Mission-Oriented Sensor Networks and Systems: Art and Science 2019-09-18 Habib M. Ammari This book presents a broad range of deep-learning applications related to vision, natural language processing, gene expression, arbitrary object recognition, driverless cars, semantic image segmentation, deep visual residual abstraction, brain-computer interfaces, big data processing, hierarchical deep learning networks as game-playing artefacts using regret matching, and building GPU-accelerated deep learning frameworks. Deep learning, an advanced level of machine learning technique that combines class of learning algorithms with the use of many layers of nonlinear units, has gained considerable attention in recent times. Unlike other books on the market, this volume addresses the challenges of deep learning implementation, computation time, and the complexity of reasoning and modeling different type of data. As such, it is a valuable and comprehensive resource for engineers, researchers, graduate students and Ph.D. scholars.

The Law of Electronic Commerce 2009-08-25 Alan Davidson Written specifically for legal practitioners and students, this book examines the concerns, laws and regulations involved in Electronic Commerce. In just a few years, commerce via the World Wide Web and other online platforms has boomed, and a new field of legal theory and practice has emerged. Legislation has been enacted to keep pace with commercial realities, cyber-criminals and unforeseen social consequences, but the ever-evolving nature of new technologies has challenged the capacity of the courts to respond effectively. This book addresses the legal issues relating to the introduction and adoption of various forms of electronic commerce. From intellectual property, to issues of security and privacy, Alan Davidson looks at the practical changes for lawyers and commercial parties whilst providing a rationale for the underlying legal theory.

Law of Attraction - 30 Practical Exercises 2015-07-16 Louise Stapely Updated for 2015. Even though my Law of Attraction journey began 6 years ago, I only really started to consistently practice it at the beginning of 2013. There were always 2 areas in my life that I was never really happy about - money and career. I decided to put what I had learned over the last 6 years to the test. I compiled a selection of practical exercises for my own personal use and have regularly used a variety of them since January 2013. What has happened in my life in that short time is nothing short of a miracle. I am now financially free and have quit my full time job. My income continues to rise and I have never been happier. Consistently focusing on these practical exercises kept my attention on the end result and that is the real key to success. This book provides you with the practical know how to manifest whatever it is you choose in your life, whether that is financial freedom, better relationships, your dream home, better health, loving friendships, a successful business or a healthy, happy family. The power is in your hands. In this book, you now have the fuel to fire up that power.

Radar Instruction Manual 2005 United States. Maritime Administration Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

Fall of the Ancient Maya 2002-06-04 David Webster Ancient Maya civilization thrived in the tropics of Central America for more than a thousand years and produced some of the world's finest architecture and art. Then it mysteriously vanished, leaving a landscape of ruins smothered by forests. The Classic Maya collapse is one of the great puzzles of history, ranking alongside the Fall of Rome as an enigma that has intrigued scholars for generations.

Guy on the Sidewalk 2016-03-07 Bharath Krishna Bellamkonda 'Guy on the sidewalk' is the story of a young man who is constantly pulled back by some unknown force from doing what he really wants to do in life. Finally he breaks out of both his real and imaginary constraints and chooses to listen to his heart, which in turn impacts his choices both in his career and personal life. 'Sidewalk' is a metaphor that is used to mean something that's not main street or real world, from which this guy tends to keeps a safe distance without facing it head on, until he does one day. This story captures the drama in the life of the protagonist, Jay, through his six-year stay in the US, his relationships, conflicting emotions, and his motivations to return to India. The story is narrated in first person with even doses of wit, sarcasm and philosophy peppered from beginning to the end. This novel captures contemporary elements like the life

of NRIs, return to India, changing pattern of relationships among Indians, and individual responsibility towards parents and the country, beautifully woven into an engaging story. Magia Sexualis 2012-08-27 Paschal Beverly Randolph A step-by-step guide to the occult science of sex magic • Based on the practices of P. B. Randolph, occult rival of H. P. Blavatsky • Reveals how to perform sex magic rituals for specific real-world results, such as greater strength or enhancement of the senses • Explains how to create magical talismans, such as rings with specific planetary forces, how to enliven a painting, and how to charge an effigy Conceived by Paschal Beverly Randolph, Magia Sexualis has been heralded as the most influential book about sex magic ever written, surviving to the present day solely through Maria de Nagłowska's French translation. Published more than 50 years after Randolph's death, the authorship of this "translation" has been repeatedly called into question: While the greater part of the content can be traced to Randolph's known works, a very significant portion cannot-leading to the conclusion that this work was supplemented by Nagłowska's own sex magic work and extensive occult teachings. Magia Sexualis explains Randolph's meticulous science of sex magic, practiced by the Brotherhood of Eulis and the Hermetic Brotherhood of Light. Beginning with exercises to develop essential skills, the book explains in step-by-step detail how to perform sex magic rituals for specific results, such as greater strength or enhancement of the senses, how to charge and use a "volt"--an effigy of a specific person you want to influence or protect, how to enliven a painting in order to influence those around it, and how to create magical talismans with specific planetary forces, using what Randolph calls "fluid condensers." This work from two great occult minds shows that true power of the spirit is acquired in conjunction with the power of sex-affirming that "sex is the fundamental force in every being, the most powerful force in Nature, and the most characteristic evidence of God."

The Journey of a Thousand Miles

He was tired of his living. He was bored, unhappy, and unsatisfied. He had a employment he despised, a boss he despised, and a partner he didn’t adore. He had no enthusiasm, no purpose, no value. He believed like he was misusing his time, his possibility, his being. He wished to change, he desired to flee, he wanted to survive. He resolved to resign from his work, to split up with his girlfriend, to sell his belongings, and to purchase a one-way fare to the far end of the earth. He didn’t know where he was going, he didn’t know what he was performing, he didn’t know what he was seeking. He only realized that he had to depart, that he had to explore, that he had to find out. He started on a journey of a thousand kilometers, a trip of thrill, of difficulty, of education, of development, of transformation.
