View of the State of Europe During the Middle Ages, Vol. 1 of 4 (Classic Reprint) Henry Hallam 2016-07-15 Excerpt from *View of the State of Europe During the Middle Ages, Vol. 1 of 4* IT is the object of the present work to exhibit, in a series of historical dissertations, a comprehensive survey of the chief circumstances that can interest a philosophical inquirer during the period usually denominated the Middle Ages. Such an undertaking must necessarily fall under the class of historical abridgements; yet there will perhaps be found enough to

distinguish it from such as have already appeared. Many considerable portions of time, especially before the twelfth century, may justly be deemed so barren of events worthy of remembrance, that a single sentence or paragraph is often sufficient to give the character of entire generations, and of long dynasties of obscure kings. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. View of the State of Europe during the Middle Ages ...

The seventh edition Henry Hallam 1855

View of the State of Europe During the Middle Ages, Vol. 3 of 3 (Classic Reprint) Henry Hallam 2018-03-14 Excerpt from *View of the State of Europe During the Middle Ages, Vol. 3 of 3* Under this prince, whose rare fortune as well as judicious conduct procured him the surname of Peaceable, the kingdom appears to have reached its zenith of prosperity. But his premature death changed the scene. The minority and feeble character of Ethelred II provoked fresh incursions of our enemies beyond the German Sea. A long series of disasters, and the inexplicable treason of those to whom the public safety was intrusted, overthrew the Saxon line, and established Canute of Denmark upon the throne. The character of the Scandinavian nations was in some measure changed from what it had been during their first invasions. They had embraced the Christian faith; they were consolidated into great kingdoms; they had lost some of that predatory and ferocious spirit which a religion invented, as it seemed, for pirates had stimulated. Those, too, who had long been settled in England became gradually more assimilated to the natives,

by Jason u Paterson

whose laws and language were not radically different from their own. Hence the accession of a Danish line of kings produced neither any evil nor any sensible change of polity. But the English still outnumbered their conquerors, and eagerly returned, when an Opportunity arrived, to the ancient stock. Edward the Confessor, notwithstanding his Norman favourites, was endeared by the mildness of his character to the English nation, and subsequent miseries gave a kind of posthumous credit to a reign not eminent either for good fortune or wise government. Democracy and Dictatorship in Europe Sheri Berman 2019-01-04 At the end of the twentieth century, many believed the story of European political development had come to an end. Modern democracy began in Europe, but for hundreds of years it competed with various forms of dictatorship. Now, though, the entire continent was in the democratic camp for the first time in history. But within a decade, this story had already begun to unravel. Some of the continent's newer democracies slid back towards dictatorship, while citizens in many of its older democracies began questioning democracy's functioning and even its legitimacy. And of course it is not merely in Europe where democracy is under siege. Across the globe the immense optimism accompanying the post-Cold War democratic wave has been replaced by pessimism. Many new democracies in Latin America, Africa, and Asia began "backsliding," while the Arab Spring quickly turned into the Arab winter. The victory of Donald Trump led many to wonder if it represented a threat to the future of liberal democracy in the United States. Indeed, it is increasingly common today for leaders, intellectuals, commentators and others to claim that rather than democracy, some form dictatorship or illiberal democracy is the wave of the future. In *Democracy and Dictatorship in Europe*, Sheri Berman traces the long history of democracy in its cradle, Europe. She explains that in fact, just about every democratic wave in Europe initially failed, either collapsing in upon itself or succumbing to the forces of reaction. Yet even when democratic waves failed, there were always some achievements that lasted. Even the most virulently reactionary regimes could not suppress every element of democratic progress. Panoramic in scope, Berman takes readers through two centuries of turmoil: revolution, fascism, civil war, and - -finally - - the emergence of liberal democratic Europe in the postwar era. A magisterial retelling of modern European political history, *Democracy and Dictatorship in Europe* not only explains how democracy actually develops, but how we should interpret the current wave of illiberalism sweeping Europe and the rest of the world.

Supplemental Notes to the View of the State of Europe During the Middle Ages (Classic Reprint) Henry Hallam 2015-07-07 Excerpt from *Supplemental Notes to the View of the State of Europe During the Middle Ages* Thirty years have elapsed since the publication of the Work to which the following Notes relate, and almost forty since the first chapter and part of the second were written. The occupations of that time rendered it impossible for me to bestow such undivided attention as so laborious and difficult an undertaking demanded; and at the outset I had very little intention of prosecuting my researches, even to that degree of exactness which a growing interest in the ascertainment of precise truth, and a sense of its difficulty, led me afterwards in some parts to seek, though nowhere equal to what with a fuller command of time I should have desired to attain. A measure of public approbation accorded to me far beyond my hopes, has not blinded my discernment to the deficiencies of my own performance; and as successive editions have been called for, I have continually felt that there was more to correct, or to elucidate, than the insertion of a few foot notes would supply; while I was always reluctant to make such alterations as would leave to the purchasers of former editions a right to complain. View of the State of Europe During the Middle Ages, Vol. 1 of 3 (Classic Reprint) Henry Hallam 2016-06-28 Excerpt from *View of the State of Europe During the Middle Ages, Vol. 1 of 3* This arrangement is probably different from that of any former historical retrospect. Every chapter of the following volumes completes its particular subject, and may be considered in some degree as independent of the rest. The order, consequently, in which they are read will not be very material, though of course I should rather prefer that in which they are at present disposed. A solicitude to avoid continual transitions, and to give free scope to the natural association of connected facts, has dictated this arrangement, to which I confess myself partial. And I have found its inconveniences so trying in composition, that I cannot believe they will occasion much trouble to the reader.
