Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals Hartsfield,

Danielle E. 2021-06-25
Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting

reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today's children and young adults, which introduces them to texts that deal with religion, gender identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people's access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. The Jihadi Next Door Kimberly Mehlman-Orozco 2019-01-15

The recruitment of ISIS terrorists may have begun as an extremist crusade in Iraq, but it has quickly become a global phenomenon that is taking hold of people from diverse backgrounds, cultures, and belief systems. The iconic image of a terrorist as an old, angry, middle-eastern man is long gone. It has since been replaced by young men and women of all races and religious upbringings, in tactical gear and ski masks, carrying heavy artillery. **Downloaded from**

outside looking into the Islamic State, most people see these men and women as nothing more than evil terrorists with a psychotic penchant for violence. Internally, they perceive themselves as freedom fighters or mujahedeen, who violate the laws of men to protect their community according to the will of Allah. Ultimately, neither of these perceptions are based in reality. While some experts claim that terrorist recruitment is completely random, criminologist Kimberly Mehlman-Orozco has identified clear patterns which can be used to explain how regular people are being conscripted into terrorism. Using interviews with convicted terrorists, in-depth research and analysis of extremist propaganda, and case-specific details, Dr. Mehlman-Orozco provides nuanced theories into the methods of terrorist recruitment—methods which can be used to identify persons at high risk of being targeted. The Jihadi Next Door provides unprecedented information that

can be used to actually combat terrorism. By laying bare the tactics used by ISIS to deceive and exploit new recruits and exposing the veneer these extremists operate under, Dr. Mehlman-Orozco hopes to empower readers with the knowledge needed to prevent future recruitment and thereby preventing acts of terrorism. *EGirls, ECitizens* Valerie Steeves 2015-04-23 *eGirls, eCitizens* is a landmark work that explores the many forces that shape girls' and young women's experiences of privacy, identity, and equality in our digitally networked society. initiatives. Aimed at moving dialogues on scholarship and policy around girls and technology away from established binaries of good vs bad, or risk vs opportunity, these seminal contributions explore the interplay of factors that shape online environments characterized by a gendered gaze and too often punctuated by sexualized violence. Perhaps most importantly, this collection offers first-hand perspectives collected from girls and young women themselves, providing a unique window on what it is to be a girl in today's digitized society.

International LGBTQ+ Literature for Children and Young Adults

B.J. Epstein
2021-08-17 This edited collection explores LGBTQ+ literature for young readers around the world, and connects this literature to greater societal, political, linguistic, historical, and cultural concerns. It brings together contributions from across the academic and activist spectra, looking at picture books, middle-grade books and young adult novels to explore what is at stake when we write (or do not write) about LGBTQ+ topics for young readers. The topics include the representation of sexualities and gender identities; depictions of queer families; censorship; links between culture, language and sexuality/gender; translation of LGBTQ+ literature for young

readers; and self-publishing. It is the first collection to expand the study of LGBTQ+ literature for young readers beyond the English-speaking world and to draw cross-cultural comparisons.

Indiscreet Fantasies Andrés Lema-Hincapié 2020-11-13
Pedro Almodóvar may have helped put queer Iberian cinema on the map, but there are multitudes of LGBTQ filmmakers from Catalonia, Portugal, Castile, Galicia, and the Basque Country who have made the Peninsula one of the world's most vital sources for queer film. Together, they have produced a cinema whose expressions of queer desire have challenged the region's conservative religious and family values, while intervening in vital debates about politics, history, and nation. Indiscreet Fantasies is a unique collection that offers in-depth analyses of fifteen different films produced in the region over the past fifty years, each by a different director, from Narciso Ibáñez Serrador's La residencia (The House That Screamed, 1969) to

João Pedro Rodrigues's *O ornitólogo* (The Ornithologist, 2016). Contributors examine how queer Iberian cinema has responded to historical trauma—from the AIDS crisis to the repressive and homophobic Franco regime—and explore how these films demonstrate a fluid understanding of sexuality, gender, and national identity. The result will give readers a new appreciation for the cultural diversity of Iberia and the richness of its thought-provoking queer cinema.

Toxic Inequality Thomas M. Shapiro 2017-03-14 "Everyone concerned about the toxic

effects of inequality must read this book."--Robert B. Reich "This is one of the most thought-provoking books I have read on economic inequality in the US."--William Julius Wilson Since the Great Recession, most Americans' standard of living has stagnated or declined. Economic inequality is at historic highs. But inequality's impact differs by race; African Americans' net wealth is just a tenth that of white Americans, and over recent decades, white families have accumulated wealth at three times the rate of black families. In our increasingly diverse nation, sociologist Thomas M. Shapiro argues, wealth disparities must be understood in tandem with racial inequities--a dangerous combination he terms "toxic inequality." In *Toxic Inequality*, Shapiro reveals how these forces combine to trap families in place. Following nearly two hundred families of different races and income levels over a period of twelve years, Shapiro's research vividly documents the real-life effects of

on parents and children, the ways families use assets to manage crises and create opportunities, and the real reasons some families build wealth while others struggle in poverty. The structure of our neighborhoods, workplaces, and tax code-much more than individual choices-push some forward and hold others back. A lack of assets, far more common in families of color, can often ruin parents' careful plans for themselves and their children. Toxic inequality may seem inexorable, but it is not inevitable. America's growing wealth gap and its yawning racial divide have been forged by history and preserved by policy, and only bold, race-conscious reforms can move us toward a more just society.

2015-02-20 Much has been written about the events surrounding the 2003 Anglo-American invasion of Iraq and its aftermath, especially about the intentions, principles, plans and course of action of US policy, but much less attention has been given to the consequences of US policy on Iraqi political and social development. This book provides an in-depth analysis of the impact of US policy on the social and political development of Iraq.

twenty-first century. It shows how not just the institutions of the state were destroyed in 2003, leaving the way open for sectarianism, but also the country's cultural integrity, political coherence, and national-oriented economy. It outlines how Iraq has been economically impoverished, assessing the appalling situation which ordinary people, including women and children, have endured, not just as a result of the 2003 war, but also as a consequence of the 1991 war and the sanctions imposed in the following years. The book argues that the social, political, and cultural ruin that accompanied the Iraq war was an absolute catastrophe; that the policies which had such adverse effects were the foreseeable consequences of deliberate policy choices; and that those responsible continue to evade being made accountable.

Independent Thinking on

Loss Ian Gilbert 2020-03-09

Written from the personal experience of a parent and his three children, Independent

Thinking on Loss: A little book about bereavement for schools details the ways in which schools can help their pupils come to terms with the death of a parent. A child loses a parent every twenty-two minutes in the UK. Childhood bereavement brings with it a whole series of challenges for the children involved challenges they will deal with all their lives. The research shows teachers want to help, but don't know what to do. This book is a start. Written by Independent Thinking founder Ian Gilbert together with his three children, Independent Thinking on Loss is a personal account of the way educational institutions tried and succeeded, tried and failed and sometimes didn't try at all to help William, Olivia and Phoebe come to terms with the death of their mother. Several months after their mother's death, BBC's Newsround aired a brave and still controversial programme in which four children talked about their losses. This prompted Ian and his children to sit

think about their own experiences and draw up a fifteen -strong list of dos and don'ts that could help steer schools towards a better understanding of what is needed from them at such a difficult time. The warmth of reception of this handout led the family to expand their advice and suggestions into what has now become Independent Thinking on Loss, the proceeds of which will go to Winston's Wish, one of the UK's leading children's bereavement charities. Ian, William, Olivia and Phoebe encourage educators to view death and bereavement as something that can be acknowledged and talked about in school, and offer clear guidelines that will make a difference as to how a school can support a bereaved child in their midst. They also explore how conversations and actions little ones, whole-school ones, genuine ones, professional ones, personal ones in the school setting can make an awful scenario just that little bit easier for children to deal with. Suitable for

anyone working with children and young people in an educational setting.
?Independent Thinking on Loss is an updated edition of The Little Book of Bereavement for Schools (ISBN 9781845904647) and is one of a number of books in the Independent Thinking On series from the award-winning Independent Thinking Press.
Mob Town John Bennett
2017-09-19 A captivating history of a notorious neighborhood and the first book to reveal why London's East End became synonymous with lawlessness and crime Even before Jack the Ripper haunted its streets for prey, London's East End had earned a reputation for immorality, filth, and vice. John Bennett, a writer and tour guide who has walked and researched the area for more than thirty years, delves into four centuries of history to chronicle the crimes, their perpetrators, and the circumstances that made the East End an ideal breeding ground for illegal activity. In the eighteenth and nineteenth centuries, Britain's Bow district

boom drew thousands of workers to the area, leading to overcrowding and squalor. But crime in the area flourished long past the Victorian period. Drawing on original archival history and featuring a fascinating cast of characters including the infamous Ripper, highwayman Dick Turpin, the Kray brothers, and a host of ordinary evildoers, this gripping and deliciously unsavory volume will fascinate Londonphiles and true crime lovers alike.

unprepared, causing CEOs to recalibrate their business models. This book explains why this unprecedented pandemic is different from the past disruptions experienced by the airline industry during the past 50 years, and what airlines and related businesses now can do to adapt to the dramatically changed marketplace. This book presents two future scenarios: continuous improvements and elastic supply. These are considered in three specific contexts for the rebuilding of the airline business. These contexts, in the order of urgency with respect to change from the status quo, are the following. The first context is for airlines to become better prepared to deal with frequent and deeper disruptions that could be localized or globalized relating to such areas as climate change, geopolitics, and cybersecurity. The second context is to collaborate and integrate within the much broader travel ecosystem, possibly using platforms to innovate on new value systems. The third context, which has

always been the case and drives the first two, is for airlines to offer real solutions to people's travel needs, solutions developed with imagination and turbocharged innovation, even as we contemplate new technology airplanes and mobility as a service solutions. This book is recommended reading for all senior-level practitioners of airlines and related businesses, as well as aviation policy makers worldwide.

Navigating the Human Side of Boardroom Interactions

Thomas Sieber 2022-04-13 This book will help Chairs to form a strong team, build a resilient relationship with the CEO, assess how to use their considerable power, and when to show self-restraint. Board members often struggle to identify their true role, caught between the Chair and the executive board. As a result, board members frequently have doubts about their role and personal impact; doubts which are rarely acknowledged nor addressed. By focusing on the most impactful

success – the human behavior – the author explores how to create a strong board team whose members are clear about the team’s role, are able to talk about their concerns, and are therefore also comfortable to listen, to challenge, and to support. Based on around 60 interviews around the globe and his own board experience, this book will help Chairs to form a strong team, build a resilient relationship with the CEO, assess how to use their considerable power, and when to show self-restraint. Navigating the Boardroom supports board members and managers in reflecting on how to navigate the complex web of boardroom relations and provides both practical and attitudinal tips.

Mirror, Mirror Bill Reed
2016-06-28 Stranded in his Sydney flat, the journalist John Rinner tries to explain his Dad-dud existence to his daughter by telephone. This is not easy since he hasn't seen her in 18 years and she is on the other side of the world working in an Amsterdam hotel with little time to listen to an excuse for a Dad. Just as his working life in the field with the UN Childrens Fund now seems only smoke-and-mirrors, so does Rinner's own life seem as it flashes past him in delusion and illusion, and with more bottom

This seems especially relevant to his real-or-imagined North Queensland aboriginal roots... almost as much as the witnessing the world's abuse of its children has scarred him. But, more and more, the cross connections of telephone torment continue, escalating in him into looking down into a sump rather than getting any sort of expiation from reconnecting with his beloved daughter. At least it is a mirror on the wall there, and not the sad sack that is himself. At least, too, the mirror gives back to him a more intelligent conversation than he can get from other human beings these end of days. He is still, though barely, intuitive enough to be able to appreciate being able to tell it: 'You heard the one about the guy going up to a mirror on the wall and spouting, "Mirror, mirror, on the wall, who is the....?"' -----

space, and boundaries transmitted historically from one generation to the next through proverbs, idioms, and folklore tales in different geographical and spatial contexts. These important stories and their embedded life lessons are introduced, explained, and supplemented with pre and post educational activities and lesson plans to be used as learning resources. The centering of orality as a tool and medium for educating the future generation is a reclamation and reaffirmation of Indigeneity, Indigenous knowledges. and non-hegemonic approaches to support students in a socio-culturally sustaining manner. Through this understanding, this book explores the interconnectedness between culture, traditions, language, and way of life through oral storytelling, sharing, and listening.

Adult Voices in the #MeToo Movement' is an edited collection by Kimberly Greenfield Karshner (Lorain County Community College). This collection focuses on situating young adult voices in the #MeToo movement, and into American culture and identity. Children's and young adult literature is an area of study that has rapidly evolved in the past ten years, bringing previously silenced voices to light. This is especially true for YA LGBTQ+ voices, and also for young narrators who are not only discovering, celebrating, and coming to terms with their identities, but also dealing with assaults on their identities. This collection will build on what writers like Laurie Halse Anderson have begun, first with her groundbreaking book on sexual assault, 'Speak', published in 1999, and more currently, her follow-up book, 'Shout' (2019). These authors continue what Anderson started, exploring texts from the perspectives of YA male and female voices, Native American and international

perspectives, and LGBTQ+ character representation. Chapters investigate various literary forms such as graphic novels, memoirs, and novels, and cover topics such as sexual desire, consent, trauma, and survivorship. The literature featured in this volume will assure young people that they can tell their stories and that they will be heard. 'Voices From the Wreckage' will be a valuable tool for anyone who teaches Young Adult Literature, or for those who are avid readers and fans of the genre. The authors in this collection are starting and continuing very important conversations on the topic of sexual abuse and trauma, a conversation necessary for the intended audiences of these books, and for adult readers and teachers who are facilitating the emotions connected to these topics.

The Perils of Populism Sarah Tobias 2022-09-16 From Donald Trump in the U.S. to Jair Bolsonaro in Brazil, Viktor Orbán in Hungary, and Narendra Modi in India, right-wing populist leaders have taken power in many parts of the world. While each country's populist movement is distinct, they are united by several key features, including the presence of a boastful strongman leader and the scapegoating of vulnerable populations, especially immigrants, people of color, LGBTQ people, and women. *The Perils of Populism* shows how a feminist lens can help identify

the factors behind the global rise of right-wing populism and teach us how to resist the threat it presents to democracy. Featuring interdisciplinary essays about politics in the United States, the Middle East, Europe, and India from a variety of acclaimed theorists and activists, the volume contributes to a rapidly expanding literature on gender and the far right. Together,

these chapters offer a truly intersectional analysis of the problem, addressing everything from how populism has thrived in a “post-truth” era to the ways it appeals to working-class voters looking for an alternative to neoliberalism. Yet the authors also find reasons to be hopeful, as they showcase forms of grassroots feminist activism that challenge right-wing populism by advocating for racial and economic justice.
