about the afterlife based on Mark Macy's fifteen years of research, with special emphasis on a growing collection of unique photographs in which he captures clear faces of nonphysical beings- spirits. These photographs and other results of his research provide some of the first solid evidence, and verifiable proof, that life continues after death of the physical body. Macy weaves his groundbreaking information into a clear picture of life on the other side. He explains in easily digestible terms how loved ones, ancestors, angels, and ghosts all play a part in the affairs of our world, and how we humans can attract the supportive and loving spiritual influences that we desire.

The Last Frontier Julia Assante 2012 Identifying the psychological benefits of an afterlife communication practice that the author believes can assuage negative feelings about loss and death, an analysis of religious and historical views draws on near-death experiences and after-death communication to reveal how everyday people can make contact with the afterlife. Original.

Application of Impossible Things - My Near Death Experience in Iraq
Natalie Sudman 2021-02-09 Natalie's near death experience when her truck was hit with a roadside bomb in Iraq. She recalls the entire spirit side experience as they repair her body so she could live.

The Test Stéphane Allix 2018-08-07 A man places five objects in his father's coffin and tells no one. Can a medium tell him what they are? Can we communicate with the dead? Some people hope it's possible, and some are sure of it. Thousands of people consult mediums, but many wonder if their abilities are real. To find out for himself, author Stéphane Allix interviews six mediums. Without telling them that they are being tested, Allix sees if they can name the five objects he secretly placed in his father's coffin before it was buried. The results are astounding and confirm what scientific research on the subject has revealed: that life after death is indeed a rational hypothesis. Beyond his own test, Allix explores the stories of each psychic and what they've learned from their experiences: How does one become a medium? Is it a gift or a curse? How do the deceased describe the transition between life and death? Where do we go when we die? The Test addresses all of these questions and more, leading us to discover a reality that is both simple and amazing: it is possible to communicate with our loved ones beyond the grave. Allix invites readers to discover what months of investigation and interviews have brought him to understand about the end of life, death, the afterlife, and communication with the other side. In the last chapter, renowned French psychiatrist Christophe Fauré, who specializes in end-of-life care and coming to terms with death, speaks about the unique journey of grief and offers some friendly advice about death and mediumship.

Eighteen-year-old Daunis Fontaine has never quite fit in, both in her hometown and on the nearby Ojibwe reservation. She dreams of a fresh start at college, but when family tragedy strikes, Daunis puts her future on hold to look after her fragile mother. The only bright spot is meeting Jamie, the charming new recruit on her brother Levi's hockey team. Yet even as Daunis falls for Jamie, she senses the dashing hockey star is hiding something. Everything comes to light when Daunis witnesses a shocking murder, thrusting her into an FBI investigation of a lethal new drug. Reluctantly, Daunis agrees to go undercover, drawing on her knowledge of chemistry and Ojibwe traditional medicine to track down the source. But the search for truth is more complicated than Daunis imagined, exposing secrets and old scars. At the same time, she grows concerned with an investigation that seems more focused on punishing the offenders than protecting the victims. Now, as the deceptions—and deaths—keep growing, Daunis must learn what it means to be a strong Anishinaabe kwe (Ojibwe woman) and how far she'll go for her community, even if it tears apart the only world she's ever known.

Science and the Afterlife Experience Chris Carter 2012-08-22 Reveals the evidence of life beyond death • Examines 125 years of scientific research into reincarnation, apparitions, and communication with the dead showing these phenomena are real • Reveals the existence of higher planes of consciousness where the souls of the dead can choose to advance or manifest once again on Earth • Explains how these findings have been ignored and denied because they are incompatible with materialist doctrines In this book, Chris Carter shows that evidence of life beyond death exists and has been around for millennia, predating any organized religion. Focusing on three key phenomena--reincarnation, apparitions, and communications from the dead--Carter reveals 125 years of documented scientific studies by independent researchers and the British and American Societies for Psychical Research that rule out hoaxes, fraud, and hallucinations and prove these afterlife phenomena are real. The author examines historic and modern accounts of detailed past-life memories, visits from the deceased, and communications with the dead via medium and automatic writing as well as the scientific methods used to confirm these experiences. He explains how these findings on the afterlife have been ignored and denied because they are incompatible with the prevailing doctrine of materialism. Sharing messages from the dead themselves describing the afterlife, Carter reveals how consciousness exists outside the parameters of biological evolution and emerges through the medium of the brain to use the physical world as a springboard for growth. After death, souls can advance to higher planes of consciousness or manifest once again on Earth. Carter's rigorous argument proves--beyond any reasonable doubt--not only that consciousness survives death and continues in the afterlife, but that it precedes birth as well.

We Are Eternal Robert Brown 2007-07-31 The psychic medium for New York Times bestselling authors John Edward and James Van Praagh brings us his unparalleled insights on life after death and communication with the other side. For over 20 years, internationally known medium Robert Brown has seen every form of crossing over. As a psychic investigator, he has tested and retested the claim made by spirit communicators: that there is no death. Though many prominent people have sought Robert's services, including Princess Diana, Robert has also helped thousands around the world communicate with their lost loved ones. Now he reveals what those who have crossed over want us to know about the other side and this world, sharing stories of clients who have gained peace of mind knowing that their loved ones do go on. This book will explain all Brown has found to be true in mediumship and the spirit world, including how the spirit world works through spirit communicators--or mediums, how the process of spirit communication actually works--how John Edward does what he does on TV, what happens when our physical body dies and our beta body reaches the other side, and what the spirits really want us to know about abortion, capital punishment, suicide, evil spirits, and man's inhumanity to man. He has also witnessed firsthand some of the world's greatest mediums, and through these interactions, what he has learned could change people's views on life and death forever, confirming that there really is life after this one.

Philosophy of Religion Tim Bayne 2018 What is the philosophy of religion? How can we distinguish it from theology on the one hand and the psychology/sociology of religious belief on the other? What does it mean to describe God as eternal? And should religious people want there to be good arguments for the existence of God, or is religious belief only authentic in the absence of these good arguments? In this Very Short Introduction Tim Bayne introduces the field of philosophy of religion, and engages with some of the most burning questions that philosophers discuss. Considering how religion should be defined, and whether we even need to be able to define it in order to engage in the philosophy of religion, he goes on to discuss whether the existence of God matters. Exploring the problem of evil, Bayne also debates the connection between faith and reason, and the related question of what role reason should play in religious contexts. Shedding light on the relationship between science and religion, Bayne finishes by considering the topics of reincarnation and the afterlife. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Proof of Heaven Eben Alexander 2012-10-23 Shares an account of his religiously transformative near-death experience and revealing week-long coma, describing his scientific study of near-death phenomena while

explaining what he learned about the nature of human consciousness. **Life with the Afterlife** Amy Bruni 2020-10-27 Star of Kindred Spirits and paranormal investigator Amy Bruni shares stories from her years of experiences with ghosts, organized around thirteen truths that guide her approach to the supernatural. Amy Bruni, co-star of Kindred Spirits and one of the world's leading paranormal investigators, has learned a lot about ghosts over her years of research and first-hand experience. Now, in *Life with the Afterlife*, she shares the insight she has gleaned and how it has shaped her unique approach to interacting with the spirits of the dead and those who encounter them. From her earliest supernatural encounters as a child, through her years appearing on *Ghost Hunters* and the creation of her company *Strange Escapes*, which offers paranormal excursions to some of America's most notoriously haunted destinations, and into her current work on The Travel Channel's *Kindred Spirits*, this book is full of astonishing and deeply moving stories of Amy's efforts to better understand the dead but not yet departed. With Amy's bright humor and fierce compassion for both those who are haunted and those who are haunting, *Life with the Afterlife* is an eye-opening look at what connects us as people, in life and beyond. Hello from Heaven Bill Guggenheim 2012-09-05 Is there life after death? Will we be reunited with our deceased loved ones when we die? Can they communicate with us now? *Hello From Heaven!* is the first complete study of an exciting new field of research called After-Death Communication, or ADC. This is a spiritual experience that occurs when a person is contacted directly and spontaneously by a family member or friend who has died. During their seven years of research, the authors collected more than 3,300 firsthand accounts from people who believe they have been contacted by a deceased loved one. The 353 ADC accounts in *Hello From Heaven!* offer:

- Fascinating modern-day evidence of life after death
- Comfort and emotional support for those who are bereaved
- Hope for those who yearn to be reunited with a loved one who has died
- Courage and strength for those who have a life-threatening illness
- Inspiration for caregivers to the elderly and terminally ill
- Insight and reassurance for those who are fearful of death
- Inner peace for those whose hearts and minds are awaiting this good news

You will treasure these uplifting messages from those who continue to exist in a life beyond physical death. Their profound communications of love offer comfort, hope, and spiritual inspiration to all readers.

Answers from Heaven Theresa Cheung 2017-11-02 *Answers from Heaven* is for anyone who has ever wondered if there is an afterlife and if it is truly possible to contact the spirit world. In this compelling book, Sunday Times bestselling author Theresa Cheung and medium Claire Broad share the fascinating true stories of ordinary people who have experienced direct communication from the spirit world, and those who have received proof of survival through a reading with Claire. *Answers from Heaven* outlines the many different ways that heaven may answer our prayers, offer us comfort and provide proof of survival, and includes:

- The top ten afterlife signs
- What near-death experiences can tell us
- The meaning of visions and dreams
- The importance of intuition and coincidence
- Advice on visiting a medium

As well as examining the ways in which messages can come to us from the other side, *Answers from Heaven* outlines the latest scientific research on the afterlife and mediumship, and helps shed light on one of the most important questions about human experience - what happens after we die? It also shares the practical steps we can all take to become more attuned to the medium that lies within us and recognise the signs that heaven is calling.

Already Dead Charlie Huston 2007-12-18 Those stories you hear? The ones about things that only come out at night? Things that feed on blood, feed on us? Got news for you: they're true. Only it's not like the movies or old man Stoker's storybook. It's worse. Especially if you happen to be one of them. Just ask Joe Pitt. There's a shambler on the loose. Some fool who got himself infected with a flesh-eating bacteria is lurching around, trying to munch on folks' brains. Joe hates shamblers, but he's still the one who has to deal with them. That's just the kind of life he has. Except afterlife might be better word. From the Battery to the Bronx, and from river to river, Manhattan is crawling with Vampyres. Joe is one of them, and he's not happy about it. Yeah, he gets to be stronger and faster than you, and he's tough as nails and hard to kill. But spending his nights trying to score a pint of blood to feed the Vyrus that's eating at him isn't his idea of a good time. And Joe doesn't make it any easier on himself. Going his own way, refusing to ally with the Clans that run the undead underside of Manhattan-it ain't easy. It's worse once he gets mixed up with the Coalition-the city's most powerful Clan-and finds himself searching for a poor little rich girl who's gone missing in Alphabet City.

Now the Coalition and the girl's high-society parents are breathing down

his neck, anarchist Vampyres are pushing him around, and a crazy Vampyre cult is stalking him. No time to complain, though. Got to find that girl and kill that shambler before the whip comes down . . . and before the sun comes up.

With dozens of moving case studies and remarkable examples, *Journey to the Afterlife* shows how our loved ones are given the opportunity to grow and find happiness on the other side. These messages are a great comfort to Kristy's clients, and they will touch your heart while helping you move forward on your own personal journey.

Between Death and Life Dolores Cannon 1993-08 Dolores has accumulated information about the Death experience and what lies beyond through 16 years of hypnotic research and past-life therapy. While retrieving past-life experiences, hundreds of subjects reported the same memories when experiencing their death, the spirit realm, and their rebirth. This book also explores:

- * Guides and guardian angels*
- Ghosts and poltergeists*
- Planning your present lifetime and karmic relationships before your birth*
- The significance of bad lifetimes*
- Perceptions of God and the Devil*

And much more

It's a Wonderful Afterlife Kristy Robinett 2015-08-08 *Reassurance and Hope From the Other Side* Ever since she was a child, psychic medium Kristy Robinett has communicated with spirits who have shared their experiences of death and what happens afterwards. In this collection of heartwarming stories that answer the most common questions about the afterlife, Robinett delves into the nature of heaven, if there is a hell, and what the transition to the Other Side is like. With personal experiences and stories from clients, Kristy explores the many signs and symbols that our loved ones share with us to assure that it is, indeed, a wonderful afterlife.

I'm Still With You Sherrie Dillard 2020-05-08 Our loved ones are still with us even after they've passed to the other side. Psychic medium Sherrie Dillard shares dozens of amazing case studies that show how the power of love transcends the veil between this world and the next. You will also discover exercises and meditations for healing grief and continuing the soul journey you are on with your family and friends who have passed away. The guiding presence of spirit is always with you. This book shares breathtaking insights into the life review process our loved ones experience on the other side and shows how that process uplifts and influences those who survived their death. It provides suggestions to help you move through the grieving process and guides you into a transformative soul-to-soul journey with your cherished family and friends.

Paranormal Raymond Moody 2013-05-31 Few people have the opportunity to change the face of modern medicine. However, Raymond Moody achieved precisely this with the publication in 1975 of *Life After Life*, which introduced the phrase 'near death experience' (NDE) into popular use. In that bestseller, Dr Moody researched what happens when we die, including the amazing stories of those who have had out-of-body experiences and witnessed the afterlife for themselves. And he has remained at the forefront of investigations into the paranormal ever since. Now, at long last, he has decided to share his discoveries and the story of his own unusual life in this gripping account. Searingly honest and extremely engaging, in *Paranormal* Dr Moody recalls his pioneering research into NDEs, reincarnation and ghosts. He also exorcises many of his own demons, revealing the trials and tribulations that have beset him personally - nearly driving him to suicide. The autobiography of a truly extraordinary life, *Paranormal* makes for compulsive reading.

Your Soul's Plan Robert Schwartz 2010-05-18 Would you like to understand the deeper spiritual meaning of physical illness, parenting handicapped children, drug addiction, alcoholism, the death of a loved one, accidents, deafness, and blindness? *Your Soul's Plan* (which was originally published under the title *Courageous Souls: Do We Plan Our Life Challenges Before Birth?*) explores the premise that we are all eternal souls who plan our lives, including our greatest challenges, before we are born for the purpose of spiritual growth. Through compelling profiles of people who knowingly planned the experiences

mentioned above, *Your Soul's Plan* shows that suffering is not purposeless, but rather imbued with deep meaning. Working with four gifted mediums, author Robert Schwartz reveals the significance of each person's life plan and allows us a fascinating look into the "other side." Each personal story focuses on a specific life challenge, organized by type for easy reference. Accessible both to those familiar with the metaphysical aspects of spirituality and to the general reader, the moving narratives that comprise *Your Soul's Plan* help readers awaken to the reality that they are transcendent, eternal souls. With this stirring book as a guide, feelings of anger, resentment, guilt, and victimization are healed and transformed into acceptance, forgiveness, gratitude, and peace. Robert Schwartz is also the author of *Your Soul's Gift: The Healing Power of the Life You Planned Before You Were Born*, which explores the pre-birth planning of spiritual awakening, miscarriage, abortion, caregiving, abusive relationships, sexuality, incest, adoption, poverty, suicide, rape, and mental illness. There's also a chapter about the pre-birth planning we do with our future pets. Robert Schwartz is a hypnotherapist who offers general Spiritual Guidance Sessions, Past Life Soul Regressions, and Between Lives Soul Regressions. Visit Robert online at www.yoursoulsplan.com.

The Case for Heaven Lee Strobel 2021-09-14 Bestselling and award-winning author Lee Strobel interviews experts about the evidence for the afterlife and offers credible answers to the most provocative questions about what happens when we die, near-death experiences, heaven, and hell. We all want to know what awaits us on the other side of death, but is there any reliable evidence that there is life after death? Investigative author Lee Strobel offers a lively and compelling study into one of the most provocative topics of our day. Through fascinating conversations with respected scholars and experts—a neuroscientist from Cambridge University, a researcher who analyzed a thousand accounts of near-death experiences, and an atheist-turned-Christian-philosopher—Strobel offers compelling reasons for why death is not the end of our existence but a transition to an exciting world to come. Looking at biblical accounts, Strobel unfolds what awaits us after we take our last breath and answers questions like: Is there an afterlife? What is heaven like? How will we spend our time there? And what does it mean to see God face to face? With a balanced approach, Strobel examines the alternative of Hell and the logic of damnation, and gives a careful look at reincarnation, universalism, the exclusivity claims of Christ, and other issues related to the topic of life after death. With vulnerability, Strobel shares the experience of how he nearly died years ago and how the reality of death can shape our lives and faith. Follow Strobel on this journey of discovery of the entirely credible, believable, and exhilarating life to come.

The Science of Near-Death Experiences John C. Hagan 2017-01-30 What happens to consciousness during the act of dying? The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation, emergency care, or surgery was performed. These events are now called near-death experiences (NDEs). As medical and surgical skills improve, innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history. Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE. It is estimated that more than 10 million people in the United States have experienced an NDE. Hagan and the contributors to this volume engage in evidence-based research on near-death experiences and include physicians who themselves have undergone a near-death experience. This book establishes a new paradigm for NDEs.

The Myth of an Afterlife Michael Martin 2015-03-12 Because every single one of us will die, most of us would like to know what—if anything—awaits us afterward, not to mention the fate of lost loved ones. Given the nearly universal vested interest in deciding this question in favor of an afterlife, it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance. But the evidence of our senses and the ever-gaining strength of scientific evidence strongly suggest otherwise. In *The Myth of an Afterlife: The Case against Life after Death*, Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong, comprehensive, and up-to-date casebook of the chief arguments against an afterlife. Divided into four separate sections, this collection opens with a broad overview of the issues, as contributors consider the strongest evidence of whether or not we survive death—in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death. Next, contributors consider a host of conceptual and empirical difficulties that confront the various ways of "surviving" death—from bodiless minds to

bodily resurrection to any form of posthumous survival. Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife—heaven, hell, karmic rebirth—and widely held ethical principles central to the belief systems supporting those notions. In the final section, authors offer critical evaluations of the main types of evidence for an afterlife. Fully interdisciplinary, *The Myth of an Afterlife: The Case against Life after Death* brings together a variety of fields of research to make that case, including cognitive neuroscience, philosophy of mind, personal identity, philosophy of religion, moral philosophy, psychical research, and anomalistic psychology. As the definitive casebook of arguments against life after death, this collection is required reading for any instructor, researcher, and student of philosophy, religious studies, or theology. It is sure to raise provocative issues new to readers, regardless of background, from those who believe fervently in the reality of an afterlife to those who do not or are undecided on the matter.

The Magic Mala Bob Olson 2017-04-21 *The Magic Mala* (pronounced mah-lah) is the story of Robby Robertson, a down-on-his-luck writer who realizes that he doesn't know as much about life as he once believed. His desperate financial circumstances lead him to open his mind to new ways of living. After finding some mala beads (similar to a rosary but with 108 beads), Robby is taken on a magical journey that teaches him the secrets to personal manifestation. Every so often a book comes along that changes the lives of its readers. *The Magic Mala* is just such a book. This novel, written as a story that inspires change, will teach you how to claim what you desire by being conscious about what you think, say, and do. More importantly, this story will help you recognize the power you've always had but didn't know was there—your inner ability to create the life of your dreams.

Answers from the Afterlife Nanci L. Danison 2016 This compendium of answers provided in response to questions posed by readers of the author's previous books will change everything you ever thought you knew about God, who you really are, the purpose of life, the afterlife, reincarnation, psychics, angels, soulmates, suicide, evil and much more.

Evidence of the Afterlife Jeffrey Long 2011-01-04 *The Most Compelling Scientific Evidence for Life Beyond Death* Ever Compiled *Evidence of the Afterlife* shares the firsthand accounts of people who have died and lived to tell about it. Through their work at the Near Death Experience Research Foundation, radiation oncologist Jeffrey Long and his wife, Jody, have gathered thousands of accounts of near-death experiences (NDEs) from all over the world. In addition to sharing the personal narrative of their experiences, visitors to the website are asked to fill out a one hundred-item questionnaire designed to isolate specific elements of the experience and to flag counterfeit accounts. The website has become the largest NDE research database in the world, containing over 1,600 NDE accounts. The people whose stories are captured in the database span all age groups, races, and religious affiliations and come from all over the world, yet the similarities in their stories are as awe-inspiring as they are revealing. Using this treasure trove of data, Dr. Long explains how medical evidence fails to explain these reports and why there is only one plausible explanation—that people have survived death and traveled to another dimension.

Surviving Death Leslie Kean 2018-03-06 **THE INSPIRATION FOR THE NETFLIX ORIGINAL SERIES** • An impeccably researched, page-turning investigation, revealing stunning and wide-ranging evidence suggesting that consciousness survives death, from New York Times bestselling author Leslie Kean "An engaging, personal, and transformative journey that challenges the skeptic and informs us all."—Harold E. Puthoff, Ph.D., director of the Institute for Advanced Studies at Austin In this groundbreaking book, award-winning journalist and New York Times bestselling author Leslie Kean investigates the unexplained continuity of the human psyche after death. Here, Kean explores the most compelling case studies of young children reporting verifiable details from past lives, contemporary mediums who seem to defy the boundaries of the brain and of the physical world, apparitions providing information about their lives on earth, and people who die and then come back to report journeys into another dimension. Based on facts and scientific studies, *Surviving Death* includes fascinating chapters by medical doctors, psychiatrists, and PhDs from four countries. As a seasoned reporter whose work transcends belief systems and ideology, Kean enriches the narrative by including her own unexpected, confounding experiences encountered while she probed the question concerning all of us: Do we survive death?

The Afterlife Experiments Gary E. Schwartz 2002-03-13 An esteemed scientist's personal journey from skepticism to wonder and awe provides astonishing answers to a timeless question: Is there life after death? Are

love and life eternal? This exciting account presents provocative evidence that could upset everything that science has ever taught. Daring to risk his worldwide academic reputation, Dr. Gary E. Schwartz, along with his research partner Dr. Linda Russek, asked some of the most prominent mediums in America -- including John Edward, Suzane Northrup, and George Anderson -- to become part of a series of extraordinary experiments to prove, or disprove, the existence of an afterlife. **THE AFTERLIFE EXPERIMENTS** This riveting narrative, with its electrifying transcripts, puts the reader on the scene of a breakthrough scientific achievement: contact with the beyond under controlled laboratory conditions. In stringently monitored experiments, leading mediums attempted to contact dead friends and relatives of "sitters" who were masked from view and never spoke, depriving the mediums of any cues. The messages that came through stunned sitters and researchers alike. Here, as they unfolded in the laboratory setting, are uncanny revelations about a son's suicide, what a deceased father wanted to say about his last days in a coma, the transformation of a man's lifelong doubts about the afterlife, and, most amazing of all, a forecast of a beloved spouse's death. Dr. Schwartz was forced by the overwhelmingly positive data to abandon his skepticism, reaching some startling conclusions. Compelling from the first page to the last, *The Afterlife Experiments* is the amazing documentation of groundbreaking experiments you will never forget.

Everything You Wanted to Know about the Afterlife but Were Afraid to Ask Hollister Rand 2020-05-05 From the world class spiritual medium and author of the "compassionate yet educational" (John Edward, author of *Infinite Quest*) *I'm Not Dead, I'm Different* comes an insightful exploration into what it's like on the other side. Is there really an afterlife? Do spirits still feel love for us? What is it like when we cross over? Near-Death Experiences, The Rest of the Story P.M.H. Atwater 2009-01-09 Real-life stories of out-of-body experiences, encountering a special light, greeters from the afterlife, life reviews, tunnels, and 360-degree vision--are all part of this intriguing look at near-death experiences (NDEs) by one of the world's noted authorities, P.M.H. Atwater. Atwater shares her amazing findings, based on her sessions with more than 4,000 adults and children and over 40 years of research; a breathtaking culmination to a successful and controversial career. Atwater examines every aspect of the near-death phenomenon: from first-hand accounts of survivors experiencing flash forwards, waking up in morgues, and developing psychic abilities, to stunning cases of groups experiencing NDEs together. Atwater offers statistics from her findings to show the distinctive common patterns that people experience, as well as the common aftereffects and how it changed their lives. She also explores the physiological and spiritual changes that result from near-death experiences and looks at the connections between the NDE experience and what is often called "enlightenment." *Near Death Experiences* not only provides a glimpse of what lies beyond the veil of our temporal existence, but points to what--or who--we really are and what we are meant to be.

Where After Mariel Forde Clarke 2021-08-27 A journey that will compel readers to view life after death in a completely different way. Where - do our loved ones go - After they die? This is the question that has traversed the universe for centuries and is considered one of life's greatest mysteries. While many of the world's renowned philosophers, scientists, theorists, doctors, and great mystics endorsed the existence of the afterlife, no one book has been available to explore it all, until now. Mariel Forde Clarke asserts that whether you believe in God or heaven, you can be comforted by the sense that an afterlife exists beyond the realm of one's physical comprehension. Drawing on the findings of patients who have had near-death experiences and visions, and on those

Afterlife, the Whole Truth Stephen Martin 2018-10-07 This two book volume contains the author's bestselling title, "Life After Death, Powerful Evidence You Will Never Die" and the sequel, "Life After Death Book II: Heaven, Hell & You," thereby revealing what everyone living today needs to know about life after death. Book One lays out indisputable evidence the brain does not create your consciousness, and that when your body dies, your consciousness will be released into a mental realm. It explains what you can expect to experience during the first minutes until you come to a border near death survivors agree is a point of no return. Book Two will lead you past that border to explore that Shakespeare called, "The undiscovered country," a mental realm each individual creates for him or herself. It also makes suggestions about actions to take now to insure the best possible outcome after death. Read what reviewers had to say about Book I: "Extraordinary findings in Stephen Martin's newest book, *Life After Death, Powerful Evidence You Will Never Die*, will keep readers on the edge of their seats as they burn through this well written book's pages. . . ." - Mark Davis, M.D. "If you only read one book about the afterlife, I highly recommend this one. It's an extensive research project and is quite understandable for the average reader. . . ." - Alan Halverson "I couldn't put this book down. I'm 34 years old with no major health issues and have been recently dealing with a lot of anxiety over death. . . ." - Nicole Ryan "This is one of the most powerful books on this subject that I have ever read. Very inspiring." - C. Ann Clarkon "Very accessible and well-written overview of recent research supporting evidence of consciousness existing independent of the brain; as well as its implications for survival of awareness after physical death. . . ." - Keith Park, Ph.D.

Animals and the Afterlife Kim Sheridan 2011-04-25 Kim Sheridan grew up with animals as her constant companions. Each time she faced the death of a beloved animal, along with the pain came the same questions, to which she could find no answers. Then, mysterious things began to happen that she couldn't explain, which led her on an incredible journey to uncover the truth. Along with her own extraordinary experiences, she compiled heartwarming and meaningful true stories of everyday people around the world, and discovered compelling evidence that forever erased her own doubts about an afterlife for animals. This book provides enormous comfort and reassurance to anyone who has ever cherished an animal, and food for thought for anyone who has ever questioned the place of these beloved creatures in the larger scheme of things, both here on Earth and beyond.

Life After Life Raymond Moody 2015-12-15 The groundbreaking, bestselling classic, now available in a special fortieth-anniversary edition that includes a new Foreword from Eben Alexander, M.D., author of *Proof of Heaven*, and a new Afterword by the author. Raymond Moody is the "father" of the modern NDE (Near Death Experience) movement, and his pioneering work *Life After Life* transformed the world, revolutionizing the way we think about death and what lies beyond. Originally published in 1975, it is the groundbreaking study of one hundred people who experienced "clinical death" and were revived, and who tell, in their own words, what lies beyond death. A smash bestseller that has sold more than thirteen million copies around the globe, *Life After Life* introduced us to concepts—including the bright light, the tunnel, the presence of loved ones waiting on the other side—that have become cultural memes today, and paved the way for modern bestsellers by Eben Alexander, Todd Burpo, Mary Neal, and Betty Eadie that have shaped countless readers notions about the end life and the meaning of death.

The Demon-Haunted World Carl Sagan 2011-07-06 A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-

winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle

Sum David Eagleman 2009-02-10 At once funny, wistful and unsettling, *Sum* is a dazzling exploration of unexpected afterlives—each presented as a vignette that offers a stunning lens through which to see ourselves in the here and now. In one afterlife, you may find that God is the size of a microbe and unaware of your existence. In another version, you work as a background character in other people's dreams. Or you may find that God is a married couple, or that the universe is running backward, or that you are forced to live out your afterlife with annoying versions of who you could have been. With a probing imagination and deep understanding of the human condition, acclaimed neuroscientist David Eagleman offers wonderfully imagined tales that shine a brilliant light on the here and now.

The Dead Detective Agency Peg Herring 2011 Recent murder victim Tori can't make peace with the afterlife until she finds out who killed her and why. With the help of a Portal Detective named Seamus, Tori returns to the world of the living to seek answers.
