Swim Speed Secrets for Swimmers and Triathletes Sheila Taormina 2012-05-01 In Swim Speed Secrets, 4-time Olympian, gold medalist, and triathlon world champion Sheila Taormina reveals the swim technique used by the world’s fastest swimmers. Over the course of 4 Olympic Games and throughout her career as a world champion triathlete, Taormina refined her exceptional technique as a student of the sport, studying the world’s best swimmers using underwater photographs and video analysis. From Johnny Weissmuller to Michael Phelps, the world’s fastest swimmers share two common elements: high stroke rate and a high-elbow underwater pull. Many swimmers and triathletes neglect the underwater pull, distracted by stroke count or perfecting less critical details like body position, streamlining, and roll. Swim Speed Secrets focuses on producing power—the most crucial element of swimming—to help triathletes and swimmers overhaul their swim stroke and find the speed that’s been eluding them. With a commonsense approach that comes from decades of practice and years of hands-on coaching experience, Taormina shows swimmers how to transition to faster swimming. Swim Speed Secrets includes: The best drills to cultivate a more sensitive feel for the water Dryland and strength building exercises to develop arm position and upper body musculature Crisp photos of Olympic swimmers and variations in their high-elbow underwater pull Clear descriptions of the key moments of the underwater pull Tips that helped her perform at a world-class level for two decades Sheila Taormina’s Swim Speed Secrets brings the focus back where it belongs—to a powerful underwater stroke. With this approach, triathletes and swimmers can stop swimming for survival and break through to new levels of speed and confidence in the water.

Magia Sexualis Paschal Beverly Randolph 2012-08-27 A step-by-step guide to the occult science of sex magic • Based on the practices of P. B. Randolph, occult rival of H. P. Blavatsky • Reveals how to perform sex magic rituals for specific real-world results, such as greater strength or enhancement of the senses • Explains how to create magical talismans, such as rings with specific planetary forces, how to enliven a painting, and how to charge an effigy Conceived by Paschal Beverly Randolph, Magia Sexualis has been heralded as the most influential book about sex magic ever written, surviving to the present day solely through Maria de Naglowska’s French translation. Published more than 50 years after Randolph’s death, the authorship of this “translation” has been repeatedly called into question: While the greater part of the content can be traced to Randolph’s known works, a very significant portion cannot--leading to the conclusion that this work was supplemented by Naglowska’s own sex magic work and extensive occult teachings. Magia Sexualis explains Randolph’s meticulous science of sex magic, practiced by the Brotherhood of Eulis and the Hermetic Brotherhood of Light. Beginning with exercises to develop essential skills, the book explains in step-by-step detail how to perform sex magic rituals for specific results, such as greater strength or enhancement of the senses, how to charge and use a “volt”--an effigy of a specific person you want to influence or protect, how to enliven a painting in order to influence those around it, and how to create magical talismans with specific planetary forces, using what Randolph calls “fluid condensers.” This work from two great occult minds shows that true power of the spirit is acquired in conjunction with the power of sex--affirming that “sex is the fundamental force in every being, the most powerful force in Nature, and the most characteristic evidence of God.”

Fitrah- Mans Natural Disposition MURTADHA. MUTAHHARI 2021-11-27 "Fitrah: Man's Natural Disposition" is a translation of the Persian book "Fi?rat" by the great Muslim thinker and reformer, Ayatollah Murtada Mutahhari. "Fitrah" is the theme of a 10-session lecture series given the martyred thinker in 1976-77. With ample citations from the Qur'an and other traditional Islamic sources, Mutahhari discusses the concept of 'fitrah' or man's natural disposition. The author does not confine himself to Islamic references as he continuously engages with the views of a wide range of philosophers including Plato, William James, Russell, Nietzsche, Marx, Feuerbach, Auguste Comte, Spencer, Will Durant, and Durkheim, among others. Mutahhari's ontological discussion covers a

range of issues, including the literal and technical meaning of 'fitrah', sacred inclinations, love and worship, and the evolution of human originality. He also examines materialism and provides a theistic approach to some issues pertaining to the theories on the origin of religion, the evolution of human society, intrinsic and acquired guidance, and intuitive and sensory dispositions. This book lays a significant interconnected and deep foundation in Islamic theology and an understanding of human psychology, sociology and anthropology fully supported by the holy Quran, ahadith, logic and philosophy. The reader will leave with a holistic understanding of Islam and a true connection with the Almighty (SWT) through one own self.
