Ranch of Dreams

Cleveland Amory 1998 The story of the Black Beauty Ranch in East Texas and of countless animals who have "found their haven at the ranch."--Jacket.

The Myth of Wild Africa

Jonathan S. Adams 1996 Africa's wildlife heritage is under siege--and its worst enemy may be traditional conservation methods. The

time is reflected by their morphological and taxonomic diversity, their nearly worldwide distribution on every continent except Australia and Antarctica, and their persistence through nearly fifty million years. Their great past ability to migrate and to adapt to changing climatic conditions and interspecific competition provides a unique laboratory for the testing of evolutionary theories and development of new concepts. This is the first complete treatise on the evolution and palaeoecology of this group for half a century. It reviews their classification and phylogeny, the early differentiation of proboscideans, the major adaptive radiations and their evolutionary patterns, and the origins and current status of extant elephant species. Written by leading international experts, this is a major study documenting the record of terrestrial biodiversity.

The Fossil Elephants of Manitoba

Manitoba.
Historic Resources Branch
1990

Elephants Jeheskel Shoshani
2000 An illustrated glimpse of the giant animal discusses its evolution, anatomy, behavior, migration, and relationship with humans, and examines the ivory trade, decline of the elephant population, and conservation efforts.

Elephant Doran H. Ross
1992 The elephant is abundantly represented in African culture. In this lavishly illustrated anthology, eighteen scholars pay homage to both the African elephant and African creativity. The elephant's natural history is the starting point for this collection. Other essays discuss the animal's place in religious imagery, local economies, and regional cultures. The global appetite for ivory and the consequences of the ivory trade are the focus of two essays and of the epilogue.

which also discusses the elephant as an endangered species. This volume bridges the gap that often separates the scholar from the general reader. Its visual mini-essays are entertaining and also broaden the scope of the book, and the spectacular photographs invite hours of pleasurable exploration.

The Astonishing Elephant

Shana Alexander 2000

"Physiologically, elephants are unique - entirely different from all other mammals. Yet, since antiquity, observers have agreed that the elephant is the animal most akin to man." "Today both species of elephant - Africans and Asians - stand on the brink of extinction. Hope is arising, however, from a new generation of young American scientists, many of them women. Female zoologists and biologists have led the field in new findings about elephant ecology, family and sexual patterns, and the animals'

continual communication by ultrasound, inaudible to human ears." "The Astonishing Elephant also reveals, for the first time, a hair-raising story of elephant "genocide": in the years between the Civil War and World War I, all male elephants in U. S. circuses were stealthily killed - shot, poisoned, drowned, and even hanged. The reason was musth, a periodic condition of mature males that renders them uncontrollable. So, gradually, only female elephants - now with masculine names - were put on parade, with none the wiser." "Most important, The Astonishing Elephant details a decade of heartbreaking trial and error and eventual triumph as scientists have tried to learn how to breed elephants via artificial insemination."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Hall-Martin 1989 Contains reproductions of 24 outstanding pastel paintings of elephants in representative habitats throughout the continent, as well as 120 b&w and 120 color illustrations.

Okavango Frans Lanting 2012 Botswana, many say, represents the last of Old Africa. For a year, between 1988 and 1989, the author

roamed the wetlands and deserts of northern Botswana. This book is a testament not only to the wondrous wildlife of the region, but also to the author's extraordinary courage, skill, and photographic eye.
