Poverty in Europe A. B. Atkinson 1998-11-02
The work draws upon recent research to examine the problem of poverty. In its exploration, Poverty in Europe challenges readers to reach an improved understanding of the problem and to seek improvement.

How to Democratize Europe Stéphanie Hennette 2019 The European Union has long suffered from a lack of democratic accountability. In the past decade, the problem has become particularly acute in the economic management of the Eurozone, the 19 countries of the E.U. that use the Euro (nine members don't). At present, the central institution for management of the Eurozone is the Eurogroup, an informal body led by national finance ministers who report neither to the European Parliament nor to national parliaments but coordinate their activities with the Troika, that is, the European Central Bank, the International Monetary Fund, and the European Council. Critics accuse the Eurogroup both of lack of transparency and of consistently putting the interests of the rich northwest ahead of the interests of poorer and smaller nations in the east and south. In *How to Democratize Europe*, four distinguished French scholars describe the diverse problems of the Eurozone and propose a treaty that would establish a parliament for economic policy consisting of selected members of national parliaments.

Various contributors then respond to the proposal with support, criticism, or ideas for alternatives.--

Military Landscapes Anatole Tchikine 2021-06-08
Military Landscapes seeks to develop a nuanced

definition of military landscapes under the framework of landscape theory. It moves beyond discussions of infrastructure and battlefields, shifting the focus instead to often overlooked factors, highlighting the historical character of militarized environments as inherently gendered and racialized.

Report of the Commissioner of Internal Revenue United States. Internal Revenue Service 1918

Creating Public Value Mark H. Moore 1997-03-25
A seminal figure in the field of public management, Mark Moore presents his summation of fifteen years of research, observation, and teaching about what public sector executives should do to improve the performance of public enterprises. Useful for both practicing public executives and those who teach them, this book explicates some of the richest of several hundred cases used at Harvard's Kennedy School of Government and illuminates their broader lessons for government managers. Moore addresses four questions that have long bedeviled public administration: What should citizens and their representatives expect and demand from public executives? What sources can public managers consult to learn what is valuable for them to produce? How should public managers cope with inconsistent and fickle political mandates? How can public managers find room to innovate? Moore's answers respond to the well-understood difficulties of managing public enterprises in modern society by recommending specific, concrete changes in the practices of individual public managers: how they envision what is valuable to produce, how they engage their political overseers, and how they deliver services and fulfill obligations to clients.

Robertson

Following Moore's cases, we witness dilemmas faced by a cross section of public managers-- William Ruckelshaus and the Environmental Protection Agency, Jerome Miller and the Department of Youth Services, Miles Mahoney and the Park Plaza Redevelopment Project, David Sencer and the swine flu scare, Lee Brown and the Houston Police Department, Harry Spence and the Boston Housing Authority. Their work, together with Moore's analysis, reveals how public managers can achieve their true goal of producing public value.

Daily Statement of the United States

Treasury 1979-05-02

Global Political Economy John Ravenhill 2008

An authoritative introduction to Global Political Economy. The book covers all bases: contemporary theory, introductions to particular issue areas, and an extended debate on globalization that reflects a variety of perspectives. The book is accompanied by an Online Resource Centre. Student resources: Timeline Web links Glossary Instructor resources: Tables and figures from the book to download 2 in-depth case studies

Agriculture, Forestry and Fishery Statistics

Edward Cook 2020 Agriculture, forestry and fishery statistics provides a selection of recent, topical data. Information is presented for the European Union (EU) and its Member States, and is supplemented (when available) with data for the United Kingdom, EFTA members, candidate countries to the EU and potential candidates. This publication aims to cover some of the most popular data within the domain of agriculture, forestry and fishery statistics as well as some of the wider food chain. It may be viewed as an introduction to European statistics in this area and provides a starting point for those who wish to explore the broad range of data that are freely available on Eurostat's website.

School Leadership That Works Peter R. Litchka

2019-09-17 This book examines the contemporary theory and practices of school leadership from a global perspective and includes articles in support of international professional learning for school leaders.

Principles of Marketing Gary M. Armstrong

2018 An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. Principles of

Marketing keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

If We Can Put a Man on the Moon-- William

D. Eggers 2009 "Six American flags stand on the moon - irrefutable proof of government's ability to overcome difficult challenges. Yet evidence of failure surrounds us, from the devastation of Hurricane Katrina to the 2008-09 economic meltdown to the chronic dysfunction of our urban schools. William D. Eggers and John O'Leary argue that playing the blame game is an exercise in futility. In *If We Can Put a Man on the Moon*, they go beyond partisan squabbles to take a look at the process by which government tackles its biggest challenges." "Based on a review of over seventy-five government undertakings in the United States and abroad, Eggers and O'Leary pinpoint what it takes to successfully bring a public-sector initiative from great idea to desired results. They distill this "Journey to Success" into a practical set of steps that every public initiative must go through to deliver on its promise." -- Book Jacket.

Misurare e gestire il rischio finanziario

Francesco Menoncin 2009-02-13 La finanza moderna presenta problemi sempre diversi in seguito al continuo sviluppo di nuovi strumenti finanziari. Attraverso l'utilizzo del software libero Scilab, nel volume si applicano le moderne teorie economico-finanziarie allo studio di casi concreti sui mercati finanziari

Computational Finance Francesco Cesarone

2020-06-11 Computational finance is increasingly important in the financial industry, as a necessary instrument for applying theoretical models to real-world challenges. Indeed, many models used in practice involve complex mathematical problems, for which an exact or a closed-form solution is not available.

Downloaded from vla.ramtech.uri.edu on
September 23, 2023 by Arnold k
Robertson

Consequently, we need to rely on computational techniques and specific numerical algorithms. This book combines theoretical concepts with practical implementation. Furthermore, the numerical solution of models is exploited, both to enhance the understanding of some mathematical and statistical notions, and to acquire sound programming skills in MATLAB®, which is useful for several other programming languages also. The material assumes the reader has a relatively limited knowledge of mathematics, probability, and statistics. Hence, the book contains a short description of the fundamental tools needed to address the two main fields of quantitative finance: portfolio selection and derivatives pricing. Both fields are developed here, with a particular emphasis on portfolio selection, where the author includes an overview of recent approaches. The book gradually takes the reader from a basic to medium level of expertise by using examples and exercises to simplify the understanding of complex models in finance, giving them the ability to place financial models in a computational setting. The book is ideal for courses focusing on quantitative finance, asset management, mathematical methods for economics and finance, investment banking, and corporate finance.

Love Letters from Cell 92 Dietrich Bonhoeffer 1994 A collection of letters written between Maria von Wedemeyer and Dietrich Bonhoeffer, while he was in prison before being executed for his part in a plot to assassinate Hitler. The letters written by Dietrich show his passionate and romantic side.

Managing Complex Networks Walter J M Kickert 1997-06-28 Although the concept of policy networks is now well-established in the field, most research has to content itself with description and analysis of their contribution to policy failure. This book goes further. It accepts policy networks as a fundamental characteristic of modern societies and presents an overview of the strategies for the management of these networks, as well as illustrating the various

strategies for intervention.

2020 Development Effectiveness Review

Asian Development Bank 2021-04-01 This publication outlines the performance of the Asian Development Bank (ADB) in achieving the goals of Strategy 2030, the institution's long-term strategic framework. It is the 14th in the series of annual reports that tracks development progress in Asia and the Pacific, assesses ADB's development effectiveness, and identifies areas where the institution's performance needs to be strengthened.

The Reforming Organization Nils Brunsson 2018-04-17 Originally published in 1993. Organizations have become larger, more professionalized, more differentiated, and wealthier. At the same time, they are often subject to large-scale changes: either as a result of mergers and acquisitions, or simply in response to changed market conditions or new technologies. In this climate the people who run organizations frequently find themselves acting as "reformers". The central concern of this study is to analyze the reforming process within organizations and assess its impact. The authors define reform as the process by which individuals seek to achieve desired goals by changing the structure of their organization: the administrative procedures, chains of command and lines of communication. Drawing on empirical case studies from a range of different sectors, *The Reforming Organization* questions the relationship between the changes that can be seen occurring in organizations all the time and these conscious internal attempts at reform. This is a different approach to some of the central concerns in organizational theory. The relationship between individuals and structures and the "learning" capacity of organizations. This title will be of interest to students of Business Studies and Management.

Household Food Consumption Survey 1955

The Warren Buffett Way Robert G. Hagstrom 2013-09-13 Warren Buffett is the most famous investor of all time and one of today's most admired business leaders. He became a billionaire and investment sage by looking at companies as businesses rather than prices on a stock screen. The first two editions of *The Warren Buffett Way* gave investors their first in-depth look at the innovative investment and business

strategies behind Buffett's spectacular success. The new edition updates readers on the latest investments by Buffett. And, more importantly, it draws on the new field of behavioral finance to explain how investors can overcome the common obstacles that prevent them from investing like Buffett. New material includes: How to think like a long-term investor – just like Buffett Why "loss aversion", the tendency of most investors to overweight the pain of losing money, is one of the biggest obstacles that investors must overcome. Why behaving rationally in the face of the ups and downs of the market has been the key to Buffett's investing success Analysis of Buffett's recent acquisition of H.J. Heinz and his investment in IBM stock The greatest challenge to emulating Buffett is not in the selection of the right stocks, Hagstrom writes, but in having the fortitude to stick with sound investments in the face of economic and market uncertainty. The new edition explains the psychological foundations of Buffett's approach, thus giving readers the best roadmap yet for mastering both the principles and behaviors that have made Buffett the greatest investor of our generation.

A Concise History of World Population

Massimo Livi Bacci 2017-01-10 The latest edition of this classic text has been updated to reflect current trends and implications for future demographic developments. The areas of Africa, international migration and population and environment have been strengthened and statistical information has been updated throughout. A new edition of this classic history of demography text, which has been updated to strengthen the major subject areas of Africa, international migration and population and the environment Includes the latest statistical information, including the 2015 UN population projections revision and developments in China's population policy Information is presented in a clear and simple form, with academic material presented accessibly for the undergraduate audience whilst still maintaining the interest of higher level students and scholars The text covers issues that are crucial to the future of every species by encouraging humanity's search for ways to prevent future demographic catastrophes brought about by environmental or human agency Analyses the changing patterns of world population growth, including the effects of

United Nations E-Government Survey 2016

United Nations Department of Economic and Social Affairs 2017-01-04 Since 2001, the United Nations Department of Economic and Social Affairs (DESA), Division for Public Administration and Development Management (DPADM) has published the United Nations E-Government Survey (the Survey). Now in its ninth edition, the Survey provides an analysis of emerging public administration trends and issues and of how e-government can support the realization of the internationally agreed development agenda and goals. The Survey offers insights about common challenges, broad trends and different strategies in e-government development among regions and across countries. By tracking the progress of countries globally over time, the Survey seeks to better understand the challenges and opportunities that the Member States face in developing their e-government programmes.

Accounting History Robert Henry Parker 1994 Celebrating 500 years of accounting--the 500th anniversary of Pacioli's Summa de Arithmetica (1494)--this volume brings together work by leading British scholars in the field.

Outcasts: A SEAL Team Six Novel Stephen Templin 2012-05-29 Authors of the "harrowing" (Time) and "adrenaline-laced" (The New York Times) insider memoir SEAL Team Six, Howard E. Wasdin and Stephen Templin bring their bestselling talents and hardcore field experience to a riveting novel of a team that covertly defies military code to do what SEALs do best: keep America safe. They are the Outcasts. Because people don't want to know what they do. With bin Laden dead and seven al Qaeda members vying to replace him, America requires a team capable of finessing the U.N.'s policies of national sovereignty to take out the would-be terrorist leaders. The quartet of elite SEALs that comprises Tier One, a product of the top-secret Special Op unit Bitter Ash, will eliminate its targets under cover of darkness and with no official support from its government. But hot on the tail of the third target, the Outcasts discover a plot with the U.S. in its crosshairs . . . a threat that will put them to the ultimate test.

The Italian Renaissance State Andrea Gamberini 2012-03-29 This magisterial study proposes a revised and innovative view of the political history of Renaissance Italy. Drawing on comparative examples from across the peninsula and the kingdoms of Sicily, Sardinia and Corsica, an international team of leading scholars highlights the complexity and variety of the Italian world from the fourteenth to early sixteenth centuries, surveying the mosaic of kingdoms, principalities, signorie and republics against a backdrop of wider political themes common to all types of state in the period. The authors address the contentious problem of the apparent weakness of the Italian Renaissance political system. By repositioning the Renaissance as a political, rather than simply an artistic and cultural phenomenon, they identify the period as a pivotal moment in the history of the state, in which political languages, practices and tools, together with political and governmental institutions, became vital to the evolution of a modern European political identity.

Corporate Turnaround Stuart Slatter 1999-03-25 When firms are on the brink of failure, only turnaround management can restore

performance and profitability. The key is to provide stability and create cash (and a breathing space) for building long-term success. This fully revised edition provides practical advice on restoring confidence through effective leadership and planning. It highlights the importance of communication with stakeholders, staff, customers and suppliers, and how best to structure the capital base of an organization in order to fund recovery and future growth. Essential reading for chief executives, consultants and merchant bankers (as well as investors tracking the progress of ailing businesses), this book offers a definitive set of tools and techniques.

Financial Innovation and Resilience Lilia Costabile
2018-09-28 As Ignazio Visco, Governor of the Bank of Italy, says in his Foreword, all economic policy makers today need to re-examine our history to help them confront the challenges of today. This edited volume focuses specifically on

the theme of financial innovation and how financial resiliency was achieved in Naples. To highlight both the achievements of the public banks of Naples and their lessons for financial resiliency, the book focuses on financial crises and how they were overcome in Naples in contrast to other European financial systems. The first section focuses on the development of the public banks unique to Naples. The second section compares those with other banking systems and how they responded to the same shock in 1622, caused by the full mobilization of European belligerents to finance their efforts in the Thirty Years War. The next section compares lessons learned in the rest of Europe over the next century and a half. The final section comes back to original start of the narrative arc to suggest ways that today's policymakers and thinkers could use the historical experience of the public banks of Naples to deal better with the ongoing problems stemming from the financial crisis of 2007-08.
