held by Deborah in Judges 4 and 5 2015 Hoyce Lyimo-Mbowe Both women and men were leaders since ancient times; however, few female leaders are reported. Deborah is one of the powerful female leaders during the ancient Israel. This work explored the feminist expositions of the Old Testament in Africa, with focus on the context of the offices held by Deborah as narrated in the book of Judges Chapter 4 and 5. The exegetical part shed light onto the role played by the female leaders among the Israelites. The feminist paradigms in Judges 4 and 5 demonstrate how female characters in these chapters construct a way to disagree with what seems to oppress women and deny their leadership capability. The findings of this study determine that gender should not be perceived as having an effect on leadership in general.

Modern Afaan Oromo Grammar 2017-03-16 Taha M. Roba This publication is the second edition of the Oromo Textbook. It is designed to teach the Oromo language to those who can speak the language but are unable to read it; for those children who were born and live outside their homeland; and for those who are interested in learning one of the major languages of Africa. The Oromo language is spoken by close to 40 million people in Ethiopia and northern Kenya and is the second or third largest language in Africa. It is a testament to the resilience of the Oromo language and how it survived over a century of Abyssinian onslaught and suppression. By reading this handbook one can grasp aspects of Oromo culture, systems of thought the principle of social organization and the art of communication. Rare among Oromo

educational material, this volume reads smoothly; from learning the sounds of Oromo alphabets also known as qubee, to reading, and understanding the Oromo language. This work is distinct because it brings out the Oromo oral tradition. It is loaded with specific ways Oromos learned, thought, and preserved their language and culture, the essence of their Orommumma (Oromomness). This book strives to fill the void of Oromo educational material not only in North- America, but also in Oromia (Ethiopia), where teaching and learning the Oromo language outlawed by successive Ethiopian regimes and not sufficiently developed under the current government. This book will undoubtedly emerge as a conversation and discussion piece in the learning and teaching of the Oromo language, Oromo history and tradition of the Oromo people.

Introductory Grammar of Amharic 2000 Wolf Leslau This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Sing and Sing On 2022-01-11 Kay Kaufman Shelemay A sweeping history of Ethiopian musicians during and following the 1974 Ethiopian revolution. Sing and Sing On is the first study of the forced migration of musicians out of the Horn of Africa dating from the 1974 Ethiopian revolution, a political event that overthrew one of the world's oldest monarchies and installed a brutal military regime. Musicians were among the first to depart the region, their lives shattered by revolutionary violence, curfews, and civil war. Reconstructing the memories of forced migration, Sing and Sing On traces the challenges musicians faced amidst revolutionary violence and the critical role they played in building communities abroad. Drawing on the recollections of dozens of musicians, Sing and Sing On details personal, cultural, and economic hardships experienced by musicians who have resettled in new locales abroad. Kay Kaufman Shelemay highlights their many artistic and social initiatives and the ways they have offered inspiration and leadership within and beyond a rapidly growing Ethiopian American diaspora. While musicians held this role as sentinels in Ethiopian culture long before the revolution began, it has taken on new meanings and contours in the Ethiopian diaspora. The book details the ongoing creativity of these musicians while exploring the attraction of return to their Ethiopian homeland over the course of decades abroad. Ultimately, Shelemay shows that musicians are uniquely positioned to serve this sentinel role as both guardians and challengers of cultural heritage.

Challenging Authorities 2021-09-20 Arne S. Steinforth When the notion of 'alternative facts' and the alleged dawning of a 'postfactual' world entered public discourse, social anthropologists found themselves in unexpectedly familiar territory. In their empirical experience, fact—knowledge accepted as true—derives its salience from social mechanisms of legitimization, thereby demonstrating a deep interconnection with power and authority. In this perspective, fact is a continually contested and volatile social category. Due to the specific histories of their colonial and post-independence experience, African societies offer a particularly broad array of insights into social processes of juxtaposition, opposition, and even outright competition between different postulated authorities. The contributions to the present volume explore the variety of ways in which authority is contested in Southern and Eastern Africa, investigating localized discourses on which institution, what kind of knowledge, or whose expertise is accepted as authoritative, thus highlighting the specificities and pluralities in 'modern' societies. This edited volume engages with larger theoretical questions regarding power and authority in the context of (post)colonial states (neo)traditional authority, claiming space, conflict and (in)justice, and contestations of knowledge. It offers in-depth critical analyses of ethnographic data that put contemporary African phenomena on equal footing with current controversies in North America, Europe, and other global settings.

Can You Hear My Pain Now? 2022-05-05 Michael G. Maness Pastoral care and its theology get a gentle boost from some of the best in the business of caring for the soul. When a person hurts, they often look to God. Several pathfinders give new light from their specialties, each one speaking powerfully, uniquely, and artfully from decades of experience. Dr. Amos Yong's article on disability forwards the amazingly helpful term, "temporarily able-bodied." Greek Orthodox Dr. Vasileios Thermos and Roman Catholic Dr. Robert Fastiggi enlighten next to the powerful testaments of Professor Godfrey Harold on South Africa and Dr. Samuel Yonas Deressa on Ethiopia. Each weathered author contributes universal insights into the grace of our great God and challenges pastors throughout the Christian world to kindly consider the heart of the afflicted. These finely hewn stones can be used by anyone in the ministry to sharpen their serve. Mattis and Maness offer this third collection from Testamentum Imperium with a prayer that these will open new avenues of sensitivity to the hearts and souls of those in travail and aid those who are called by God to serve those in pain.

Historical Dictionary of Somalia 2003-02-25 Mohamed Haji Mukhtar The volume will cover all aspects of Somalia, providing useful information about the country in a comprehensive manner. The book also reflects on the contributions of the Somali sources on history and culture. Arabic sources and other non-English colonial sources of great importance to the subject are also highlighted. A vital addition to reference collections supporting undergraduate and graduate programs on Africa and the Middle East, international relations, and economics—and a useful fact-filled compendium for government and public libraries, NGO's, and other special libraries as well.

Ancient Mesopotamia 2013-01-31 A. Leo Oppenheim "This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention

than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, Book Week "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

Typological Studies 2014-02-04 Guglielmo Cinque In this book, Cinque takes a generative perspective on typological questions relating to word order and to the syntax of relative clauses. In particular, Cinque looks at: the position of the Head vis à vis the relative clause in relation to the position of the verb vis à vis his object; a general cross-linguistic analysis of correlatives; the need to distinguish a sentence-grammar, from a discourse-grammar, type of non-restrictives (with languages differing as to whether they possess both, one, the other, or neither); a selective type of extraction from relative clauses; and a tentative sketch of a more ample work in progress on a unified analysis of externally headed, internally headed, and headless relative clauses.

There are many premenstrual syndrome symptoms which can be broadly classified as neurologic & vascular symptoms, psychological symptoms, gastrointestinal symptoms, fluid retention, eye problems and respiratory problems. The cause of premenstrual syndrome are fluctuations in the levels of progesterone & estrogen, hypoglycemia, hyperprolactinemia, psychogenic factors, changes in carbohydrate metabolism, excessive aldosterone, progesterone allergy and water retention by kidneys. The good thing is that premenstrual syndrome can be prevented by exercising regularly, eating balanced diet and sleeping adequately.

Dysmenorrhea is feeling intense menstrual pain and cramps. Depending on the severity, dysmenorrhea is stated as primary dysmenorrhea or secondary dysmenorrhea. Primary dysmenorrhea symptoms are felt from the onset of the menstrual periods and are felt life-long. Because of abnormal uterine contractions due to chemical imbalance, severe menstrual cramping is experienced. Secondary dysmenorrhea starts in the later stages. The causes are different for primary and secondary dysmenorrhea. Secondary dysmenorrhea can be blamed on medical conditions such as endometriosis, uterine fibroids, pelvic inflammatory disease, tumors, infections, and abnormal pregnancy.

Dysmenorrhea symptoms are lower abdomen cramping & pain, lower back pain, nausea, diarrhea, vomiting, fatigue, fainting, weakness and headaches. Females who are overweight, smoke, and have started to menstruate before turning eleven are at a higher risk of developing dysmenorrheal. Females who drink alcohol during menstrual period experience prolonged pain. After studying the health conditions, age, cause of dysmenorrhea, and extent of condition of the individual, corresponding treatment will be recommended. Regular exercise, abdominal massage, hot bath, vitamin supplements, and dietary modifications can help overcome dysmenorrhea.

Project oromo dictionary pdf pdf pdf,But you have to remember that acupuncture is not permanent. It merely starts something that you have to finish on your own. Some smokers who go 2 or 3 times a week to the clinic will need to come back for follow up sessions in the future.

At the same time, you have to find ways to prevent yourself from picking up a cigarette. You can do this by staying away from people who smoke since you will be tempted to ask for a stick. You can create your own personal mantra which you repeat to yourself every time you have an urge.

Remember that this craving is only short term and will last only for a few minutes. You have worked so hard to leave this behind so stick to the path and stay smoke free.

Hope oromo dictionary pdf pdf pdf An infant will have a normal blood pressure reading of 80/45, where as an adolescent will have a normal blood pressure reading of 110/70. Therefore, age, gender, and height are important factor when determining the normal blood pressure level. Adults will have a higher blood pressure than the infants and teenagers. Also, boys have a higher blood pressure when compared to girls and tall people have a higher blood pressure than short people. An adolescent is said to have high blood pressure when the blood pressure is more than the blood pressure of ninety percent people of his/her age, gender and height.

There are many risks associated with hypertension or high blood pressure. The risk of developing coronary heart disease increases proportionally. The arteries will develop greater resistance towards the blood flow, because of which the heart will pump blood harder. Stroke is also another risk. Adolescents who have had high blood pressure as a child, develop harmful effects on the blood vessels and heart till the time they turn twenty.

The causes of high blood pressure can be classified as primary and secondary. If the causes are definite, they are primary and if the cause is linked to some

illness, it is secondary. Primary causes are high blood cholesterol levels, smoking, stagnant lifestyle and overweight. Secondary causes are obesity, immobility due to chronic illness, prescription drugs, intense pain due to burns or cancer and illegal drugs. High blood pressure can develop due to hereditary reasons.

Best Seller : oromo dictionary pdf pdf pdf: There are basically 14 pathways throughout the body where chi flows continuously. These are called the meridian points. In order for chi to course through the body unobstructed, there has to be a balance between the strengths of yin and yang. In ancient Chinese philosophy, yin and yang represent the forces of the universe- yin is for feminine, while yang is for masculine. Every single thing in the universe is believed to contain both yin and yang for harmony.

When the yin and yang are not balanced, chi cannot stream through the body liberally. Therefore, the meridian points through which chi courses through need to be stimulated. This is done by the insertion of hair-thin, disposable needles in specific areas on a person's body to induce bodily harmony and bring about healing.
