principles they set out in their first book, the bestselling *Extreme Ownership*. Willink also hosts the top-rated podcast *Jocko Podcast*. INTRODUCTION. What's in it for me? Discover the important dichotomies involved in effective leadership. War is cruel and often unnecessary, but important lessons can emerge through the cloud of death and destruction that results from human conflict. This was brought to light with Jocko Willink and Leif Babin's first book, *Extreme Ownership*. In it, they imparted lessons they learned as Navy SEAL commanders during the 2003 American invasion and subsequent occupation of Iraq. Facing well-organized and heavily-armed insurgents in a foreign territory they discovered the importance of effective leadership. After returning to civilian life, they realized that these war-induced lessons weren't only applicable in a military setting - they could also be used to increase profits for companies. However, Willink and Babin felt that their first book was misinterpreted by some. Being a good leader isn't just about being "extreme" - it involves careful balancing a number of dichotomies. This is often hard to achieve, however. Only by harnessing these dichotomies can you implement the wisdom of the hardy Navy SEALs in your organization. In this summary guide, you'll learn *what the ultimate dichotomy of leadership is and why you should heed it; *how having a big-picture mindset led Babin to saving an Iraqi family; and *how the story of one Navy SEAL's tragic death helped save a mining company.

The Dichotomy of Leadership Jocko Willink 2018-09-25 THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of Extreme Ownership comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, Extreme Ownership (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in THE DICHOTOMY OF LEADERSHIP, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in Extreme Ownership: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the Dichotomy of Leadership requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must:

- Take Extreme Ownership of everything that impacts their mission, yet utilize Decentralize Command by giving ownership to their team.
- Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above all accomplish the strategic mission.
- Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission.

With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain THE DICHOTOMY OF

Combat, the most intense and dynamic environment imaginable, teaches the toughest leadership lessons, with absolutely everything at stake. Jocko Willink and Leif Babin learned this reality first-hand on the most violent and dangerous battlefield in Iraq. As leaders of SEAL Team Three's Task Unit Bruiser, their mission was one many thought impossible: help U.S. forces secure Ramadi, a violent, insurgent-held city deemed "all but lost." In gripping, firsthand accounts of heroism, tragic loss, and hard-won victories, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training to pass on their harsh lessons learned in combat to help forge the next generation of SEAL leaders. After leaving the SEAL Teams, they launched a company, Echelon Front, to teach those same leadership principles to leaders in businesses, companies, and organizations across the civilian sector. Since that time, they have trained countless leaders and worked with hundreds of companies in virtually every industry across the U.S. and internationally, teaching them how to develop their own high-performance teams and most effectively lead those teams to dominate their battlefields. Since its release in October 2015,
