**Quinn** Dan Robson 2015-11-03 A tribute to the larger than life story of a hockey icon and hero. The hockey world mourned when Pat Quinn died in November 2014. Tough guys sobbed. Networks carried montages of Quinn's rugged hits, his steely-eyed glare, and his famous victories. Quinn made a few enemies over the years, but there was no one who didn't respect the tough working-class kid who had fought his way to the very top of the hockey world. He had butted heads with superstars, with management, and with the league itself. And he had also succeeded at every level, finishing his journeyman's career as the captain of an NHL team, then quickly emerged as one of the best coaches in the league. He gathered executive titles like hockey cards, and done things his own way, picking up a law degree along the way. He was brash, dour, and abrasive--and people loved him for his alloy of pugnacity and flair, his three-piece suits and cigars, his Churchillian heft and his scowl. In the end, the player who would never even have dreamed of being inducted into the Hall of Fame was the chair of the Hall's selection committee. That is Quinn's story: an underdog who succeeded so completely that his legacy has become the standard by which others are judged. Told by bestselling author Dan Robson, and supported by the Quinn family and network of friends, Quinn is the definitive account of one of the game's biggest personalities and most storied lives.

**Empires of Antiquities** Billie Melman 2020-03-31 Empires of Antiquities is a history of the rediscovery of civilizations of the ancient Near East in the imperial order that evolved between the outbreak of the First World War and the 1950s. It explores the ways in which Near Eastern antiquity was redefined. It explores the ways in which Near Eastern antiquity was redefined and experienced, becoming the subject of new regulation, new modes of knowledge, and international and local politics. A series of globally publicized spectacular archaeological discoveries in Iraq, Egypt, and Palestine, which the book follows, made antiquity visible, palpable and accessible as never before. The new uses of antiquity and its relations to modernity were inseparable from the emergence of the post-war world order, imperial collaboration and collisions, and national aspirations. Empires of Antiquities uniquely combines a history of the internationalization of a new "regime of archaeology" under the oversight of the League of Nations and its web of institutions, a history of British passions for Near Eastern antiquity, on-the-ground colonial mechanisms and nationalist claims on the past. It points to the centrality of the mandate system, particularly mandates classified A, in Mesopotamia/Iraq, Palestine and Transjordan, formerly governed by the Ottoman Empire, and of Egypt, in a new culture of antiquity. Drawing on an unusually wide range of archives in several countries, as well as on visual and material evidence, the book weaves together imperial, international, and local histories of institutions, people, ideas and objects and offers an entirely new interpretation of the history of archaeological discovery and its connections to empires and modernity.

**Chase's Calendar of Events 2016** Editors of Chase's 2015-09-11 Chase's Calendar of Events is the most comprehensive and authoritative reference available on special events, holidays, federal and state observances, historic anniversaries, astronomical phenomena, and more. Published since 1957, Chase's is the only guide to special days, weeks, and months.

*A Fall of Moondust* Arthur Charles Clarke 1961 A story of the future, about a specially designed air vessel that sinks with its human cargo into a sea of dust in one of the craters of the moon.

**Shantaram** Gregory David Roberts 2004-10-13 Based on his own extraordinary life, Gregory David Roberts' 'Shantaram is a mesmerizing novel about a man on the run who becomes entangled within the underworld of contemporary Bombay—the basis for the Apple + TV series starring Charlie Hunnam. "It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." An escaped convict with a false passport, Lin flees maximum security prison in Australia for the teeming streets of Bombay, where he can disappear.

Accompanied by his guide and faithful friend, Prabaker, the two enter the city's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal wars and Bollywood films, spiritual gurus and mujaheddin guerrillas—this huge novel has the world of human experience in its reach, and a passionate love for India at its heart.

**Mobilizing Heritage** Kathryn L. Samuels 2018-04-02 "Compelling, energizing, and foundational. Opens up an anthropological orientation, one which is welcome and exhilarating. Lafrenz Samuels's equally significant introduction of the transnational as a new orientation in heritage studies offers an escape route from the conception of heritage as monopolized by the nation-state."--Denis Byrne, author of Counterheritage: Critical Perspectives on Heritage Conservation in Asia Mapping out emerging areas for global cultural heritage, this book provides an anthropological perspective on the growing field of heritage studies. Kathryn Lafrenz Samuels adopts a dual focus--looking back on the anthropological foundations for cultural heritage research while looking forward to areas of practice that reach beyond national borders: economic development, climate action, democratic practice, heritage rights, and global justice. Working around the traditional authority of the nation-state and intergovernmental treaty-based organizations such as UNESCO, these issues characterize heritage activity in transnational networks. Lafrenz Samuels argues that transnational heritage involves an important shift from a paradigm of preservation to a paradigm of development. Responding to this expanding developmental sensibility, she positions cultural heritage as a persuasive tool for transformative action, capable of mobilizing and shaping social change. She shows how anthropological approaches help support the persuasive power of heritage in the transnational sphere.

*Race and Real Estate* Adrienne Brown 2015-09-30 Race and Real Estate brings together new work by architects, sociologists, legal scholars, and literary critics that qualifies and complicates traditional narratives of race, property, and citizenship in the United States. Rather than simply rehearsing the standard account of how blacks were historically excluded from homeownership, the authors of these essays explore how the raced history of property affects understandings of home and citizenship. While the narrative of race and real estate in America has usually been relayed in terms of institutional subjugation, dispossession, and forced segregation, the essays collected in this volume acknowledge the validity of these histories while presenting new perspectives on this story.

**Rethinking America** Jeff Maskovsky 2015-11-17 How has domestic life been reorganised to accommodate the new U.S. imperial ambitions? What are the consequences of empire for the people living here "at home"? This new collection of essays answers these questions by exploring the cultural, political, and economic shifts that are now under way in the United States. Encouraging a radical rethinking of what the country is today, this book highlights the connection of U.S. imperial strategies to the production of insecurity, uncertainty, and deepening inequality at home. Rethinking America also explores the instabilities and contradictions of the new imperialism from the unique vantage point of the newly emerging U.S. "homeland." Comprised of work from leading figures in the field of U.S. ethnography, this book is essential reading for anyone interested in understanding the changes taking place in the United States in the early years of the twenty-first century.

*Tourism in National Parks and Protected Areas* Paul F. J. Eagles 2002 This book describes the state of the art of tourism planning and management in national parks and protected areas. It also provides guidelines for best practice in tourism operations. Other objectives are to: Describe case studies and guidelines that contribute to conservation of biological diversity; consider the role of local communities within or near these areas; outline the development of tourism infrastructure and services; discuss visitor management; provide guidelines to enhance the quality of the tourism experience. The focus is global and the book will appeal to both academics and practitioners.

**Global Trends 2030** National Intelligence Council 2018-02-07 This important report, Global Trends 2030-Alternative Worlds, released in 2012 by the U.S. National Intelligence Council, describes megatrends and potential game changers for the next decades. Among the megatrends, it analyzes: - increased individual empowerment - the diffusion of power among states and the ascent of a networked multi-polar world - a world's population growing to 8.3 billion people, of which sixty percent will live in urbanized areas, and surging cross-border migration - expanding demand for food, water, and energy It furthermore describes potential game changers, including: - a global economy that could thrive or collapse - increased global insecurity due to regional instability in the Middle East and South Asia - new technologies that could solve the problems caused by the megatrends - the possibility, but by no means the certainty, that the U.S. with new partners will reinvent the international system Students of trends, forward-looking entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades will find this essential reading.

*Political Handbook of the World 2015* Tom Lansford 2015-03-24 The Political Handbook of the World provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other reference guide. The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup. Compiling in one place more than 200 entries on countries and territories throughout the world, this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system. It also provides names of key ambassadors and international memberships of each country, plus detailed profiles of more than 30 intergovernmental organizations and UN agencies. And this annual update includes coverage of current events, issues, crises, and controversies from the course of this year.

**Canada 2015-2016** Wayne C. Thompson 2015-05-14 This is an annually updated presentation of Canada past and present. The contents in this volume are organized into sections dealing with Canada's culture; Geography; people; history (from New France to the constitutional debates in the late 20th century); political system (including the constitution, monarchy, parliament, legal and court system, federalism and the provinces, provincial governments, parties and elections); defense; economy; the future; and a comprehensive bibliography. The combination of factual accuracy and up-to-date detail along with its informed projections make this an outstanding resource for researchers, practitioners in international development, media professionals, government officials, potential investors and students. Now in its 30th edition, the content is thorough yet perfect for a one-semester introductory course or general library reference. Available in both print and e-book formats and priced low to fit student and library budgets.

**Denting Goliaths** Marilyn Leys 2015-05-19 When cartographers recounted Wisconsin's Past and Present in a series of maps, the only civilian opposition mentioned in "The Military in Wisconsin" was organized in part by Citizens United Against Low Level Flights after the Air National Guard proposed establishing new routes over southwest Wisconsin and eastern Iowa to train jet fighter pilots in low-level, high-speed flying. Diverse groups and individuals participated in the Guard's Environmental Impact Study by writing letters citing specific problems that had already been caused by slow, low-flying transport planes or loud military jets that would cause problems in the future. Most opponents were long-time residents; a few were pacifists. Opponents included area farmers whose dairy cows and other animals spent much of their time grazing in small pastures. Five hundred Amish in southwest Wisconsin signed a letter to the military objecting to the fear that low-flying jet planes might cause their horses and danger to the passengers in the buggies the horses were pulling. On the night after the worst snowstorm of that winter, the first organized public meeting drew hundreds of residents; it also drew aides to both of Wisconsin's U.S. Senators and our congressman. At other public meetings for more than a year, and appearances at local festivals during the record-breaking heat of the summer, many showed up, but hardly anyone agreed with the Guard's proposal. In areas where jets might fl y low, government officials and wildlife and political organizations passed more than 100 resolutions of opposition, only sometimes at the urging of CUALLF. Though otherwise supportive of the military, Senators Russ Feingold and Herb Kohl had been somewhat wary of this proposal even before it was made public. What would it take to make their opposition more certain, and would this opposition cause the Guard to withdraw the proposal?

*Strategic Management for Tourism, Hospitality and Events* Nigel Evans 2015-01-30 Strategic Management for Tourism, Hospitality and Events is the must-have text for students approaching this subject for the first time. It introduces students to fundamental strategic management principles in a Tourism, Hospitality and Events context and brings theory to life by integrating a host of industry-based case studies and examples throughout. Among the new features and topics included in this edition are: Extended coverage to Hospitality and Events to reflect the increasing need and importance of a combined sector approach to strategy New international Tourism, Hospitality and Events case studies from both SME's and large-scale businesses are integrated throughout to show applications of strategic management theory, such as objectives, products and markets and strategic implementation. Longer combined sector case studies are also included at the end of the book for seminar work. New content on emerging strategic issues affecting the tourism, hospitality and events industries, such as innovation, employment, culture and sustainability Web Support for tutors and students providing explanation and guidelines for instructors on how to use the textbook and case studies, additional exercises, case studies and video links for students. This book is written in an accessible and engaging style and structured logically with useful features throughout to aid students' learning and understanding. This book is an essential resource to Tourism, Hospitality and Events students.

**Vietnam** Alexa West 2018-06-11 Ho Chi Minh City | Hanoi | Da Nang | Hoi An | Ha Long Bay | Hue | Phong Nha CavesCome for the history and stay for the food. Vietnam is a life changer. **Confidence Man** Maggie Haberman 2022-10-05 From the Pulitzer Prize-winning New York Times reporter who has defined Donald J. Trump's presidency like no other journalist: a magnificent and disturbing reckoning that chronicles his life and its impact, from his rise in New York City to his tortured postpresidency. All of Trump's behavior as president had echoes in what came before. In this revelatory and news-making book, Haberman brings together the events of his life into a single mesmerizing work. It is the definitive account of one of the most norms-shattering and consequential eras in American political history.

**Reimagining our futures together** International Commission on the Futures of Education 2021-11-06 The interwoven futures of humanity and our planet are under threat. Urgent action, taken together, is needed to change course and reimagine our futures.

**British Engagement with Japan, 1854-1922** Antony Best 2020-11-26 This book by a leading authority on Anglo-Japanese relations reconsiders the circumstances which led to the unlikely alliance of 1902 to 1922 between Britain, the leading world power of the day and Japan, an Asian, non-European nation which had only recently emerged from self-imposed isolation. Based on extensive original research the book goes beyond existing accounts which concentrate on high politics, strategy and simple assertions about the two countries' similarities as island empires. It brings into the picture cultural factors, particularly the ways in which Japan was portrayed in Britain, and ambivalent British attitudes to race and supposed European superiority which were overcome but remained difficulties. It charts how the relationship developed as events unfolded, including Japan's wars against China and Russia, and in addition looks at royal diplomacy, where the Japanese Court came eventually to be treated as a respected equal. Overall, the book provides a major reassessment of this important subject.

**The Falling Woman** Pat Murphy 2013-11-14 Elizabeth Waters, an archeologist who abandoned her husband and daughter years ago to pursue her career, can see the shadows of the past. It's a gift she keeps secret from her colleagues and students, one that often leads her to incredible archeological discoveries - and the terrible suspicion that she might be going mad. Then on a dig in the Yucatan, the shadow of a Mayan priestess speaks to her. Suddenly Elizabeth's daughter Diane arrives, hoping to reconnect with her mother. As Elizabeth, her daughter and the priestess fall into the mysterious world of Mayan magic, it is clear one of them will be asked to make the ultimate sacrifice ... Winner of the 1988 Nebula Award.

*Strengthening Forensic Science in the United States* National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and

forensic science educators.

**The United Nations world water development report 2015: water for a sustainable world** Connor, Richard 2015-03-23 The United Nations World Water Assessment Programme (WWAP) is hosted and led by UNESCO. WWAP brings together the work of 31 UN-Water Members as well as 37 Partners to publish the United Nations World Water Development Report (WWDR) series. Under the theme Water for Sustainable Development, the WWDR 2015 has been prepared as a contribution from UN-Water to the discussions surrounding the post-2015 framework for global sustainable development. Highlighting water’s unique and often complex role in achieving various sustainable development objectives, the WWDR 2015 is addressed to policy- and decision-makers inside and outside the water community, as well as to anyone with an interest in freshwater and its many life-giving benefits. The report sets an aspirational yet achievable vision for the future of water towards 2050 by describing how water supports healthy and prosperous human communities, maintains well functioning ecosystems and ecological services, and provides a cornerstone for short and long-term economic development. It provides an overview of the challenges, issues and trends in terms of water resources, their use and water-related services like water supply and sanitation. The report also offers, in a rigorous yet accessible manner, guidance about how to address these challenges and to seize the opportunities that sound water management provides in order to achieve and maintain economic, social and environmental sustainability.

**How to Demolish Racism** Michael Haas 2016-10-07 This book explains how racist rule ended in Hawai’i through innovative reforms including cultural transformation, adoption of social market capitalism, environmental reforms, affirmative action, and recognition of the rights of indigenous Native Hawaiians. The book explores how developments in Hawai’i can be enacted in other states and countries.

**Walking the Corfu Trail** John Waller 2015-02-12 Three septuagenarians walk 180km of Corfu Trail in eight days, from Kavos on the southern tip to picturesque Agni in the northeast. 6 Freytag and Berndt maps guide the reader along the trail and 25 views illustrate the beauty of their journey. The three oldies photograph flowers identifying 150 (see www.corfuflowers.com), 48 of which are in the book, and sample Corfiot cuisine with recipes shown. Their guests talk about their island. They include Corfu Trail founder Hilary Paipeti; Greek way-marker Harry, who walks like a Sports Range Rover off-road; the author's life-long friend Fotis, just back from running round Mount Olympus; retired English teachers Bill and Barbara; Patricia Cookson, founder of CV Travel; and German rocket engineer Dierk, his French wife Christine and their Greek dog. The Daily Mail said: "e;No one feels the beat of Corfu's heart more keenly than John Waller. His latest book, Walking the Corfu Trail, captures the magic of this beautiful island in such a way that by the end of the journey you know the place so well that you can almost call it home."e; Ramblers World Wide Holidays said: "e;An enchanting book and great companion for the walker and lover of nature and flowers."e;

**Farang: The Sequel** Dr Iain Corness 2015-01-07 Farang; the Sequel is the long-awaited follow-up to Farang, which became an instant bestseller upon its release in Thailand. Iain Corness fell in love with Thailand in his youth and moved there permanently in 1997. As a settled farang, or foreigner, he enjoys a unique perspective on Thai life and all its eccentricities; looking in from the outside while also getting to see things most foreigners don't.

*Sports in America from Colonial Times to the Twenty-First Century: An Encyclopedia* Steven A. Riess 2015-03-26 Provides practical help for the day-to-day concerns that keep managers awake at night. This book aims to fill the gap between the legal and policy issues that are the mainstay of human resources and supervision courses and the real-world needs of managers as they attempt to cope with the human side of their jobs.

*How Learning Works* Susan A. Ambrose 2010-04-16 Praise for How Learning Works "How Learning Works is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning." —Barbara Gross Davis, assistant vice chancellor for educational development, University of California, Berkeley, and author, Tools for Teaching "This book is a must-read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas, and I discovered new ways of thinking about teaching." —Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education "Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues." —Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching "As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book." —From the Foreword by Richard E. Mayer, professor of psychology, University of California, Santa Barbara; coauthor, e-Learning and the Science of Instruction; and author, Multimedia Learning

**The Agriculturalist** 1991

**Violence** Toby Miller 2020-10-23 Using discourses from across the conceptual and geographical board, Toby Miller argues for a different way of understanding violence, one that goes beyond supposedly universal human traits to focus instead on the specificities of history, place, and population as explanations for it. Violence engages these issues in a wide-ranging interdisciplinary form, examining definitions and data, psychology and ideology, gender, nation-states, and the media by covering several foundational questions: how has violence been defined, historically and geographically? has it decreased or increased over time? which regions of the world are the most violent? does violence correlate with economies, political systems, and religions? what is the relationship of gender and violence? what role do the media play? This book is a powerful introduction to the study of violence, ideal for students and researchers across the human sciences, most notably sociology, American and area studies, history, media and communication studies, polittics, literature, and cultural studies.

**Everyday Religion** Hadley Kruzcek-Aaron 2015-08-11 In the early nineteenth century, antebellum America witnessed a Second Great Awakening led by evangelical Protestants who gathered in revivals and contributed to the blossoming of social movements throughout the country. Preachers and reformers promoted a Christian lifestyle, and evangelical fervor overtook entire communities. One such community in Smithfield, New York, led by activist Gerrit Smith, is the focus of Hadley Kruzcek-Aaron’s study.

**Into Thin Air** Jon Krakauer 1998-11-12 #1 NATIONAL BESTSELLER • The epic account of the storm on the summit of Mt. Everest that claimed five lives and left countless more—including Krakauer’s—in guilt-ridden disarray, "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. By writing Into Thin Air, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of Into Thin Air includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since Into Thin Air's denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored The Climb, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In

1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters—a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

Congressional Record United States. Congress 1969 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

*Alaska’s Skyboys* Katherine Johnson Ringsmuth 2015-11-24 This fascinating account of the development of aviation in Alaska examines the daring missions of pilots who initially opened up the territory for military positioning and later for trade and tourism. Early Alaskan military and bush pilots navigated some of the highest and most rugged terrain on earth, taking off and landing on glaciers, mudflats, and active volcanoes. Although they were consistently portrayed by industry leaders and lawmakers alike as cowboys—and their planes compared to settlers’ covered wagons—the reality was that aviation catapulted Alaska onto a modern, global stage; the federal government subsidized aviation’s growth in the territory as part of the Cold War defense against the Soviet Union. Through personal stories, industry publications, and news accounts, historian Katherine Johnson Ringsmuth uncovers the ways that Alaska’s aviation growth was downplayed in order to perpetuate the myth of the cowboy spirit and the desire to tame what many considered to be the last frontier.

*Wild Capital* Barbara K. Jones 2019-11-11 In *Wild Capital*, Barbara Jones demonstrates that looking at nature through the lens of the marketplace is a surprisingly effective approach to protecting the environment. Showing that policy-makers and developers rarely associate wild places with monetary values, Jones argues that nature can and should be viewed as a capital asset like any other in order for environmental preservation to be a competitive alternative to development. Jones describes how the ecosystem services model, a tool that connects human well-being with the services nature provides, can play a critical role in assigning species and their habitats measurable values. She uses five highly recognizable animal species—moose, manatees, sharks, wolves, and bald eagles—as examples to show how highly valued charismatic fauna can serve as symbolic representations of entire ecosystems at risk. Through an emphasis on branding, incentives, and ecotourism, Jones advocates for channeling the social and economic power of these and other faces of nature to inspire greater environmental awareness and stewardship. Contending that many people don’t realize how fiscally pragmatic environmental initiatives can be, Jones is optimistic that by recognizing the costs of habitat destruction and diminished biodiversity, we will make better choices regarding conservation and development. In doing so, we can more readily move toward co-existence with nature and a sustainable future.

**The Great Barrier Reef** Pat Hutchings 2019-02-01 The iconic and beautiful Great Barrier Reef Marine Park is home to one of the most diverse ecosystems in the world. With contributions from international experts, this timely and fully updated second edition of *The Great Barrier Reef* describes the animals, plants and other organisms of the reef, as well as the biological, chemical and physical processes that influence them. It contains new chapters on shelf slopes and fisheries and addresses pressing issues such as climate change, ocean acidification, coral bleaching and disease, and invasive species. The Great Barrier Reef is a must-read for the interested reef tourist, student, researcher and environmental manager. While it has an Australian focus, it can equally be used as a reference text for most Indo-Pacific coral reefs.

*Tales from the Haunted South* Tiya Miles 2015-08-12 In this book Tiya Miles explores the popular yet troubling phenomenon of “ghost tours,” frequently promoted and experienced at plantations, urban manor homes, and cemeteries throughout the South. As a staple of the tours, guides entertain paying customers by routinely relying on stories of enslaved black specters. But who are these ghosts? Examining popular sites and stories from these tours, Miles shows that haunted tales routinely appropriate and skew African American history to produce representations of slavery for commercial gain. "Dark tourism" often highlights the most sensationalist and macabre aspects of slavery, from salacious sexual ties between white masters and black women slaves to the physical abuse and torture of black bodies to the supposedly exotic nature of African spiritual practices. Because the realities of slavery are largely absent from these tours, Miles reveals how they continue to feed problematic "Old South" narratives and erase the hard truths of the Civil War era. In an incisive and engaging work, Miles uses these troubling cases to shine light on how we feel about the Civil War and race, and how the ghosts of the past are still with us.

**European Journal of Tourism Research** 2019-11-22 The European Journal of Tourism Research is an open access academic journal in the field of tourism, published by Varna University of Management, Bulgaria. Its aim is to provide a platform for discussion of theoretical and empirical problems in tourism. Publications from all fields, connected with tourism such as tourism management, tourism marketing, tourism sociology, psychology in tourism, tourism geography, political sciences in tourism, mathematics, tourism statistics, tourism anthropology, culture and tourism, heritage and tourism, national identity and tourism, information technologies in tourism and others are invited. The journal is open to all researchers. Young researchers and authors from Central and Eastern Europe are encouraged to submit their contributions. Regular Articles in the European Journal of Tourism Research should normally be between 4 000 and 20 000 words. Major research articles of between 10 000 and 20 000 are highly welcome. Longer or shorter papers will also be considered. The journal publishes also Research Notes of 1 500 - 2 000 words. Submitted papers must combine theoretical concepts with practical applications or empirical testing. The European Journal of Tourism Research includes also the following sections: Book Reviews, announcements for Conferences and Seminars, abstracts of successfully defended Doctoral Dissertations in Tourism, case studies of Tourism Best Practices. The European Journal of Tourism Research is published in three Volumes per year. There are no charges for publication. The full text of the European Journal of Tourism Research is available in the following databases: EBSCO Hospitality and Tourism Complete CABI Leisure, Recreation and Tourism ProQuest Research Library The journal is indexed in Scopus and Clarivate Analytics' Emerging Sources Citation Index. The editorial team welcomes your submissions to the European Journal of Tourism Research.

*Roots Quest* Jackie Hogan 2019-01-15 In *Roots Quest*, sociologist Jackie Hogan digs into our current genealogy boom to ask why we are so interested in our family history. She shows how the surging popularity of genealogy is a response to large-scale social changes, and she explores the way our increasingly rootless society fuels the quest for an elemental sense of belonging—for roots.

**Imagining the American West through Film and Tourism** Warwick Frost 2015-06-05 The West is one of the strongest and most enduring place images in the world and its myth is firmly rooted in popular culture - whether novels, film, television, music, clothing and even video games. The West combines myth and history, rugged natural scenery and wide open spaces, popular culture and promises of transformation. These imagined places draw in tourists, attracted by a cultural heritage that is part fictional and mediated. In turn, tourism operators and destination marketing organisations refashion what they present to fit these imagined images. This book explores this imagining of a mythic West through three key themes, travel, film and frontiers to offer new insight into how the imagination of the West and popular culture has influenced the construction of tourism. In doing so, it examines the series of paradoxes that underlie the basic appeal of the West: evocative frontier, a boundary zone between civilisation and wilderness and between order and lawlessness. It draws on a range of films and literature as well as varying places from festivals to national parks to showcase different aspects of the nexus between travel, film and frontiers in this fascinating region. Interdisciplinary in character, it includes perspectives from cultural studies, American studies, tourism and film studies. Written by leading academics, this title will be valuable reading for students, researchers and academics in the fields of cultural studies, tourism, film studies and media studies and all those interested in film tourism.

*New Orleans Boom & Blackout* Brian W. Boyles 2015-01-12 This insider’s account of the 2013 Super Bowl blackout cuts across the city’s cultural landscape to reveal what change has meant for New Orleanians. Hosting the Super Bowl was set to be a major event for New Orleans. Not only was it a commercial boon for the city, but it would also be the first game played in the Superdome since it had been used as a shelter during Hurricane Katrina. As the big game approached, the entire city was determined to present its best face to the world. Politicians, business leaders and tourism officials declared the rise of the “new New Orleans.” But as game day neared, the preparations revealed the strains of the post-Katrina recovery and the contrasts of the heralded renaissance. The watershed moment culminated in darkness when the lights went out in the Superdome. In this revealing portrait of the breathless months before the game, author Brian W. Boyles unearths the conflicts, ambitions and secret histories that defined the city as it prepared for Super Bowl XLVII.
