imagination manifests in countless different forms. We imagine the possible and the impossible. How do we do this so effortlessly? Why did the capacity for imagination evolve and manifest with undeniably manifold complexity uniquely in human beings? This handbook reflects on such questions by collecting perspectives on imagination from leading experts. It showcases a rich and detailed analysis on how the imagination is understood across several disciplines of study, including anthropology, archaeology, medicine, neuroscience, psychology, philosophy, and the arts. An integrated theoretical-empirical-applied picture of the field is presented, which stands to inform researchers, students, and practitioners about the issues of relevance across the board when considering the imagination. With each chapter, the nature of human imagination is examined - what it entails, how it evolved, and why it singularly defines us as a species.

challenging traditional postcolonial accounts, Gabay places racial anxiety at the heart of imaginaries of Africa and international order. *To the Uttermost Parts of the Earth* Martti Koskenniemi 2021-08-26 *To the Uttermost Parts of the Earth* shows the vital role played by legal imagination in the formation of the international order during 1300–1870. It discusses how European statehood arose during early modernity as a locally specific combination of ideas about sovereign power and property rights, and how those ideas expanded to structure the formation of European empires and consolidate modern international relations. By connecting the development of legal thinking with the history of political thought and by showing the gradual rise of economic analysis into predominance, the author argues that legal ideas from different European legal systems - Spanish, French, English and German - have played a prominent role in the history of global power. This history has emerged in imaginative ways to combine

The Vertical Imagination and the Crisis of Transatlantic Modernism Paul Haacke 2021-03-11 From the invention of skyscrapers

and airplanes to the development of the nuclear bomb, ideas about the modern increasingly revolved around vertiginous images of elevation and decline and new technologies of mobility and terror from above. In *The Vertical Imagination and the Crisis of Transatlantic Modernism*, Paul Haacke examines this turn by focusing on discourses of aspiration, catastrophe, and power in major works of European and American literature as well as film, architecture, and intellectual and cultural history. This wide-ranging and pointed study begins with canonical fiction by Franz Kafka, Virginia Woolf, James Joyce, and John Dos Passos, as well as poetry by Guillaume Apollinaire, Hart Crane, and Aimé Césaire, before moving to critical reflections on the rise of New York City by architects and writers from Le Corbusier to Simone de Beauvoir, the films of Alfred Hitchcock and theories of cinematic space and time, and postwar novels by Kurt Vonnegut, Thomas Pynchon, and Leslie Marmon Silko, among many other examples. tracing the rise and fall of modernist discourse over the course of the long twentieth century, this book shows how visions of vertical ascension turned from established ideas about nature, the body, and religion to growing anxieties about aesthetic distinction, technological advancement, and American capitalism and empire. It argues that spectacles of height and flight became symbols and icons of ambition as well as direct indexes of power, and thus that the vertical transformation of modernity was both material and imagined, taking place at the same time through the rapidly expanding built environment and shifting ideological constructions of "high" and "low."

Imagining Argentina Lawrence Thornton
1991-11-01 “Remarkable . . . deeply inventive . . . Thornton has imagined Argentina truly; his inspired fable troubles and feeds our own intriguing imagining.”—Los Angeles Times

Imagining Argentina is set in the dark days of the late 1970's, when thousands of Argentineans disappeared without a trace into the general's prison cells and torture chambers. When Carlos Ruweda's wife is suddenly taken from him, he discovers a magical gift: In waking dreams, he had clear visions of the fates of “the disappeared.” But he cannot “imagine” what has happened to his own wife. Driven to near madness, his mind cannot be taken away: imagination, stories, and the mystical secrets of the human spirit. Praise for *Imagining Argentina* “A harrowing, brilliant novel.”—The New Yorker “A powerful new novel . . . Thornton seems to have wedded his study of such writers as Borges and Marquez with thy his own instinctive gift for

metaphor, and in doing so, created his own brand of magical realism”—The New York Times

“Imagining Argentina is a slim volume filled with beautiful writing. It is an exciting adventure story. It is a haunting love story. And it is a story for all time.”—Detroit Free Press “The writing is crystalline, the metaphors compelling . . . Its central theme is universal.”—The Philadelphia Inquirer “In a time when much North American fiction is contained by crabbed realism, Thornton takes for his material one of the bleaker recent instances of human cruelty, sees in it the enduring nobility of the human spirit and imagines a book that celebrates that spirit.”—The Washington Post Book World “A powerful first novel and a manifesto for the memorializing power of literature.”—The New York Times Book Review “A profoundly hopeful book.”—The Cleveland Plain Dealer

A Woman, a Man, a Nation Jeffrey M. Shumway
2019-11-01 In 1837 Mariquita Sánchez de Mendeville was so fed up with governor Juan Manuel de Rosas that she chose to leave her beloved city of Buenos Aires. Leaving was especially hard because Mariquita felt that she had played an influential role in transforming Buenos Aires from a Spanish colonial outpost into a brilliant capital in a world of republics. Juan Manuel de Rosas's version of order alienated Mariquita, who chose self-imposed exile in Montevideo over living under Rosas's stifling rule. The struggle went on for nearly two decades until Mariquita finally came home for good in 1852 while Rosas went into exile. Mariquita's and Juan Manuel's lives corresponded with the major events and processes that shaped the turbulent beginnings of the Argentine nation, many of which also shaped Latin America and the Atlantic World during the Age of Revolution (1750–1850).

An Introduction to Social and Political Philosophy
Richard Schmitt 2009-06-16 Social and political philosophy, unlike other fields and disciplines, involves conflict, disagreement, deliberation, and action. This text takes a new approach and understands philosophy not so much as a story of great thinkers or as a collection of philosophical positions but as a series of debates and disagreements in which students must participate. Adopting what may be called an 'active learning' method, Richard Schmitt, who has long taught social and political philosophy in the Ivy Leagues as well at state colleges, presents a range of problems and debates which engage the core question of freedom. Too often, students are bewildered, and then bored, by highly abstract philosophical questions because they are unable to connect those abstract issues to their own life experiences. This text

immediately connects issues and experiences, and provides integrated, on-going questions to spark dialogue, whether in class settings or in the reader's own mind, and to help students form strong arguments with good reasons for their positions. In the course of examining different current controversies, the book develops theories of democracy, equality, the state, property, autonomy, and the role of morality in politics, all of which are standard for courses in social and political philosophy.

Imagining the Middle Class Dror Wahrman
1995-07-13 Why and how did the British people come to see themselves as living in a society centred around a middle class? The answer provided by Professor Wahrman challenges most prevalent historical narratives: the key to understanding changes in conceptualisations of society, the author argues, lies not in underlying transformations of social structure - in this case industrialisation, which supposedly created and empowered the middle class - but rather in

changing political configurations. Firmly grounded in a close reading of an extensive array of sources, and supported by comparative perspectives on France and America, the book offers a nuanced model for the interplay between social reality, politics, and the languages of class.

LONGLIST "A debut novel as impressive as they come. Tough, wily, dreamlike." —Seattle Times
A decade after fleeing for his life, a man is pulled back to Argentina by an undying love. In 1976, Tomás Orilla is a medical student in Buenos Aires, where he has moved in hopes of reuniting with Isabel, a childhood crush. But the reckless passion that has long drawn him is leading Isabel

ever deeper into the ranks of the insurgency fighting an increasingly oppressive regime. Tomás has always been willing to follow her anywhere, to do anything to prove himself. Yet what exactly is he proving, and at what cost to them both? It will be years before a summons back arrives for Tomás, now living as Thomas Shore in New York. It isn't a homecoming that awaits him, however, so much as an odyssey into the past, an encounter with the ghosts that lurk there, and a reckoning with the fatal gap between who he has become and who he once aspired to be. Raising profound questions about the sometimes impossible choices we make in the name of love, *Hades, Argentina* is a gripping, ingeniously narrated literary debut.

The Imagination Machine Martin Reeves
2021-06-08 A guide for mining the imagination to find powerful new ways to succeed. We need imagination now more than ever—to find new opportunities, rethink our businesses, and discover paths to growth. Yet too many

companies have lost their ability to imagine. What is this mysterious capacity? How does imagination work? And how can organizations keep it alive and harness it in a systematic way? The Imagination Machine answers these questions and more. Drawing on the experience and insights of CEOs across several industries, as well as lessons from neuroscience, computer science, psychology, and philosophy, Martin Reeves of Boston Consulting Group's Henderson Institute and Jack Fuller, an expert in neuroscience, provide a fascinating look into the mechanics of imagination and lay out a process for creating ideas and bringing them to life: *The Seduction: How to open yourself up to surprises* *The Idea: How to generate new ideas* *The Collision: How to rethink your idea based on real-world feedback* *The Epidemic: How to spread an evolving idea to others* *The New Ordinary: How to turn your novel idea into an accepted reality* *The Encore: How to repeat the process—again and again.* Imagination is one of the least understood

but most crucial ingredients of success. It's what makes the difference between an incremental change and the kinds of pivots and paradigm shifts that are essential to transformation—especially during a crisis. The Imagination Machine is the guide you need to demystify and operationalize this powerful human capacity, to inject new life into your company, and to head into unknown territory with the right tools at your disposal.

Re-Imagining Ukrainian-Canadians Rhonda L. Hinthier 2011-02-26 Ukrainian immigrants to

Canada have often been portrayed in history as sturdy pioneer farmers cultivating the virgin land of the Canadian west. The essays in this collection challenge this stereotype by examining the varied experiences of Ukrainian-Canadians in their day-to-day roles as writers, intellectuals, national organizers, working-class wage earners, and inhabitants of cities and towns. Throughout, the contributors remain dedicated to promoting the study of ethnic, hyphenated histories as major currents in mainstream Canadian history. Topics explored include Ukrainian-Canadian radicalism, the consequences of the Cold War for Ukrainians both at home and abroad, the creation and maintenance of ethnic memories, and community discord embodied by pro-Nazis, Communists, and criminals. Re-Imagining Ukrainian-Canadians uses new sources and non-traditional methods of analysis to answer unstudied and often controversial questions within the field. Collectively, the essays challenge the older, essentialist definition of what it means

to be Ukrainian-Canadian.

Imagining the Arabs Webb Peter Webb
2016-05-31 Who are the Arabs? When did people begin calling themselves Arabs? And what was the Arabs' role in the rise of Islam? Investigating these core questions about Arab identity and history by marshalling the widest array of Arabic sources employed hitherto, and by closely interpreting the evidence with theories of identity and ethnicity, *Imagining the Arabs* proposes new answers to the riddle of Arab origins and fundamental reinterpretations of early Islamic history. This book reveals that the time-honoured stereotypes which depict Arabs as ancient Arabian Bedouin are entirely misleading because the essence of Arab identity was in fact devised by Muslims during the first centuries of Islam. Arab identity emerged and evolved as groups imagined new notions of community to suit the radically changing circumstances of life in the early Caliphate. The idea of 'the Arab' was a device which Muslims utilised to articulate their

communal identity, to negotiate post-Conquest power relations, and to explain the rise of Islam. Over Islam's first four centuries, political elites, genealogists, poetry collectors, historians and grammarians all participated in a vibrant process of imagining and re-imagining Arab identity and history, and the sum of their works established a powerful tradition that influences Middle Eastern communities to the present day.

Prisoner Without a Name, Cell Without a Number Jacobo Timerman 2002 "At two in the morning of April 15, 1977, twenty armed men in civilian clothes arrested Jacobo Timerman, editor and publisher of a leading Buenos Aires newspaper. Thus began thirty months of imprisonment, torture, and anti-Semitic abuse. . . . Unlike 15,000 other Argentines, 'the disappeared,' Timerman was eventually released into exile. His testimony [is] gripping in its human stories, not only of brutality but of courage and love;

important because it reminds us how, in our world, the most terrible fantasies may become fact."--New York Times, Books of the Century "It ranks with Hannah Arendt's Eichmann in Jerusalem in its examination of the totalitarian mind, the role of anti-Semitism, the silence."--Eliot Fremont-Smith, Village Voice "It is impossible to read this proud and piercing account of [Timerman's] suffering and his battles without wanting to be counted as one of Timerman's friends."--Michael Walzer, New York Review of Books "Timerman was a living reminder that real prophets are irritants and not messengers of reassurance. He told it like it is, whether in Argentina, Israel, Europe, or the United States."--Arthur Miller

The Research Imagination Paul S. Gray
2007-08-13 The idea that science is a blueprint for research, and imagination gives research its life and purpose inspired this comprehensive explanation of research methodology. The authors' decades of experience have revealed

that research is a craft requiring judgment and creativity, not simply memorization and application of the rules of science. Whether one is conducting an intimate one-on-one interview or a large-scale examination of an entire society, human imagination and scientific principles of inquiry go hand in hand. To that end, this book emphasizes scientific method, but also acknowledges its critics. It covers a wide variety of data-collection techniques, but presents them as reinforcing rather than competing with one another, thus striking a balance between qualitative and quantitative methods. It is designed for students and instructors who want a comprehensive treatment of a variety of research techniques with special emphasis on qualitative approaches.

Island Fantasia Wei-Ping Lin 2021-09-30
The Matsu archipelago between China and Taiwan, for long an isolated outpost off southeast China, was suddenly transformed into a military frontline in 1949 by the Cold War and the Communist-Nationalist conflict. The army occupied the islands, commencing more than 40 long years of military rule. With the lifting of martial law in 1992, the people were confronted with the question of how to move forward. This in-depth ethnography and social history of the islands focuses on how individual citizens redefined themselves and reimagined their

society. Drawing on interviews with local fishermen as well as army personnel, Wei-Ping Lin shows how islanders used both traditional and new media to cope with the conflicts and trauma of harsh military rule. She discusses the formation of new social imaginaries through the appearance of 'imagining subjects', interrogating their subjectification processes and varied uses of mediating technologies as they seek to answer existential questions. Global 1968 A. James McAdams 2021-06-01

Global 1968 is a unique study of the similarities and differences in the 1968 cultural revolutions in Europe and Latin America. The late 1960s was a time of revolutionary ferment throughout the world. Yet so much was in flux during these years that it is often difficult to make sense of the

period. In this volume, distinguished historians, filmmakers, musicologists, literary scholars, and novelists address this challenge by exploring a specific issue—the extent to which the period that we associate with the year 1968 constituted a cultural revolution. They approach this topic by comparing the different manifestations of this transformational era in Europe and Latin America. The contributors show in vivid detail how new social mores, innovative forms of artistic expression, and cultural, religious, and political resistance were debated and tested on both sides of the Atlantic. In some cases, the desire to confront traditional beliefs and conventions had been percolating under the surface for years. Yet they also find that the impulse to overturn the status quo was fueled by the interplay of a host of factors that converged at the end of the 1960s and accelerated the transition from one generation to the next. These factors included new thinking about education and work, dramatic changes in the self-

presentation of the Roman Catholic Church, government repression in both the Soviet Bloc and Latin America, and universal disillusionment with the United States. The contributors demonstrate that the short- and long-term effects of the cultural revolution of 1968 varied from country to country, but the period's defining legacy was a lasting shift in values, beliefs, lifestyles, and artistic sensibilities. Ghostly Matters Avery F. Gordon 2008 “Avery Gordon’s stunningly original and provocatively imaginative book explores the connections linking horror, history, and haunting.” —George Lipsitz “The text is of great value to anyone

working on issues pertaining to the fantastic and the uncanny.” —American Studies International “Ghostly Matters immediately establishes Avery Gordon as a leader among her generation of social and cultural theorists in all fields. The sheer beauty of her language enhances an intellectual brilliance so daunting that some readers will mark the day they first read this book. One must go back many more years than most of us can remember to find a more important book.” —Charles Lemert Drawing on a range of sources, including the fiction of Toni Morrison and Luisa Valenzuela (He Who

Searches), Avery Gordon demonstrates that past or haunting social forces control present life in different and more complicated ways than most social analysts presume. Written with a power to match its subject, Ghostly Matters has advanced the way we look at the complex intersections of race, gender, and class as they traverse our lives in sharp relief and shadowy manifestations. Avery F. Gordon is professor of sociology at the University of California, Santa Barbara. Janice Radway is professor of literature at Duke University.
