There is a dramatic rise of novel drug use due to the increased popularity of so-called designer drugs.

Rapid Damage-Free Robotic Harvesting of Tomatoes 2021-06-23 Jizhan Liu This book shares the latest findings on this topic, systematically introduces readers to advances made in robotic harvesting around the globe, and explores the relations between the development of robotic harvesting and the respective

social/economic conditions and agricultural business patterns in various countries/regions.

Due to the unstructured setting it is used in, and to the significant differences between individual fruit and vegetable targets, robotic harvesting is currently considered to be one of the most challenging robotics technologies. Accordingly, research into this area involves the integration of various aspects, including biomechanics, optimization design, advanced perception and

intelligent control. In addition to rapid and damage-free robotic harvesting, which reflects the multidisciplinary nature of the topic, further aspects addressed include gripping collisions with viscoelastic objects, using lasers to cut plant material, plant-fruit response to vacuum sucking and pulling, and performance probability distribution. Highlighting outstanding innovations and reflecting the latest advances in intelligent agricultural equipment in China, the book offers a unique and valuable resource.

The Ten Principles Behind Great Customer

Experiences 2013-02-14 Matt Watkinson Learn how to create a competitive advantage for your business by offering a customer experience that's second to none! By following a simple "ten principles" format, this book will show you how to constantly improve and build your business. The combination of psychological theory, real world case studies, worked examples and template documents provides the 'what, why and how' necessary to make good ideas stick and get them into practical usage, so you can enhance your customers' experiences and keep them returning again and again. Featuring lessons from a host of

winning companies such as Facebook, Lush Cosmetics, Gü puddings and John Lewis, the book is littered with uncomplicated ideas which are simple to implement and accessible to anyone.

Structural Timber Design to Eurocode 5

2008-05-23 Jack Porteous Structural Timber

Design to Eurocode 5 is a comprehensive book which provides practising engineers and specialist contractors with detailed information and in-depth guidance on the design of timber structures based on the common rules and rules for

buildings in Eurocode 5 - Part 1-1. It will also be of interest to undergraduate and postgraduate students of civil and structural engineering. The book provides a step-by-step approach to the design of all of the most commonly used timber elements and connections using solid timber, glued laminated timber or wood based structural products. It features numerous detailed worked examples, and incorporates the requirements of the UK National Annex. It covers the strength and stiffness properties of timber and its reconstituted and engineered products; the key requirements of Eurocode 0, Eurocode 1 and Eurocode 5 - Part

1-1; the design of beams and columns of solid timber, glued laminated, composite and thin-webbed sections; the lateral stability requirements of timber structures; and the design of mechanical connections subjected to lateral and/or axial forces as well as rigid and semi-rigid connections subjected to a moment. The Authors Jack Porteous is a consulting engineer specialising in timber engineering. He is a Chartered Engineer, Fellow of the Institution of Civil Engineers and Member of the Institution of Structural Engineers. He is a visiting scholar and lecturer in timber engineering at Napier University. Abdy Kermani is

the Professor of Timber Engineering and R&D consultant at Napier University. He is a Chartered Engineer, Member of the Institution of Structural Engineers and Fellow of the Institute of Wood Science with over 20 years' experience in civil and structural engineering research, teaching and practice. The authors have led several research and development programmes on the structural use of timber and its reconstituted products. Their research work in timber engineering is internationally recognised and published widely. Also of Interest Timber Designers' Manual Third Edition E.C. Ozelton & J.A. Baird Paperback 978

Terrorist Rehabilitation and Community

Engagement in Malaysia and Southeast Asia

2019-11-04 Mohd Mizan Aslam The contributors

to this book analyse the different approaches and

modes of terrorist rehabilitation that have been

attempted by Malaysia, and other countries in

Southeast Asia. With an emphasis on the

particular contexts within which they operate, this

book examines the factors that determine the

relative successes and failure of a wide range of

community initiatives in integrating terrorists back

into society. These initiatives include using methods based on social psychology, religion, and entrepreneurship to develop a comprehensive approach to rehabilitating and deradicalizing terrorists in Malaysia as well as Singapore, Indonesia and the Philippines. As such it makes an important contribution to the global policy debate, coloured by the unique characteristics of the South East Asia region. A valuable resource for researchers and policymakers seeking constructive ways to counter violent extremism.

The Wal-Mart Effect 2006 Charles Fishman An award-winning journalist breaks through the wall of secrecy to reveal how the world's most powerful company really works and how it is transforming the American economy.

The Role of the Private Sector in Education in Vietnam 1998 Paul Glewwe As part of the restructuring of the educational system in 1989, the Vietnamese government implemented policy changes such as promoting the establishment of "people's" and community educational institutions, permitting the establishment of private institutions

and transforming public institutions into private ones. Since Vietnam has only recently moved from a centrally planned to a market economy, private schools are still relatively rare in Vietnam. This paper examines the nature of private schooling in Vietnam using data from the 1992-93 Vietnam Living Standards Survey.

Nondestructive Evaluation of Wood 2015 Forest Service (U S ) Nature's engineering of wood through genetics, wind, and weather creates a

wide variability in wood as a material. Consequently, manufacture and users of wood products are frequently frustrated in dealing with the forest resource. Manufacturers sometimes argue that wood is difficult to consistently process into quality products because of the wide range of properties that exist in this raw material. Users of wood products can be equally frustrated with the performance variability found in finished products. Nondestructive evaluation (NDE) technologies have contributed significantly toward eliminating the cause of these frustrations. NDE technologies have been developed and are currently used in

lumber and veneer grading programs that result in engineered materials that have consistent well-defined performance characteristics. This brief volume explores some of the processes that are used to manufacture wood, including green wood technology and provides a bit of history to wood production and its uses too. Through My Eyes 2016-04-11 Alton Gansky

These are more than dreams and visions: they're a calling. Six people. Five mind-numbing visions. Four ancient and mysterious artifacts. Two exotic locations. And one greedy man who will stop at nothing, not even murder, to achieve his goal.

Rev. Adam Bridger and his wife, Dr. Rachel Tremaine are once again in the center of an adventure not of their making. And joining them are four total strangers who, along with Rachel, have seen visions that most mortals can't imagine. They have been called on a mission that will forever change the world--if they survive.
