Along the Many Paths of God José María Vigil 2008 Latin American theology is associated with liberation, basic Christian communities, primacy of praxis and option for the poor. The present volume shows that Latin American theologians added new themes to the previous ones: religious pluralism, inter-religious dialogue and macro-ecumenism. It is the fruit of a program of the Theological Commission of the Ecumenical Association of Third World Theologians (EATWOT) in Latin America, to work out a liberating theology of religions.

What Is Not Sacred? Magesa Laurenti 2014-04-10 "It is not for you to call profane what God counts clean."

Did Christianity replace traditional African religion with the arrival of European missionaries in past centuries? Or did sub-Saharan African cultures persist in maintaining their religious worldviews even after accepting the salvific message of Christianity? In this compelling book, Laurenti Magesa argues that despite missionary Christianity's refusal to acknowledge the worth of traditional African religious culture, the incarnational spirituality of those cultures remains vibrant and visible today, and has much to offer and teach other cultures, both Christian and not.

Canada's Flying Heritage Frank H. Ellis 1980 This book not only records the significant events of Canadian aviation but also pays tribute to the 'forgotten flyers who flew by guess and by God or with calculating caution - for the sheer love of flying - in the early days.' The opening chapter recounts the first tentative experiments with that overgrown monster, the flying machine - at this stage, the glider. Next come the Barnstormers, the first professional airmen, trying desperately to wrest a living from the air, pioneering in the field of practical flying as little more than vaudeville performers. These were the days of daring aero-acrobatics and tense and crowded air-meets. The First World War saw a tremendous advance in technical manoeuvres and in pilot skill; the first aviation school was established in Toronto, where the War Birds learned to fly. An unparalleled boom in aviation followed the war. Public interest had been aroused by the celebrated achievement of Canada's Air Force, and many young men, the restlessness of the war still in them, were obsessed by the itch to fly again. The dollar-a-minute days marked the beginning of passenger travel and a steady increase in experimental flying, to bear its practical fruit in days to come. The next chapter is one of heroic enterprise - the conquest of the Atlantic and the spanning of the Continent. No less epic is the history of the bush pilots who tamed the Canadian North. We must be grateful to Mr. Ellis for rescuing from obscurity this important chapter in our history.

David Lynch Greg Olson 2008-09-29 For nearly 40 years, David Lynch's works have

enthralled, mystified, and provoked viewers. Lynch's films delve into the subjective consciousness of his characters to reveal both the depraved darkness and luminous spirituality of human nature. From his experimental shorts of the 1960s to feature films like *Eraserhead*, *The Elephant Man*, *Blue Velvet*, *Mulholland Drive*, and *INLAND EMPIRE*, Lynch has pushed the boundaries of cinematic storytelling. In *David Lynch: Beautiful Dark*, author Greg Olson explores the surreal intricacies of the director's unique visual and visceral style not only in his full-length films but also his early forays into painting and short films, as well as his television landmark, *Twin Peaks*. This in-depth exploration is the first full-length work to analyze the intimate symbiosis between Lynch's life experience and artistic expressions: from the small-town child to the teenage painter to the 60-year-old Internet and digital media experimenter. To fully delineate the director's life and art, Olson received unprecedented participation from Lynch, his parents, siblings, old school friends, romantic partners, children, and decades of professional colleagues, as well as on-set access to the director during the production of *Twin Peaks: Fire Walk with Me*. Throughout this study, Olson provides thorough analyses of the filmmaker's works as Lynch conceived, crafted, and completed them. Consequently, *David Lynch: Beautiful Dark* is the definitive study of one of the most influential and idiosyncratic directors of the last four decades.

Savage Tales Linda Goddard 2019-09-03 "An original study of Gauguin's writings, unfolding their central role in his artistic practice and negotiation of colonial identity. As a French artist who lived in Polynesia, Paul Gauguin (1848-1903) occupies a crucial position in histories of European primitivism. This is the first book devoted to his wide-ranging literary output, which included journalism, travel writing, art criticism, and essays on aesthetics, religion, and politics. It analyzes his original manuscripts, some of which are richly illustrated, reinstating them as an integral component of his art. The seemingly haphazard, collage-like structure of Gauguin's manuscripts enabled him to evoke the

"primitive" culture that he celebrated, while rejecting the style of establishment critics. Gauguin's writing was also a strategy for articulating a position on the margins of both the colonial and the indigenous communities in Polynesia; he sought to protect Polynesian society from "civilization" but remained implicated in the imperialist culture that he denounced. This critical analysis of his writings significantly enriches our understanding of the complexities of artistic encounters in the French colonial context."--Publisher's description.

Weapons of Mass Destruction and Terrorism Alan O'Day 2004 The twenty-nine articles explore the issue of WMD and key questions raised about terrorism, its definition, objects, motivation, whether there is a different species of it emerging in the aftermath of the close of the Cold War, preparedness and the means of prevention. The conventional, low-technology terrorism of the past has exercised a social and political impact far out of proportion with the casualties it has caused. The massive, indiscriminate destruction caused by an act of WMD terrorism similarly would have disproportionate social, political, economic and strategic effects.

Asian Aesthetics Ken-ichi Sasaki 2011-01-01 While the artistic traditions of the various countries of East, Southeast and South Asia display distinctive aesthetic features, this volume examines the qualities of each area, and seeks commonalities that define the aesthetics of a broader Asian civilization. Contributors includes specialists in philosophy, literature, art history, religion and the comparative study of cultures. Some of them are writing from within their own cultural traditions while others approach their subjects as outside observers. The book is divided into five sections, dealing with Japanese, Korean, Chinese, Indian and Southeast Asian aesthetics. Individual chapters provide in-depth investigations of specific traditions, embracing both classical as well as modern aesthetic forms. The author suggest that Japanese culture is characterized by an openness to diverse cultural influences, Korean culture by "peninsularity," Chinese culture by parallels with the West, Indian culture by "rasa" (a kind of "cosmic" feeling that is distinct from one who feels), and Southeast Asian culture by dilemmas of modernization. The volume as a whole integrates these studies, clarifying essential elements of each aesthetic culture and drawing on this material to characterize an Asian civilization that transcends individual countries and cultures.
