**Russian Futurism** Vladimir Markov 1968

**The Power of Nothingness** Alexandra David-Néel 1982

**The Cosmic Game** Stanislav Grof 1998-03-19 In this, his culminating work, the leading international figure in consciousness research masterfully synthesizes his vast findings, drawing not only upon psychedelic therapy and Holotropic Breathwork, but also from literature, cross-cultural studies, ancient mystical sources and psychological data, resulting in a profound consolidation and articulation of what is now known about nonordinary states of consciousness. The Cosmic Game discusses the broadest philosophical, metaphysical and spiritual insights gleaned in Grof's research concerning human nature and reality, addressing the most fundamental questions human beings have asked

about the nature of existence since time immemorial. Insights from research into nonordinary states of consciousness portray existence as an astonishing play of the cosmic creative principle that transcends time, space, linear causality, and polarities of every kind and suggest an identity of the individual psyche in its furthest reaches with the universal creative principle and the totality of existence. This identity of the human being with the Divine is the ultimate secret that lies at the core of all great spiritual traditions. "What moves this book into the status of a classic is that it is in substantial agreement with the world's great wisdom and spiritual traditions. This modern corroboration of the perennial philosophy is a stunning achievement and deserves publication to the widest audiences." -- Ken Wilber, author of Up from Eden: A Transpersonal View of Human Evolution and The Atman Project: A Transpersonal View of

Human Development "The Cosmic Game is the latest and best of Stanislav Grof's extraordinary contributions to our understanding of human consciousness. This book provides a coherent picture of how individual experience fits into universal patterns of consciousness" -- Frances Vaughan, author of *Shadows of the Sacred: Seeing through Spiritual Illusions* "Perhaps the most important of all his works, representing as it does an integration of the most profound of his clients' experiences and demonstrating a remarkable convergence with the deepest spiritual experiences reported across centuries and cultures. This convergence is a finding of the greatest significance." -- Roger Walsh, author of *The Spirit of Shamanism* "Grof is the world's leading authority on the deep exploration of the mind and soul... This is a wonderful gift!" -- Charles Tart, author of *States of Consciousness and Psi: Scientific Studies of the Psychic Realm* Stanislav Grof, MD, is a psychiatrist with more than fifty years of experience in research of nonordinary states of consciousness. He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague, Czechoslovakia; Chief of Psychiatric Research at the Maryland Psychiatric Research Center; Assistant Professor of Psychiatry at the Johns Hopkins University; and Scholar-in-Residence at the Esalen Institute. He is currently Professor of Psychology at the California Institute of Integral Studies, conducts professional training programs in holotropic breathwork, and gives lectures and seminars worldwide. He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association (ITA). In 2007, he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague. He is the author and editor of many books, including *The Adventure of Self-Discovery: Dimensions of Consciousness and New Perspectives in Psychotherapy and Inner Exploration*; *Ancient Wisdom and Modern Science*; *Beyond the Brain: Birth, Death, and Transcendence in Psychotherapy*; *Human Survival and Consciousness Evolution*; and *Psychology of the Future: Lessons from Modern Consciousness Research*; all published by SUNY Press.

**Traditional Forms and Cosmic Cycles** René Guénon 2003 René Guénon (1886-1951) is undoubtedly one of the luminaries of the twentieth century, whose critique of the modern world has stood fast against the shifting sands of recent philosophies. His oeuvre of 26 volumes is providential for the modern seeker: pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese, the Hellenic and Judaic, the Christian and Islamic, and including also Alchemy, Hermeticism, and other esoteric currents, at the same time it directs the reader to the deepest level of religious praxis, emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization. *Traditional Forms and Cosmic Cycles* is a wide-ranging collection of articles that could just as well have been called *Fragments of an Unknown History*. Although they must remain fragments, as Guénon did not return to many of these themes again, it would have been regrettable to leave such fascinating articles buried in old journals, and so this posthumous collection is now offered to Anglophone readers for the first time. The book opens with the key article 'The Doctrine of Cosmic Cycles', followed by two pieces on Atlantis and Hyperborea. Two sections follow, concerned respectively with the Hebrew Tradition and the Egyptian Tradition. The former comprises five articles concerned primarily with the Kabbalah and the Science of Numbers, and the latter includes three articles on Hermes and the Hermetic Tradition. Book reviews are inserted at relevant points. To lend the collection coherence, no other spiritual Traditions are here represented. A list of the Collected Writings of René Guénon has been provided for those who wish to investigate Guénon's metaphysical expositions on such topics as Christianity, Islam, the Greco-Latin Traditions, Celtism, etc.

**Sciamanesimo e sciamanesimi** Luca Arcari 2015-11-09 Sciamanesimo (o sciamanesimo), ovvero uno dei modi di pensare e dire l'alterità: così si può riassumere la tendenza di studio affacciata negli ultimi decenni volta a decostruire una delle categorie più ampie e complesse dell'antropologia e degli studi storico-religiosi. Il volume, immettendosi in questo filone di ricerca, si concentra soprattutto sulle modalità di rappresentazione del mondo e dell'alterità secondo tratti o caratteristiche riconosciuti di volta in volta come "sciamanici", cercando di misurare anche l'utilizzo e la permanenza della categoria in campi disciplinari e accademici diversificati eppure non del tutto privi di profonde e spesso oscure connessioni. La declinazione fra "sciamanesimo", al singolare, e "sciamanesimi" come pluralità di approcci e di sguardi, dunque, già in parte percorsa da altre ricerche prima di quelle qui presentate, vuole soprattutto mettere in luce l'uso e l'abuso del termine nei campi di studio

che si sono appropriati di tale "etichetta". I saggi qui raccolti hanno l'obiettivo di contestualizzare e analizzare le opere e il pensiero di alcuni studiosi del XX secolo che hanno contribuito all'affermazione del termine e del relativo concetto in ambiti piuttosto diversificati del sapere scientifico-accademico. Il volume ha un taglio profondamente e convintamente interdisciplinare e raccoglie saggi di storici delle religioni, storici del cristianesimo, antropologi e linguisti. Un ambito di ricerca come quello "sciamanico", in virtù dei molteplici campi di ricerca che ha lambito e/o attraversato, implica, oggi più che mai, una sinergia di competenze e approcci specialistici che siano al tempo stesso capaci di scommettere sull'imprescindibilità del confronto intellettuale e dell'interazione scientifica.

**The Indo-Europeans** Jean Haudry 1998-08-01 By Professor Jean Haudry. A modern text discussing the language, culture and racial and geographical origins of the early Indo-Europeans. Chapters include: World Vision: Language and Mentality, The Individual, the Group and the Universe; The Community: The People, The King, Duties toward the Community; Religion: General Characteristics of Indo-European religions, The Gods of the Universe, Rites and Gods of the Four Circles of Social Attachment, The Gods of the Three Functions, From Gods to Heroes, The Twilight of the Gods; Institutions: The Indo-European Legal Heritage, Law and Religion, Lineage and the Law; The Law and the Three other Circles; War; Production and Reproduction; and Geographical origin of the Indo-Europeans.

**Russian Cubo-Futurism, 1910-1930** Vahan D. Barooshian 1976

**Il tamburo e l'estasi. Sciamanesimo d'Oriente e Occidente** Giuseppe Acerbi 2001

**Facial Reflexology - Dien Chan Zone** Beatrice Moricoli and Vittorio Bergagnini 2016-11-24 "The key to health is on your face and in your hands" This book presents a self-care method unique in its genre, which offers extraordinary, sometimes amazing and often immediate results for all kinds of disharmony in the body. The method began life in 1980s Vietnam - like many important discoveries, a result of war and necessity - independent of resource availability. It was developed by a group of acupuncturists to put healing in the hands of the masses by replacing needles with equally effective blunt rounded tools. It is the most recent reflexology on the planet and has nothing to do with other oriental techniques related to the face. Today 'Dien Chan' is a popular and accepted method of healthcare in its home country and part of their official system. However, it is the work of two self declared Italian 'free-sprits', over the past twenty years, which has suitably translated the technique and advanced it to meet the needs of modern Westerners. No longer a painful stimulation of pre-defined points; it has evolved to a relaxing massage of zones and individual, personalised points. 'Dien Chan Zone' incorporates simplified principles and teachings of Traditional Chinese Medicine, protocols for allergies and intolerances, a unique Facial-Cranial reflexology and a beauty treatment to tone muscle and regulate skin function. It is the authors' overriding intention to facilitate learning and to make this method accessible to everyone. In this book they share full instructions for self-treatment which they know present a great frontier of freedom, and the medicine of the future. Contains 95 full colour maps Beatrice Moricoli, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is the first female teacher of Dien Chan (Zone) in Italy, but for many years has practiced also as a therapist and teacher of Reiki, Shiatsu, Tui Na, Chinese Medicine and 'The Blowing Technique'. Vittorio Bergagnini, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is a teacher of Dien Chan Zone as well as Tai Chi Chuan, Reiki, Foot Reflexology and Wung Chun.

**Slavic Poetics** Roman Jakobson 1973-04-01

**Come l'orco della fiaba** Franco Cardini 2010

**The Living Goddesses** Marija Gimbutas 2001-01-12 Presents evidence to support the author's woman-centered interpretation of prehistoric civilizations, considering the prehistoric goddesses, gods and religion, and discussing the living goddesses--deities which have continued to be venerated through the modern era.

**Ecstatic Confessions** Martin Buber 1996-11-01 Ecstatic Confessions orchestrates these reports from the edge of human experience into a revealing look at the nature of the ecstatic experience itself and the tension arising from the mystic's compelling need to give witness to an event that can never truly be verbalized.

**A History of Heaven** Jeffrey Burton Russell 1999-01-03 Well known for his historical accounts of Satan and hell, Jeffrey Burton Russell explores the brighter side of eternity: heaven. He not only examines concepts found among Jews, Greeks and Romans, but asks how time 'passes' in eternity.

**Corpi sciamanici** Sergio Botta 2017-12-29 Il "corpo sciamanico" è centrale nella storia degli studi, nella letteratura, nelle pratiche

simboliche, nei repertori mitici, nel discorso scientifico. Tale idea ha ispirato nuovi movimenti religiosi nella ricerca di antiche arti della guarigione, sollecitando un rinnovato interesse per lo sciamanesimo in Occidente nel campo delle tecniche terapeutiche contemporanee. Questa raccolta di studi nasce da una serie di seminari tenuti da studiosi e studiose di diverse discipline (storico-religiose, etno-antropologiche, sociologiche e psicologiche) e spazia dall'americanistica all'indologia, all'egittologia, con l'obiettivo comune di analizzare l'influenza sui corpi delle diverse modalità di alterazione degli stati di coscienza, le cui implicazioni sociali e religiose sono da intendersi nel senso della costruzione di una relazione con la dimensione extraumana, ma anche più genericamente dell'instaurazione di dinamiche comunicative dell'individuo con l'altro da sé (umano, extraumano, animale). Il volume comprende saggi dal taglio storico-comparativo, studi di carattere storico-letterario, casi di studio, ricerche sul campo. L'uso, la percezione e la rappresentazione del corpo contribuiscono a ripensare la nozione di sciamanesimo e quella di persona, qui intesa come agente in uno stato di alterazione di coscienza, sia esso definibile trance, estasi o possessione.

**Heart of Practice** Thomas Richards 2014-06-17 Heart of Practice is a unique and invaluable insight into the workings of one of theatre's true pioneers, presented by his closest collaborator. This book charts the development of Grotowski's dramatic research through a decade of conversations with his apprentice, Thomas Richards. Tuscany's 'Workcenter of Jerzy Grotowski and Thomas Richards' is the enduring legacy of a master teacher, director and theorist, and home to much of Grotowski's most significant work. Interviewed by leading scholars, and offering his own intimate accounts, Richards gives a vivid and detailed view of the Workcenter's evolution, providing: concrete illustration of the Workcenter's distinctive creative practices rigorous discussion of over twenty years of world-renowned research previously unpublished performance photos privileged insight into what Grotowski considered to be the culmination of his life's work.

**The Historie of Travaile Into Virginia Britannia** William Strachey 1849

**Catalogo dei libri in commercio** 2003

**Synthesis of the Doctrine of Race** 2022-11-14 In this book Evola set out his own racial doctrine on the premise of the traditional tripartition of the human being into body, soul, spirit. In the first part, race is presented as a revolutionary idea. The three degrees of race are defined in the second part and elaborated upon in the third part. The fourth part begins with a clear definition of the term "Aryan" and ends with considerations on the racial issue from the point of view of law. Finally, the problem of racial rectification is discussed thoroughly.

**The Superhuman Life of Gesar of Ling** Alexandra David-Neel 2001-05-01 King Gesar, renowned throughout Tibet and Central Asia, represents the ideal warrior—the principle of all-victorious confidence. As the central force of sanity, he conquers all his enemies, the evil forces of the four directions, who turn people's minds away from the true teachings of Buddhism. These enemies graphically represent the different manifestations of cowardly mind. As Chögyam Trungpa explains in the Foreword: "When we talk here about conquering our enemy, it is important to understand that we are not talking about aggression. The genuine warrior does not become resentful or arrogant . . . It is absolutely necessary for the warrior to subjugate his own ambition to conquer at the same time that he is subjugating his other more obvious enemies. Thus the idea of warriorship altogether is that by facing all our enemies fearlessly, with gentleness and intelligence, we can develop ourselves thereby attaining self-realization." The legends of Gesar usually take weeks for a bard to recount. Filled with magic, adventure, and the triumphs of this great warrior-king, the stories will delight all—young and old alike.

**Domenico Comparetti, 1835-1927** Salvatore Cerasuolo 2006

**The Fever** Wallace Shawn 1992 THE STORY: The nameless narrator of this blistering monologue lies ill and alone in a dreary hotel room in a poverty-stricken country. A political execution is about to take place beneath his window. Far from the glib comforts of his own life, he s

**Studies in Hinduism** René Guénon 2001 A study of various aspects of the traditional metaphysical doctrines of the Hindu Tradition, along with extensive book and article reviews

**Religioni e complessità** Accursio Graffeo 2023-03-14 Nell'opera di Enrico Comba il tema delle religioni, visto attraverso la lente della complessità, tende a evidenziare quanto le tradizioni native, portatrici di un contatto con dimensioni altre, non abbiano perso la loro forza di fronte alle grandi religioni, mostrandosi così capaci di resistere alle istanze della modernità. Il tema del rapporto uomo-animale contribuisce ad aumentare

**Il Tamburo E Lestasi Sciamanesimo Oriente E Occidente Pdf**

il livello di complessità dell'analisi narrando di una relazione presente fin dagli albori della storia umana: con fragili confini tra specie e forme di interscambiabilità e trasformazione capaci di interrogare l'ontologia dell'essere, in quanto persona. Miti e rituali dei popoli nativi nordamericani entrano a far parte di un flusso storico in cui i racconti delle origini, le cosmologie, le narrazioni colme di simbologie relative a uomini, animali, costellazioni e aspetti della natura risultano intrecciati in modo profondo. Enrico Comba ha dedicato una parte consistente dei propri studi alla Danza del Sole, una cerimonia che ha tradotto in una monografia che lascia trasparire l'amore profondo per il proprio lavoro e il rispetto per le persone e le tradizioni che ha avuto modo di conoscere. L'operato di Comba si è sempre caratterizzato per una grande cura delle fonti bibliografiche, combinate con un lavoro sul campo nel quale ha mostrato di porre in primo piano gli aspetti relazionali del lavoro antropologico. L'idea alla base di questo volume è quella di restituire una visione globale e il più possibile completa dell'opera di Enrico Comba, cercando di offrire una lettura critica in grado di coinvolgere il pensiero allargato della comunità scientifica, in un'ottica multidisciplinare capace di far dialogare i diversi saperi in modo organico e coerente.

**A History of the Japanese Language** Bjarke Frellesvig 2010-07-29 Bjarke Frellesvig describes the development of the Japanese language from its recorded beginnings until the present day as reflected by the written sources and historical record. Beginning with a description of the oldest attested stage of the language, Old Japanese (approximately the eighth century AD), and then tracing the changes which occurred through the Early Middle Japanese (800-1200), Late Middle Japanese (1200-1600) and the Modern Japanese (1600-onwards) periods, a complete internal history of the language is examined and discussed. This account provides a comprehensive study of how the Japanese language has developed and adapted, providing a much needed resource for scholars. A History of the Japanese Language is invaluable to all those interested in the Japanese language and also students of language change generally.

**Ainu Creed & Cult** Munro 2013-10-28 First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

**International Futurism in Arts and Literature** Günter Berghaus 2000-01-01 This publication offers for the first time an inter-disciplinary and comparative perspective on Futurism in a variety of countries and artistic media. 20 scholars discuss how the movement shaped the concept of a cultural avant-garde and how it influenced the development of modernist art and literature around the world.

**The Mystery of the Aleph** Amir D. Aczel 2001-08-28 A compelling narrative that blends the story of infinity with the tragic tale of a tormented and brilliant mathematician.

**Transpersonal Development** Roberto Assagioli 2007

**Paradise Found: The Cradle Of The Human Race At The North Pole** William Fairfield Warren 2022-10-26 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Enemy of the Stars** Wyndham Lewis 1932

**From Atlantis to the Sphinx** Colin Wilson 2004-07-01 In this compelling book, Colin Wilson argues that thousands of years before ancient Egypt and Greece held sway, there was a great civilization whose ships traveled the world from China to Antarctica. Their advanced knowledge of science, mathematics, and astronomy was passed on to descendants who escaped to Egypt and South America. From Atlantis to the Sphinx bases this assertion on a true fact: that archaeologists and geologists are at odds over the age of the Sphinx. Archaeologists claim that the Sphinx dates to classical dynastic Egypt, around 2,400 b.c. But some geologists claim that it could have been built as early as 7,000 to 10,500 b.c. The geologists' claim is based on the curious fact that the erosion of the Sphinx is more characteristic of water erosion than that of wind and sand. Starting from the assumption that there was an advanced civilization in existence much earlier than previously thought, Wilson goes on to claim that it could very well be Atlantis--not a literal island that sank, but more of a great civilization that either declined naturally or experienced a great catastrophe, passing on only a fraction of its knowledge to other peoples. From Atlantis to the Sphinx delves into what might have been a completely different knowledge system from that of modern man--one as

by Caliva v Robertson

alien to us as that of the Martians. The book sets out to reconstruct that ancient knowledge in a fascinating exploration of the remote depths of history, a ground-breaking attempt to understand how these long-forgotten peoples thought, felt, and communicated with the universe.

**Nambudiri, Veda Recitation** J. F. Staal 1963

**Archetypes** Elémire Zolla 2015-06-18 Man is dominated by his archetypes; they mould not only his history but his dreams. But how are we to define and evaluate them? Is it perhaps possible for us to relate more creatively to them? Originally published in 1981, these are some of the questions raised by this title. To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions, from science, literature, art and poetry. The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought. There emerges from this book what can only be described as a global metaphysical system, yet the author's language is not that of an ordinary metaphysical treatise, and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time. Zolla does not, however, advocate a return to earlier historical patterns, nor is he proposing a new Utopia, but rather offers us a brilliant series of lessons in the art of centring. In the words of Bernard Wall, writing in the Times Literary Supplement, Zolla's 'deep, polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil, while some of his conclusions about ultimate mysteries - expressed in signs, symbols and sacraments, the sense of which we have lost - will make us think of the later T. S. Eliot'.

**Beyond the Mind** Pier Luigi Lattuada 2012

**Spiritual Authority and Temporal Power** René Guénon 2001 Spiritual

Authority and Temporal Power is an analysis of cyclical manifestation, and more specifically of the relationship between royal and sacerdotal power. In accord with the Hindu doctrine of manvantaras and Plato's depiction of historical degeneration in the Republic, Gu non views history here as a series of 'revolts' of lower castes against the higher. The kshatriyas (warriors) revolt against the brahmins (priests), thus setting the stage for a revolt of the vaishyas (loosely, the bourgeoisie), as in the French revolution-and, finally, the shudras (the proletariat), as in the Russian revolution (which Gu non does not touch upon in this work). From one point of view, this is a progressive degeneration; from another it is entirely lawful, given the 'entropic' nature of manifestation itself. External, historical descent reflects an inner degeneration: knowledge (the celestial paradise) is eclipsed by heroic action (the terrestrial paradise), which is in turn overrun by the inertia and agitation of the passions. Yet the nadir of degeneration is also the point of renewal: the dawning of the Heavenly Jerusalem-spiritual Knowledge-which begins a new cycle of manifestation.

**The Nine Ways of Bon** David Snellgrove 2010 A study of Tibetan religion. To practising bonpos, Bon simply means the true religion of Tibet, while to Tibetan Buddhists, Bon refers to the false teachings and practices that were prevalent before Buddhism became the dominant religion under the Kings. The present study resulted from a period during which the author was engaged in intense contact with practising bonpos. It consists of the translation of a seminal 450 year old transcript of a 13th century Bon manuscript, in which the entire Bon philosophy and practice is summarized. The scale and depth of his study allows
