**The English Civil War 1640-1649** Martyn Bennett 2014-05-12 The English Civil War (1642-53) is one of the most crucial periods in British history. Martyn Bennett introduces the reader to the main debates surrounding the Civil War which continue to be debated by historians. He considers the repercussions both on government and religion, of Parliament's failure to secure stability after the Royalist defeat in 1646, and argues that this opened the way for far more radical reforms. The book deals with the military campaigns in all four nations, placing the war in its full British and Irish context.

[Civil War in Syria](#) Adam Baczko 2018-02-08 The first comprehensive field-based study of the Syrian conflict, introducing a seminal approach to civil wars.

**Soldiers and Strangers** Mark Stoyle 2005-01-01 The Civil War fought between Charles I and his Parliament is one of the most momentous conflicts in English history. This book provides a wholly new perspective by revealing the extent to which the struggle possessed an "ethnic" dimension, and the impact of that on the forging of English national identity. Stoyle reveals the acute fear of foreign invasion that gripped England after 1640, when the insular English were placed on the brink of what they perceived as a national emergency. Stoyle sets the creation of the New Model Army within that context, arguing that its appearance represented the culmination of a campaign by Oliver Cromwell and others to forge a purely "English" military instrument, one purged of the foreign soldiers who had been so prominent in earlier Parliamentary armies. This self-consciously "English" army eventually succeeded in wresting back control of the kingdom by defeating the king's forces, re-conquering Cornwall and Wales, and expelling all foreign agents.

**Global Trends 2040** National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of

reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

**Reactions to the English Civil War, 1642-1649** John Stephen Morrill 1983

**The Causes of the English Civil War** Conrad Russell 1990 Basing his study on extensive new research Professor Russell provides the fullest account yet available of the origins of one of the most significant events in British history.

*Drum Taps* Walt Whitman 2015-11-24 A stunning and elegant 150th Anniversary Edition of Whitman's celebrated Civil War poems, accompanied by moving photographs and artwork shedding new light on this tragic but significant chapter in American history. Drum Taps is the complete Civil War poem collection by Walt Whitman, including the celebrated Oh, Captain, My Captain!, and augmented with Whitman's essays from the period on subjects such as Secession, Abraham Lincoln, working in the Civil War hospitals, and the assassination of the president. For the first time ever, each poem is set on a single page, and augmented with stunning artwork from the period: bright, rich, full-color engravings from Currier & Ives; the brooding and detailed photography of Alexander Gardner and Matthew Brady; watercolors from the battlefield by Winslow Homer and other famous artists; and classic photographs and art from America's richest collections, including the Library of Congress, the National Gallery, the George Eastman House, and many other collections. With gorgeous, old-fashioned hot type, beautifully restored period artwork, and an authoritative introduction by Civil War historian and Pulitzer Prize-winner James McPherson, this is the richest

edition of these moving and thoughtful poems by America’s greatest poet ever published.

**Dictionary of Wars** George C. Kohn 2006 Dictionary of Wars, Third Edition contains detailed summaries of all notable wars from throughout history, spanning more than 4,000 years. Completely updated and expanded, this volume is an authoritative source on the global conflicts, civil wars, mutinies, punitive expeditions, undeclared wars, rebellions, and revolutions that have occurred throughout the world. This edition contains new and updated entries, new illustrations, and new front and back matter. Facts are presented in a lively and engaging manner, and the scope of the book is truly impressive. Approximately 1,850 entries are extensively cross-referenced to help readers find the information they want. This book deals exclusively and concisely with military information, often specifying political, social, economic, and cultural influences on military operations. New coverage includes: Battle of Granicus; Chechen Civil War of 1999-2002; Cote d'Ivoire Civil War of 2002; Fijian Rebellion of 2000; Guinea-Bissauan Civil War of 1998-99; Haitian Uprising of 2000; Indonesian War in Aceh; Macedonian Civil War of 2001; Nepalese Insurgency of 1996; Nigerian Uprisings of 1999; Palestinian Uprising of 2000; Solomon Islands Insurrection of 1999-2003; U.S. invasion of Afghanistan; U.S. invasion of Iraq; and Uzbekistan Uprising of 2005.

**The Siege of Loyalty House** Jessie Childs 2022-05-19 \*\*A TIMES, GUARDIAN, TELEGRAPH, SPECTATOR, THE CRITIC, MAIL ON SUNDAY, ECONOMIST AND PROSPECT BOOK OF THE YEAR\*\* 'A gifted narrative historian, eloquent, graceful and witty; the stories she tells are the ones we all should know' Hilary Mantel It was a time of climate change and colonialism, puritans and populism, witch hunts and war . . . This is the story of a home that became a warzone. Basing House in Hampshire saw one of the longest and bloodiest sieges of the English Civil War. Defended for over two years by artists and aristocrats, actors and apothecaries, women and children, it became a symbol of royalist defiance and a microcosm of the wider conflict. Drawing on unpublished manuscripts and the voices of dozens of soldiers and civilians, award-winning historian Jessie Childs weaves a thrilling tale of war and peace, terror and faith, savagery and civilization. \_\_\_\_\_ 'Extraordinary, thrilling, immersive ... at times almost Tolstoyan in its emotional intelligence and literary power' Simon Schama 'Compellingly readable... [a] beautifully written and lucid account' Mail on Sunday 'Brilliant. Original. Gripping.' Antonia Fraser 'Beautifully written and gripping from first page to last. A sparkling book by one of the UK's finest historians' Peter Frankopan 'The Siege of Loyalty House is not only deeply researched. Childs has composed a wonderfully poetic narrative and adds a touch of the gothic' The Times 'Successfully brings the ghastliness of the period to life, dramatically, vividly and with pathos' Charles Spencer, Spectator

**The Causes of the English Civil War** A. Hughes 1998-12-14 The causes of the English civil war have provoked fierce controversy amongst historians ever since the seventeenth century. The period is still one which matters to people, one over which they take sides. Such an enormous amount of work is published on the civil war that it is impossible for non-specialists to keep up with debates, hence the value of this synthesis. This book is intended as a guide and introduction to this massive outpouring of scholarship, including discussion of revisionist and post-revisionist work. It is a vigorous overview which seeks to focus sharply on original recent approaches. It examines English developments in a broader British and European context, and explores current debates on the nature of the political process and the divisions over religion and politics. Finally, it analyses controversial attempts to set the civil war in a social context, and to connect social change to broad cultural cleavages in England.

**Town and Countryside in the English Revolution** R. C. Richardson 1992 Scholars tend to specialize in either urban or agrarian history, and the whole picture of an era or event is never entirely pieced together. Ten essays seek to close the gap by considering the impact of the 17th-century civil war on both the towns and the countryside, emphasizing both the divergence and similarity of experiences. Distributed in the US by St. Martin's Press. Annotation copyright by Book News, Inc., Portland, OR

**The English Civil War and Revolution** Keith Lindley 2013-11-05 The origins, nature and consequence of the English Civil War are subjects of continuing-historical controversy. The English Civil War and Revolution is a wide ranging, accessible sourcebook covering the principal aspects of the mid-seventeenth century crisis. It presents a comprehensive guide to the historiographical debates involved. Drawing on a variety of source material such as official records, private correspondence, diaries, minutes of debates and petitions, this text provides: \* contextual introductions to documents \* a comprehensive glossary of seventeenth century terms \* a chronology of events for reference \* illustrations, including contemporary woodcuts. While familiarising students with some of the main sources drawn upon by historians working in the field, The English Civil War and Revolution contains many extracts from unpublished, manuscript sources. By taking sources from all levels of society and grouping them thematically, this book offers a number of viewpoints on the civil war and revolution, thus aiding understanding of this complex period.

**Model Rules of Professional Conduct** American Bar Association. House of Delegates 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

**Reactions to the English Civil War, 1642-49** J. S. Morrill 1982-11-04

**Breaking the Conflict Trap** World Bank 2003-05-30 Civil war conflict is a core development issue. The existence of civil war can dramatically slow a country's development process, especially in low-income countries which are more vulnerable to civil war conflict. Conversely, development can impede civil war. When development succeeds, countries become safer when development fails, they experience a greater risk of being caught in a conflict trap. Ultimately, civil war is a failure of development. 'Breaking the Conflict Trap' identifies the dire consequences that civil war has on the development process and offers three main findings. First, civil war has adverse ripple effects that are often not taken into account by those who determine whether wars start or end. Second, some countries are more likely than others to experience civil war conflict and thus, the risks of civil war differ considerably according to a country's characteristics including its economic stability. Finally, Breaking the Conflict Trap explores viable international measures that can be taken to reduce the global incidence of civil war and proposes a practical agenda for action. This book should serve as a wake up call to anyone in the international community who still thinks that development and conflict are distinct issues.

**The Saint's Knowledge of Christ's Love** John Bunyan 2008-08-08 John Bunyan's The Saints' Knowledge of Christ's Love or The Unsearchable Riches of Christ (1692) is an exposition of Ephesians 3:18, 19, concerning the love of Christ. While preaching Christian values, Bunyan asserts that the scope of Christ's love encompasses all believers. Those who repent and regret their sins are covered in the blessings of the Father and the Son.

**The American Civil War and the British Press** Alfred Grant 2000 Those writing for the British press of the mid-Victorian era were masters of the English language, given to tirades of grand oratory. They liked to cover the former colonies, arousing rhetorical fears among Britons over the increasing power of the United States. With the advent of the American Civil War, the British press had the perfect opportunity to practice their peculiar brand of journalism. The South was the home of virtuous aristocrats, and Lincoln had bad taste, bad grammar and the respect of no one. Selections from all of Britain's major Civil War-era newspapers and magazines (along with numerous pamphlets) are presented, with the author's historical and editorial comments. A revealing assessment of British journalistic treatment of the War Between the States is the result. Sections of the book are devoted to the British press' handling of contentious issues between the North and South, specific battles or persons, a detailed profile of The Times of London (including personal correspondence) with examples of the bias in favor of the Confederacy in The Times' reportage, and the portrayal by the press of Lincoln's presidency upon his assassination (suddenly The Times found wisdom and goodness).

**The English Civil War** Martyn Bennett 2009-11-02 This comprehensive work of reference gives full consideration to the Welsh, Scottish and Irish dimensions of the English Civil War. Entries include biographies of the key personalities, key events, battles, military institutions of the conflict, and covers the runup to the conflict, the war itself and the aftermath.

**The English Civil War** Nick Lipscombe 2020-09-22 A lavishly presented atlas of the English Civil Wars, the conflicts that ravaged the countryside of England, Scotland, Wales, and Ireland from 1639 to 1651. The English Civil Wars (1638–51) comprised the deadliest conflict in history fought on British soil, in which brother took up arms against brother, father fought against son, and towns, cities, and villages fortified themselves in the cause of Royalists or Parliamentarians. Although much historical attention has focused on the events in England and the key battles of Edgehill, Marston Moor, and Naseby, this was a conflict that engulfed the entirety of the Three Kingdoms and led to a trial and execution that profoundly shaped the British monarchy and Parliament. This beautifully presented atlas tells the whole story of Britain's revolutionary civil war, from the earliest skirmishes of the Bishops Wars in 1639–40 through to 1651, when Charles II's defeat at Worcester crushed the Royalist cause, leading to two decades of Stuart exile. Each map is supported by a detailed text, providing a complete explanation of the complex and fluctuating conflict that ultimately meant that the Crown would always be answerable to Parliament.

**Decisive Battles of the English Civil War** Malcolm Wanklyn 2006-10-19 In this stimulating and original investigation of the decisive battles ofthe English Civil War, Malcolm Wanklyn reassesses what actually happened on the battlefield and as a result sheds new light on the causes of the eventual defeat of Charles I. Taking each major battle in turn - Edgehill, Newbury I, Cheriton, Marston Moor, Newbury II, Naseby, and Preston - he looks critically at contemporary accounts and at historians' narratives, explores the surviving battlegrounds and retells the story of each battle from a new perspective. His lucid, closely argued analysis questions traditional assumptions about each battle and the course of the war itself.

**The English Civil War and After, 1642-1658** Robert Ashton 1970-07 All but one of the essays were originally delivered as lectures at Eton College. Includes bibliographies.

**Understanding Civil War: Europe, Central Asia, and other regions** Paul Collier 2005-01-01 Annotation VOLUME I: Africa VOLUME II: Europe, Central Asia, and Other Regions (volumes sold separately) "This is a superb manuscript, and one that will become a standard reference in the field for students of conflict and civil war." Robert Bates, Eaton Professor of the Science of Government, Harvard University The two volumes of Understanding Civil War build upon the World Bank's prior research on conflict and violence, particularly on the work of Paul Collier and Anke Hoefler, whose model of civil war onset has sparked much discussion on the relationship between conflict and development in what came to be known as the "greed" versus "grievance" debate. The authors systematically apply the Collier-Hoefler model to 15 countries in 6 different regions of the world, using a comparative case study methodology to revise and expand upon economic models of civil war. The book concludes that the "greed" versus "grievance" debate should be abandoned for a more complex model that considers greed and grievance as inextricably fused motives for civil war. regions of Somalia. Conflict in Somalia examines the results of the study and offers recommendations for reconstruction and development assistance that takes the knowledge on conflict into account.

**The English Civil War: A People's History (Text Only)** Diane Purkiss 2012-11-01 This popular history of the English Civil War tells the story of the bloody conflict between Oliver Cromwell and Charles I from the perspectives of those involved.

**Puritan Iconoclasm During the English Civil War** Julie Spraggon 2003 Julie Spraggon offers a detailed analysis of Puritan iconoclasm in England during the 1640s, which led to a resurgence of image breaking a century after the break with Rome. She examines parliamentary legislation, its enforcement & the parallel action undertaken by the army to rid the land of superstition.

**Charles the First** Jacob Abbott 2014-05-11 From 1642, Charles fought the armies of the English and Scottish parliaments in the English Civil War. After his defeat in 1645, he surrendered to a Scottish force that eventually handed him over to the English Parliament. Charles refused to accept his captors' demands for a constitutional monarchy, and temporarily escaped captivity in November 1647. Re-imprisoned on the Isle of Wight, Charles forged an alliance with Scotland, but by the end of 1648 Oliver Cromwell's New Model Army had consolidated its control over England. Charles was tried, convicted, and executed for high treason in January 1649.

**The Logic of Violence in Civil War** Stathis N. Kalyvas 2006-05-01 By analytically decoupling war and violence, this book explores the causes and dynamics of violence in civil war. Against the prevailing view that such violence is an instance of impenetrable madness, the book demonstrates that there is logic to it and that it has much less to do with collective emotions, ideologies, and cultures than currently believed. Kalyvas specifies a novel theory of selective violence: it is jointly produced by political actors seeking information and individual civilians trying to avoid the worst but also grabbing what opportunities their predicament affords them. Violence, he finds, is never a simple reflection of the optimal strategy of its users; its profoundly interactive character defeats simple maximization logics while producing surprising outcomes, such as relative nonviolence in the 'frontlines' of civil war.

**A Journal of the English Civil War** Sir William Brereton 2012-10-22 Brereton's journal is a book made up of letters from the English Civil War (1642-1646). A Parliamentary general, Sir William was engaged in the siege of Dudley Castle, Bridgnorth Castle and the fortfield cathedral close at Lichfield. The Letter Book contains copies of letters sent and received by Brereton. There are details of his victory against the last Royalist army in the field, his various sieges, his constant need for money and more troops, and the movements of King Charles I prior to his surrender to the Scots. The Introduction details a history of the civil war, of the battles and skirmishes, up to the writing of the Letter Book. A conclusion relates what happened after: the end of the war, the trial and execution of Charles I, the Interregnum and finally the Restoration and Brereton's retirement from public life.

**Literature, Gender and Politics During the English Civil War** Diane Purkiss 2005-07-14 Diane Purkiss analyses representations of masculinity in the writings of Milton, Marvell, Waller and Herrick.

**The History of Charles the First** Jacob Abbott 2021-01-01 The History of Charles the First is an illustrated book by Jacob Abbott, published in 1901. Chapters include: His Childhood and His Youth; The Expedition Into Spain; Accession to the Throne; Buckingham; The King and His Prerogative; Archbishop Laud; The Earl of Strafford; Downfall of Strafford and Laud; Civil War; The Captivity; and, Trial and Death.

**Anatomy of a Civil War** Mehmet Gurses 2019-02-28 Anatomy of a Civil War demonstrates the destructive nature of war, ranging from the physical to the psychosocial, as well as war’s detrimental effects on the environment. Despite such horrific aspects, evidence suggests that civil war is likely to generate multilayered outcomes. To examine the transformative aspects of civil war, Mehmet Gurses draws on an original survey conducted in Turkey, where a Kurdish armed group, the Kurdistan Workers’ Party (PKK), has been waging an intermittent insurgency for Kurdish self-rule since 1984. Findings from a probability sample of 2,100 individuals randomly selected from three major Kurdish-populated provinces in the eastern part of Turkey, coupled with insights from face-to-face in-depth interviews with dozens of individuals affected by violence, provide evidence for the multifaceted nature of exposure to violence during civil war. Just as the destructive nature of war manifests itself in various forms and shapes, wartime experiences can engender positive attitudes toward women, create a culture of political activism, and develop secular values at the individual level. In addition, wartime experiences seem to robustly predict greater support for political activism. Nonetheless, changes in gender relations and the rise of a secular political culture appear to be primarily shaped by wartime experiences interacting with insurgent ideology.

**The English Civil War** Timothy Venning 2015-02-28 With hindsight, the victory of Parliamentary forces over the Royalists in the English Civil War may seem inevitable but this outcome was not a foregone conclusion. Timothy Venning explores many of the turning points and discusses how they might so easily have played out differently. What if, for example, Charles I had capitalized on his victory at Edgehill by attacking London without delay? Could this have ended the war in 1642? His actual advance on the capital in 1643 failed but came close to causing a Parliamentary collapse how could it have succeeded and what then? Among the many other scenarios, full consideration is given

to the role of Ireland (what if Papal meddling had not prevented Irish Catholics aiding Charles?) and Scotland (how might Montrose's Scottish loyalists have neutralized the Covenanters?). The author analyses the plausible possibilities in each thread, throwing light on the role of chance and underlying factors in the real outcome, as well as what might easily have been different.

**The Cotton Plantation South Since the Civil War** Charles S. Aiken 2003-04-28 Tracing the geographical changes in plantation agriculture and the plantation regions after 1865, Aiken shows how the altered landscape of the South has led many to the false conclusion that the plantation has vanished. In fact, he explains, while certain regions of the South have reverted to other uses, the cotton plantation survives in a form that is, in many ways, remarkably similar to that of its antebellum predecessors.

*The English Civil Wars* Blair Worden 2010-03-24 A brilliant appraisal of the Civil War and its long-term consequences, by an acclaimed historian. The political upheaval of the mid-seventeenth century has no parallel in English history. Other events have changed the occupancy and the powers of the throne, but the conflict of 1640-60 was more dramatic: the monarchy and the House of Lords were abolished, to be replaced by a republic and military rule. In this wonderfully readable account, Blair Worden explores the events of this period and their origins - the war between King and Parliament, the execution of Charles I, Cromwell's rule and the Restoration - while aiming to reveal something more elusive: the motivations of contemporaries on both sides and the concerns of later generations.

**The English Revolution, 1640** Christopher Hill 1955

*Royalists and Royalism during the English Civil Wars* Jason McElligott 2007-09-06 Much ink has been spent on accounts of the English Civil Wars of the mid-seventeenth century, yet royalism has been largely neglected. This 2007 volume of essays by leading scholars in the field seeks to fill that significant gap in our understanding by focusing on those who took up arms for the king. The royalists described were not reactionary, absolutist extremists but pragmatic, moderate men who were not so different in temperament or background from the vast majority of those who decided to side with, or were forced by circumstances to side with, Parliament and its army. The essays force us to think beyond the simplistic dichotomy between royalist 'absolutists' and 'constitutionalists' and suggest instead that allegiances were much more fluid and contingent than has hitherto been recognized. This is a major contribution to the political and intellectual history of the Civil Wars and of early modern England more generally.

**Background to the English Civil War** Frank W. Jessup 2013-09-11 Background to the English Civil War is a collection of literature that attempts to address various queries about the English civil war. The book is comprised 13 chapters that cover various concerns in the conflict. The text first covers the arrival of the Stuarts, and then proceeds to present materials about Charles I. Chapter 3 tackles the growing tension between the king and the population. The next chapter deals with early stages of the war. Next, the book details the execution of Charles I, the battle that comes after, and the eventual restoration of the Stuarts. The selection will be of great use to readers who have a keen interest in English history.

**The Causes of the English Civil War** Ann Hughes 1998-12-14 This book is intended as a guide and introduction to recent scholarship on the causes of the English civil war. It examines English developments in a broader British and European context, and explores current debates on the nature of the political process and the divisions over religion and politics. It then analyses renewed attempts to set the civil war in a social context, and to connect social change to broad cultural cleavages in England. The author also provides her own positive interpretation which

takes account of the valuable insights of revisionist approaches, but concludes that long term ideological divisions and tensions arising from social change were crucial in causing the civil war.

**The Impact of the English Civil War on the Economy of London, 1642-50** Ben Coates 2017-03-02 When the English Civil War broke out, London's economy was diverse and dynamic, closely connected through commercial networks with the rest of England and with Europe, Asia and North America. As such it was uniquely vulnerable to hostile acts by supporters of the king, both those at large in the country and those within the capital. Yet despite numerous difficulties, the capital remained the economic powerhouse of the nation and was arguably the single most important element in Parliament's eventual victory. For London's wealth enabled Parliament to take up arms in 1642 and sustained it through the difficult first year and a half of the war, without which Parliament's ultimate victory would not have been possible. In this book the various sectors of London's economy are examined and compared, as the war progressed. It also looks closely at the impact of war on the major pillars of the London economy, namely London's role in external and internal trade, and manufacturing in London. The impact of the increasing burden of taxation on the capital is another key area that is studied and which yields surprising conclusions. The Civil War caused a major economic crisis in the capital, not only because of the interrelationship between its economy and that of the rest of England, but also because of its function as the hub of the social and economic networks of the kingdom and of the rest of the world. The crisis was managed, however, and one of the strengths of this study is its revelation of the means by which the city's government sought to understand and ameliorate the unique economic circumstances which afflicted it.

*God's Fury, England's Fire* Michael Braddick 2008-02-28 The sequence of civil wars that ripped England apart in the seventeenth century was the single most traumatic event in this country between the medieval Black Death and the two world wars. Indeed, it is likely that a greater percentage of the population were killed in the civil wars than in the First World War. This sense of overwhelming trauma gives this major new history its title: God's Fury, England's Fire. The name of a pamphlet written after the king's surrender, it sums up the widespread feeling within England that the seemingly endless nightmare that had destroyed families, towns and livelihoods was ordained by a vengeful God - that the people of England had sinned and were now being punished. As with all civil wars, however, 'God's fury' could support or destroy either side in the conflict. Was God angry at Charles I for failing to support the true, protestant, religion and refusing to work with Parliament? Or was God angry with those who had dared challenge His anointed Sovereign? Michael Braddick's remarkable book gives the reader a vivid and enduring sense both of what it was like to live through events of uncontrollable violence and what really animated the different sides. The killing of Charles I and the declaration of a republic - events which even now seem in an English context utterly astounding - were by no means the only outcomes, and Braddick brilliantly describes the twists and turns that led to the most radical solutions of all to the country's political implosion. He also describes very effectively the influence of events in Scotland, Ireland and the European mainland on the conflict in England. *God's Fury, England's Fire* allows readers to understand once more the events that have so fundamentally marked this country and which still resonate centuries after their bloody ending.

*Charles the First* Jacob Abbott 2022-09-15 "Charles the First" is a biographical novel by Jacob Abbot that covers the life of one of the most prominent personalities in British history. Charles I was King of England, Scotland, and Ireland from 27 March 1625 until his execution in 1649. From the start of his reign, Charles conflicted with the Parliament of England, which sought to curb his royal prerogative. That led to the English Civil War, his defeat, and the establishment of the Commonwealth.
