Crimes Unspoken Miriam Gebhardt 2016-12-20

*Downloaded from vla.ramtech.uri.edu on
September 22, 2023 by Jason c Murray*

The soldiers who occupied Germany after the Second World War were not only liberators: they also brought with them a new threat, as women throughout the country became victims of sexual violence. In this disturbing and carefully researched book, the historian Miriam Gebhardt reveals for the first time the scale of this human tragedy, which continued long after the hostilities had ended. Discussion in recent years of the rape of German women committed at the end of the war has focused almost exclusively on the crimes committed by Soviet soldiers, but Gebhardt shows that this picture is misleading. Crimes were

committed as much by the Western Allies - American, French and British - as by the members of the Red Army, and they occurred not only in Berlin but throughout Germany. Nor was the suffering limited to the immediate aftermath of the war. Gebhardt powerfully recounts how raped women continued to be the victims of doctors, who arbitrarily granted or refused abortions, welfare workers, who put pregnant women in homes, and wider society, which even today prefers to ignore these crimes. *Crimes Unspoken* is the first historical account to expose the true extent of sexual violence in Germany at the end

of the war, offering valuable new insight into a key period of 20th century history.

Operator's, Organizational, Direct Support, and General Support Maintenance Manual 1989

These instructions are for use by the operator, organizational, direct support maintenance personnel for the Flamethrower, Portable, M9A1-7 and include a description of the device and its component parts as well as general and specific maintenance information.

Commercial-Industrial Cleaning, by Pressure-Washing, Hydro-Blasting and UHP-Jetting

Wolfgang Maasberg 2012-01-05 Commercial-Industrial Cleaning, by Pressure-Washing, Hydro-Blasting and UHP-Jetting is the first proprietary

manual for cleaning and rehabilitation through pressure-washing, hydro-blasting and ultra high pressure water jetting (UHP). It examines the cleaning, restoration and rehabilitation of statuary and historical structures; manufacturing hardware; and application technologies for residential, commercial and industrial areas, structures and buildings. Commercial-Industrial Cleaning, by Pressure-Washing, Hydro-Blasting and UHP-Jetting contains over 450 applications from agricultural, marine, municipal, food processing, paper-pulp, pharmaceutical and cosmetic, industrial and power generating maintenance

areas. It includes gear lists to help readers easily identify the appropriate tooling and equipment for each specific application and industry.

Commercial-Industrial Cleaning, by Pressure-Washing, Hydro-Blasting and UHP-Jetting supplies readers with the tools to create a successful business model for retaining and safeguarding corporate application itineraries. It is a valuable guide for maintenance superintendents, buyers of maintenance services, contractors, field technicians, engineers and architects involved in commercial-industrial cleaning.
