Studies in Accounting and Finance

Arun Kumar Basu 2013-08

Introduction to Embedded Systems,

Second Edition Edward Ashford Lee

2016-12-30 An introduction to the engineering principles of embedded systems, with a focus on modeling, design, and analysis of cyber-physical systems. The most visible use of computers and software is processing information for human consumption. The vast majority of computers in use, however, are much less visible. They run the engine, brakes, seatbelts, airbag, and audio system in your car. They digitally encode your voice and construct a radio signal to send it from your cell phone to a base station. They command robots on a factory floor, power generation in a power plant, processes in a chemical plant, and traffic lights in a city. These less visible computers are called embedded systems, and the software they run is called embedded software. The principal challenges in designing and analyzing embedded systems stem from their interaction with physical processes. This book takes a cyber-physical approach to embedded systems, introducing the engineering concepts underlying embedded systems as a technology and as a subject of study. The focus is on modeling, design, and analysis of cyber-

physical systems, which integrate computation, networking, and physical processes. The second edition offers two new chapters, several new exercises, and other improvements. The book can be used as a textbook at the advanced undergraduate or introductory graduate level and as a professional reference for practicing engineers and computer scientists. Readers should have some familiarity with machine structures, computer programming, basic discrete mathematics and algorithms, and signals and systems.

Mercantile Law Arun Kumar 2001 The Book Makes An Attempt, To Present The Vast And Complicated Subject Of Mercantile Law In A Manner, Easily Comprehensible To The Students, Teachers, Laymen, Businessman And All Others Interested In The Study Of Main Business Laws. The Book Covers Provisions Of Contract Act, Sale Of Goods Act, Partnership Act, Negotiable Instruments Act, Arbitration Act And Laws Relating To Insurance, Carriage Of Goods And Insolvency. Most Of The Books Written On This Subject, Are Mainly Compilation Of Various Acts Passed By The Indian Government, Containing The Provisions And Their Explanations As It Is. But This Book Being A Textbook Mainly Meant For Students, Has Been Written In Self-Explaining Manner. Section Numbers Have Been Written,

All Along So That, Reference Can Be Made To The Relevant Bare Acts, As And When Considered Necessary, For Details. More Over Both Indian And English Cases Have Been Referred To, And Have Been Mentioned, Along With Their Facts, With A View To Elucidate The Subject. Practical Problems And Questions For Exercise Are An Integral Part Of This Book, As This Will Help Students Gain Confidence And Control Over The Subject. The Presentation Of The Book Is Very Systematic And Organized, Each Act Mentioned In This Book Has Central Headings, Side Headings And Running Heading Numbers. This Analytical Way Of Presentation Of The Latest Matter Drawn From Authentic Sources Shall Make This Book An Invaluable Collection To One'S Book Shelf.

Poverty and Famines Amartya Sen 1983-01-20 This book focuses on the causes of starvation in general and famines in particular. The traditional analysis of famines is shown to be fundamentally defective, and the author develops an alternative analysis.

Advanced Machine Learning Algorithms for Complex Financial Applications Irfan, Mohammad 2023-01-09 The advancements in artificial intelligence and machine learning have significantly affected the way financial services are offered and adopted today. Important financial decisions such as investment decision making, macroeconomic analysis, and credit evaluation are becoming more complex within the field of finance. Artificial intelligence and machine learning, with their spectacular success accompanied by unprecedented accuracies, have become increasingly important in the finance world. Advanced Machine Learning Algorithms for Complex Financial Applications provides innovative research on the roles of artificial intelligence and machine learning algorithms in

financial sectors with special reference to complex financial applications such as financial risk management in big data environments. In addition, the book addresses broad challenges in both theoretical and application aspects of artificial intelligence in the field of finance. Covering essential topics such as secure transactions, financial monitoring, and data modeling, this reference work is crucial for financial specialists, researchers, academicians, scholars, practitioners, instructors, and students.

The Black Economy in India Arun Kumar 2017 In this book, the author critically examines the standard explanations for the causes and consequences of black income generation. His analysis lays bare the pernicious effects of black income on the macroeconomy and the resultant inefficiency, waste in the economy and society.

Pharmaceutical Industry and Public Policy in Post-reform India Reji K. Joseph 2015-07-24 This book examines the impact of economic reforms in India on the pharmaceutical industry and access to medicines. It traces the changing production and trade

pattern of the industry, research and development (R&D) preferences and strategies of Indian pharmaceutical firms, patent system alongside pricing policy measures and their shortcomings. It also analyses the public health financing system in India driven largely by out-of-pocket expenditure – about 60 per cent – and characterised by very high share of medicines in total health expenditure. A masterful insight into a topical area, the work will be indispensable to those working on pharmaceutical industry and public policy. It will be of interest to researchers, scholars, students, and policy-makers of economics, industrial policy, public policy, intellectual property rights and health financing.

Urban Water Crisis and Management

Arun Lal Srivastav 2022-07-20 Urban Water Crisis and Management: Strategies for Sustainable Development, Sixth Edition presents solutions for the current challenges of urban water and management strategies. Through contributed chapters, a framework is laid out for a reduction of the use of groundwater (heavily overused as a solution) and the alternative options for the supply of water to cities, or for urban water. Sections discuss urban water, its problems and management approaches, address the root causes of the water crisis in urban areas, and cover the scientific and technical knowledge necessary to manage water resources. Significant gaps between developed and developing nations in the procedure of water management are also addressed, along with practical information regarding recycling and the reuse of wastewater which is useful as baseline data for the future. Presents the quantitative study of water supply in urban areas, identifies water scarcity in megacities, and provides management

approaches for sustainable development Identifies technology and the instruments required for the management and safe supply of water Includes case studies where these technologies have been successfully used

Bowker's Law Books and Serials in Print 1986

Law and Social Policy in the Global South Ulrike Davy 2022-12-13 The book is an in-depth study of the origins and the trajectories of the law governing social policies in Brazil, China, India, and South Africa, four middle-income countries in the global South with a history in social policy making that starts in the 1920s. The policies of these countries affect almost half of the world's population. The book takes the legal framework of the policies as a starting point, but the main interest lies behind the letter of the law: What were the objectives and goals of social policy over the course of the last 100 years? What were the ideas, ideologies, and values pursued by relevant actors? The book comprises four country studies and a comparative study. The country studies concentrate on the political and social context of social policy making in Brazil, China, India, and South Africa as well as on the ideas, ideologies, and values underpinning the constitution, statutory laws, and case law that frame and shape social policy at the national level. The country studies are complemented by a comparative study exploring and describing the commonalities and differences in the ideational approaches to social policies across the four countries, nationally and – in the formative decades – internationally. The comparative study also identifies the characteristics that make Brazilian, Chinese, Indian, and South African social policies distinct from

European social policies. With its emphasis on law and drawing on legal scholarship, the book adds a new dimension to the existing accounts on welfare state building, which, so far, are dominated by European narratives and by scholars with a background in sociology, political science, and development studies. This book is relevant to specialists and peers and will be invaluable to those individuals interested in the fields of comparative and international social security law, human rights law, comparative constitutional law, constitutional history, law and development studies, comparative social policies, global social policies, social work, and welfare state theory.

Company Law Madhu Tyagi 2003 This Is An Ideal Textbook For The Students Of B.Com. (Hons.), M.Com., Mba, Company Secretary, C.A. And Ll.B. Students. The Book Cover All The Topics That The Student Would Require For The Purpose Of Examination Viz. History Of Company Law, Company Law Administration, Types Of Companies, Promoters, Formation Of A Company, Memorandum Of Association, Articles Of Association And Prospectus, Share Capital, Share Buy Back, Allotment Forfeiture, Transfer And Transmission, Management, Meetings, Borrowing Powers, Accounts And Audit, Majority Rule And Prevention Of Oppression And Mismanagement, Investigation, Winding Up, Company Taxation. A Fine Attempt Has Been Made In Bringing The Book Up-To-Date. The Entire Subject Has Been Presented In A Very Lucid And Easily Understandable Manner. The Book Is Well Researched And Includes References To The Important Indian Cases. Questions Drawn From Different Examination Papers Have Been Given At The End Of Each Chapter For The Guidance Of The Students.
Contractual Employment in Indian

Kumar Sen 1963

The Life and Times of Gautam Buddha
Arun K. Tiwari 2016-01-01 What is the
secret of Buddha's hold on the mind
and imagination of vast numbers of
Asiatic humanity over two
millenniums? What should one think
when on the one hand Buddhism tells
us that life is suffering and on the
other we are told to enjoy life's
every moment? *The Life and Times of
Gautam Buddha* seeks to answer these
questions. It brings together the
leading ideas and tenets of Buddhism;
interpreting them in the light of the
fundamental principles of human life
as well as of the latest research in
the science of human mind. The book
takes reader through the life of
Siddhartha Gautam in a manner of a
mortal hero and establishes basis for
his eventual enlightenment and
observations. It describes his
protected royal youth; search for a
way to end suffering and his
enlightenment. The book also takes up
the core teachings one by one—the
Four Noble Truths; the Noble
Eightfold Path and the Six-sense
media. The book brings together
teachings of the Buddha ranging from
basic ethical observances recommended
to the busy man or woman of the
modern world.

Industrial Relations and Labour Laws

Commercial Law and Industrial Law
Arun Kumar Sen 1978

Challenging The Rules(s) of Law
Kalpana Kannabiran 2008-10-01 This
rare comprehensive critique of
criminology in India brings together
widely respected activists,
advocates, bureaucrats, scholars and
practitioners who share their

concerns about the Indian criminal
justice system through an
interdisciplinary lens and discuss
the need to entrench human rights in
Indian polity. It is a significant
step towards mapping the ways in
which interdisciplinary research and
human rights activism might inform
legal praxis more effectively and
holistically. *Challenging the Rule(s)
of Law: Colonialism, Criminology and
Human Rights in India* contests
unproblematic assumptions of the rule
of law and opens out avenues for a
renewed and radical study of criminal
law in the country. The collection
looks at the problem of criminal law
from the early colonial period to the
present, examining the problem of
overt violence by state actors and
their compliance with dominant
private actors. It calls into
question the denial by the state of
the wherewithal for bare life, which
compounds people's vulnerability to a
repressive rule of law. This work is
a must read for students, researchers
and faculty of Law, Criminal Law,
Criminology, Legal History, Human
Rights, Sociology of Law and Colonial
History. It will also be invaluable
for law historians, legal scholars
and policy makers, especially the
judiciary.

International Labour Law Reports Zvi
H. Bar-Niv 1994-12-01 The
"International Labour Law Reports" is
a series of annual publications of
labour law judgements by the highest
courts in a number of jurisdictions.
"ILLR" is intended primarily for the
use of judges, labour law
practitioners, industrial relations
specialists and students who need or

desire ready access to authoritative information of a comparative nature on problems arising in the field of labour law and industrial relations. Each judgement reprinted in "ILLR" is accompanied by Headnotes and in practically all cases by an Annotation which sets forth, among other things, the legal issues involved, the basic facts of the case (if not included in the judgement itself), the relevant statutory provisions and judicial precedents, the labour law and industrial relations context in which the case arose and the significance of the judgement in the development of the law. The "ILLR" provide the reader with factual information that is not coloured by the personal views of the annotators. As a rule, judgements are printed "in extenso"; editorial discretion has been relied upon to delete or to summarize portions of judgements that are purely technical or only of marginal interest. "Volume 13" covers the period 1 October 1992 to 30 September 1993.

Stop Predicting - Revisit Life Vinay Sharma 2022-05-18 A comprehensive account of how India fought the war against the Covid-19 pandemic, Stop Predicting, Revisit Life offers a 360-degree account of the unprecedented health crisis brought on by the pandemic, from the reverse migration of millions of migrant workers to the debilitating impact of a lockdown that led to the biggest annual contraction of the Indian economy since 1952. It is based on deep analysis of official data and documents released by the government and international institutions, the debates in Indian Parliament, official reports tabled therein and information collected from the ground during the pandemic. While offering new policy and legislative measures to combat a COVID-19-like pandemic in the future, Stop Predicting, Revisit

Life explores in detail issues of how we perceive life, what it takes to be resilient and how we can work together as society.

Indian Labour Journal 2006

Women, Business and the Law 2021

World Bank 2021-04-05 Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

The SAGE Handbook of Human

Trafficking and Modern Day Slavery

Jennifer Bryson Clark 2018-12-10

Millions of people around the world are forced to work without pay and under threat of violence. These individuals can be found working in brothels, factories, mines, farm fields, restaurants, construction sites and private homes: many have been tricked by human traffickers and lured by false promises of good jobs or education, some are forced to work at gunpoint, while others are trapped

by phony debts from unscrupulous moneylenders. The SAGE Handbook of Human Trafficking and Modern-Day Slavery provides a comprehensive, interdisciplinary and global look at the diverse issues surrounding human trafficking and slavery in the post-1945 environment. Covering everything from history, literature and politics to economics, international law and geography, this Handbook is essential reading for academics and researchers, as well as for policy-makers and non-governmental organisations

Photography in India Aileen Blaney 2020-09-23 Photography's prominence in the representation and experience of India in contemporary and historical times has not guaranteed it a position of sustained attention in research and scholarship. For a technology as all pervasive as photography, and a country as colossal as India, this scenario is somewhat of an anomaly. Photography in India explores elements of the past, present and future of photography in the context of India through speculation and reflection on photography as an artistic, documentary and everyday practice. The perspectives of writers, theorists, curators and artists are selectively brought to bear upon known as well as previously unseen photographic archives, together with changes in photographic practice that have been synchronous with contemporary India's rapid urban and rural transformation and the technological shift from chemistry and light to programming and algorithms. Essential reading for anyone interested in Indian photography, this book binds insights into a history of photography with its contemporary development, consolidating wide-ranging thinking on the topic and setting the agenda for future research.

Good Economics for Hard Times Abhijit V. Banerjee 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there-- what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Labour Law Journal 2007-10 Includes chiefly reports of the Supreme Court and High Courts of India.
Textbook For Environmental Laws - Part 2 Dr. Shaikh Ahmad Shaikh Ismail The book extensively covers the law relating to this field along with necessary international conventions and Jurisprudence evolved by the

Indian Judiciary and is a useful reference for practicing lawyers, academicians, law students, social activists and researchers. The Environmental Law in India is a comprehensive and exhaustive publication on the field of Environmental Law. The Book exhaustively deals with the constitutional mandate for environmental protection, judicial review of decisions.

The Indian Factories Journal 2004

The Data-Driven Blockchain Ecosystem

Alex Khang 2022-12-29 This book focuses on futuristic approaches and designs for real-time systems and applications, as well as the fundamental concepts of including advanced techniques and tools in models of data-driven blockchain ecosystems. The Data-Driven

Blockchain Ecosystem: Fundamentals, Applications, and Emerging Technologies discusses how to implement and manage processes for releasing and delivering blockchain applications. It presents the core of blockchain technology, IoT-based and AI-based blockchain systems, and various manufacturing areas related to Industry 4.0. The book illustrates how to apply design principles to develop and manage blockchain networks, and also covers the role that cloud computing plays in blockchain applications. All major technologies involved in blockchain-embedded applications are included in this book, which makes it useful to engineering students, researchers, academicians, and professionals interested in the core of blockchain technology.

Commercial Law Arun Kumar Sen 1999
