However, the challenges presented by co-branding are considerable, getting the strategy right for a single brand is hard enough, but once two brands are brought together the challenges increase considerably. Bread William Rubel 2011-10-15 It is difficult to think of a food more basic, more essential, and more universal than bread. Common to the diets of both the rich and the poor, bread is one of our oldest foods. Loaves and rolls have been found in ancient Egyptian tombs, and wheat has been found in pits where human settlements flourished 8,000 years ago. Many anthropologists argue that the ability to sow and reap cereals, the grains necessary for making bread, could be one of the main reasons why man settled in communities, and even today the concept of "breaking bread together" is a lasting symbol of the uniting power of a meal. Bread is an innovative mix of traditional history, cultural history, travelogue, and cookbook. William Rubel begins with the amazing invention of bread approximately 20,000 years ago in the Fertile Crescent and ends by speculating on the ways in which cultural forces and advances in biotechnology may influence the development of bread in the twenty-first century. Rubel shows how simple choices, may be responsible for the widespread preference for wheat over other bread grains and for the millennia-old association of elite dining with white bread. He even provides an analysis of the different components of bread, such as crust and crumb, so that readers may better understand the breads they buy. With many recipes integrated with the text and a glossary covering one hundred breads, Bread goes well beyond the simple choice of white or wheat. Here, general readers will find an approachable introduction to the history of bread and to the many forms that bread takes throughout the world, and bread bakers will discover a history of the craft and new ways of thinking that will inspire experimentation.

Bihar to Tihar Konhaiya Kumar 2016-04-30 I am Konhaiya Kumar, native of Bihar. I am doing PhD on a very important subject "Mating habits of gay chimpanzees in South Africa" at PANU university, the best university in India and possibly the best university in the world. My idols are "Faizal Guru," "Janab Kasab Sahib," "Focus Carat," "Baba Badkar" and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/ month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y, etc. Imagine a day, when all deprived people can take part in active politics and "Make Communism Great Again" thanks to my "one lakh per month" pension idea. Bhagat Singh said, "It is easy to kill individuals, but you cannot kill ideas." I do not know where this book will take me, but I think it will be used as a text book in my PANU university. In this book, I describe my life from childhood to stardom, my experiences with both deprived and upper caste people, I also describe the inhuman condition of Tihar Jail in details. I lost my virginity in Tihar jail. I also provide feasible solutions to all burning problems of India. I am hoping that, government of India will buy few thousands copies of my books and distribute among all civil servants so that they can use my solutions to solve the problems that they face while working for people of India. If my solutions are found useful, I would not mind getting "Bharat Ratna" for myself. I love #AdarshLiberal people, I hate right wing #Bhaktis! After I have become famous in India and whole world, so far, rightwing #Bhaktis have thrown 5 right leg slippers at me. I would request them to throw both slippers so that I can make use of them.

Compiled by a veteran instructor at The Culinary Institute of America, this authoritative reference contains 200 completely up-to-date formulas using essential ingredients found in today's pastry kitchens. From American Pie Dough and Pâté Brisée to Pastry Cream and Crème Anglaise, these recipes are written in smaller- and large-yield versions to accommodate the needs of the serious home baker as well as the pastry chef.
