refugee camp, being forced into a marriage to pay off her brother's gambling debts, selling her body and begging for the money to feed her growing family, an attempted suicide, and an unsuccessful endeavour to leave Afghanistan for Iran after the Taliban seized control of her country. Told truthfully and with unflinching detail to writer and documentary-maker Siba Shakib, and incorporating some of the shocking experiences of Shirin-Gol's friends and family members, this is the story of the fate of many of the women in Afghanistan. But it is also a story of great courage, the moving story of a proud woman, a woman who did not want to be banished to a life behind the walls of her house, or told how to dress, who wanted an education for her children so that they could have a chance of a future, to live their lives without fear and poverty. .

Israel, Turkey, Iran, Tunisia, Algeria, Morocco, and Spain. Addressing the historical, socio-cultural, political, economic, and legal issues in the region, the chapters cover five major aspects of women's agency: political agency civil society activism legal reform cultural and social agencies religious and symbolic agencies. Bringing to light often marginalized topics and issues, the book underlines the importance of respecting specificities when judging societies and hints at possible ways of promoting the MENA region. As such, it is a valuable addition to existing literature in the field of political science, sociology, and women's studies.

*Islam, Secularism, and Liberal Democracy* Nader Hashemi 2009-04-08 Islam's relationship to liberal-democratic politics has emerged as one of the most pressing and contentious issues in international affairs. In *Islam, Secularism, and Liberal Democracy*, Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal-democratic development are structurally incompatible. On his deathbed, her father's last wish is for his favorite song, "Sinnerman" by Nina Simone, to be played at his funeral instead of the traditional suras of the Koran. When she does just that, the final act of defiance elicits a catastrophic response from her surviving family members. In this dramatic true story, Darina Al-Joundi is defiantly passionate about living her life as a liberated woman, even if it means leaving everyone and everything behind in this "beautifully taut and relentlessly unemotional" memoir (Kirkus).

Upon a tumultuous reception, she survived a suicide-bomb attack that killed nearly two hundred of her compatriots. But she continued to forge ahead, with more courage and conviction than ever, since she knew that time was running out—for the future of her nation and for her life. Twelve leading figures in post-colonial and translation studies, political philosophy, art, radical aesthetics, policy-making and sociology, reflect on the political and cultural meanings of migration; their arguments framed by artworks that provide glimpses of cross-cultural encounters. Essays - including a meditation on "wasted lives" by internationally renowned academic Zygmunt Bauman - explore the challenges of migration, history and integration and attempt to develop radical new figurations of migrant identity, underlining the necessity of an imaginative reach towards "The Other". Rosi Braidotti's creative style vividly renders a productive crisis of modernity. From a feminist perspective, she recasts embodiment, sexual difference, and complex concepts through relations to technology, historical events, and popular culture. This thoroughly revised and expanded edition retains all but two of Braidotti's original essays, including her investigations into epistemology's relation to the "woman question;" feminism and biomedical ethics; European feminism; and the possible relations between American feminism

### Scheherazade Goes West

Fatema Mernissi

2001-09-16 Throughout my childhood, my grandmother Yasmina, who was illiterate and grew up in a harem, repeated that to travel is the best way to learn and to empower yourself. "When a woman decides to use her wings, she takes big risks," she would tell me, but she was convinced that if you didn't use them, it hurt.... So recalls Fatema Mernissi at the outset of her mesmerizing new book. Of all the lessons she learned from her grandmother -- whose home was, after all, a type of prison -- the most

central was that the opportunity to cross boundaries was a sacred privilege. Indeed, in journeys both physical and mental, Mernissi has spent virtually all of her life traveling -- determined to "use her wings" and to renounce her gender's alleged legacy of powerlessness. Bursting with the vitality of Mernissi's personality and of her rich heritage, *Scheherazade Goes West* reveals the author's unique experiences as a liberated, independent Moroccan woman faced with the peculiarities and unexpected encroachments of Western culture. Her often surprising discoveries about the conditions of and attitudes toward women around the world -- and the exquisitely embroidered amalgam of clear-eyed autobiography and dazzling meta-fiction by which she relates those assorted discoveries -- add up to a deliciously wry, ~~Downloaded from~~

cosmopolitan, and deeply penetrating narrative. In her previous bestselling works, Mernissi -- widely recognized as the world's greatest living Koranic scholar and Islamic sociologist -- has shed unprecedented light on the lives of women in the Middle East. Now, as a writer and scholarly veteran of the high-wire act of straddling disparate societies, she trains her eyes on the female culture of the West. For her book's inspired central metaphor, Mernissi turns to the ancient Islamic tradition of oral storytelling, illuminating her grandmother's feminized, subversive, and highly erotic take on Scheherazade's wife-preserving tales from *The Arabian Nights* -- and then ingeniously applying them to her own lyrically embellished personal narrative. Interwoven with vivid ruminations on her childhood, her education, *Femminismo Islamico*

and her various international travels are the author's piquant musings on a range of deeply embedded societal conditions that add up, Mernissi argues, to a veritable "Western harem." A provocative and lively challenge to the common assumption that women have it so much better in the West than anywhere else in the world, Mernissi's book is an entrancing and timely look at the way we live here and now. By inspiring us to reconsider even the most commonplace aspects of our culture with fresh eyes and a healthy dose of suspicion, *Scheherazade Goes West* offers an invigorating, candid, and entertaining new perspective on the themes and ideas to which Betty Friedan first turned us on nearly forty years ago. *Arab Women and the Media in Changing Landscapes*

### Geometry of the Passions

Remo Bodei 2018-08-08 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Moreover, family reunification is today one of the main legal channels by which migrants come to Europe, so it is no coincidence that the main issues animating European public debate on inter-ethnic coexistence involve family, religion, and the relationships between genders and generations. Finally, the migrant family has to some extent, become a lens through which to analyze many key topics connected with the present and future of European societies. This work, *Migrant Families and Religious Belonging*, is a collection of nine essays exploring the relationship between family, religion, and immigration. These essays mainly focus on the integration process, with particular attention to the experience of migrants

fundamental question of political theory, one that precedes all other questions about the nature of political life, is why there is a state at all. Is human cooperation feasible without a political authority enforcing it? Or do we need a state to live together? This problem then opens up two further questions. If a state is necessary to establish order, how does it come into place? And, when it does, what are the consequences for the political status and economic welfare of its citizens? Combining ethnographical material, historical cases, and statistical analysis, this book describes the foundations of stateless societies, why and how states emerge, and the basis of political obligation. As a result of this inquiry, it explains the economic and political roots of inequality, describes the causes of the stagnation of the preindustrial world, and explores what led to the

**Colonial Fantasies** Meyda Yegenoglu 1998-04-30 In this 1998 book, Meyda Yegenoglu investigates the intersection between post-colonial and feminist criticism, focusing on the Western fascination with the veiled women of the Orient. She examines the veil as a site of fantasy and of nationalist ideologies and discourses of gender identity, analyzing travel literature, anthropological and literary texts to reveal the hegemonic, colonial identity of the desire to penetrate the veiled surface of 'otherness'.

Representations of cultural difference and sexual difference are shown to be inextricably linked, and the figure of the Oriental woman to have functioned as the veiled interior of Western identity.

"The subject of this study is social change in the Middle East, North Africa, and Afghanistan ; its impact on women's legal status and social positions ; and women's varied responses to, and involvement in, change processes. It also deals with constructions of gender during periods of social and political change.

Social change is usually

described in terms of modernization, revolution, cultural challenges, and social movements. Much of the standard literature on these topics does not examine women or gender, and thus [the author] hopes this study will contribute to an appreciation of the significance of gender in the midst of change. Neither are there many sociological studies on MENA and Afghansitan or studies on women in MENA and Afghanistan from a sociological perspective. Myths and stereotypes abund regarding women, Islam, and the region, and the sevents of September 11 and since have only compounded them. This book is intended in part to "normalize" the Middle East by underscoring the salience of structural determinants other than religion. It focuses on the major social-change processes in the region to show how women's lives are shaped not only by Islam from

and "culture", but also by economic development, the state, class location, and the world system. Why the focus on women? It is [the author's] contention that middle-class women are consciously and unconsciously major agents of social change in the region, at the vanguard of movements for modernity, democratization and citizenship."

*Islam in Europe* Jack Goody  
2013-05-08 This vigorously argued book reveals the central role that Islam has played in European history. Following the movement of people, culture and religion from East to West, Goody breaks down the perceived opposition between Islam and Europe, showing Islam to be a part of Europe's past and present. In an historical analysis of religious warfare and forced migration, Goody examines our understanding of legitimate violence, ethnic cleansing and terrorism. His comparative perspective offers important

and illuminating insights into current political problems and conflicts. Goody traces three routes of Islam into Europe, following the Arab through North Africa, Spain and Mediterranean Europe; the Turk through Greece and the Balkans; and the Mongol through Southern Russia to Poland and Lithuania. Each thrust made its mark on Europe in terms of population and culture. Yet this was not merely a military impact: especially in Spain, but elsewhere too, Europe was substantially modified by this contact. Today it takes the form of some eleven million immigrants, not to speak of the possible incorporation of further millions through Bosnia, Albania and Turkey.

made the appearance of these new voices possible. *Women in the Qur'an, Traditions, and Interpretation* Barbara Freyer Stowasser 1996-08-22 Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself. Despite the popular attention surrounding Middle Eastern attitudes toward women, there has been little systematic study of the statements regarding women in the Qur'an. Stowasser fills the void with this study on the women of Islamic sacred history. By telling their stories in Qur'an and interpretation, she introduces Islamic doctrine and its past and present socio-economic and political applications. Stowasser establishes the link between the female figure as cultural symbol, and Islamic self-perceptions from the beginning to the present time.

**An Introduction to Islamic Law** Wael B. Hallaq 2009-07-09 The study of Islamic law can be a forbidding prospect for those entering the field for the first time. Wael Hallaq, a leading scholar and practitioner of Islamic law, guides students through the intricacies of the subject in this absorbing introduction. The first half of the book is devoted to a discussion of Islamic law in its pre-modern natural habitat. The second part explains how the law was transformed and ultimately dismantled during the colonial period. In the final chapters, the author charts recent developments and the struggles of the Islamists to negotiate changes which have seen the law emerge as a primarily textual entity focused on fixed punishments and ritual requirements. The book, which includes *Downloaded from [via.ramtech.uri.edu](http://via.ramtech.uri.edu) on September 22, 2023 by Mita f Boyle*

### **Arab Society in Revolt**

Cesare Merlini 2013-06-20

For every pithy conceptualization of complex events, there are additional lenses through which to examine them. One of the several virtues of this book is precisely that it brings different perspectives to bear on the complexity, diversity, and uncertainty of recent and current events in the Arab world. The thirteen authors concentrate on the critical social forces shaping the region—demography, religion, gender, telecommunication connectivity, and economic structures—and they are painstakingly analyzed and evaluated.—from the foreword by Strobe Talbott, president of the Brookings Institution

The Arab Spring will be remembered as a period of great change for the Arab states of North Africa and the eastern Mediterranean. Facing fundamental transitions in governance, these countries are also undergoing profound social, cultural, and religious changes. The European Union and the United States, caught unprepared by the uprisings, now must address the inescapable challenges of those changes. How will the West respond to these new realities, particularly in light of international economic uncertainty, EU ambivalence toward a "cohesive foreign policy," and declining U.S. influence abroad? Arab Society in Revolt explains and interprets the societal transformations occurring in the Arab Muslim world, their ramifications for the West, and possible policy options for dealing with this new world. Revolt examines areas of change particularly relevant in the southern Mediterranean: demography and migration, Islamic revival and democracy, rapidly changing roles of women in Arab society, the Internet in Arab societies, commercial and social entrepreneurship as change factors, and the economics of Arab transitions. The book then looks at those cultural and religious as well as political and economic factors that have influenced the Western response, or lack of it, to the Arab Spring as well as the policy options that remain open.

empirical research by sociologists, political scientists, and anthropologists from Indonesia and Australia, the book underscores the negotiations Muslim women have made in arenas such as schools, organisations, popular culture and village life. Whereas theology has until recently dominated studies of women and Islam in Indonesia, this book breaks new ground by examining from social science perspectives how Indonesian women negotiate their Muslim identities.
