Poems Rabindranath Tagore 2007 Tagore S English Writings Originals And Translations Have Not Received The Attention That They Deserve. The Purpose Of This Edition Is To Make The English Writings Of Tagore Available To The Widest Possible Range Of Readers Interested In The Writings Of Tagore All Over The World, With Just The Bare, Minimum Information Necessary For Appreciating The Writings, And Leave The Critical Assessment To The Readers Themselves. There May Be Two Possible Reasons For The Neglect Of Tagore S English Writings. Firstly, Tagore S Prolific Output, Shakespearean Felicity And Protean Plasticity As A Bengali Poet, Who, Though Well-Versed In English, Chose To Write In The Medium Of His Mother Tongue For Nearly The First Fifty Years Of His Life, And There Is Hardly Any Literary Form That He Did Not Touch Upon And Turn Into Gold. His Creative Genius Found Expression In Poems, Plays, Novels, Essays, Short Stories, Satirical Pieces, Textbooks For Children, And Songs Of All Kinds. The Only Literary Form That He Did Not Try Is Epic. But In His Long, Eventful And Creative Eighty Years Of Life He Virtually Lived An Epic. It Is Largely Due To His Mighty Stature As A Bengali Poet That Nobody Really Bothered About His English Writings And His Own Translations Of His Own Writings. Secondly, It Is Owing To The Supposedly Poor Quality Of His Translations Subsequent To The Translation Of Gitanjali. It Was Only After Tagore Received The Nobel Prize For Literature In 1913 That There Was A Growing Demand For His Writings In The West, And As Tagore Was Not Apparently Satisfied By The Translations That Others Mainly His Admirers Made, He Began To Translate His Writings Himself. But The Tremendous Haste With Which He Had To Translate, Possibly Affected The Quality Of Translations. Come What May, The Point Is Whether Tagore S English Translations Are Good Or Bad, Whether The Translation Furthered His Reputation Or Damaged It, Is Immaterial. The Fact Of The Matter Is That They Are His, And His Own Translation Of Whatever Quality It May Be Is More Valuable To A Tagore Lover Than The Best Translation Made By Somebody Else, As Van Gogh S One Original Single Scratch Is More Valuable Than The Best Possible Copy By Some Other Artist. The Value Of Tagore S English Writings Lies Here : They Constitute An Important Part Of His Total Oeuvre, Add A New Magnificent Dimension To It And Offer Us A Glimpse Into The Mystique Of The Creative Anxiety That Could Have Haunted Even The Greatest Writer Of The Twentieth Century, About His Possible Reception In An Alien Culture.

Early Feminists of Colonial India Bharati Ray 2012-09-13 Set against the backdrop of surging nationalism and reform in twentieth-century Bengal, this book recounts the lives of two outstanding women-Sarala Devi Chaudhurani and Rokeya Sakhawat Hossain-and compares their work, their approaches and their ideologies.

Count and Mass Across Languages Diane Massam 2012-09-13 This volume explores the expression of the concepts count and mass in human language and probes the complex relation between seemingly incontrovertible aspects of meaning and their varied grammatical realizations across languages. In English, count nouns are those that can be counted and pluralized (two cats), whereas mass nouns cannot be, at least not without a change in meaning (#two rices). The chapters in this volume explore the question of the cognitive and linguistic universality and variability of the concepts count and mass from philosophical, semantic, and morpho-syntactic points of view, touching also on issues in acquisition and processing. The volume also significantly contributes to our cross-linguistic knowledge, as it includes chapters with a focus on Blackfoot, Cantonese, Dagaare, English, Halkomelem,

Lithuanian, Malagasy, Mandarin, Ojibwe, and Persian, as well as discussion of several other languages including Armenian, Hungarian, and Korean. The overall consensus of this volume is that while the general concepts of count and mass are available to all humans, forms of grammaticalization involving number, classifiers, and determiners play a key role in their linguistic treatment, and indeed in whether these concepts are grammatically expressed at all. This variation may be reflect the fact that count/mass is just one possible realization of a deeper and broader concept, itself related to the categories of nominal and verbal aspect.

Poems Joy Goswami 2015-08-05 A towering figure in contemporary Bengali literature, Joy Goswami continues to mesmerize generations through his poetry. In a very readable translation, Sampurna Chattarji captures every nuance and subtle detail of the original, with the poems giving a unique twist to the universal themes of love, suffering, sacrifice and death.

Selected Poems Sankha Ghosha 1993

The Mystics, Ascetics, and Saints of India John Campbell Oman 1903

Forest of Tigers Annu Jalais 2014-06-03 Acclaimed for its unique ecosystem and Royal Bengal tigers, the mangrove islands that comprise the Sundarbans area of the Bengal delta are the setting for this pioneering anthropological work. The key question that the author explores is: what do tigers mean for the islanders of the Sundarbans? The diverse origins and current occupations of the local population produce different answers to this question – but for all, ‘the tiger question’ is a significant social marker. Far more than through caste, tribe or religion, the Sundarbans islanders articulate their social locations and interactions by reference to the non-human world – the forest and its terrifying protagonist, the man-eating tiger. The book combines rich ethnography on a little-known region with contemporary theoretical insights to provide a new frame of reference to understand social relations in the Indian subcontinent. It will be of interest to scholars and students of anthropology, sociology, development studies, religion and cultural studies, as well as those working on environment, conservation, the state and issues relating to discrimination and marginality.

Pāgalī, tomāra sañge Jaya Gosvāmī 2001

The Night Rodrigo Blanco Calderon 2022-02-08 For readers who love Bolaño, a new voice of Latin American fiction, winner of the Mario Vargas Llosa Prize. Recurring blackouts envelop Caracas in an inescapable darkness that makes nightmares come true. Real and fictional characters, most of them are writers, exchange the role of narrator in this polyphonic novel. They recount contradictory versions of the plot, a series of femicides that began with the energy crisis. The central narrator is a psychiatrist who manipulates the accounts of his friend, an author writing a book titled The Night; and his patient, an advertising executive obsessed with understanding the world through word puzzles. The author shifts between crime fiction and metafiction, cautioning readers that the events retold are both true and manipulated. This is a political novel about the financial crisis and socio-political division in Venezuela from 2008 to 2010. The title of the book, originally also in English, is a gesture towards Chavism's failure to resist US influence. Yet, the form is unapologetically literary, a reflection on the depiction and distortion of reality through storytelling. Blanco Calderón said about the potential of language, "I am convinced that all the evil in the world begins in them: in words" (Caracas, 2010).

Quantum Creativity Amit Goswami 2014-03-03 In this mind-expanding work, physicist Amit Goswami, Ph.D., explores the world of human creativity—the ultimate source of joy and fulfillment—through the lens of quantum physics, and offers up a unique way to nurture and enhance your own creativity. According to quantum physics, reality occurs on two levels: possibility and actuality. Goswami uses this same duality to explore what he calls "quantum thinking," which focuses on two levels of thinking—the conscious mind of actuality and the unconscious mind of possibility. He then poses questions that probe the wellspring of creation that exists in each of us. What is creativity? Can anyone be creative? What kinds of creativity are there? And through this inquiry, he lays out a guidebook for understanding the power of the mind to access creativity in a whole new way. Combining the art of creativity with the objectivity of science, Quantum Creativity uses empirical data to support this new method of thinking and outlines how to harness our innate abilities in order to live more creatively. In short, Goswami teaches you how to think quantum to be creative.

Selected Poems Joy Goswami 2018-03-05 This collection brings together, for the first time, poetry from three strikingly different phases of Joy Goswami's formidable literary career -- Surjo-Pora Chhai (Ashes, Burnt by the Sun, 1999), Moutat Moheshwar (Shiva, My High, 2005) and Du Dondo Phowara Matro (Merely a Spurt of Time, 2011). Selected and translated by Sampurna Chatterji, this book, which includes an in-depth interview with the poet, introduces the English reader to the world of a poet whose language is powerful, inventive and often enigmatic. While some poems invoke a landscape that is 'mysterious, anguished and visionary', in others Joy Goswami achieves mischief and melancholy with the deftest of strokes. **The Poetry of Translation** Matthew Reynolds 2011-09-29 Poetry is supposed to be untranslatable. But many poems in English are also translations: Pope's Iliad, Pound's Cathay, and Dryden's Aeneis are only the most obvious examples. The Poetry of Translation explodes this paradox, launching a new theoretical approach to translation, and developing it through readings of English poem-translations, both major and neglected, from Chaucer and Petrarch to Homer and Logue. The word 'translation' includes within itself a picture: of something being carried across. This image gives a misleading idea of goes on in any translation; and poets have been quick to dislodge it with other metaphors. Poetry translation can be a process of opening; of pursuing desire, or succumbing to passion; of taking a view, or zooming in; of dying, metamorphosing, or bringing to life. These are the dominant metaphors that have jostled the idea of 'carrying across' in the history of poetry translation into English; and they form the spine of Reynolds's discussion. Where do these metaphors originate? Wide-ranging literary historical trends play their part; but a more important factor is what goes on in the poem that is being translated. Dryden thinks of himself as 'opening' Virgil's Aeneid because he thinks Virgil's Aeneid opens fate into world history; Pound tries to bring Propertius to life because death and rebirth are central to Propertius's poems. In this way, translation can continue the creativity of its originals. The Poetry of Translation puts the translation of poetry back at the heart of English literature, allowing the many great poem-translations to be read anew.

The Limits of Consent Oonagh Corrigan 2009-01-29 Informed consent developed as an international principle to protect the welfare of patients and volunteers taking part in medical research. This book examines the inadequacies of consent for contemporary biomedical research, including perspectives from medicine, law, philosophy and sociology.

Rewire Your Brain John B. Arden 2010-03-22 How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be "hardwired" to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.

Emotion and Peace of Mind Richard Sorabji 2000 Richard Sorabji presents a study of ancient Greek views of the emotions and their influence on subsequent theories and attitudes, pagan and Christian. It examines what emotion is and how one copes with emotions and establish peace of mind.

My Non-violence Mahatma Gandhi 1960

Indic Visions Varadaraja V. Raman 2011-08-26 Indic Visions is the tenth book by the acclaimed scientist and humanist Varadaraja V. Raman. In it he provides a detailed introduction to Indic religions and contemporary interpretations thereof consistent with modern science. In a world of rapid changes, dangerous fundamentalism, parochial chauvinisms, culture wars, and clashing civilizations, this book provides both a soothing balm and potent antidote. By delving more deeply into Indic civilization, Raman shows us the way to transform our emerging global civilization in wholesome and healthy ways consistent with science and the great challenges of the 21st century.

Panpsychism Godehard Brüntrup 2017 Recent debates in philosophy of mind seemingly have resulted in an impasse. Reductive physicalism cannot account for the phenomenal mind, and nonreductive physicalism cannot safeguard a causal role for the mental as mental. Dualism was formerly considered to be the only viable alternative, but in addition to exacerbating the problem of mental causation, it is hard to square with a naturalist evolutionary framework. By 1979, Thomas Nagel argued that if reductionism and dualism fail, and a non-reductionist form of strong emergence cannot be made intelligible, then panpsychism—the thesis that mental being is a fundamental and ubiquitous feature of the universe—might be a viable alternative. But it was not until David Chalmers' *The Conscious Mind* in 1996 that debates on panpsychism entered the philosophical mainstream. Since then the field has been growing rapidly, and some leading philosophers of mind as well as scientists have argued in favor of panpsychism. This book features contemporary arguments for panpsychism as a genuine alternative in analytic philosophy of mind in the 21st century. Different varieties of panpsychism are represented and systematically related to each other in the volume's 16 essays, which feature not only proponents of panpsychism but also prominent critics from both the physicalist and non-physicalist camps.

Combating Terrorism Arnab Goswami 2021 NA

Chaitanya's Life And Teachings Krsnadasa Kaviraja 2021-01-11 This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So

that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Poverty and Famines Amartya Sen 1983-01-20 This book focuses on the causes of starvation in general and famines in particular. The traditional analysis of famines is shown to be fundamentally defective, and the author develops an alternative analysis.

Brahmarakshas (pb) Joy Goswami

Good Economics for Hard Times Abhijit V. Banerjee 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

3 Rays Satyajit Ray 2021-05-17 '3 Rays is like exploring the Mother Earth, and finding the rare treasures'-Gulzar, poet, lyricist and film-maker 'Satyajit Ray's work is like a beautiful scene from nature, and that's the reason we get lost in his beautiful art' -Shoojit Sircar, film-maker 'Ray's magic, the simple poetry of his images and their emotional impact, will always stay with me'-Martin Scorsese, film director, producer, screenwriter and actor 'Satyajit Ray's artifice and honesty set him apart from other film directors'-The Guardian 'Satyajit Ray's world of restless watchfulness and nuance'-The New York Times 'The quiet but deep observation ... have impressed me greatly'-Akira Kurosawa, film-maker The most anticipated book on the centenary birth anniversary of Satyajit Ray An amazingly brilliant collection of Satyajit Ray's previously unpublished autobiographical writings, illustrations, fictions and non-fictions A collector's item, 3 Rays is a source of delight for every reader Satyajit Ray (1921-1992), through his life, philosophy and works offered a unique aesthetic sensibility, which took Indian cinema, art and literature to a new height. An ace designer, music composer, illustrator and a gifted writer, Ray gave us the awe-inspiring sleuth Feluda, and the maverick scientist, Professor Shonku-two iconic characters loved and revered by millions of readers. On the occasion of his centenary birth anniversary, 3 Rays: Stories from Satyajit Ray, the first book in The Penguin Ray Library series, opens a window to the brilliance of this Renaissance man. With more than forty stories and poems along with many unpublished works, autobiographical writings and illustrations by Ray, this volume offers a unique glimpse into Ray's creative genius.

Keywords for Children's Literature Philip Nel 2011-06-13 49 original essays on the essential terms and concepts in children's literature

Raj Kahini Abanindranath Tagore 2014-02-03 An unforgettable historical novella that leads you to the flowing sand dunes of Rajasthan, the clash of swords, to the courtyard of kings and queens. The book captures the spirit of a heroic past that never fails to move readers even today.

Shanjhbatī's Dreams Jaya Gosvāmī 2004 English Translation Of Joy Goswami'S Sahitya Akademi Award Winning Novel. Also Into An Award Winning Film By Anjan Das.

Hungry Bengal Janam Mukherjee 2015 Examines the interconnected events including World War II, India's struggle for independence, and a period of acute scarcity that lead to mass starvation in colonial Bengal.

Defining Deutschtum David Lee Brodbeck 2014 Brodbeck offers a nuanced look at the intersection of music, cultural identity, and political ideology in Liberal Vienna by examining music-critical writing about Carl Goldmark, Antonín Dvořák, and Bedřich Smetana, Austrian citizens but not ethnic Germans. The critical reception of the three reveals a continuum of exclusivity, from a conception of Germanness rooted in social class and cultural elitism to one based in blood. The book thus offers insight into how educated German Austrians conceived of Germanness in music and understood their relationship to the 'non-Germans' in their midst.

Reminiscences of Swami Vivekananda His Eastern and Western Admirers Swami Vivekananda's towering personality influenced innumerable persons in India and abroad in various ways. The impress which his life and character made on those persons who were about him and the recounting of those memories by them, reveal the multiple facets of Swami's magnanimous personality. This book published by Advaita Ashrama, Publication house of Ramakrishna Math, Belur Math, contains some of those reminiscences which would be not only interesting, but also a revelation to all the admirers of the great Swami. Twenty-two new reminiscences have been added in this edition – Swamis Shivananda, Turiyananda, Saradananda, Akhandananda, Vijnanananda, Achalananda, Atulananda, Virajananda, and Sadananda, as also Brajendranath Seal, C. Ramanujachari, Kumudbandhu Sen, Lillian Montgomery, Mohanlal Shah, Mary Tapan Wright, Sacchindranath Bose, Manmathanath Chowdhury, Harbilas Sardar, G.G. Narasimhachari, Ella Wheeler Wilcox, Shailendranath Bandopadhyay and Alice Hansbrough.

The Slaying of Meghanada Michael Madhusudan Dutt 2004 Datte's deft intermingling of western and eastern literary traditions brought about a sea change in South Asian literature. His masterpiece is now accessible to readers of English in this translation, complete with introduction, notes and a glossary.

Sanjhbati Rukthara (pb) Joy Goswami

The Rise of Liberal Religion Matthew Hedstrom 2013 Winner of the Frank S. and Elizabeth D. Brewer Best First Book Prize of the American Society of Church History Named a Society for U. S. Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century, Matthew S. Hedstrom contends, is a story of cultural ascendancy. This may come as a surprise—most scholarship in American religious history, after all, equates the numerical decline of the Protestant mainline with the failure of religious liberalism. Yet a look beyond the pews, into the wider culture, reveals a more complex and fascinating story, one Hedstrom tells in *The Rise of Liberal Religion*. Hedstrom attends especially to the critically important yet little-studied arena of religious book culture—particularly the religious middlebrow of mid-century—as the site where religious liberalism was most effectively popularized. By looking at book weeks, book clubs, public libraries, new publishing enterprises, key authors and bestsellers, wartime reading programs, and fan mail, among other sources, Hedstrom is able to provide a rich, on-the-ground account of the men, women, and organizations that drove religious liberalism's cultural rise in the 1920s, 1930s, and 1940s. Critically, by the post-WWII period the religious middlebrow had expanded beyond its Protestant roots, using mystical and psychological spirituality as a platform for interreligious exchange. This compelling history of religion and book culture not only shows how reading and

book buying were critical twentieth-century religious practices, but also provides a model for thinking about the relationship of religion to consumer culture more broadly. In this way, *The Rise of Liberal Religion* offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times.

Krsna A. C. Bhaktivedanta Swami Prabhupāda 1970-01-01

Space Gulliver Sampurna Chattarji 2020-01-25 Boldly playful, ingenious, associative and mercurial, Sampurna Chattarji's new poems careen through varied terrain, geographic and linguistic, in a dizzy journey of defamiliarization, as the alien protagonist, Space Gulliver, extends and challenges habitual ideas of what constitutes the mundane. In the process, she proceeds to recover for herself the sense of 'first-time-ness', the art of being 'vulnerable to every body that rests against mine, vulnerable to the word "eagle", the idea of the scar that the knife has left around the heart'. She also recovers the art of living on the edge - 'a good place to sit when you wish/ to regard the world you had insanely loved/ and now feel only a puzzled affection for'. Here is a book that blends intellectual enquiry, a taste for whimsy and a love of language into challenging and audacious poetry. -- Arundhati Subramaniam

After Death Comes Water Joy Goswami 2021-02-20 'Allow yourself to be outraged and furious, allow yourself to be swept into Joy Goswami's intimate world of passion. His poems are breathtaking. They will momentarily remind you of the time you were resting your head on the chest of a lover, and by the turn of a page remind you of the bloodbath which exists in the world outside. Sampurna Chattarji's translations breathe life and fire into his words.' -- Meena Kandasamy. An essential collection of prose poetry from Joy Goswami, the most important poet writing in Bengali since Jibanananda Das. Selected and translated by Sampurna Chattarji, this book showcases the extraordinary range of the writer's genius and inventiveness. *Chokh* Sirshendu Mukherjee

Mental Capital and Wellbeing Cary L. Cooper 2009-08-18 This major new reference presents The Foresight Mental Capital and Wellbeing Project (a UK Government project in the Government Office for Science). It offers a comprehensive exploration of how mental capital and wellbeing operate over the lifespan; how experiences in the family, in school, at work and following retirement augment or reduce mental capital and wellbeing, and the impact that this has for the individual and for the welfare and economic progress of the nation. *Mental Capital and Wellbeing* comprises a series of scientific reviews written by leading international scientists and social scientists in the field. The reviews undertake systematic analyses of the

evidence base surrounding five key themes, on which they propose future policies will have to be based. An internationally renowned team of Editors introduce each theme and draw together conclusions in terms of both policy and practice. Section 1 (Mental Capital and Wellbeing Through Life) – Mental capital refers to the totality of an individual's cognitive and emotional resources, including their cognitive capability, flexibility and efficiency of learning, emotional intelligence and resilience in the face of stress. The extent of an individual's resources reflects his or her basic endowment (e.g. genes and early biological programming), motivation and experiences (e.g. education) which take place throughout the life course. This section presents the very latest on the science of mental capital throughout life. Section 2 (Learning Through Life) provides a coherent overview of a fast-moving and complex field of policy and practice. Educational attainment has a considerable impact on physical and mental wellbeing, both directly and indirectly, by enabling people better to achieve their goals. The ability to continue learning throughout the lifespan is critical to a successful and rewarding life in contemporary societies. Section 3 (Mental Health and Ill-Health) draws together the most recent evidence about positive mental health as well as a range of mental disorders to consider their importance to the population and economy in terms of prevalence and disability and the wider burden on society. Section 4 (Wellbeing and Work) – It is estimated that 13 million working days are lost through stress each year, costing the economy over £3.7 billion per annum. This theme explores those drivers that influence the nature and structure of work and the impact this has on employee wellbeing. Section 5 (Learning Difficulties) – This theme provides a cutting-edge picture of how recent insights from genetics, cognitive and neuroscience improve our understanding of learning difficulties such as dyslexia, dyscalculia and attention-deficit-hyperactivity disorder. Reviews focus on how current research can contribute to early diagnosis and improved intervention.

Indian English and 'Vernacular' India Paranjape, Makarand R. *Indian English and 'Vernacular' India* examines the uneasy relationship of English with Indian languages by tracing its lineage in the country and reassessing its character in the age of globalization. The book promotes a symbiotic multilingualism that would enable the consolidated presence of English and Indian languages in the world's largest democracy. This volume will be of interest to researchers and students of literature, language resource studies, Indian writing in English, media studies, culture studies and sociolinguistics.
