Constructing Black Education at Oberlin College Roland M. Baumann 2014-07-31 In 1835 Oberlin became the first institute of higher education to make a cause of racial egalitarianism when it decided to educate students "irrespective of color." Yet the visionary college's implementation of this admissions policy was uneven. In *Constructing Black Education at Oberlin College: A Documentary History*, Roland M. Baumann presents a comprehensive documentary history of the education of African American students at Oberlin College. Following the Reconstruction era, Oberlin College mirrored the rest of society as it reduced its commitment to black students by treating them as less than equals of their white counterparts. By the middle of the twentieth century, black and white student activists partially reclaimed the Oberlin legacy by refusing to be defined by race. Generations of Oberlin students, plus a minority of faculty and staff, rekindled the college's commitment to racial equality by 1970. In time, black separatism in its many forms replaced the integrationist ethic on campus as African Americans sought to chart their own destiny and advance curricular change. Oberlin's is not a story of unbroken progress, but rather of irony, of contradictions and integrity, of myth and reality, and of imperfections. Baumann takes readers directly to the original sources by including thirty complete documents from the Oberlin College Archives. This richly illustrated volume is an important contribution to the college's 175th anniversary celebration of its distinguished history, for it convincingly documents how Oberlin wrestled over the meaning of race and the destiny of black people in American society.

Executive Ethics II Ronald R. Sims 2016-06-01 This 2nd edition of *Executive Ethics* provides a variety of contemporary and timely readings squarely focused on the ethical dilemmas and challenges faced by today's C-suite executives. In addition to identifying these dilemmas and challenges, the contributors provide both knowledge and insight on how C-suite executives can proactively address such ethics issues. The contributors provide unique value propositions for the C-suite regarding the most critical ethical issues facing organizations today while also highlighting useful information for senior executives interested in integrating ethics into the leadership and management practices of their organizations. In the end, the book empowers C-suite executives to build a long-term, strategic, and enterprise-wide approach to ethics.

Breaking Through Brenda D. Smith 2008-11 Brenda Smith's *Breaking Through* has led

the market for 20 years because it has kept current with trends and needs and has provided unwavering instruction and exercises. Comprised solely of freshman-level college textbook and academic selections for immediate practice with relevant materials, *Breaking Through* develops the reading, critical thinking, and study skills necessary for successful independent college learning and everyday life. A four-color design is used to appeal to increasingly visual student readers and keep their attention. A full textbook chapter, three selections per chapter, fourteen longer reading pieces, and two case books equip students with a wealth of opportunities to apply the skill being taught to reading short textbook passages and then go on to use multiple skills on the longer selections that conclude most chapters. As seen in "Reader's Tips" boxes to focus on effective techniques for reading in different disciplines and the "Interpret the Quote" feature where students are asked to interpret a reading-opening quote based on the reading and their comprehension of the selection, students receive a wealth of support for academic success.

Breaking Through! Harriet S. Mosatche 2021-09-03 Even with increased pressure to involve more girls in STEM areas in education, parents are often left wondering what they can do to keep their daughter's love of science, math, and technology from fading. In *Breaking Through! Helping Girls Succeed in Science, Technology, Engineering, and Math*, topics ranging from how role models can make a difference to finding nonstereotypical toys and taking trips that inspire STEM discovery and engagement are illustrated with research evidence and real-life examples from girls and women. Regardless of a daughter's age (from birth to young adulthood), parents will find tips they can immediately use to help combat the gender imbalance in STEM areas. Whether they need to advocate for gender-neutral, STEM-enriched classrooms or want to encourage creative problem solving and persistence in their daughters, readers will find ideas to take action to help the girls in their lives break through the barriers and achieve success in STEM. 2017 NAGC Book of the Year Award Winner

Practical Ethics in Sport Management Angela Lumpkin, 2011-12-01 Leaders and managers throughout the sporting world face many ethical challenges on a daily basis. Should an athletic director chastise an unruly but influential supporter? What factors should affect an athlete's eligibility? Is competitiveness acceptable in youth sports? This text shows aspiring sports management professionals how to

identify the moral issues in sports and develop principle-centered leadership practices to lead with justice, honesty, and beneficence. Among the issues addressed are the conflict between sportsmanship and gamesmanship, violence in sports, racial and gender equity, performance-enhancing drugs, academics, and commercialization. Throughout, specific examples from real-world sports situations and reflective questions encourage students to think critically. Instructors considering this book for use in a course may request an examination copy here.

African American Rural Education Crystal R. Chambers 2020-11-09 Despite comprising the largest minority in rural settings, the literature to date largely subsumes African American rural students into a broader set of students, with a primarily urban focus. This volume focuses on the higher education pathways of rural African American students and highlights their experiences in US colleges and universities.

Sex and Gender Hilary M. Lips 2017-05-19 Are sex and gender really two different things? How malleable is gender identity? Should we emphasize gender differences? These are only some of the questions Hilary Lips addresses regarding one of the most important dimensions of human life since time immemorial. Stereotypes, gender roles, and how social relationships function all combine to assign meanings to the male-female distinction that affects all aspects of social life. Taking advantage of the abundance of current research that reevaluates and resituates the major issues of sex and gender, the Sixth Edition collects and distills this scholarship into a book that is readily accessible and relevant to today's readers. Lips incorporates knowledge gained from a range of social sciences, taking a critical approach to empirical research. Throughout the book, she emphasizes culturally, racially, and sexually diverse perspectives. A discussion of the role that gender plays in social relationships and power hierarchies illuminates the experience of inequality between men and women in business, education, politics, and the media. The ideas presented in Sex and Gender will raise readers' awareness of the issues contributing to that major social problem.

Comprehensive Advisor Training and Development Karen L. Archambault 2023-07-03 Co-published with NACADA advisors are focused on the success of their students. They do the work of advising not for money or fame, but because their meaningful work ensures that students reach their goals. In order to do so, those who serve students must have the knowledge, skills, abilities, and encouragement to do their work. This edited collection provides a practical framework for advisor training and professional development, underpinned by the theoretical rationale for those frameworks. This text is not focused on the "what" of advisor training but is instead intentionally focused on the "how" and the "why," encouraging those responsible for development and implementation to have a clear means by which to support advisor success. Readers of this text will identify the centrality of the NACADA Core Values and Core Competencies to effective training and development but will also gain a practical suite of tools to be used in various higher educational contexts. Including, but not limited to initial program creation, the authors consider complex concerns such as funding, technology, intercultural competence, and self-care--among others--as components of a comprehensive program to support advising professionals.

The Promise of Adolescence National Academies of Sciences, Engineering, and Medicine 2019-08-26 Adolescence—beginning with the onset of puberty and ending in the mid-20s—is a critical period of development during which key areas of the brain mature and develop. These changes in brain structure, function, and connectivity mark adolescence as a period of opportunity to discover new vistas, to form relationships with peers and adults, and to explore one's developing identity. It is also a period of resilience that can ameliorate childhood setbacks and set the stage for a thriving trajectory over the life course. Because adolescents comprise nearly one-fourth of the entire U.S. population, the nation needs policies and practices that will better leverage these developmental opportunities to harness the promise of adolescence—rather than focusing myopically on containing its risks. This report examines the neurobiological and socio-behavioral science of adolescent development and outlines how this knowledge can be applied, both to promote adolescent well-being, resilience, and development, and to rectify structural barriers and inequalities in opportunity, enabling all adolescents to flourish.
